Length		mm	50						

Hexagon socket, deep

63 1400 – Optimum grain orientation due to special forging process. Close tolerance width across flats. No rounding of bolt corners, nuts and bolt heads are protected. Hardened in an oil bath, stress-relieved and distortion-free for a precision fit. Rounded surface with **AS Drive** profile.

Material:

63 1400 – HPQ® high performance steel, non-flaking chrome-plated over nickel.
63 1415 – Chrome vanadium steel, chrome-plated.

Note:

63 1415 – HOLEX hex sockets, long also available in imperial sizes (No. 631417).

Hex-Plus

3/8″

Socket set with spark plug socket, 3/8 inch

Drives / accessories to **DIN 3122 / 3123; sockets** to **DIN 3124.** Internal / external square drives to **DIN 3120.**

All tools are held securely for easy access in a specially moulded hard-wearing **PUR foam inlay.** The Surface Drive profile works directly on the faces of the nuts and bolts; weaker corners are protected. Even intermediate sizes (e.g. inch size bolts) and worn bolt heads can be tightened or released using the Surface Drive profile. The Wobble-Fix extensions allow use at an angle and can be secured by clicking into place.

Material: Chrome vanadium steel, chrome-plated.

Application: For hexagon head screws / nuts with thread M5 – M14 and 1/4 – 1/2 inch (American inch sizes), for spark plugs 16 and 20.8 mm and for hexagon socket head screws with thread M5 – M12.

63 6220

QuickRelease 63 6250

3/8″

Hexagon socket, 3/8 inch, short

Forged from high quality steel, internally bevelled for easy fitting to bolt heads. Internal square to **DIN 3120.**

Hexagon socket

63 7200 – Optimum grain orientation due to special forging process. Close tolerance sockets with **AS drive** profile protect corners of bolt head. Hardened in an oil bath, stress-relieved and distortion-free for a precision fit. Smoothed finish.

63 7229 – Close tolerance jaw sizes with **HT drive** profile protect corners of nuts and bolt heads. **Thin walls** for access to restricted places.

Standard: **DIN 3124**

Material:

63 7200 – HPQ® high performance steel, non-flaking chrome-plated over nickel.

63 7229/7220 – Chrome vanadium steel, chrome-plated.

Note:

63 7229/7220 – GARANT and HOLEX hex sockets also available in imperial sizes (GARANT: No. 637232; HOLEX: No. 637222).

Hexagon Surface Drive socket

Surface Drive

The Surface Drive socket allows a tighter fit and higher effectiveness. The pressure works directly on the faces of the nuts and bolts; weaker corners are protected. Intermediate sizes e.g. in inches (A/F, BSF, BSW) and rounded heads can be tightened or loosened using the Surface Drive.

Material: Chrome vanadium steel, chrome-plated.

8-34 | 4-14 | Surface Drive | 8G | 20G

The Surface Drive profile works directly on the faces of the nuts and bolts; weaker corners are protected. Even intermediate sizes (e.g. inch size bolts) and worn bolt heads can be tightened or released using the Surface Drive profile. The Wobble-Fix extensions allow use at an angle and can be secured by clicking into place.
All tools are held securely for easy access in a specially moulded hard-wearing **PUR foam inlay**.

Material: Chrome vanadium steel, chrome-plated.

Application: For hexagon head screws / nuts with thread M5 – M22 and 1/4 – 7/8 inch (American inch size) and hexagon socket head screws with thread M5 – M18.

½″

Adaptor, 1/2 inch

Material selection and special forging process guarantee optimal functioning and long life.

Standard: External square drive to **DIN 3120-A 12.5** with sprung ball, internal square drive to **DIN 3120-C 12.5** with grooves.

Suitable for: Manual use.

Ratchet attachment, reversible

Reversible, for right-hand and left-hand threads.

Suitable for: For drive components No. 641200 – 641350 and 641800, but also as a ratchet for torque wrenches with rigid 1/2 inch square drive.

Material: Chrome alloy steel, non-flaking, chrome-plated over nickel.

½″

Hexagon socket, 1/2 inch, short

Forged from high quality steel, internally bevelled for easy fitting to bolt heads. Square socket drive with close tolerances for secure fit on the drive attachment. Internal square to **DIN 3120.**

Bi-hexagon socket

64 2100 – Optimum grain orientation due to special forging process. Close tolerance width across flats. No rounding of bolt corners, nuts and bolt heads are protected. Hardened in an oil bath, stress-relieved and distortion-free for a precision fit. Smoothed finish. **AS drive** profile.

64 2129 – **Close tolerance widths across flats** protects nuts and bolt heads. **Thin walls** for access to restricted places. Bi-hexagon (double hexagon) with **HT Drive** profile that protects the corners of nuts and bolt heads.

Standard: **DIN 3124**

Material:

64 2100 – HPQ® high performance steel, non-flaking chrome-plated over nickel.

64 2120/2129 – Chrome vanadium steel, chrome-plated.

Note:

64 2120/2129 – GARANT and HOLEX bi-hex sockets also available in imperial sizes (GARANT: No. 642132; HOLEX: No. 642122).

Hexagon Surface Drive socket

Surface Drive

The **Surface Drive** socket opening allows a tight fit and higher effectiveness. The pressure works directly on the faces of the nuts and bolts; weaker corners are protected. Intermediate sizes e.g. in inches (A/F, BSF, BSW) and rounded heads can be tightened or loosened using the Surface Drive.

Standard: **DIN 3124**

Material: Chrome vanadium steel, chrome-plated.

Hexagon bit socket, TiN coated, for socket head screws

TiN-coated blades for extremely high bonding strength and resistance to abrasion. With optimised corrosion protection.

Standard: **DIN 7422**

Material: Sleeve of chrome vanadium steel, non-flaking, chrome-plated. Blade of special steel with TiN coating.

Application: Ideally suited to sustained loads such as series screw fastenings.

Socket hexagon

Advantage:

65 1010 – The surface drive profile grips the bolt on the faces and protects the weaker corners. This reliably prevents the socket jamming or damaging the bolt heads.

½″

HOLEX Socket, long, for impact wrenches (impact wrench sockets) 1/2 inch

Sturdy shape especially for use with electric or compressed air impact wrenches. With cross hole and snap ring groove for securing sockets. Internal square to DIN 3121.
For safety reasons must always be secured using a suitable locking pin and O-ring.
Material: Chrome molybdenum steel, surface burnished.

65 1200

Width across flats	mm	10	13	14	15	16	17
62D 65 1200	IMPACT hexagon socket, 1/2 inch **long**	eShop	eShop	eShop	eShop	eShop	eShop

Koken Socket set for impact wrenches (impact wrench sockets) 1/2 inch

Sturdy shape especially for use with electric or compressed air impact wrenches. With cross hole and snap ring groove for securing sockets. Internal square to DIN 3121.
For safety reasons must always be secured using a suitable locking pin and O-ring.
65 1040/1205 – Compressed IMPACT range for the most popular bolt sizes. Stored in a sturdy metal box.
Standard:
65 1040/1205 – **DIN 3129**
Material: Chromium-molybdenum steel, manganese phosphated.
Advantage:
65 1012 – The surface drive profile grips the bolt on the faces and protects the weaker corners. This reliably prevents the socket jamming or damaging the bolt heads.

½″

Socket with plastic sleeve for impact wrenches (impact wrench socket) 1/2 inch

Material: Chromium-molybdenum steel, manganese phosphated.

Thin-walled hexagon socket, with rotating protective sleeve

Sturdy shape especially for use with electric or compressed air impact wrenches. With cross hole and snap ring groove for securing sockets. Internal square to DIN 3121.
For safety reasons must always be secured using a suitable locking pin and O-ring.

Standard: **DIN 3129**

Advantage:
- **Smaller Ø** and perfectly matched overall length of the socket permits working on bolts where access is difficult.
- Protective sleeve prevents damage to delicate components (such as aluminium rims).
- Can be positioned while the wrench is running, because the protective sleeve is **free-running**.
- Quick differentiation of the sockets due to colour coding.
- The **torsion zone** permits the socket to accept high loadings.
- The plastic stop on the inside protects the sensitive surfaces of the wheel nut.

Application: Especially for avoiding damage to delicate components (such as alloy wheel rims) during assembly.

Note: For spare protective sleeves see No. 651242

65 1240

Socket with protective sleeve

Sturdy shape especially for use with electric or compressed air impact wrenches. With cross hole and snap ring groove for securing sockets. Internal square to DIN 3121.
For safety reasons must always be secured using a suitable locking pin and O-ring.

65 1230/1231 – Deep sockets.

Advantage: The surface drive profile grips the bolt on the faces and protects the weaker corners. This reliably prevents the socket jamming or damaging the bolt heads.

Application: To protect light metal bodies / rims during assembly.
Reliable protection due to projecting impact resistant plastic casing.
Quick differentiation of the sockets due to colour coding.

Socket with rotating protective sleeve

Sturdy shape especially for use with electric or compressed air impact wrenches. With cross hole and snap ring groove for securing sockets.

Advantage:
- With rotating plastic sleeve (external) to protect the wheel rims of the wheel bolts become jammed.
- Can be positioned while the wrench is running, because the protective sleeve is free-running.
- With plastic insert to protect the wheel bolt surfaces.
- Hexagonal transaction profile contributes to longer tool life.

Koken Socket for power screwdrivers (impact wrench socket) 1.1/2 inch

1½″

Sturdy shape especially for use with electric or compressed air impact wrenches. With cross hole and snap ring groove for securing sockets. Internal square to DIN 3121.
For safety reasons must always be secured using a suitable locking pin and O-ring.

Socket hexagon

1½″

Standard: **DIN 3129**
Material: Chromium-molybdenum steel, surface manganese phosphated.

STAHLWILLE® Manutork® mechanical calibration system for torque tools

Complete calibration system with components well matched to each other. A special torque transmission system avoids movement of the torque application point during calibration.

Application: **Monitoring, calibrating, documenting and managing torque drive tools.** For torque drive tools to deliver precise and reliable measurement values over a long period of time, they must be checked regularly for calibration, and documented.

Supplied with: Mechanical operating device for even and precise loading of the torque wrench. This ensures that in accordance with DIN EN ISO 6789 the torque is applied slowly and progressively.

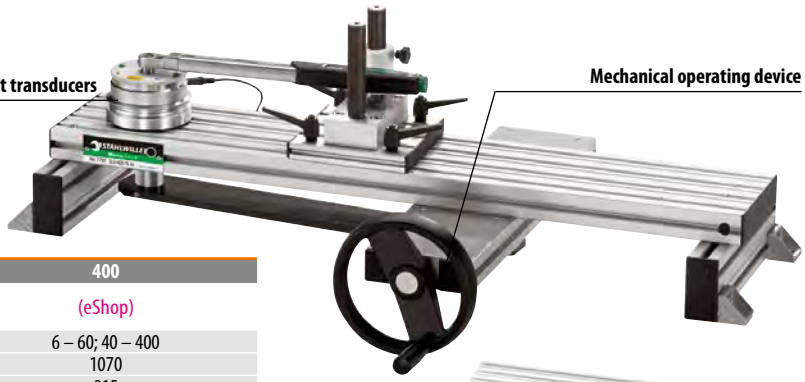
- 2 transducers **Laboratory** size 6 – 60 Nm and 40 – 400 Nm (display divergence from the measured value is ±0.5 %) with **DAkkS** calibration certificate.
- Software for generating calibration certificates to DIN EN ISO 6789 and measuring equipment management.
- USB adaptor cable for connecting measurement transducers to a PC.
- 4 square drive adaptors to accept various square drives.

Note: An additional test set is required for testing torque screwdrivers. Requirements for PC: min. 1 USB port.
Further transducers available on request.

Electronic calibration system from Stahlwille also available (on request).

Optional accessories:
Test set for calibrating torque screwdrivers.

Software and USB adapter cable.



Optional accessories:
Extension kit for torque wrenches >400 Nm.

STAHLWILLE® SENSOTORK® 7707W electronic workshop torque analyser

Compact workshop torque analyser for torque wrenches.
Flexible extension by exchanging the measurement transducer. High accuracy due to flat measurement transducers (low lateral forces) with measured value post-processing and digitising directly within the measurement transducer (deviation from measured value is ± 0.25 % in the range from 20 % - 100 % of the nominal value; ± 0.5 % in the range from 10 % - 20 % of the nominal value and ± 1 % in the range from 2 % -10 % of the nominal value).
High security due to additional display of the actual torque applied when testing triggering torque wrenches.

Supplied with: Measurement transducer, retainer, display, support for display, flexible coiled cable, mains adapter, 1.5 m connection cable, fixing kit for horizontal and vertical checking positions.

Measurement transducer

High accuracy due to measurement processing / digitising directly within the measurement transducer. Insensitive to lateral forces due to particularly flat form.

Suitable for: Workshop torque analyser No. 654250.

Note: Analysers and measurement transducers with other measuring ranges available on request.

norbar Electronic torque analyser

- Robust polyurethane body for table mounting or wall hanging.
- Large-format LCD display.
- Direct choice from the test procedure pictogram keypad for
- Interface for connection to an **external sensor.** When using sensors No. 654350 the measurement range and the calibration parameters are recognised automatically.
- Frequency displays for checking pulsed tools or screwdrivers with slip couplings.
- **Target torque values with upper and lower tolerance limits** can be programmed.
- Serial interface for connection to a printer or PC.
- **Power supply:** Integral rechargeable battery for approx. 16 hours free-standing use, or 230 V mains operation.
- TCS calibration software (available free of charge after registration at www.norbar.com/en-gb/downloads/torque-certification-system).

65 4300 – Integral sensor with 1/4 inch hexagon C 6.3 and additional connection for 1 external sensor.

65 4340 – Without integral sensor, with **connections for 3 external sensors.**

Advantage: Flexible measuring system can be extended to 100,000 Nm. Very easy to use.

Application: Calibrating torque screwdrivers with adjustment scale or display. Setting and calibrating torque screwdrivers without scale. **Setting and calibrating electric or pneumatic screwdrivers** with automatic shut-off. Use optional external measurement transducers to calibrate torque wrenches or torque screwdrivers up to 100,000 Nm.

Supplied with:

65 4300 – **Supplied with UKAS calibration certificate, right-hand** and screw tightening simulator for calibrating electric or pneumatic screwdrivers, 2 fastening screws, serial data transmission cable in a plastic case.

65 4340 – **With UKAS calibration certificate, right-hand.**

Note: **Not suitable for impact wrenches.**

65 4300 – Screw tightening simulators for No. 654300 and 654350 under No. 654352.

“ProTest” electronic torque analyser

- Sturdy cast aluminium body.
- Large-format LCD display.
- Easy to use – pictogram keypad for direct choice of the test procedure etc.
- User-specific input of target torque with upper and lower tolerances; acoustic and visual signal (3 LEDs) on reaching/exceeding the target torque.
- 3 user modes: Following, inflection point detection, and peak value display.

Advantage:
- Checking to DIN EN ISO 6789; only the target value has to be put in – the torque analyser does the rest.
- 11 display languages.
- Testing in horizontal and vertical position.
- Display and measured value sensor can be separated.

Application: For setting and calibrating torque tools.

Supplied with: Measured value sensor, display unit, mains adapter, RS-232C connecting cable to PC or printer, 2 securing screws, and square drive adapter all in a sturdy case, **including UKAS calibration certificate, right-hand.**

Note: Wall bracket under No. 654462.

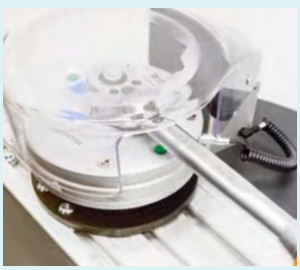
Calibration of torque tools

Torque screwdrivers are measurement tools.
At regular intervals, using appropriate equipment, they must be calibrated and if necessary adjusted.
(See DIN EN ISO 6789:2003, 5.3 Calibration, or DIN EN ISO 9789-1:2017, 5.3 Checking conformity or DIN EN ISO 6789-2:2017, 4.1 Calibration.)

More detailed information on and an overview of the available calibration services can be found on the first few pages of product group 01.



IP 40 | ±1% | HCT | HCT | 04 Cal

HCT

Garant Electronic torque analyser HCT

For use of mechanical and digital brand torque wrenches (not HCT) and screwdrivers, as well as HCT torque wrenches. Setting and testing triggering, indicating, clockwise and anti-clockwise torque wrenches and screwdrivers.

- **Display:** Large sharp contrast illuminated 2.8 inch TFT display with double scale with viewing angle stability. With memory capacity display.
- **Memory capacity:** 1000 measurement values with time stamp (incl. date and time) and 20 configurable test cases.
- **Modes:** Tracking display (**Track**), trigger point sensing (**First-Peak**) and peak value display (**Peak Hold**). When used with an HCT torque wrench, 2 other modes are available: **Track-HCT** and **Peak-Hold-HCT**. The measurement values of the HCT torque wrench and the measurement values of the HCT torque analyser are displayed on the analyser display at the same time. The peak values achieved are displayed in comparison and evaluated automatically.
- **Attachment:** can be attached to flat surfaces (table, wall, etc.) using 4 screws (M10).
- **3 recesses** for secure storage of adapters (increaser piece).
- **Data output:** Available via Bluetooth® or USB-C.
- **Possible wireless applications:** HCT Windows app and HCT mobile app. The analyser has a bi-directional interface. The analyser can also be used independently (without the app).
- **Apps:** The Bluetooth dongle 49 8999 Stick (licence) and the Windows app software are required to activate the HCT Windows app (https://hog.tools/win-app-hct). The HCT mobile app is available free of charge for iOS and Android.
- **Wireless approval:** The torque analyser with Bluetooth interface has valid wireless approval in all EU countries, Switzerland, Norway, Turkey and in the UK.
- **Password protection:** available as protection against unauthorised access to the menu (master password) and for verifying test cases. In addition, if a test case has been performed incorrectly, you can set that any further work requires the input of a password.
- **Warning signals:** visual (change of colour on the display) and acoustic (buzzer). The pre-warning point can be configured individually. The acoustic warning signal can be disabled if desired.
- **Protection class IP40**
- **Languages:** German, English, Spanish, Italian, French.
- **Factory settings:** Can be reset to the factory settings.
- **Displays** the software version with the serial number and date of the last calibration. The date of the next calibration can be set on the torque analyser.

Units of measurement: Nm, lbfft, lbfin.

Accuracy: Clockwise and anti-clockwise: +/- 1%.

Advantage: **When using the torque analyser HCT in conjunction with a torque wrench HCT:**

- Simultaneous display of the measurement values of the torque wrench HCT and the torque analyser HCT on the display of the torque analyser.
- Display and automatic evaluation of the peak values achieved by the torque wrench HCT and the torque analyser HCT.
- HCT torque wrenches blocked due to overload can be released again using the torque analyser. (After release, calibration of the torque wrenches HCT is recommended).

Supplied with: USB-C data cable (1.8 m), power supply unit (USB-A), country adapter (types A, C, G and I), certificate of conformity. Supplied in a sturdy plastic case.

Size 2 – Adapter 1/4 inch square to 1/4 inch hexagon C 6.3 (similar to No. 676950 size 4/4).

Size 12 – Incl. increaser piece No. 649550 size 1 (1/4 inch to 3/8 inch) and converter No. 650006 size 3.

Note: Suitable additional adapters can be found under No. 649550 and No. 650006.
The free smartphone app optionally allows the user to download the latest device software to the analyser via Bluetooth®, thus enabling new extended functionalities to be accessed.

Parallel display of the torque values of the torque wrench HCT and the torque analyser HCT.

Automatic evaluation according to the set tolerances. Torque wrench is outside the set tolerance.

Automatic evaluation according to the set tolerances. Both torque values are within the set tolerances.

65

The GARANT tester is also available as a variant without Bluetooth under No. 65 4413.

Recesses on the rear for secure storage of adapters.

“TruCheck™ 2” and “TruCheck™ 2 Plus” electronic torque analyser

Application: Setting and testing triggering, indicating and right-hand triggering torque wrenches.

TruCheck™ 2

- Compact, handy torque analyser.
- Screw attachment to a flat surface (table, wall etc.).
- LCD display. LED background lighting ensures good legibility under poor lighting conditions.
- The integral micro-USB 2.0 port provides the power supply.
- Units of measure: Nm.

Accuracy:

Size 30; 350 – Percentage measured value error ±1%.

Size 1100 – Percentage measured value error ±1% for the measurement range 110-1100 Nm; ±2% for the measurement range less than 110 Nm.

Advantage:
- Very easy to use (reduces errors).
- Suitable even for users who are not “Calibration Specialists”.
- Only a single push button to zero the display.

Supplied with: USB power supply unit (EU/UK/US/AUS), micro USB 2.0 cable, in sturdy plastic case.

TruCheck™ 2 Plus

- 3 user modes: Tracking display **(Track)** Trigger point sensing **(First Peak)** Peak value display **(Final-Peak)**.
- Easy input of target torque with tolerances.
- LCD display. LED background lighting ensures good legibility under poor lighting conditions.
- The integral micro-USB 2.0 port provides the power supply and data transmission.
- 12 display languages.
- Memory for saving up to 15 measured values.
- Units of measure: Nm, lbfft, lbfin.

Accuracy: Percentage measured value error ±1%.

Advantage: Quick and visually easily recognised status display thanks to change of colour of the display (red, yellow, green). Simple transmission of measured data available via a USB interface.

Application: Adjusting right-hand triggering **torque screwdrivers** and **torque wrenches** with or without setting scale.

Supplied with: USB power supply unit (EU/UK/US/AUS), micro USB 2.0 cable, in sturdy plastic case.

STAHLWILLE® “SmartCheck USB” torque analyser

Variable and flexible torque wrench analyser with rotating display and base body. Can be mounted horizontally and vertically. The display and the membrane keypad are splash-proof and the body is made of impact-resistant plastic. **Micro-USB interface** for **data export** and for power supply. With memory capacity for 250 measured values.
3 user modes: Tracking display **(Track), trigger point sensing** (First-Peak), peak value display **(Peak-Hold).**
Units of measure: Nm, lbfft, lbfin.

Advantage: Compact and variable torque analyser. Operation on power supply or batteries.
Application: Adjusting and checking **torque screwdrivers and torque wrenches** with or without setting scale.
Supplied with: Including power supply unit and SmartCheck USB software for transmitting values and creating test certificates. In a sturdy plastic case.

Note: Suitable Bluetooth® module available (No. 52110222).

Body and display can be rotated.

STAHLWILLE® “SmartCheck Angle” rotational angle test device

Variable and flexible rotational angle test device due to exchangeable sockets for rotational angle wrenches up to 400 Nm. Display, display bracket and base body can be rotated by 180°. The display and the membrane keypad are splash-proof and the body is made of impact-resistant plastic. The rotational arm can be locked for transport. Rotational angle measurements up to 720° with nominal value specification and evaluation of the measuring results directly at the device. USB interface for documentation of the test values. Additionally, a bi-directional interface, which permits parametrisation of new test values and the use of individual systems for control. Up to 2000 test values with a timestamp can be stored in the device. Optional documentation software available via free of charge download link.
User modes: Tracking display **(Track)**, peak value display **(Peak-Hold).**

Advantage: Compact and variable rotational angle test device. Operation on power supply or batteries.
Application: Testing **rotational angle wrenches** for compliance with the specified tolerance.
Supplied with: Supplied with a USB power supply unit, reducing adapters to 1/4 inch and 3/8 inch, in a sturdy plastic case.

STAHLWILLE® Motorised calibration and adjustment device

The **electronic perfectControl calibration device** with electric drive greatly reduces the forces and time required for calibration and adjustment.

Functions:

- Semi-automatic calibration of mechanical torque wrenches.
- Fully automatic calibration of STAHLWILLE electronic torque wrenches.
- The precision bearings of the spindle and the accurately controlled motor prevent incorrect measurement.
- Extremely precise calibration by optimising the bearings and the square sockets of the transducer.
- The QuickRelease locking allows transducers to be changed more quickly and with fewer problems.
- Measured values transferred by USB interface to a PC for post-processing and archiving.
- After calibration, a calibration certificate can be printed or saved as a PDF file.
- Software for machine capability analyses can be added as an option (on request).

PRECISE AS ALWAYS, BETTER CONNECTIVITY THAN EVER: THE HCT WINDOWS APP.

With the HCT Windows app, our **GARANT and HOLEX HCT products** can also easily be connected to PCs and laptops running a Windows operating system.
This makes quick documentation and wireless data transmission, for example to CAQ systems, easier than ever before.

By integrating the GARANT HCT torque analyser into the operator guidance concept of the HCT Windows app, the HCT torque wrenches can be checked before starting work and released for the work plan / shift.

An app packed full of features:

- The GARANT torque wrench / rotational angle wrench HCT No. 65 5010, the HOLEX torque wrench No. 65 5025 and the GARANT torque tester No. 65 4410 can be quickly connected to the PC/laptop via a bi-directional interface.
- The HCT Windows app can then be used in combination with the torque wrenches to easily set up operator guidance so that various HCT tools can be linked in a single workflow.
- The collected data can be provided to CAQ software in a variety of formats (e.g. as a .csv file or via the MUX50 protocol).
- The workpiece's and tool's serial number are linked directly and automatically to the associated measurement value.
- Each dongle enables up to 16 HCT tools to be connected to 1 PC/laptop at the same time.
- Processes can be planned via the app (no need to create screw tightening profiles on the tool thanks to the bi-directional interface).
- The app also expands the actual functions of the HCT tools:
  – The Windows app now also allows you to create and execute screw tightening profiles and workflows for the Holex torque wrench HCT No. 65 5025.
  – Workflows, screw tightening profiles and test cases can now be identified with up to 10 digits, instead of just 4 digits.
  – An unlimited number of screw tightening profiles and workflows can be created.

To enable the full functions, only the following are required:
Bluetooth®dongle No. 49 8999 STICK (license) and the **Windows app software**, which can be downloaded via our homepage **www.hoffmann-group.com**.

GERMAN INNOVATION AWARD '21 WINNER

GERMAN DESIGN AWARD SPECIAL 2021

Garant

Electronic torque / rotational angle wrench HCT

- **Display:** Large sharp contrast illuminated 2.8 inch TFT display with double scale with viewing angle stability. With battery display and memory display. Torque and rotational angle both displayed at the same time.
- **Display:** Peak and Track function modes**.**
- **Modes:** Displaying torque, triggering torque, triggering rotational angle, triggering rotational angle with rotational angle monitoring, triggering rotational angle with torque monitoring. Up to 100 screw tightening profiles can be programmed. Recurrent screw tightening profiles and be summarised into a procedure (up to 10 procedures each with up to 10 screw tightening profiles). Screw tightening profiles and procedures can be programmed both directly at the wrench and also conveniently via the app.
- **Possible wireless applications:** HCT Windows app and HCT mobile app. The analyser has a bi-directional interface but can also be used independently (without app).
- **Apps:** The Bluetooth dongle 498999 STICK (license) and the Windows app software are required to activate the HCT Windows app (https://hog.tools/win-app-hct). The HCT mobile app is available free of charge for iOS and Android.
- **Memory capacity:** 1000 measurement values with timestamp (incl. date and time). The memory on the wrench can be manually deactivated if the connection to the end device has been established by HID.
- **Data output:** Available via Bluetooth® or USB-C. Via Bluetooth: Available via the apps as a .csv file, or directly at the torque wrench via the HID interface for simple and convenient digital documentation. Via the USB C interface: The data can the exported as a .csv file.
- **Wireless approval:** The torque wrenches with Bluetooth interface have valid wireless approval in all EU countries, Switzerland, Norway, Turkey, UK, USA and Mexico.
- **Password protection:** available as protection against unauthorised access to the menu (master password) and for verifying screw-tightening cases and procedures. In addition, you can set that reworking a screw connection that has been performed incorrectly requires input of a password.
- **Warning signal outputs** are haptic (vibration), visual (change of colour at the display, 360° LED ring with "traffic light function" clearly visible from anywhere) and acoustic (buzzer). The pre-warning point can be configured individually. Haptic and acoustic warning signals can be disabled if desired.
- **Easy input of reference dimensions:** For tools with a different pitch setting simply input the new pitch. No laborious calculations with formulae.
- **Protection class IP40.**
- **The 2-component handle** of the torque / rotational angle wrench ensures specially good ergonomics and high torque transmission.
- **Resistant** to oils, grease, fuel, brake fluid and Skydrol.
- **Languages:** German, English, Spanish, Italian, French.
- **Factory settings:** The wrench can be reset to the factory settings.
- **Time and date** on the wrench are updated automatically as soon as it is connected to the app.
- **Display** of the software version with serial number, load cycle counter and calibration date.
- **Calibration reminder:** after number of load cycles.

Units of measure: Nm, lbfft, lbfin.

Size 12–340 – with plug-in ratchet.

Size 500; 850 – with built-in reversible ratchet.

Standard: Tested to DIN EN ISO 6789.

Accuracy: Torque: Clockwise ± 2%, anticlockwise ± 3%.
Rotation angle: ± 1° for the measurement range up to 100°, ± 1 % for the measurement range 100° and beyond.

Supplied with: USB-C data cable, reversible ratchet with ejector (size 12 – 340: plug-in ratchet, size 500 and 850: fixed ratchet), 1 commercially available Li-ion battery type 18650 3.6V / 3400 mAh (can be charged directly in the tool via a USB-C plug). Supplied in a sturdy plastic case.

Note: Suitable additional batteries can be found under No. 081574 size 3500. Charger for 4 batteries available as options under: 081590 size 4ULTRA. A holder for a bracket or suspension of the torque wrench is available under No. 655039 size 1.

The GARANT torque wrench is also available as a variant without Bluetooth under No. 65 5013.

STAHLWILLE® Electronic torque / rotational angle wrench MANOSKOP® 766 DAPTIQ® HCT

Highly precise electronic torque / rotational angle wrench for screw tightening and checking of screw fastenings. Clear OLED display with colour screen and extremely simple menu navigation. Sturdy wrench with "Direct mode" for quick general-purpose use. 4 measurement modes: Torque and angle of rotation. Process reliability results achieved by torque with angular monitoring or rotational angle with torque monitoring. Can be programmed by a PC; password protection for security against tampering. Rotary angle measurement can be programmed easily, no reference arm required. Peak and Track function modes.
The wrench can be used in trigger mode. When the set torque or rotational angle is reached the wrench triggers with acoustic and tactile signals like a conventional mechanical torque wrench.
Units of measure: Nm, lbfft, lbfin.

Highlights:

- Torque wrench is simple to integrate into the HCT worker guidance system.
- Bluetooth® update for the HCT adapter is performed over the air.
- Availability of an open protocol interface via the HCT Windows app.
- Can be used in combination with our GARANT torque tester HCT; supplementary HCT functions can be used (1st peak mode with simultaneous display of measurement from the MANOSKOP® 766 DAPTIQ® HCT and the GARANT torque tester HCT on the display of the tester).
- Electromechanical torque/rotational angle wrench **with true mechanical actuation.**

Standard: Tested to DIN EN ISO 6789.

Supplied with: Includes sturdy plastic box (size 400 to size 1000 in a sheet metal box) and 4 batteries (1.5 V Micro / AAA / LR3), USB data cable.

Note:
- Matching rechargeable battery available under Stahlwille number 54101195.
- Matching charging dock available under Stahlwille number 54100060.

STAHLWILLE® MANOSKOP® 730DR electromechanical torque wrench Service / Series

Unique electro-mechanical wrench, which combines both the **"displaying" and "triggering"** functions in a single device. When the set torque is reached the wrench triggers, with acoustic and tactile signals like a conventional mechanical torque wrench. In addition the value achieved is displayed and can be transferred to a PC. The additional "displaying" mode provides a continuous visual indication to the user of the torque that is being applied. Saves and documents up to 7500 screw tightening events. An automatic key lock prevents accidental changes to the settings. A PIN code can be entered to prevent unauthorised changes to the settings. The wrench offers a very wide measurement range. Integrated automatic reminder of calibration after the number of operations and elapsed time.

Units of measure: Nm, lbfft, lbfin.

Size 100–650 – With reversible plug-in ratchet.

Size 800; 1000 – Plug-in ratchet with push-through square.

Standard: Tested to DIN EN ISO 6789.

Supplied with: Sturdy plastic box (sizes 100 and 200) or sturdy metal box (from size 400) and 2 batteries (1.5 V mignon / AA / LR6).

Optional extras: USB adapter, cable with latching plug, SENSOMASTER 4 software.

- ***Easy input of reference:*** *For plug-in heads with a different reference dimension, simply input the new dimension. No laborious calculations with formulae.*
- ***QuickRelease:*** *Secure fit and quick change for insert tools.*
- *Robust, compact body.*
- *Tolerance limit settings,shown clearly on a display with colour changes.*
- *Very simple operation; complete use and menu selection with 4 buttons.*
- *2-component handle, resistant to oils, greases, fuels, brake fluids, and Skydrol.*
- *USB interface for exporting the data.*

Milwaukee Electronic torque wrench with electric drive

- The electric drive can be used to run the screw forward to the point where torque is applied. The screw is then tightened manually to the set torque. Setting and operation directly at the torque wrench.
- Quick reporting of the torque via **ONE-KEY™** for generation of reports.
- **LCD display** with strong colours and quick response times. Feedback on status and display of relevant information.
- Warning signals can be optionally set as **tactile** (vibration), **visual** (LEDs and display) and **acoustic** or combinations of these. The early warning point can be entered individually.
- Up to **28,000 measured values** can be saved on the torque wrench.
- **With calibration reminders.** After a certain number of duty cycles and elapsed time.

Units of measure: Nm, ft·lbs, in·lbs, kg·cm.

Standard: Tested to DIN EN ISO 6789.

Accuracy: Clockwise ± 2%, anticlockwise ± 3%.

Supplied with: Supplied with 12 V / 2.0 Ah Red Li-ion battery, C12C charger and sturdy plastic case.

Note: See No. 073814ff and No. 073840 for suitable batteries and chargers. Recalibration is performed by the manufacturer.

STAHLWILLE® SENSOTORK® 701 electronic torque wrench

- Very slim and compact design for small torques from 1 Nm.
- Easy to use with single button controls.
- 3 measurement modes: Track, Peak Hold, Tightening with evaluation.
- Additional functions with SENSOMASTER 4 software (available at www.stahlwille.de/download free of charge after registration):- Tightening adjustable- Evaluation of the screw tightening procedure by means of coloured LEDs, buzzer and vibration- Adjustable calibration interval- Facility for generating documentation
- Compact design makes work possible even in confined spaces.
- Fixed fine ratchet (80 teeth) with QuickRelease technology.
- Clear display.
- USB interface.
- Any desired force.
- Integrated automatic reminder of calibration after the number of operations and elapsed time.

Units of measure: cNm, Nm, lbfft, lbfin.

Standard: Tested to DIN EN ISO 6789.

Supplied with: Including sturdy plastic case, USB cable, and battery (3.6 V/type 14500) No. 081560 size SL760.

HOLEX Electronic torque wrench with digital display

Robust torque wrench with impact resistant casing, 2-component handle, large display and reversible ratchet. Easy operation using large input buttons. Visual and acoustic signal indicates achievement of the set torque **visually and audibly**. Two working modes; selectable between peak value display and following display. The working memory can store up to 50 torque settings.

Units of measure: Nm, lbfft, lbfin, kgfm.

Size 12 – Captive push-through ratchet with ejector. **Any desired force.** Irrespective of where the wrench is held, the measurement always remains accurate.

Size 30–340 – Sturdy plug-in ratchet with change-over wheel.

Standard: Tested to DIN EN ISO 6789.

Accuracy: Clockwise ± 2 %, anticlockwise ± 3 %.

Application: Torque control; controlled tightening of screws in a single operation or for small batch production.

Application example
Optional accessories: Coin driver No. 66 4310 / 66 4311 for unscrewing without damage, for extracting blanking plugs.

Your Torque Partner TOHNICHI

Electronic torque testing wrench with digital display

Sturdy test wrench with exchangeable ratchet and compact display and control unit. Visual and acoustic signal indicates achievement of the set torque **visually and audibly**. For right-hand and left-hand threads.
Memory: 999 measured value pairs.
Power supply: NiMH rechargeable battery, operates 20 hours on a charge, charging time 3.5 hours.
Size 850 – **Units of measurement:** Nm, lbfft, kgfm.
Size 10–500 – **Units of measure:** Nm, lbfft, lbfin, kgf·cm.
Standard: Tested to DIN EN ISO 6789.
Application: For quick **checking of screw connections.**
The screw connection is further rotated by a defined angle. The final torque required (T_W) is used to automatically calculate and display the initial tightening torque (T_A equivalent to T_B) for the fastening.
Supplied with: Battery charger, instruction manual in German and English.
Optional extras: Data cable No. 655265 (from RS232C to USB).

Garant Electronic torque wrench with digital dial gauge display

High-precision, electronic torque wrench with digital dial gauge display. Body of steel, satin chrome-plated, integral reversible ratchet with ejector. Digital display of the Nm value and battery charge status. A control switch for switching on and reset, automatic switch-off after 2 minutes.

Units of measure: Nm, lbfft.

Size 12–50 – 2.8-inch TFT display with double scale (Nm-lbfft) and additional manual switch-off function for the torque wrench.

Size 100–340 – 3.5 inch TFT display with double scale (Nm-lbfft).

Standard: Tested to DIN EN ISO 6789.

Accuracy: Clockwise ± 2 %, anticlockwise ± 3 %.

Function: Actual torque can be read on the gauge whilst working; the final value is held to be read later. **Display:** Peak and Track function modes.

Application: For controlled single tightening of screws and for controlled measurements.

Supplied with: Mini-USB charger cable for the TFT display. Supplied in a sturdy plastic case

Optional accessories:
Coin driver No. 66 4310 / 66 4311 to unscrew blanking plugs without damage.

- Reversible ratchet with ejector.
- Display with battery indicator.
- One button for On / Reset.
- Mini USB port for charging.
- Ergonomic handle.

Torque wrenches with setting scale – automatic triggering

Handy and very compact single-arm torque wrench, adjustable by scale and self-triggering. Extremely high repeat accuracy, since high quality materials are used throughout. Wearing parts, such as compression springs, are specially pre-treated and sorted. Reversible ratchet for left-hand and right-hand tightening.
Units of measure: Nm

Standard: Tested to DIN EN ISO 6789.
Function: The wrench triggers giving a "signal" (clearly audible acoustic tone and noticeable vibration) and afterwards is immediately ready for use again.
Application: For medium to larger batch productions.

Note:	Calibration is only possible for right-hand tightening.

GARANT

Acoustic and perceptible "click effect" ensures particularly easy use and accurate setting of the desired torque.

65 6050 – With built-in **reversible ratchet** (with ejector up to size 320) – **for left-hand and right-hand tightening.**
65 6055 – Basic tool with **square plug-in socket** (without plug-in head). Suitable spare jaws No. 657582 - 657950.
Size 1000; 1600 – **2-piece** with release tool in nylon carrying bag.

Accuracy:
Size 25–1600 – Of the displayed value **only for right-hand tightening:** ±3 %

Wera Torque wrench with setting scale – automatic triggering

Very sturdy single-handed torque wrench (square drive 1/2 inch) with ergonomic 2-component handle and reversible ratchet with 45 teeth.
Easy adjustment and locking of the specified value is ensured as the user can hear and feel the tool engage when the scale value is reached and easily read off the reading on the main scale and fine scale. User can clearly hear and feel the trigger mechanism upon reaching the set torque value. For right-handed use.
Units of measure: Nm, lbfft.

Standard: Tested to DIN EN ISO 6789.

Accuracy:

65 6200 Size 200-1/2/6210 Size 50-1/2; 50-3/8; 100-1/2; 100-3/8; 300-1/2; 400-1/2; 1000-3/4/6220 Size 50–400 – Percentage of the displayed value **only for right-hand tightening: ±3 %.**

65 6200 Size 25-1/4/6205 Size 25-1/4/6220 Size 25 – Percentage of the displayed value **only for right-hand tightening: ±4 %.**

Function: The wrench triggers giving a "signal" (clearly audible acoustic tone and noticeable vibration) and afterwards is immediately ready for use again.

Advantage:

65 6200/6205 – **Torque lock function:** The torque function can be switched off, meaning the tool can also be used as a standard ratchet for tightening and loosening screws, and for defined angle of rotation applications.

Wera Torque wrench set 1/2 inch Click-Torque C 3 Set 1

Very sturdy single-handed torque wrench (square drive 1/2 inch) with ergonomic 2-component handle and reversible ratchet with 45 teeth. Easy adjustment and locking of the specified value is ensured as the user can hear and feel the tool engage when the scale value is reached and easily read off the reading on the main scale and fine scale. User can clearly hear and feel the trigger mechanism upon reaching the set torque value. For right-handed use.
Units of measure: Nm, lbfft.

Accuracy: Tested to DIN EN ISO 6789.

STAHLWILLE®

Torque wrenches with quick adjustment – automatic triggering Service MANOSKOP® 730

Sturdy compact one-armed torque wrench, adjustable to scale and self-triggering. The accuracy is sustained for many thousands of operations, because high quality material is used for all wearing parts and the flexible rod is under load only briefly on each occasion. Body and handle are of sturdy square section. Scales adjustable. **Anti-clockwise tightening by reversing the plug-in tools.**

Standard: Tested to DIN EN ISO 6789.

Function: If the set value is reached while using the wrench, the wrench triggers giving a "signal" (acoustic and perceptible) and is then immediately ready for use again.

Application: Since the set torque can be varied, it is ideal for repairs and short series production.

QuickRelease:
Secure location and quick change-over of any plug-in heads with QuickRelease safety locking.
The rectangular socket allows use of a wide variety of plug-in heads.

65 7090_100

65 7092_100

65 7094_100

Service MANOSKOP® 730 N with QuickSelect quick adjustment

Size 20 – **Units of measure:** Nm, lbfin.
Size 50–1000 – **Units of measure:** Nm, lbfft.
65 7092 – With **square drive plug–in head.**
65 7094 – Without any plug-in head (basic model); see No. 657582 – 657950 for suitable plug-in heads.
65 7090 Size 20–650 – With **plug–in reversible ratchet.**
65 7090 Size 800; 1000 – With **plug-in ratchet with push-through square.**

Advantage:
- Ergonomically shaped two-component handle, resistant to aggressive liquids such as fuel, Skydrol etc.
- The adjustment scale is placed behind a sight glass for protection against dirt and damage.
- Quick, precise, and reliable setting: Pull the setting knob, "Twist" to set the desired value and "Press" to save it. Setting knob moves easily since there is no spring pressure to be overcome.

STAHLWILLE®

Torque wrenches with setting scale – automatic triggering – Standard MANOSKOP® 721

Sturdy compact, torque wrench, adjustable to scale (Nm and lbfft) and self-triggering. The accuracy is sustained for many thousands of operations, because high quality material is used for all wearing parts and the flexible rod is under load only briefly on each occasion. It returns immediately to an off-position after the torque has been achieved. Body and handle are of sturdy square section.

Units of measure: Nm, lbfft.

65 7225 Size 150 – With **integral ratchet** – **only for right-hand tightening.**
Size 300 – Ratchet with **push-through square drive pin** for **right-hand and left-hand tightening.**
Size 800; 1000 – With **push-through square** for **right-hand and left-hand tightening.**

Standard: Tested to DIN EN ISO 6789.

Function: If the set value is reached while using the wrench, the wrench triggers giving a "signal" (acoustic and perceptible) and is then immediately ready for use again.
65 7225 – Quick adjustment of the torque with the slide setting button. The value is fixed using the locking key in the handle.

Application: The quick setting features makes it ideal for repairs and small series production.

Easy to read scale.

Torque wrenches with setting scale – automatic triggering

65 7235_5 – 25

Torque wrench, adjustable using micrometer scale, with protection against accidental changes to the setting.
With reversible ratchet head and square drive for sockets.
Units of measure: Nm.
Size 50–280 – With synthetic resin handle.
Size 5; 10; 15; 25; 420; 750; 1400; 2100; 2800 – With knurled metal handle.

65 7235_50 – 280

Standard: Tested to DIN EN ISO 6789.
Function: On reaching the set torque value the wrench triggers giving a "signal" (acoustic and perceptible) and is then immediately ready for use again.
Application: For medium and large batch productions.

Note:
Size 1400–2800 – Use only sockets with lock hole.

Torque wrenches with setting scale – automatic triggering – DREMOMETER

Handy, robust construction, light weight. All heavily loaded parts high-quality steel.
Fixed square drive (no ratchet).
Size 12 – With body of glass fibre reinforced plastic and 2-component handle.
Size 2000 – **Units of measure:** Nm.
Size 12; 40 – **Units of measure:** Nm, lbfin.
Size 120–1000 – **Units of measure:** Nm, lbfft.
Size 120–300 – Square drive with push-button unlocking.
Size 1000; 2000 – With extension tube.
Standard: Tested to DIN EN ISO 6789.
Function: On reaching the set torque value the wrench triggers giving a "signal" (acoustic and perceptible) and is then immediately ready for use again.
The desired torque is set using a captive hexagon L-wrench that is pulled out from the end of the handle. The set torque can be easily read on the scale. No inadvertent changes to the setting can be made whilst working.
Application: For medium to larger series production.

65 7520

Garant Deflecting torque wrench without scale – automatic triggering

Torque wrench without scale. Wrench setting using torque analyser. **The trigger mechanism makes unintentional overtightening extremely unlikely. Anti-clockwise tightening** by reversing the plug-in head.

Standard: Tested to DIN EN ISO 6789.

Accuracy:

Size 5; 14 – ±4 % of the set value.

Size 25; 60 – ±3 % of the set value.

Function: On reaching the preset torque value the wrench triggers a clearly detectable deflection and is then immediately ready for use again. The long-travel indication gives the user an unmistakable signal that the set torque has been reached.

Note: Suitable spare jaws No. 657582 - 657950.

TorqueScout

Quick and easy search of the desired torque tools, or determination of the correction to the reference dimension.

- Direct and simple ordering process.
- Search by torque value, range or by the screw to be tightened.
- If adapters, extensions, and special plug-in tools are used, a correction must be made to the reference dimension; this value can be calculated easily and automatically.

Visit us online at www.toolscout.com and discover the wide range of solutions offered by the ToolScout.

Garant Torque wrenches “Slipper”, automatic triggering

The special slipping trigger mechanism **reliably prevents unintentional overtightening.**

Standard: Tested to DIN EN ISO 6789.
Accuracy: ±6 % of the set value.
Function: On reaching the set torque value the wrench triggers a clearly detectable deflection and is then immediately ready for use again. The special trigger mechanism ensures that the set torque values are reliably achieved, **but not exceeded.**
Advantage: Precision triggering mechanism facilitates working in inaccessible places.
Application: For medium to larger batch productions.

With adjustment scale

Torque wrench with **micrometer scale for setting**, self-triggering. Hold in position at the end of the handle against inadvertent adjustment. With integral ratchet.
Units of measure: Nm.

HAZET Fully insulated torque wrench with setting scale – automatic triggering

Torque wrench **fully insulated up to 1000 V to DIN EN IEC 60900 / VDE 0682-201.**
Single-handed torque wrench, adjustable using the scale, with protection against accidental changes to the setting. Integral ratchet, **reversible left-hand and right-hand** tightening by push-through drive square.
Units of measure: Nm.

Standard: Tested to DIN EN ISO 6789.
Accuracy:
Size 10 – ±6% of the set value.
Size 25; 120 – ±4% of the set value.
Function: On reaching the set torque value the wrench triggers giving a “signal” (audible and perceptible) and is then immediately ready for use again.
Attention: Any repairs must be performed on in the HAZET Service Centre, since the wrench must be subjected after repair to an individual 10,000 V test to DIN EN 60900 / VDE 0682-201!

Note: For working at voltages up to 1000 Volts. In safety areas only **fully insulated** tools may be used in combination.

Wera Torque wrench “Safe Torque” automatically triggering

The special slipping trigger mechanism reliably prevents unintentional overtightening. Desired torque value is easily set and saved as the user can hear and feel the device engage upon reaching the scale value. The 72 fine-pitched teeth enable a low return angle of only 5°.

Standard: Tested to DIN EN ISO 6789.

Function: On reaching the set torque value the wrench triggers a clearly detectable deflection and is then immediately ready for use again. The overslip trigger mechanism ensures that the set torque values are **not exceeded.**

Advantage: **Torque lock function:** The torque function can be switched off – the tool can therefore also be used as a standard ratchet with high release torques and for applications involving defined rotational angles.

Torque lock function.

Overslip mechanism prevents excessive torques from being applied.

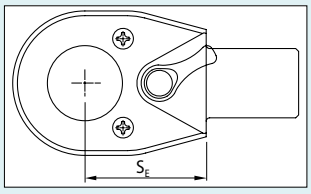
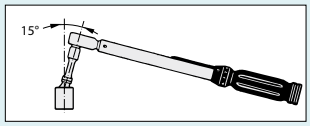
Use of plug-in heads, adapters and extensions

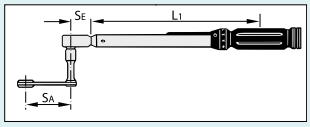


If the torque wrench is used with a plug-in head, adapter or extension whose reference dimension S (effective length) differs from the adjusted reference dimension on the torque wrench S_J (see supplied test report or operating instructions), this will mean that the effective length of the wrench is altered compared to the "normal" drive take-off point. This, in turn, will affect the effective torque and the reference dimension will need to be corrected.

The reference dimension S_E of the plug-in head is determined as shown in the drawing.
If several plug-in heads and adapters are combined with each other, the sum of all "S"s must be taken into account.
A practical aid for the reference dimension calculation can be found in our online shop under Tool Scout / Application data (www.toolscout.com).



The use of **"Wobble" extensions** with less than 15° displacement has only a negligible effect on the effective torque.
When using universal joint drives, it is recommended that a new effective torque is determined (see below).
The use of plug-in heads or adapters alters the effective length of the wrench compared to the "normal" drive take-off point, which changes the effective torque setting.



For a torque wrench basic tool, the torque to be set is calculated as follows:

$$MDE = \frac{MDV \times (L_1 + S_J)}{L_1 + S_E + S_A}$$

MDE = torque to be set.
MDV = prescribed torque.
L_1 = effective length of the torque tool.
S_J = adjusted reference dimension on the torque wrench.
S_E = reference dimension of the plug-in head.
S_A = length of the adapter.

Ring plug-in head

Material:

65 7892 – Chrome vanadium steel, chrome-plated.

65 7900 – Chrome alloy steel, non-flaking, chrome-plated over nickel.

Note: Please note the pitch of the plug-in head and match this to that of the adjustment tool (see test certificate/operating instructions of the torque wrench you are using). If these vary, correct the pitch!

HCT

Garant Electronic torque screwdriver HCT

- **Display:** Large, sharp-contrast illuminated 1.3-inch TFT display with viewing angle stability and **rotating view** to easily read the display regardless of the application. With battery display and memory display. Torque and rotational angle both displayed at the same time.
- **Display:** Peak and Track function modes.
- **Modes:** Displaying torque, triggering torque. Up to 100 screw tightening profiles can be programmed. Recurrent screw tightening profiles and be summarised into a procedure (up to 10 procedures each with up to 10 screw tightening profiles). Screw tightening profiles and procedures can be programmed both directly at the wrench and also conveniently via the app.
- **Possible wireless applications:** HCT Windows app and HCT mobile app. The torque screwdriver has a bi-directional interface but can also be used independently (without app).
- **Apps:** The Bluetooth® dongle No. 498999 size STICK (license) and the Windows app software are required to activate the HCT Windows app (https://hog.tools/win-app-hct). The HCT mobile app is available free of charge for iOS and Android.
- **Memory capacity:** 1000 measurement values with timestamp (incl. date and time).
- **Data output:** Available via Bluetooth® or USB-C. Via Bluetooth®: Available via the apps as a .csv file, or directly at the torque screwdriver via the HID interface for simple and convenient digital documentation. Via the USB C interface: The data can the exported as a .csv file.
- **Wireless approval:** The torque screwdrivers with Bluetooth interface have valid wireless approval in all EU countries, Switzerland, Norway, Turkey and the UK.
- **Password protection:** available as protection against unauthorised access to the menu (master password) and for verifying screw-tightening cases and procedures. In addition, you can set that reworking a screw connection that has been performed incorrectly requires input of a password.
- **Warning signal outputs** are haptic (vibration), visual (change of colour at the display, clearly visible 180° LED ring with "traffic light function") and acoustic (buzzer). Haptic and acoustic warning signals can be disabled if desired.
- **Protection class IP40.**
- The **2-component handle** of the torque screwdriver ensures especially good ergonomics and high torque transmission.
- **Resistant** to oils, grease, fuel, brake fluid and Skydrol.
- **Languages:** German, English, Spanish, Italian, French.
- **Factory settings:** Can be reset to the factory settings.
- **Time and date** on the torque screwdriver are updated automatically as soon as it is connected to the app.
- **Display** of the software version with serial number, load cycle counter and calibration date.
- **Calibration reminder:** after number of load cycles.
- **Tolerances:** Three types of tolerance can be set. Relative tolerance in %, absolute tolerance in the unit that was set, and a tolerance window.
- **Quick-change adapter** with magnetic holder for bits.
- **Unit of measure:** cNm, Nm, lbfft, lbfin.

Standard: Tested to DIN EN ISO 6789.

Accuracy: Torque: Clockwise and anti-clockwise ±2%.

Supplied with: USB-C data cable, 1 commercially available Li-ion rechargeable battery type 18650 3.6 V / 3400 mA (can be charged directly within the tool via a USB-C plug). Supplied in a sturdy plastic case.

Note: Suitable additional batteries can be found under No. 081574 size 3500. Charger for 4 batteries optionally available under No. 081590 size 4ULTRA.

Display can be rotated.

STAHLWILLE® TORSIOTRONIC electronic torque screwdriver with digital display

Integral bit ratchet with 80 teeth for a working angle of just 4.5°. This enables fine-step work with screw connections that are difficult to access.
Mechanics with ball mechanism triggers audibly and noticeably when the target torque is reached. After triggering, the sliding mechanism prevents the set tightening torque from being exceeded unintentionally and the screw from being overtightened.
Ergonomically shaped ball handle allows fatigue-free working. A 1/4 inch square drive is incorporated into the end of the handle. Resistant to oils, greases, fuels and brake fluids.

- Three operating modes with visual, acoustic and haptic stop signal.
- Memory capacity: Up to 2500 measured values.
- An integral micro-USB port permits the measurement data to be read and documented at terminals.
- Bright OLED power display, low power consumption places little burden on the battery.

Units of measure: cNm, Nm, lbfft, lbfin, ozf·in

Standard: Tested to DIN EN ISO 6789.

Supplied with: Supplied with a 3.6 V / 2.6 Ah Lithium-ion battery type 18650 (external charging), SENSOMASTER 4 software, micro-USB on a USB-A cable, bit-holder (hexagonal drive D 6.3; 1/4 inch). In a plastic case.

Size 1000 – With T-handle.

Note: Suitable charger and charger adapter available on request. Additional batteries can be found under No. 081574 size 2600 or alternatively size 3500.

The appropriate charger can be found under No. 08 1590 size 4ULTRA. Additional batteries can be found under No. 08 1574 size 2600 or alternatively size 3500.

Garant Torque screwdriver with 1/4 inch bit holder, with scale, automatic triggering

- Ergonomically shaped power grip with easy-grip Haptoprene surface ensures high transmission of force.
- Clear and easy to read thanks to large numeric display.
- Short 36° trigger distance with clearly audible and perceptible signal.
- Trigger mechanism with 10 detent elements made of high-alloy tool steel with high wear resistance for a long service life.
- The overload clutch ("Slipper") ensures the set value is not exceeded.
- Easy to use and easy to identify the locked and unlocked state by the orange signal ring on the rotary knob.
- Bit holder (1/4 inch – D 6.3 / F 6.3) with quick release fastener. Fast bit changes with one hand.

Standard: Tested to **DIN EN ISO 6789.**

Function: On reaching the set torque value, the screwdriver can be felt and heard to trigger and is then again immediately ready for use. In the anti-clockwise direction of rotation: without torque function to loosen screw connections.

Torque screwdriver set, adjustable, automatic triggering

Power grip with a non-allergenic elastomer coating. On reaching the set torque value, the screwdriver can be felt and heard to trigger and is then again immediately ready for use. The release torque is higher than the tightening torque (overload protection). The desired torque is set using an adjustment wheel at the end of the handle. Putting the wheel into the locked position prevents inadvertent changes to the setting.
Easy to read micrometer scale, protected against dirt.
Tool handle made of conductive plastic, **suitable for ESDs.**

Standard: Tested to DIN EN ISO 6789.

KANON Minimal torque gauge

Accurate measuring instrument for the smallest torques. Easy-to-read scale with memory pointer on the top and additional scale on the side. **With 3-jaw steel chuck.**

Standard: Tested to DIN EN ISO 6789.

Application: For measuring the smallest torques (such as rotation and frictional resistances) and for controlled tightening of screws.

wiha Torque screwdrivers iTorque® with digital display

High-quality comfortable metal-plastic composite handle ensures ergonomic working and easy application of the set torques. Quick and easy reading and setting **via the large digital display.** Automatic switch-off after 15 seconds (battery life at least 1 year). The battery can be changed at the factory or during recalibration. Display changeover between Nm and lbf in. Includes bit-holder blade No. 659932 to take 1/4 inch bits.

Units of measure: Nm, lbfin

Standard: Tested to DIN EN ISO 6789.

Function: On reaching the set torque value, the screwdriver can be felt and heard to trigger and is then again immediately ready for use.

Advantage: An **integral counter function** records the number of tightening operations, providing the basis for monitoring by test instruments.

Application: For controlled tightening of screws to a pre-set torque.

Note: For further options see No. 659940 - 659946.

Your Torque Partner TOHNICHI

Torque screwdriver with setting scale

Torque screwdrivers with over-torque protection for different applications from series production to maintenance work. With a locking mechanism that prevents adjustment of the torque when in use. The hexagon lock shape prevents rolling away. Setting by using micrometer scale.

Size 120; 260 – With synthetic resin handle for better grip.

Size 15; 30; 60; 500 – Profiled light metal handle.

Standard: Tested to DIN EN ISO 6789.

Function: When the set torque is reached the screwdriver triggers and signals clearly (audibly and perceptibly). It is then again immediately ready for use. The trigger mechanism is unavailable for tightening left-handed threads.

TorqueScout

Quick and easy search of the desired torque tools, or determination of the correction to the reference dimension.

- Direct and simple ordering process.
- Search by torque value, range or by the screw to be tightened.
- If adapters, extensions, and special plug-in tools are used, the reference dimension will need to be corrected; this value can be calculated easily and automatically.

Visit us online at www.toolscout.com and discover the wide range of solutions offered by the ToolScout.

Torque multiplier

Mechanical manual torque multiplier for controlled screw tightening.
Multiplier and support of high-quality steel. With overload shut-off to protect the transmission.
Input drive with internal square socket for drive tools such as a ratchet, T-handle, torque wrench.
It is sensible to operate the device with a torque wrench, so that the maximum load and the screw torque values can be checked.
Output drive with external square for holding sockets (preferably use impact sockets due to the high torques).

65 9975 – Precise planetary transmissions guarantee exact torque transfer with long-term accuracy of **±5 %.**

65 9980 – Extremely precisely machined transmissions with ground gears and honed bores guarantee exact and consistently reproducible torque multiplication. Unique accuracy of not less than **±4 %.** Very compact and lightweight design, exceptionally long working life, and low maintenance.

Advantage: Torque multipliers allow the transmission of higher torques with a correspondingly shorter lever arm.

Note:

65 9980 – Alternative reaction plates for No. 659980 size 2000 and 7000 available on request. No. 659980 size 2000 available on request with electronic measured value sensors.

65 9980_1000

65 9980_1300 / _2700

65 9980_3000/_4500

Operating principle torque multiplier.
At a stated transmission ratio of 1:25, 25 revolutions at the input (and 0.84 revolutions at the output) are necessary to convert an input torque of 100 Nm into an output torque of 2500 Nm.

with SwissGrip power grip

Blade of PB Swiss Tools special alloy combines maximum hardness with exceptional toughness. Surface nickel-plated and chrome-plated. Black tip. Stepped plane parallel tips provide full-surface instead of linear contact, enabling higher torque transmission.

66 0050 – **SwissGrip power grip** with non-allergenic elastomer coating and a core of particularly tough and impact-resistant polypropylene. High torques can be exerted even with wet and oily hands. Tool handle made of conductive plastic, **suitable for ESD components**.

66 0042/0043 – **SwissGrip Evo power grip** allows transmission of the required torque with no problems, even with wet or oily hands. Work without getting tired thanks to modified circular shape. High-tech 3-component materials improve the chemical and mechanical resistance. Handle with "Rainbow" colour coding for finding the correct drive size quickly

Supplied with:

66 0043 – With wall bracket.

Workshop screwdriver with power grip (slot-head)

with "multicraft" power grip

"Multicraft" power grip of impact resistant plastic (cadmium free), particularly easy grip, even with oily hands.
Blade of PB Swiss Tools special alloy combines maximum hardness with exceptional toughness. With parallel stepped tip.
From size 8 with hexagon flats for wrench assistance. Surface nickel-plated and chrome-plated, black tip.

Advantage:
- Stepped plane parallel tips provide full-surface instead of linear contact, enabling higher torque transmission.
- No cam-out effect.
- Tips perfectly fit standard and non-standard screw slot sizes.
- Smooth, burr-free rounding of the end of the handle prevents friction in the palm of the hand.
- Rounded ergonomic shape with comfortable easy-grip surface ensures non-fatiguing working and high torque transmission.
- Non-roll flats.
- Marked with drive symbol and size.

with Kraftform handle

Kraftform handle made of impact resistant plastic **with integral soft zones** facilitates torque transmission and thus protects hand and arm.
Blade of high hardness special steel with special toughness; **diamond-coated tips.**
Hexagon profile blade from size 5.5 with hexagon flats for wrench assistance, nicromatt chromium plated surface.

Advantage:
- Very high wear resistance and secure fit in the screw due to diamond coating.
- Fast and ergonomic working due to the Kraftform handle.
- High transfer of torque due to integral soft zones.
- Non-roll flats.
- Marked with drive symbol and size on cap.

Blade screwdriver (slot-head)

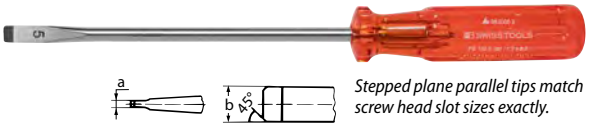
Forged blades, the tips are precisely manufactured to the standard sizes of slot-head screws.

Note: Optimum working life for blade screwdrivers if screwdrivers always match the screw slot size (see table).
Incorrect screwdriver size selection will cause damage to the screw head.

With cylindrical handle and round steel blade

"Classic" power grip of transparent, impact-resistant plastic (cadmium-free). **Blade** of PB Swiss Tools special alloy combines maximum hardness with exceptional toughness. With parallel stepped tip. Surface nickel-plated and chrome-plated, black tip.

Standard: Similar to **DIN 5265 form A.**



Stepped plane parallel tips match screw head slot sizes exactly.

66 4201

Coin Driver with handle

Blade of PB Swiss Tools special alloy combines maximum hardness with exceptional toughness. Surface nickel-plated and chrome-plated.

66 4311 – **Power grip** with skin-friendly elastomer coating and a core of particularly tough and impact-resistant polypropylene. The special surface structure allows transmission of high torques, even with wet or oily hands.

66 4312 – **SwissGrip Evo power grip** allows transmission of the required torque with no problems, even with wet or oily hands. Work without getting tired thanks to modified circular shape. High-tech 3-component materials improve the chemical and mechanical resistance.

Application: For unscrewing plastic screws and blanking plugs (e.g. battery compartment cover) without damaging them.

Wera Screw holder

Permanently elastic blade grip for sliding on to screwdriver blades and bits. The resilient and highly wear-resistant screw grip retains the screw mechanically. Screwing the screw into the workpiece releases the screw automatically.

Size 2; 3 – For screwdrivers **fully insulated** to VDE.

Suitable for: All commonly-used screwdrivers and long bit blades. Can be used for round and hexagon shaft screwdrivers, irrespective of the drive profile.

Application: For holding screws when working in narrow areas.

wiha VDE range „speedE® II electric" cordless bit screwdriver with interchangeable blades

Quicker working due to electronic screw tightening over 2 power levels: 0.4 Nm and 1.0 Nm. This opens up a new range of applications. A material protection function for both power levels is integrated, which switches off the screw tightening function after the tightening torque of 0.4 Nm or 1.0 Nm is reached. Further tightening by hand is possible without having to change grip, using the electronic ratchet. The manual strength of the user determines the maximum tightening torque. The integrated ring LED ensures optimum illumination of the screw during the screw fastening. Holder and bits **fully insulated to 1000 V** to **DIN EN IEC 60900 / VDE 0682-201.**

Supplied with: E-screwdriver handle speedE® II
1× slimBit SL 0.6×3.5; bit length: 75 mm.
1× PowerBit SL/PZ2; bit length: 75 mm.
USB charger (without mains adapter).
2 rechargeable Li-ion batteries.
In a sturdy plastic box L-BOXX® Mini

Quick and efficient screw fastening by cordless drive

Electrician's screwdriver for PlusMinus screws (Pozidriv/slot-head)

Handle and blade **fully insulated up to 1000 V to DIN EN IEC 60900 / VDE 0682-201.**
Each of these screwdrivers is individually tested in a water bath for insulation breakdown under high voltage.

Application: For use at voltages up to 1000 V.
The screwdriver drive tip fits perfectly into the **PlusMinus screws (combination Pozidriv / slot-head)**, which are primarily used in electrical installation components.

with 2-component Haptoprene power grip, fully insulated

Ergonomically shaped **power grip** with easy-grip **Haptoprene** surface and an impact-resistant plastic core. The special surface structure allows transmission of high torques, even with wet or oily hands. **Blade** of chrome vanadium steel. Surface nickel-plated and chrome-plated, black tip. With **SLIM blade** = reduced blade/and insulation diameter for deep-set screw and spring elements **(insulation ∅ = blade ∅).**

Insulation ∅ = blade ∅

ESD – four golden rules

1. Always assume that **all active devices are ESD sensitive**.
2. Handle electronic devices **only in electrostatic protected areas (EPA)** and only if they are **properly grounded**.
3. **Store and transport** ESD sensitive devices in ESD protected containers.
4. **Check** the ESD protection system regularly.

Follow the principle
"Where there is no charge, there can be no discharge".

Making as few movements as possible and using ESD safe equipment keeps the risk of static charge caused by personnel to a minimum.

More about the basics of electrostatic charges and discharge can be found under:

https://hog.tools/esd

Symbol for a component that requires ESD protection

Warning symbol for ESD sensitive devices

Precision screwdriver set

Precision handle made of easy-grip plastic with rotating centring head, clamping mechanism with union nut for fixing the bits at the desired length (telescopic blades). **Blades** of PB Swiss Tools special alloy combining maximum hardness with exceptional toughness. Very high precision tips. Surface nickel-plated and chrome-plated, black tips. Supplied in a plastic tool roll.

Bit

Blade made of high quality tool steel.

Suitable for: Screwdriver holder No. 66 9931.

Note: See under 669933 – 669936 for further bits.

Koken Hand impact driver set in sheet metal case

Solid handle with hexagon socket for holding interchangeable bits.
Reversible, for right-hand and left-hand threads.
Bit holder (5/16 inch) removable, allowing sockets with 1/2 inch square drive to be used without adaptor.
For suitable spare bits see No. 675400 – 675470.

Application: The best tool for loosening tight screws with one hammer action or for tightening screws exceptionally well.

67 3000

Set contents		5
63R 67 3000	Hand impact driver set in sheet metal case	eShop
Content: Holder with bit adaptor similar to No. 676945		1pc. size 2/16
Slot-head blades		9; 11 mm
Blades for Phillips		Size 2; 3

Wera Impact screwdriver set KK900

For loosening stubborn screw connections.
The hammer pulse is converted into a rotary motion with a release torque of approx. 25 Nm.
The through blade ensures zero-loss power transmission.
For use with specially hardened and extra tough bits with 1/4 inch hexagon head drive.

Advantage: Impact wrench and screwdriver functions can be switched as required.

67 3010

Number of pieces		19

Supplied with: Impact driver bit for Phillips, 70 mm		1 pcs. each PH1; PH2; PH3
Impact driver bit for Pozidriv, 70 mm		1 pcs. each PZ1; PZ2; PZ3
Impact driver bit for hexagon, 70 mm		1 pc. each size 3; 4; 5; 6 mm
Impact driver bit for Torx, 70 mm		1 pc. each size TX15; TX20; TX25; TX30; TX40
Impact driver bit for slot-head, 70 mm		1 pc. each size 4; 5.5; 6.5 mm
Impact driver handle		1 pc.

D 6.3

Wera Adapter for Impaktor bits (2-component system)

For absorbing extreme peak loads when used in IMPACT screwdrivers.
When used in combination with IMPAKTOR bits, the integral double torsion spring creates the first Tri-Torsion system in the world. It provides working lives up to 10 times longer than standard bits.
Shank machine E 6.3 (1/4 inch), bit holder to DIN 3126 D 6.3 (1/4 inch).

Size 6,3 – Made of stainless steel with snap ring and magnet.
Size 6,3R – With snap ring and **ring magnet sleeve** – holds screws reliably.

overall length	mm	75	

Wera Set of bits for IMPACT screwdrivers

Selected steel quality, hardening technique, production process, and special geometries lead to outstanding results with IMPACT screwdrivers. In connection with the diamond coating (significantly reduces cam-out forces) and the torsion zone, **working lives up to 5 times longer** than standard bits are achieved.

Application: Due to their rotational impact function, IMPACT screwdrivers generate a number of peak forces, which "normal bits" cannot withstand over the long term.
IMPAKTOR bits are specially designed for use in impact screwdrivers and, depending on the drive, increase the working life of the bits to several times the life of conventional standard bits.

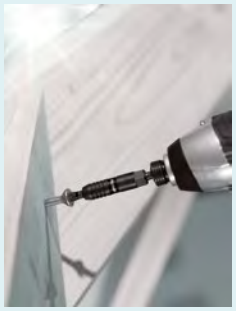
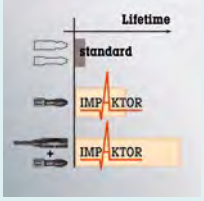
Wera Impactor technology

Impactor technology ensures above-average tool life under extreme conditions.
Increased frictional resistance due to diamond particle coating on the bit tips prevents cam-out from the screw.
Especially suitable for use with commercially available impact screwdrivers / wrenches.





wiha Set of TY® bits

The TY® bits are 29 mm long. The additional length of 4 mm compared to 25 mm bits provides a longer torsion zone, resulting in longer working life. Ideal for high-powered power drills and impact screwdrivers.
Bits are stored in the BitBuddy® plastic holder, allowing easy one-handed change of the bit directly from the holder into the screwdriver.

Advantage: The coloured bits can be found quickly and easily, and thanks to the fluorescent coating can be found even **in the dark using UV light**.

Note: A suitable LED / UV torch can be found under No. 081518 UV-LED.

WERA

67 5000 – Adaptor to DIN 7427 B with snap ring.
67 5010 – Adaptor with magnet and snap ring for C 6.3 bits (the magnet holds the screw).
67 5020 – **"Rapidaptor"** adaptor with automatic **quick-release adaptor** and magnet for C 6.3 and E 6.3 bits (the magnet holds the screw).
Size 6,3S – Of stainless steel "Stainless", without magnet.
Size 6,3R – The floating, free-running ring magnet sleeve reliably holds even long and heavy screws (only for C 6.3 bits).
67 5030 – **"Rapidaptor" BiTorsion** adapter with automatic quick-change coupling and magnet for C 6.3 and E 6.3 bits. The integral precisely calculated torsion zone significantly reduces the load on the bits and therefore considerably increases their tool life. For use in combination with **BiTorsion** bits No. 675510 – 675550.

Note:	Rapidaptor free-running adapter available (No. 675035 size 6.3F).

Bit 1/4 inch C 6.3

For use in manual drivers or machines with suitable hexagon holder or for use in adapters No. 675000 – 675050.
67 5350 – With centre hole for tamper-proof screws.
Standard: DIN ISO 1173.
Material:
67 5105–5270/5310–5395/5510–5565 – Chrome vanadium special alloy, **toughened.**
67 5281–5300 – High-tensile special steel combining maximum hardness and special toughness.
67 5490–5496 – Stainless steel.

The Hoffmann Group 1/4 inch bits C 6.3

Garant / Holex		67 5105, 67 5115, 67 5155	67 5541, 67 5544	**Garant:** With torsion zone, toughened. The torsion zone reduces the peaks of force when screw driving. Protects the screw profile and gives longer tool life (apart from size TX40). **Holex:** Standard design, high strength.
		67 5125	67 5547	Standard design, high strength.
PB Swiss Tools		67 5281, 67 5285, 67 5290, 67 5295, 67 5300		Strong elasticity and toughness combined with high hardness for a long tool life. High precision drive tips for perfect fit in the screw head and "Anti-cam-out". The nano-coating is both a colour code and an attractive anti-rust protection.
Wera		67 5200, 67 5220		With torsion zone, toughened. The torsion zone absorbs the peaks of force when screw driving. Protects the screw profile and gives longer tool life.
		67 5240, 67 5270, 67 5250, 67 5310, 67 5320, 67 5340, 67 5350	67 5360, 67 5370, 67 5390, 67 5395, 67 5565	Standard design, high strength.
		67 5330, 67 5380		With torsion zone, hard. Ideal for light applications (e.g. screw driving into wood, plastic etc.).
		67 5490 up to 67 5496		With torsion zone for reduced peaks of force when screw driving. Stainless steel, toughened by vacuum ice hardening.
		67 5510 up to 67 5550		BiTorsion design with reduced hardness in the torsion zone to absorb load peaks = longer tool life. Optimum effect when used with BiTorsion quick-change toolholder No. 67 5030.

For hexagon socket head screws DIN 7426.

Hex-plus profile
Low surface pressure
Low notch stress
Longer working life for the screw

67

Bit set, large

67 5598 – The bits with length 29 mm and 50 mm have a longer torsion zone, resulting in a longer tool life. Ideal for drill/drivers and impact wrenches.

67 6040 – System box of virtually indestructible ABS plastic with integral hinges and snap fastener. The bits are widely spaced so that when the box is open they can be easily accessed and taken out.

67 6061_Detail

Up to **four screw tightening speeds** within a handle, optionally by the press of a button or a planetary gearbox that can be **engaged/disengaged**. Switching off is recommended before fine adjustment and the final tightening or release of a screw with a high torque (up to 14 Nm).
Kraftform handle with **Rapidaptor bit holder** for 1/4 inch bits with C 6.3 and E 6.3 shank.
Supplied in a sturdy textile tool roll with hook and loop fastener.

Advantage:
- Powerful final tightening and simple fine adjustment.
- Purely mechanical 4-fold**multiplication** (without battery) of the screw speed.

PB SWISS TOOLS "Twister" ratchet handle for 1/4 inch bits, reversible

D 6.3

SwissGrip Evo ratchet handle allows transmission of the required torque with no problems, even with wet or oily hands. Work without getting tired thanks to modified circular shape.
High-tech 3-component materials improve the chemical and mechanical resistance.
For left-hand and right-hand driving (working arc 15°) plus integral central setting (ratchet locked).
Bit holder with strong permanent magnet.

Suitable for: 1/4 inch bits with C 6.3 shank.

D 6.3 F 6.3

Wera Screwdriver holder for 1/4 inch bits with telescopic blade

Kraftform handle with **retractable telescopic blade with"Rapidaptor" quick-change holder.**
The shank is extended by simple actuation of the locking sleeve; the handle then becomes a fully-fledged screwdriver. By actuating the sleeve again the shank can be removed and used as a coupling shank for power screwdrivers.
Suitable for: 1/4 inch bits with **C 6.3 shank and E 6.3 shank.**

Tool set

Compact tool range with the most important tools for mechatronics engineers and electricians,
fully insulated up to 1000 V according to **DIN EN IEC 60900 / VDE 06082-201**.
The TorqueVario®-S system provides controlled screw tightening and at the same time safety in electrical applications.
The 6 mm slimBits and sockets can only be used in the speedE®, slimVario® or TorqueVario®-S electric tools.

XL 2 Trolley electric tool case, 60 pieces

The XL 2 Trolley offers optimal storage space and a variety of organisation options for versatile use.
With 92 loops, two plug-in modules, a document and small-parts compartment and individually adjustable base divider, it keeps everything neat and tidy and provides quick access to tools.
Ergonomic and insulated screwdriving tools for safe work on electrical equipment, tested according to **IEC 60900.**

- Easy to transport: extra-long telescopic handle and smooth-running wheels ensure effortless transportation.
- Safe: gas pressure dampers prevent it snapping shut unintentionally and protect the fingers.
- Robust: Made of resistant polypropylene (PP), ideal for air travel thanks to the air pressure compensation valve.

Tools for bikes

A selection of suitable tool sets for bicycle applications is available from our e-shop.

Bicycle set 3, No. 68 0701 size 41

Compact bicycle tool set with ratchet, bit, sockets and a bit holder. Ideal as a universal companion for a wide variety of screwdriving applications. High-quality bit holder with Kraftform Plus handle for pleasant, ergonomic working that makes blisters and calluses a thing of the past. Supplied with two tyre levers with additional functions.

Bicycle set 5, No. 68 0703 size 5

Ultra-compact and lightweight bike tool with two 4-way bits and three tyre levers. Just one bit provides four different screwdriving profiles.

Tool set for electronics and electrical work

GRID LINE

Garant

Roller cabinet with general-purpose tool selection

Compact roller cabinet in the new GridLine range with 7 drawers, of which 4 are equipped with the high-quality professional tools supplied. Consisting of the following: Spanners, 1/2 inch socket spanners, screwdrivers, pliers, hammers, files, striking tools, bits, hexagon key l-wrenches and supplementary items. The contents of the other 3 drawers can be individually selected. The general-purpose tool selection fits precisely in two-tone PE rigid foam inlays, in which each tool has its own defined place in the roller cabinet. The drawers of the roller cabinet are unlocked using a central catch integrated in the handle.
Each 75 mm drawer is supplied with 1 slotted partition No. 951510 size 75, each 125 mm drawer is supplied with 1 slotted partition No. 951510 size 125. If desired, the worktop can be exchanged for another worktop (such as a bamboo worktop).

Note:	**Tools are supplied loose.** **Other tool organiser systems for roller cabinets can be found from No. 952048.** **The equipped roller cabinet 689000 size 1 can be dispatched only to destinations within the EU.**

Systematic. Divisible.
With 7 drawers, offers room for a large number of tools.

Large area. Practical.
Scratch-resistant and non-slip X-ABS tray, which does not damage surfaces.

Visual. Powerful.
Two-tone powder-coated, silver combined with RAL 7016 anthracite.

PARAT® PARAMOVER® transport system

Three-piece handlebar made of robust lightweight aluminium with two 360° rotating case carrier plates that allow access to the tool cases at any time without needing to remove them. A toolbox is integrated at the bottom; it has a storage capacity of 48 litres and is ideal for tools. Each tool case is equipped with two tool boards and four toolholders and offers a capacity of 35 litres, in addition to an extra-large base tray with a height of 120 mm. The tool case is opened at the side, and the cover contains a document compartment, two business card pockets and two pen loops. For easy transport, the PARAMOVER® is equipped with non-slip handles made of TPE, which have a nubbed surface. The two free-running wheels have ball bearings and a diameter of 160 mm, ensure that the PARAMOVER® can be moved easily on uneven surfaces and offer a high load capacity.

Modular X18 textile tool rucksack

- Practical and comfortable: fully fold-up front, removable tool board and ergonomic back padding.
- Individual: optimum flexibility thanks to innovative FIDLOCK® adapter and MOLLE straps.
- Ready for any challenge: with two separate internal compartments for tools, measuring devices, notebooks or tablets.

Tough fabric made of sustainable recycled synthetic fibres: splash-proof and easy to clean. Waterproof base shell made of impact-resistant plastic for stability when open and closed, 6 cm high. 1 MOLLE strap inside and 4 MOLLE straps outside for attaching any adapters, carabiners, accessories as required. Quick FIDLOCK® connectors: a magnetic fastener allows the chest strap and modular pockets to be fastened or released in no time.
With a total of 21 holders and 37 pockets, some with zip fasteners, which can be locked. Also with case tab for attaching to telescopic handles on tool cases. Tested load capacity: up to 15 kg tool weight. Large tool board in the front can be fixed in various positions.

Material: Made of tough and sustainable recycled synthetic fibres.

Separate laptop compartment (up to 15 inch)

Comfortable back padding with integrated FIDLOCK® fastener.

Large tool board in the front area with adjustable opening width.

Garant GreenPlus textile tool bag

The new **GARANT GreenPlus textile bags** combine the best of 2 worlds: They impress with their sustainability while being very comfortable to wear and offering outstanding ergonomics, excellent durability, ideal access and optimum flexibility. They are produced according to the comprehensive and strict standards of the **bluesign®** system, taking into account the needs of people, the environment and resources. Help shape a more sustainable future. With optimised padding system for even better ergonomics and comfort.

69 2210

Textile tool rucksack with 2 main compartments:

- One main compartment with 2 inside pockets, a robust tool board with 32 shaft pockets and a lockable zip fastener.
- One main compartment with 2 separate, padded compartments for laptops up to 15 inches and tablets and a lockable zip fastener.

Front pocket on the rucksack with mobile phone pocket and business card pocket, pen loops, key holder and 2 storage compartments. Small front pocket with orange zip fastener. With compression straps at the side to reduce the volume so that the weight can be carried as close to the body as possible and to allow additional equipment to be attached to the outside. Anatomically shaped shoulder strap and padded carrying handle. With ergonomic body-contact back system and breast strap for perfect load distribution and optimally balanced, secure seating. Splash–proof base with water edge and 4 stand feet. With elastic outer pockets and a reflective strip for good visibility.

Material: A combination of 420 denier nylon yarn and 200 denier polyester yarn, for impressive tear-resistant and lightweight performance.

Weight	kg	2.3

The backpack trolley can be easily pulled and carried on the back, both via the telescopic handle and the integrated wheels.
The wheels can be covered with a protective cover, which prevents any dirt coming loose during carrying.
The adjustable non-slip and stow-away shoulder straps with padding ensure pleasant wearing comfort.
With carrying handle, zip fastener and feet.
Internal: The backpack trolley has 2 removable tool boards which can be configured on both sides with 16 shaft pockets, 16 elastic straps and a padded compartment with that can be closed with a hook and loop fastener for a laptop up to 15 inches.
There is also a large zip fastener compartment inside, which provides further storage space.
External: 2 front pockets with zip fasteners.
Additionally 2 side shaft pockets.

Material properties of tool cases X-ABS

X-ABS

- Composite plastic (2 components).
- Good scratch resistance.
- Break-proof (suitable for air travel).
- Resistant to oils, greases, hydrocarbons and fuels.
- Immensely robust (e.g. on baggage conveyors).

- Highly impact resistant.
- High distortion resistance.
- Non-slip and does not damage surfaces (rubberised effect).
- Maintains all its materials characteristics in the temperature range – 45 °C to + 85 °C.

X-ABS | 30 kg

Garant Service tool case of X-ABS

X-ABS is extremely impact resistant, tough and thus **suitable for air travel.** The surface is scratch-resistant, **non-slip (rubberised effect)** and **does not damage surfaces.** Anodised double aluminium frame with integral toggle cylinder locks and glass fibre reinforced positioning hinges for case lid positioning.

Application: Optimal case for customer service and service engineers due to the shell material, which does not damage surfaces, and high strength with low weight.

69 2790

Internally fitted with stitched shaft pockets:
1 dividable base shell, including tool board with 6 shaft pockets as cover,
1 tool board with 14 shaft pockets and document compartment on the front and back.

Service tool case of polycarbonate

PC

- The integrated combination lock securely protects the case against unauthorised opening.
- Wide variety of storage options.
- Detachable wheels and push handle developed for tool cases for the first time.

- Stable and extremely shock-proof product made from injection-moulded polycarbonate – especially highly stressed areas can thus be provided with more material.
- The aluminium frame and the plastic corner guards provide a high level of stability at particularly stressed areas.
- The advantages of polycarbonate lie in its high impact toughness, strength, stiffness and hardness over a wide range of temperatures.

PC | 35 kg

Garant Service tool case of polycarbonate

The polycarbonate case shells are produced by injection moulding. The advantages of polycarbonate lie in its high impact toughness, strength, stiffness and hardness over a wide range of temperatures. Aluminium frame with plastic impact corners, integral combination lock and case lid positioning.

Garant "L-Trolley" tool trolley

The suitable roller trolley for transporting up to 5 items of the L-BOXX® size 102 (not supplied - see catalogue hand tools and measurement tools, material group 69).
The stable sheet metal housing of the tool trolley is fitted with perforated side panels for quick retrieval of accessories. With 4 castors, 2 of them with parking brakes.
With integrated central locking system for drawers. Tamper-proof anti-tilt device (only one drawer can be opened at a time). Two handles of 2-component Haptoprene on the top of the roller trolley. Shelf of sheet metal. Plastic protectors to protect the upper corners of the trolley and reduce the risk of collision that would damage delicate surfaces.
Simple attachment of L-BOXX®es by a click system, secured at the back by brackets to prevent slippage.

Suitable for: For L-BOXX®es see No. 693330, 693335 and 693337, size 102 in each case.
Colour: Two-tone **powder-coated**, silver combined with RAL 7016 anthracite.

Note: Please note the maximum load capacities of the individual pull-out shelves listed in the operating instructions.

69 3370

Cover for the L-BOXX® fully swing-back.

KNIPEX Front gripping pliers TwinGrip®, extra slim head

Special, extra slim head shape for use in tight spaces.
Box joint (= double guidance). Designed to prevent fingers being trapped.
Fine adjustment at intervals by means of a spring-loaded pushbutton, for precisely adapting the width.
Front gripping and side gripping function.
Jaws chemically greyed, polished head, teeth additionally induction hardened (approx. 61 HRC).

70 5991 – Plastic coated handles.
70 5993 – Handles with multi-component sleeves and KNIPEXtend interface.

Material: Chrome vanadium electro-steel, drop forged.
Application: Reliable frontal gripping of even flat workpieces due to three-point system. Gripping, tightening and releasing of even hardened screw heads as well as worn bolts and screws.

70 5991

70 5993

New type of front gripping function, including for worn bolts and screws.

The push-button allows the gripping capacity to be adjusted in five steps (in the case of size 200) directly on the workpiece and it then engages securely – no accidental adjustments.

SmartGrip® water pump pliers

Jaws chemically blacked, polished head, plastic coated handles.
Box joint (= double guidance). Designed to prevent fingers being trapped.
Stepped fine adjustment and fully automatic adjustment to the component by closing the handles.
Self-clamping on the component.

Standard: **DIN ISO 8976**
Material: Chrome vanadium steel, drop forged.

Automatic self-adjustment

Quick adjustment by pressing a button.

Works on the ratchet principle.

Cobra® water pump pliers with fine adjustment at intervals

Box joint (= double guidance). Designed to prevent fingers being trapped. Concave profile serrated jaws, self-clamping.

70 5800 Size 100 – Single-handed fine adjustment by sliding, no push button required. Handles ridged on the outside.
70 5850 – Additional quick adjustment at the workpiece without pressing the button. Plastic coated handles.
70 5900 – Pliers chrome-plated, plastic coated handles.
70 5950 – Jaws chrome-plated, handles with multi-component covering.
Size 125–560 – With **push-button fine step adjustment**.
70 5800 Size 125–560 – Plastic coated handles.
70 5800/5850 – Jaws chemically blackened, head bright polished.

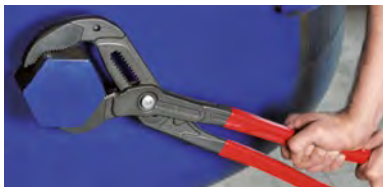
Standard: **DIN ISO 8976**
Material: Chrome vanadium electro-steel, drop forged.
Optional extras: Soft jaws No. 705805 size 180-300.

70 5800_100

70 5800_125

70 5800_250

70 5800_400



Self-tightening on pipes and nuts: no slipping on the workpiece; the entire operating force is available for turning the workpiece; there is no need to apply high force to close the handles, so little effort is required.

Cobra® QuickSet 70 5850
1 *Press the button – the pliers open fully.*
2 *Apply the top jaw – simply push the pliers closed.*
3 *The joint pin locks into position when force is applied.*

With additional quick adjustment

Mesh cutting pincers (pincers for wire mesh or steel fixers' nippers)

With special slim head and long handles. High strength precision ground cutting edges.

70 6665 – Induction hardened cutting edges, approx. 64 HRC. Plastic coated handles.

Standard:

70 6670–6675 – **DIN ISO 9242**

Material: Special tool steel, drop-forged, and oil-hardened.

Application:

70 6665 – Slim and narrow design for twisting difficult-to-access binding wires

70 6670/6671 – With special high leverage for interlacing mild steel mesh. Cuts soft wire up to 4.5 mm ∅. Reduced stress on sinews and muscles due to heavy damping of the cutting impact.

HOLEX Front-gripper grip wrench

Serrated jaws and sturdy spring steel body.
Span and clamping pressure adjustable with a knurled screw.
Fully nickel-plated. Handle with multi-component covering.

Material: Jaws of high-quality steel, hardened and tempered

Application: For gripping, tightening and loosening screw heads and bolts, as well as for clamping profiled and flat materials.
1. Use the knurled screw to adjust the gripping jaws to the screw head.
2. Tighten the adjustment screw another 90 – 180° clockwise.
3. Push the handles to lock the jaws. Turn and loosen the screw.

Garant Automatic grip wrench, self-adjusting

Automatically sets the appropriate clamping range for the jaws, allowing easy one-hand working. Setting the clamping force once ensures consistent clamping pressure over the entire clamping range.

Size 190 – Long, narrow jaw shape with serrated gripping faces.
Size 160; 230 – Oval jaw shape with serrated gripping faces.

Application: For quick and efficient gripping of profiled and flat materials. Clamping force up to 10,000 N.

Spare part: Spare springs No. 708301 sizes 5CJ and 8.5CJ.

HOLEX Angled grip wrench

Long slim jaws, angled 70°. Serrated on the inside; at the rear of the jaws a non-serrated area for clamping hoses. The special head shape ensures that in the clamped condition the handles do not obstruct the working area.

Material: Jaws of high-quality steel, hardened and tempered.

Application: For clamping and gripping in restricted and inaccessible places, where it is essential that the handles do not obstruct the working area.

Spare part: Spare spring No. 708301 size 7.

ORBIS Snipe nose pliers, offset, with cutter – insulated to VDE

Cutting edges induction hardened (approx. 64 HRC); suitable even for piano wire. Long snipe nose jaws with "WAVE profile" for gripping delicate parts such as cables or threaded rods. Inner face of jaws serrated near the tip. Handles with thick-walled grips **insulated to DIN EN IEC 60900 / VDE 0682-201 for working at voltages up to 1000 V.**

Material: Special tool steel, jaws bright finished. Handles with multi-component coverings.

Application: Ideal for electrical installation work - offset design for improved ergonomics and a clear view of the working area.

KNIPEX Assembly pliers for gripper rings (rings for shafts without grooves)

Jaws chemically blacked, polished head, plastic coated handles. Straight tips; flanged, i.e. to fit the holes in the gripper rings. With opening spring; size G0 with adjustment screw.

Standard: **DIN ISO 5743**

Material: Chrome vanadium electro-steel, drop-forged and oil-hardened.

Application: For **gripper rings** (rings for shafts without groove).

The entire tooling catalogues for the following brands are available from the Hoffmann Group – just ask for them!

Hose clip pliers for hose clips with lugs

Sturdy model with slim head and long handles. Chemically blacked, polished head, PVC coated handles.

Material: Special tool steel, drop-forged, and oil-hardened.

Application: For fitting 1-lug or 2-lug hose clips on axle sleeves, coolant pipes and fuel pipes, compressed air systems, compressors. The special arrangement of the jaws allows the clips to be pressed either at the end or at the side, depending on the accessibility of the working area.

Pressing at the side face.

LINDSTRÖM RX Precision electronics side cutters

Slim style with precision ground induction hardened jaw edges (63 – 65 HRC). Black surface to reduce reflections. Adjustable precision screw joint for minimal friction and optimum axial alignment of the cutters. **Suitable for ESDs,** with ergonomic **2-component** grips.
The patented opening spring reduces the resistance when closing the cutter. Thus the force is concentrated on the cut.

Material: High-performance ball-bearing steel, drop forged, burnished.

Cable stripping tool

Rotating knife for circular, longitudinal, and helical cutting. Adjustable depth of cut. The Vee-shape cable holder adjusts automatically to the required cable ∅. Retaining clip with integral cutter for breaking out the part of the insulation that has been cut. The cable sheath is cut by twisting and pulling the cutter.

72 8040 – Supplied with 1 spare blade in the handle.

Advantage: **Insulation can be stripped** from the cable **at any desired place**. Very sturdy design.

intercable Cable stripping tool

Size ABI1 – Universal external sheath cutter with spring quick-release clamping system for removing all plastic insulation layers from **cable ∅ 4.5 mm to 29 mm.**
Suitable for soft and hard insulation types of cables. Special grinding of the blade for clean removal of the outer sheath. **Suitable for circular, longitudinal and helical cutting.** Cutting depth adjustable in increments from 0.1 mm - 3 mm using rotary knob (clockwise direction). The special sliding characteristics of the contact surface ensure resistance-free work on the cable.

Size AV6220 – Cable stripping tool for stripping all the layers of plastic insulating external sheath **from cables of ∅ 25 mm.** Cutting on a **ratchet principle** without application of large forces. Suitable for cutting circumferentially and longitudinally.
Cutting depth adjustable from 0 – 5 mm. With exchangeable blade

Advantage: **Insulation can be stripped from the cable at any desired place.**

Weidmüller Wire stripping and crimping tool stripax® plus

Very sturdy, lightweight body made of glass fibre-reinforced plastic. The blades adjust automatically to the various cable diameters. The insulation is cut and removed in one operation. With length stop and wire cutter. Installed crimping station with magazine for terminal sleeves (on strips, incorporated in the handle).

Advantage: **Cutting** and **stripping** the cable as well as **crimping** of terminal sleeves **with only one tool,** no need for laborious tool changes.

Application: Wiring and installation work in small series production (e.g. control cabinet building).

Optional extras: Terminal sleeve sets, 500 pieces each (10 strips with 50 pieces each) No. 729497 in sizes 0.5; 0.75; 1.0; 1.5; 2.5.

Note: Only terminal sleeves strips No. 729497 from Weidmüller may be used. Feeding terminal sleeves from rollers can lead to defective work.

Electrician's multi-tool NexStrip®

Very sturdy light-weight body made of glass fibre-reinforced plastic with ergonomic two-component handle. Stripping flexible and solid conductors of 0.03 – 10 mm² (AWG 32 – 8). Optimum adaptation to special materials or temperature conditions through fine adjustment.
Quick and precise square crimping of individual terminal sleeves to DIN 46228 part 1 + 4, from 0.25 – 4 mm². Self-adjusting – permits quick switching between various sizes. With length stop and wire cutter.

Advantage: **Cutting** and **stripping** the cable as well as **crimping** of terminal sleeves **with only one tool,** no need for laborious tool changes.
Application: For wiring electronic devices, such as PLC (programmable logic controller), in household installations or in mobile homes.
Spare part: Spare blade available under No. 728714 size 10 and length stop available under No. 728715 size 10.

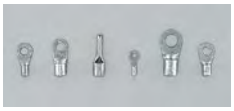
Crimping tool for cable lugs, connectors, and spade lugs

Crimping tool with compound action

Steel body with compound action. Defined crimping force accurately ensured by integral stop function.

- 72 9709 – **GARANT:** Made of high-tensile special steel. **Ergonomically optimised soft anti-slip handles.** Optimum crimping due to special profile geometry.
- 72 9715 – Precision profiles, high leverage.
- Size 6ISG – Further development of the 6IS with double crimp action.
- 72 9720 – Economy version. F48/63 including holder for blade terminals.
- 72 9722 – Made of special steel. Precision profiles, very high leverage - particularly useful for crimping large cross sections.

Size IS = Insulated cable lugs, plugs, connectors.



Size NIS = Non-insulated cable lugs, plugs, connectors.

Size F = Non-insulated tab connectors.

RENNSTEIG Crimping system tool – a wide range of applications (e.g. solar contacts)

A selection of other crimping solutions such as crimping inserts or contact mountings is available in our eShop.

Crimping system tool PEW 12:

No. 72 9660_200

Crimping tool for crimping almost all current types of crimp connector.

- Steel body with optimal lever action.
- Burnished surface.
- 2-component handles.
- Reliable crimping results thanks to integrated forced completion with emergency release.

Accessories:

If you need to work on **solar connectors, as well as in many other applications**, you can choose from a wide range of different **crimping solutions for the PEW 12 system.**

72 9665_570

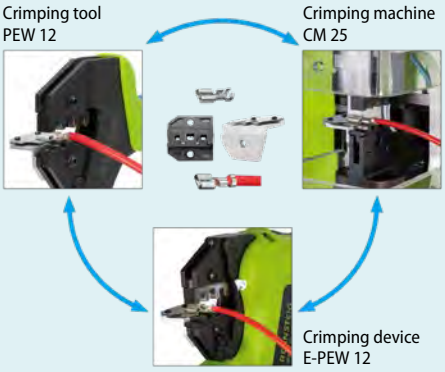
72 9665_1193

E.g. crimping insert set (crimping insert and contact mounting):

- No. 72 9665_570 for Stäubli MC4 contacts (conductor cross-section 2.5 - 6 mm²)
- No. 72 9665_1193 for Stäubli MC4 contacts (conductor cross-section 4 - 10 mm²)

for Stäubli MC4

System PEW 12:



Crimping solutions also suitable for RENNSTEIG – cordless mechanical crimping device E-PEW 12 and crimping machine CM 25-1.

Four-pin crimping tool for industry and aerospace

Industrial version

Size 6,0/K – With standard contact mounting for Harting, HTS, Ilme and comparable contacts.
72 9540 – Crimp mandrel advance can be adjusted in steps of 0.01 mm.
72 9550 – Crimp mandrel advance can be adjusted in steps of 0.01 mm and read digitally. With recalibration function. Electronic wear monitoring. Different setting functions can be called up.
Size 2,5 – With standard contact mounting for Coninvers and comparable contacts.
72 9560 – Special crimp pliers for processing turned contact pins and socket contacts in the DT series of TE Connectivity (previously: Deutsch contacts). Crimp mandrel can be adjusted via Selector with 8 positions. **Optimised opening aperture, ergonomic design and reduced manual force requirement.** Quality testing by means of Go-Nogo gauges **(optional No. 729561 size 3).**
72 9540–9560 – Reliable crimping due to positive barrier and synchronised advance of the crimping pins.
72 9540/9550 – Use the check pin supplied to check the basic setting.

Application:
72 9540–9560 – For turned pin and socket contacts

Supplied with:
72 9560 – Four-pin crimp tool with universal contact mounting in system packaging.
72 9540/9550 – Four-pin crimp tool in a case.

Aerospace version

Reliable crimping due to positive barrier and synchronised advance of the crimping pins.
72 9525 – Crimp mandrel advance can be selected according to MIL within a range of 8 positions. Individual contact making and multi-pin contact making available. MIL positioning can be performed without problems. **Optimised opening aperture, ergonomic design and reduced manual force requirement**. Selector position can be read from both sides of the crimp tool.
72 9530 – Crimp mandrel advance can be adjusted in steps of 0.01 mm and read digitally (setting in mm and inch). Use the check pin supplied to check the basic setting. With recalibration function. Electronic wear monitoring with warning function. Setting function can be called up. Can be used with Rennsteig and MIL positioners.

Application: For turned pin and socket contacts with crimp geometry similar to MIL.

Supplied with:
72 9525 – Four-pin crimp tool in system packaging.
72 9530 – Four-pin crimp tool in a case.

Note:
72 9525 – The selection of the crimp tool and contact mounting depend on the respective application. There are various contact mountings, depending on the insertion system. These are available on request.

Large crimping tool for non-insulated tubular cable lugs and connectors

Sturdy head with compound action and integral rotatable form wheels.
Tubular handles with plastic grips.
Cross-section assignment visible on the form wheels.

72 9905 – Form wheel adjustment by one-hand operation.
Guarantees reliable cross-section assignment by synchronised form wheel adjustment.
With ergonomic 2-component handle and slip protection on both sides.

Size K06SYNCRO – Extendable lever arms.

72 9970 – With innovative i-crimping, suitable for multi-core compacted and fine stranded cables.
I-crimping allows values far in excess of normal requirements to be achieved.

Application: For non-insulated **tubular cable lugs** and **connectors** (standard design).

Note:	Not suitable for DIN compression cable lugs or for French CNF cable lugs. Crimping tools for DIN and French CNF cable lugs available on request.

HellermannTyton Cutting tool for plastic cable ties

The cutting tool consists of a light-weight plastic housing and an ergonomic non-slip handle for a comfortable and secure grip. With attachment eye for attaching a fall protection.
The tool includes eight interchangeable end caps for plastic cable ties of different widths and thicknesses.
Both the band and the head of the cable tie as well as KR series cable ties can be cut.

Advantage: The cable tie can be split at any point of the bundled cables without damaging the insulation or individual conductors.

Application: For flexible power cables, bundles and power/water lines as well as rigid bundled cables – wherever quality and effectiveness play an important role, especially in delicate cable harnesses.

72 9963

For safe removal of plastic cable ties without damaging insulation.

Cable cutter

Application: For cutting copper and aluminium cables.

Head with sickle-shaped blades. Scissors burnished, plastic coated handles.

Size 200 – Double blade gives particularly high cutting range.
73 0090 – Cuts smoothly and cleanly without crushing.
Size 225 – **Two cutting areas:** The stepped main cutting edge keeps smaller and larger cables close to the scissors at all times so that they do not slip during cutting; the front cutting edge is used for step-by-step cutting ("nibbling") of very large cables. **Enormous capacity:** cuts single-stranded copper or aluminium cables up to 35 mm², multi-stranded cables up to 70 mm² and fine-stranded cables up to 120 mm².
73 0095 – Less force required: separate cores or wires are cut through successively by the stepped blades. Cuts through solid copper and aluminium cables up to 5 × 4 mm².

Material: **Special tool steell**, drop-forged.

Ratchet cable cutter with telescopic handles

Effortless cutting due to optimum leverage and telescopic handles. The tool can be opened in any cutting position. Arm length extendable to multiple positions.

Size 630 – Adjustment range 600 to 810 mm.
Size 680 – Adjustment range 650 to 860 mm.

Material: Special quality tool steel, drop-forged, oil-quenched.

Application: For clean cutting of copper and aluminium cables. Suitable for cables with rubber or plastic sheathing and with steel strip armouring.

Note:	Not for steel wire and wire rope.

Ratchet cable cutter with compound action

Cutter head with sickle-shaped blade and compound action. Double blades ensure square cut. Shears can be unlocked, i. e. opened, in any cutting position.

Material: Special steel blades.

73 1050 Size 300 – Handles of sheet metal with plastic grips.
73 1220 Size 430 – Handles of stainless steel tubing with plastic grips.

Advantage:

73 1220 – Compact design and low weight in relation to the cutting performance.

Application:

73 1050 – For clean cutting of copper and aluminium cables. Ideal for use in confined spaces in control cabinets and cable ducts.

73 1220 – For clean cutting of copper and aluminium cables. Also suitable for cables with steel strip armouring.

Wire rope cutter

Sturdy design, drop-forged from solid steel. With screw joint and opening spring.
Cutter edge hardness 64 HRC. Handles with light PVC coating.

73 1550 – With integral opening spring and locking lever. Two integral compression profiles for Bowden cable end caps and wire rope end bushes.

73 1560 – with multi-component grips.

Material: Chrome vanadium special steel, oil-hardened.

Application: For cutting wire ropes, multi-core cables etc.

Sturdy metal central piece with handle of hickory, with nylon handle protection sleeve and ring wedge. The nylon inserts are impact resistant and wear-resistant, and are attached to the central piece by a double action system.

75 4120 – Central piece of steel.
75 4160 – Central piece of aluminium, black anodised.

Advantage:
75 4160 – Aluminium central piece = significant weight reduction. This permits precisely gauged working and also protects the wrist.

Application: For straightening or aligning components on machine tables or for application of light impacts in assembly work.

Spare part: Spare nylon insert available under No. 754180 and spare handle available under No. 751650.

Garant Soft-faced hammer with dead-blow absorption and exchangeable inserts

Soft-faced hammer with dead-blow absorption and removable functional inserts to allow use as a normal soft-faced hammer. Sturdy two-piece precision cast housing of high-quality heat treatable steel. Inserts can be combined and exchanged. With handle of American hickory wood, varnished.

Application: For straightening or aligning components on machine tables or for application of light impacts in assembly work.

Spare part: Spare handle available under No. 752530 and spare inserts under No. 752540– 752560.

HALDER SIMPLEX soft-faced hammer with exchangeable inserts

Sturdy, two-piece clamp housing with two exchangeable striking inserts. Suitable inserts are available for various types of work.
All insert types can also be combined with each other.
Soft-faced hammers and driving mallets: Aluminium or annealed cast iron housing; wooden handle.
75 3100 Size 100G; 125G – **Sledgehammers:** Annealed cast iron housing; American hickory wood handle.

Application: Size **A** = **Aluminium housing:** For light work, e.g. positioning.
Size **G** = **Annealed cast iron housing:** For heavy, powerful blows, e.g. driving machine parts into position etc.

Spare part: Spare handle available under No. 753400 and soft-faced hammer housing under No. 753310.

Note: Size codes **A** = Aluminium housing; **G** = Annealed cast iron housing.
Size 40A; 50A – No soft metal inserts (Ho No. 754000) may be mounted in an aluminium housing.

Spare striking insert

Application:

75 3450 – **Soft TPE plastic insert,** does not leave colour streaks. For laying tiles and parquet flooring, and installing windows and doors.

75 3500 – **Composite rubber insert** reinforced with textile fibres, hardness approx. 93 Shore; oil-resistant and non-ageing, for gentle positioning.

75 3600 – **Plastic insert:** Fairly hard, of transparent impact resistant red plastic.

75 3700 – **Super plastic insert:** Extremely impact resistant, unbreakable striking face with low wear. Will not break away. For gentle blows; particularly for blows to edges.

75 3750 – **Nylon insert**, hard, offers outstanding impact properties and guarantees maximum strength with maximum durability. Wear-resistant, durable and does not splinter even at minus temperatures. It is also oil-repellent and grease-repellent.

75 4000 – **Soft metal insert:** Of special alloy light metal with added copper. Does not damage the workpiece despite maximum impact effectiveness.

Note:
75 4000 Size 40–80 – Soft metal inserts must not be mounted in an aluminium housing.

Dead-blow hammer with exchangeable inserts

Dead-blow due to additional weights in the hammer body. Upon impact, the weights are thrown downwards and inhibit rebounding.

75 4700/4800 – Strong steel central piece (T-piece) with spigot and collar for holding the inserts. Inserts of wear-resistant nylon (medium hard).
75 4700/4810 – With handle of American hickory wood.
75 4800/4820 – With virtually unbreakable handle of SUPERGLASS glass fibre and black plastic grip.
75 4810/4820 – Strong steel central piece (T-piece) with collet and collar for holding the inserts. Inserts made of copper.

Application:

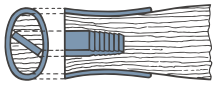
75 4700/4800 – For straightening or aligning components on machine tables or for application of light impacts in assembly work.
75 4810/4820 – For flush, precise blows and impacts for assembly work.

Spare part:

75 4700/4800 – For spare inserts see No. 754720 and 754730.
75 4700/4810 – See No. 754840 for spare blade.
75 4810/4820 – For spare inserts see No. 754760.

With hickory handle. 75 4700

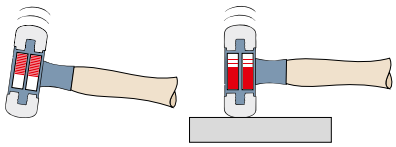
With virtually unbreakable SUPERGLAS handle. 75 4800



Unbreakable handle attachment in conically swaged extension tube.

With hickory handle. 75 4810

With virtually unbreakable SUPERGLAS handle. 75 4820



During the swing, the weights move upwards.
Upon impact, the weights are thrown downwards and inhibit rebounding.

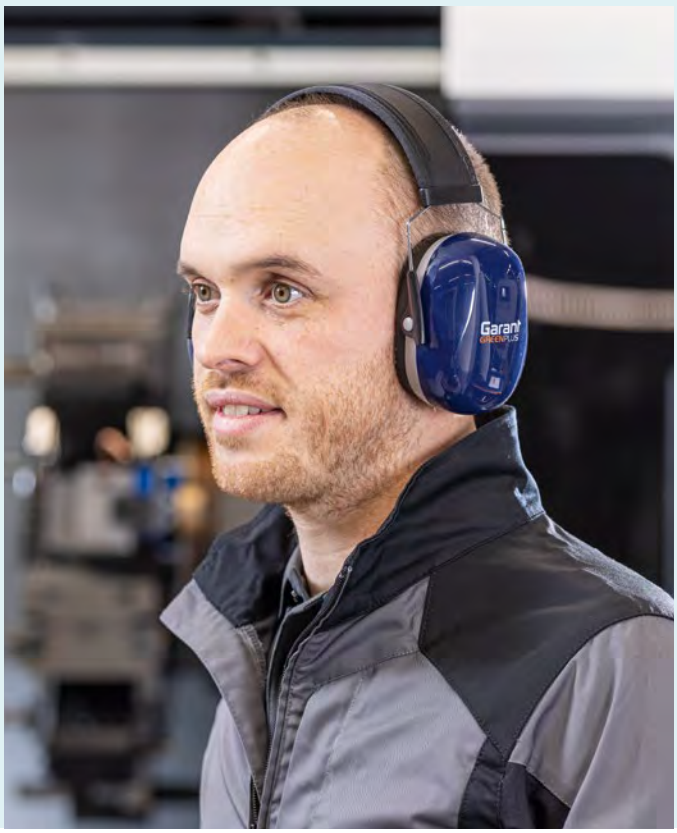
Volume 4 – occupational safety

So it doesn't fall on deaf ears.

Effective hearing protection is essential in many work environments. Our comprehensive range offers solutions that are optimally adapted to different work areas – from practical earplugs and robust ear defenders to custom-made otoplastics.

09 7772



All further product information can be found in our product group **hearing protection** in **volume 4** or in our **e-shop**.

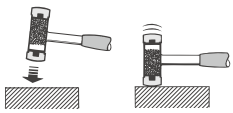
HALDER "Supercraft" nylon dead-blow hammer with exchangeable inserts

Sturdy steel T-piece with exchangeable top quality wear-resistant nylon faces. **Dead-blow** effect achieved by steel ball filling in hammer head.

75 4900 – Steel tube handle with oil-resistant rubber grip.
75 5001 – Unbreakable, non-slip 3-component handle with fibreglass core.
75 5100 – Handle of premium quality hickory wood.

Application: For straightening or aligning components on machine tables or for application of light impacts in assembly work.

Spare part: For spare nylon face see No. 754910.
75 5100 – See No. 755140 for spare blade.



During the swing, the loose filling moves upwards.

Upon impact, the steel ball weights are thrown downwards and inhibit rebounding.

Length cutter			mm	33

Ultra-fine serrated. Snip jaws made of high quality **stainless steel S** (HRC 60 – 62), forged solid steel non-slip handles.
Cutting capacity: Metal sheets up to 2.0 mm, stainless steel sheets up to 1.5 mm.
- Improved sheet metal clearance due to optimised cutting chamfer.
- Reduced opening angle of the handles and blade extension back to the pivot means less effort is required during cutting.

There's more in it for you!

The entire tooling catalogues for the following brands are available from the Hoffmann Group – just ask for them!

Erdi Ideal snips with double compound action

Shears head in stainless steel (min. HRC 61). Compact shears head with partly recessed head screws. 2-component handle with non-slip insert of soft material, easy on the hand. Reduced handle opening angle for optimised handling whilst maintaining the cutting length. Central locking bar for simple operation without changing grip (for right-hand and left-hand operation). **Cutting power:** Metal sheets up to 1.8 mm, stainless steel sheets up to 1.2 mm.

Advantage: Extremely robust fabric with sintered steel inlay for easy and wear-resistant cutting. Minimal applied force thanks to small opening width of the handle and double leverage.

76 7055

Small opening width whilst maintaining the cutter length.

overall length			mm	230

Length cutter			mm	30

Erdi Universal continuous cutting snips

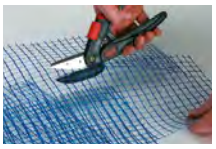
Blades of quenched and tempered high quality steel; offset to allow continuous cutting. Sturdy frame of glass fibre reinforced plastic with soft material insert, easy on the hand. Adjustable pivot pins, integral return spring and closure catch.

Cutting capacity: Aluminium / copper sheet metal up to 0.7 mm, standard sheet metal up to 0.6 mm.

Advantage: The offset jaws ensure the correct clearance between the hand and the material to be cut.

Application: Cuts materials up to medium thickness and hardness. For long and straight continuous cuts, and for large radius cuts.

76 7710



overall length			mm	235

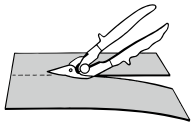
Erdi Continuous cutting tin snips with compound action

Similar to Ideal snips. Snip jaws made of **stainless steel** (HRC 60), handles of steel plate, nickel plated. 2-component handle with non-slip insert of soft material, easy on the hand.

Cutting capacity: Sheet metal up to 1.8 mm, stainless steel sheet up to 1.2 mm.

Application: For continuous straight cutting.

76 7600



overall length			mm	260
73X 76 7500	Continuous cutting tin snips	right-hand cutting		eShop
73X 76 7600		left-hand cutting		eShop
Length cutter			mm	32

Snip jaws made of **high quality steel** (HRC 60), offset for optimum hand freedom. Extra long, laterally offset blades for long, straight cutting. Handles of sheet steel, nickel-plated.

Cutting capacity: Aluminium / copper sheets up to 1.2 mm, standard metal sheets up to 1.0 mm, stainless steel (V2A) sheets metal up to 0.8 mm.

Advantage: The offset jaws ensure the correct clearance between the hand and the material to be cut.

Application: Particularly suitable for continuous long cuts and large radii in sheet metal, wire mesh, plastic screens, floor coverings, insulation materials, leather etc.

76

Hose shears

76 9940 – Shears body of die-cast magnesium with ergonomic rubberised handles. The blade has a PTFE anti-stick coating, which gives it outstanding anti-friction properties.
76 9960 – Handles with plastic coating and slip protection. Sturdy zinc die-cast pad for the hose.
76 9980 – Shears body of die-cast zinc. Cutter with PTFE anti-friction coating.
76 9940/9960/9980 – Sturdy hose shears for clean cutting. Broad Vee pad for hoses or plastic pipes. Exchangeable, specially hardened blades. The shears are **spring loaded** when opening and can be locked.
Application: Clean cutting **without crushing** due to the Vee-shaped cutter. Ideal for cutting hoses and also for some plastic pipes.

Note:
76 9940/9960/9980 – For plastic pipe shears see No. 819670; 819681; 819700.

Hand-operated shears

76 9930/9936 – Sturdy shears body of quenched and tempered steel. Moving blade guides free of play (with low friction losses), blades of special tool steel, specially hardened and ground. Lever arm with counterweight spring for protection in the event of accidents, all pivot pins adjustable, all models with steplessly adjustable clamping arm.
With compound action. Cuts sheet metals and round steel bar.

Colour:

76 9930/9936 – Red-brown.

Note:
- The following specifications are required for subsequent orders of spare blades: Make, model, and, if known, the machine number or accurate scale drawing.
- Please note: The indicated cutting performance is a maximum. If sustained use at the maximum cutting performance is required, we recommend the next larger model.
- Cutting performance specifications refer to materials of 450 N/mm² tensile strength.

76 9936 – For spare upper blade No. 769938 and spare lower blade No. 769939 see the spare parts list.

GESIPA® Pneumatic-hydraulic pop rivet tool TAURUS®

Operating pressure 5 – 7 bar. Removable rivet pin capture box.

Advantage: The **gripping jaw system** ensures very long tool life and a non-slip grip on the rivet spigot. Low compressed air consumption due to two-phase operation: for setting **and** for lifting away the broken-off tail. Very quick operating cycle.

Supplied with: Assembly spanners 12 / 14 AF and 14 / 17 AF.
1 bottle hydraulic oil 100 ml and 1 oil refill container.

Size 1 – Including nozzles 17/18, 17/20, 17/22.

Size 2 – Including nozzles 17/24, 17/27, 17/29, 17/32.

Size 3 – Inluding nozzles 17/ 36, 17/ 40, 17/ 45.

GESIPA® Pneumatic-hydraulic setting tool FireFox® for pop rivet nuts

Operating pressure 5 – 7 bar. Automatic nut spinning procedure as soon as the pop rivet nut is gently pressed on to the threaded pin. Extremely productive operation due to quick spinning and lightning-fast setting process.

Size 2 – Combines in **one single** tool the capability of inserting pop rivet nuts to a set force or a set stroke.

Supplied with: Two assembly wrenches 24 / 27 AF, 1 hexagon bit driver 4 AF, 1 bottle of hydraulic oil 100 ml, 1 oil refill container.

Size 1 – Nozzle and threaded mandrel M3, M4, M5, M6.

Size 2 – Nozzle and threaded mandrel M4, M5, M6, M8.

Note: Spare nozzles are available under No. 770516.

Single button operation *with automatic return and spinning back.*

Manual unspinning head *for defective or incorrect pop rivets.*

For pop rivet nuts.

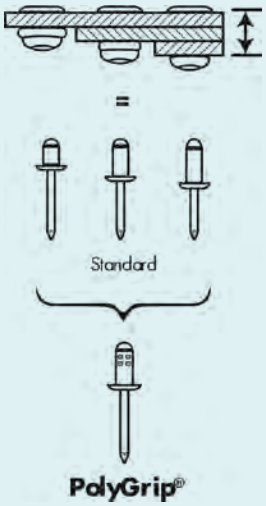
GESIPA® OUT OF THE BOX - PolyGrip® and PolyBulb®



POLYGRIP® MULTI-RANGE POP RIVETS

77 1010/_1020

Large clamping area

- One PolyGrip® dimension can replace up to five different dimensions of DIN standard pop rivets.

This provides the following advantages:

- Narrows down the types required
- Reduces the number of different types required in the warehouse.
- Reduces the risk of mix-ups, meaning fewer errors when working.

POLYBULB® POP RIVETS

77 1030

Advantages

- Large clamping area
- Large closing head
- Ideal for visible areas – aesthetically appealing appearance once installed.
- Controlled bearing stress – prevents stress whitening.
- Ideal for plastic riveting – high tensile strength and detachment force.
- Locked remaining mandrel – prevents rattling when in use.

Fields of application

- HVAC – heating, ventilation, air conditioning
- Automation

GESIPA® Blind rivets

Blind rivets ensure a permanently secure joining of various and sensitive materials, even if they are only accessible on one side.
Head shape: Dome head = FK; large flange head = K.

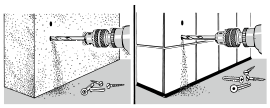
Carbide masonry drill



Hammer drilling in concrete and tiles.

Drill tipped with hard and tough carbide inserts and brazed at high temperature. Asymmetrical flute profile for good transport of drill dust.
Hammer and rotary bits with strong carbide cutter tip.

Application: Primarily for **drilling fastening holes with hammer drills** in concrete, masonry, natural and synthetic stone.Also for rotary drilling in hard and soft wood, plastics, acrylic and ceramic.
Also suitable for drilling hardened steel due to corrected cutting edge.

Carbide | max. 200 min^{-1}

Fine stoneware / tiles drilling set

78 7035

2 pieces. A drill with a **diamond-ground carbide tip** with a patented centring tip for highly accurate start positioning and exact holes without break-outs. With 10 mm shank. A carbide drill for use in standard drill chucks. With 1/4 inch (E 6.3) hexagon shank.

Application: For **very hard stoneware tiles** up to Mohs / scratch hardness class 9 and for glass and porcelain.

Note: Not suitable for hammer drills. Maximum spindle speed 200 rpm. No cooling required.

78 7035

1. Drill a hole in the tile

2. Drill a fastening hole into the masonry

Carbide

Garant

Carbide multi-purpose drill

Multi-purpose drill with **especially sharp carbide insert** for precise holes in different materials. Large-volume helical flute for **quick removal of dust and chips.** Shank of annealed special steel.

Application: For drilling various materials, including in a single operation:
- Bricks, porous concrete, lightweight materials, plastics.
- Tiles, ceramics, marble, glass.
- Metal and material combinations in a single operation, such as when fitting windows or when reinforcing concrete.

Note:
- **Caution: only for rotary use (without hammer action!)**
- **Faster drilling and more holes per battery charge than with hammer drill bits.**

The cutting edges must always be sharp. Sharpen blunt drills using a silicon carbide grinding wheel (e.g. No. 596100 - 596610_SC 80).

Carbide E 6.3

Milwaukee

Carbide multi-purpose drill

Carbide tip **with ground point and multi-purpose cutter angle. The centrally ground chisel edge** ensures accurate spot drilling also on hard surfaces. Shank of annealed special steel.

Application: For drilling various materials, in a single operation:
- Bricks, porous concrete, lightweight materials, plastics.
- Tiles, ceramics, marble, glass
- Reinforcing bars in concrete.

Note:
- **Attention: only for rotary use (without hammer action!)**
- **Faster drilling and more holes per battery charge than with hammer drill bits.**

The cutting edges must always be sharp. Sharpen blunt drills using a silicon carbide grinding wheel (e.g. No. 596100 - 596610_SC 80).

Milwaukee

Universal hole saw

Carbide teeth for a longer working life, even when drilling into dense materials. Wide and deep flutes for easy removal of the drilled core. Aggressive tooth geometry for up to 10x quicker drill progression in comparison to bi-metal hole saws. Ideal for use in the electronics area and installation area.

Application: For drilling larger holes and breaking throughs in various materials: masonry, lightweight materials, plastics, and wood. Unsuitable for use in hard materials such as concrete, granite, natural stone and hard tiles with a hardness greater than 30 N/mm².

Spare part:

78 8042 – Centre drills are available under No. 788051 and special adapters with centre drill are available under No. 788052.

Note:	**Use only with rotary drive (no impact).**

Carbide SDS PLUS

Carbide-tipped hammer drill – 2 cutting edges with SDS-plus shank

The 3 special Power Breaker projecting teeth of the M2 generate micro-cracks in the material being drilled, these promote quicker advance by the drill and faster removal of material.
The high quality carbide tip with particularly strong brazed joint guarantees long tool life, even in reinforced concrete.
The reinforced core flutes (KVS) are vibration-damping, so the impact energy is transmitted directly to the drilling tip.

Application: For drilling concrete, natural stone, and masonry.

Note: When using extra long drills (> 500 mm), first drill a pilot hole with a shorter drill of the same diameter (prevents bending and breakage).

Carbide | SDS PLUS

Garant

Carbide-tipped hammer drill – 2 cutting edges with SDS-plus shank

The distinctive and aggressive centre point permits active centring and optimum guidance during the drilling operation. Innovative head design with short straight lands for significantly faster drilling coupled with significantly improved stability, even in reinforced concrete. Vibration-optimised helical profile with reinforced core. The core diameter and the helix pitch of the drill are precisely matched to each other and ensure efficient transmission of force from the hammer drill to the carbide tip.

Advantage:
- **Short helical lands** and **concave rake faces** (scooping effect) ensure smooth evacuation of the drilling dust.
- **Wear marks:** for evaluation whether the tool is still suitable for drilling holes suitable for insertion of plugs.
- Additional **specially shaped core cutting edges:** efficient fragmentation of concrete.

Application: For drilling concrete, natural stone, and masonry - with very high drilling comfort.

Note: When using extra long drills (> 500 mm), first drill a pilot hole with a shorter drill of the same diameter (prevents bending and breakage).

Carbide | SDS PLUS

Garant Carbide-tipped hammer drill – 4 cutting edges with SDS-plus shank

Drill head with square cross-section. **4×90° geometry** with specially developed **equal height tips** and stable shoulders ensure precisely dimensioned holes for professional setting of anchors and secure plug attachment. 4-flute drilling heads for smooth drilling with low vibration and optimum guidance in the drilled hole. **Radially** shaped **reinforcement protection**: prevents jamming when hitting reinforcements and increases the working life.

Advantage:
- **Short spiral starts** ensure a **smooth evacuation** of the drill dust.
- **Wear marks:** for evaluation whether the tool is still suitable for drilling holes suitable for insertion of plugs.
- 4×4 design permits a **precise radial run-out** and **minimise wear and loss of frictional grip.**

Application: For drilling concrete, natural stone, and masonry – with very high drilling comfort.

Size 5×110–28×450 – Sturdy **single-piece** carbide head with 4 cutters, inserted as a solid item in the core of the drill. Significantly reduced risk of breakage.
Size 30×450; 32×450 – **3-piece** sturdy carbide head with reinforced centre point. Sturdy auxiliary cutting edges support the advance and thus permit sustained high performance and constant precision.

Carbide head with 4 cutters, inserted as a solid item (drilling head up to size 28×450).

Carbide head with 3 cutters with auxiliary cutting edges (drilling head from size 30×450).

Carbide | SDS PLUS

Carbide-tipped hammer drill – 4 cutting edges with SDS-plus shank

Drill head with square cross-section. Increased drilling speed due to 4-cutter head.
Double the service life compared to 2 cutters. Large-volume 4-flute design. Sharper angled tip:
more precision when drilling, no slipping along the surface, more aggressive in rebar and greater drilling speed.
PGM certified – verified precise and wall-plug-capable drill holes, both for chemical and for physical anchors.
Size 5×110–10×210 – 4-edged, welded-on carbide head.
Size 12×160–32×450 – 4-edged, slotted, robust and **one-part soldered-on** carbide insert.
New head design in combination with acute-angle tip permits optimum feed when encountering rebar.

Application: For drilling concrete, natural stone, and masonry – with very high drilling comfort.
Very smooth action, perfect for truly circular holes. 4-flute design for quick clearance of waste material, low vibration, and high stability. Less tiring for the operator and less load on the machine.

Carbide | SDS MAX

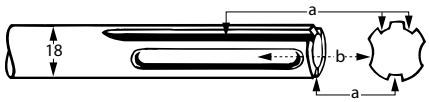
Carbide-tipped hammer drills with SDS-max shank

Drill head with square cross section from ∅ 16 mm.

Application: For drilling concrete, natural stone, and masonry.

Special carbide insert geometry for longer tool lives.
Sharper angled tip: More precise drilling, no slipping on the surface, aggressive drilling in concrete steel and faster drilling speed. PGM certified – verified precise and wall-plug-capable drill holes, both for chemical and for physical anchors. Large flute channels for quick evacuation of waste material, resulting in less friction.

Note: When using long drills > 500 mm, first drill a pilot hole at least 150 mm deep with a shorter drill (preferably of the same ∅).



Single-piece carbide head (up to ∅ 32 mm)

Hand and assembly tools

The whole tooling catalogue of these brands is available from the Hoffmann Group – just ask us for it!

8

Garant, VBW, BAHCO, KNIPEX, STAHLWILLE, REMS, RUNPOTEC, RIDGID, HOLEX

Pipe wrenches, pliers wrenches, adjustable spanners, cable pulling rods, pipe cutters, installation tools

81 862–875

GRESSEL, RIDGID, GEDORE, REMS, HOLEX

Pipe threading tools, pipe bender angle bender

82 876 – 879

Garant, RENNSTEIG, martor, PB SWISS TOOLS, NOGA, BAHCO, STAHLWILLE, TAJIMA, HOLEX

Punch pliers, wad punches, sheet metal punches, scrapers, deburring tools

83 880 – 893

Garant, martor, TAJIMA, VICTORINOX, LUTZ BLADES, BESSEY, MOZART, GERBER, HOLEX

Safety knives, cable knives, universal knives, precision knives, spare blades, pocket tools

84 894 – 914

8

Garant, BESSEY, KUKKO, RIDGID, REMS, HOLEX

Screw clamps, lever clamps, grip and universal clamps, welder's angle clamps, hand vices, pipe vices

86 915 – 926

Note:
For vices, see Vol. 3 "Workstations and Storage Solutions" – Group 96.

Vices

Garant, simatool, KUKKO, FACOM

Bearing extractors and separators, ball bearing insertion and fitting kits, nut splitters, heating device

88 927 – 937

Pipe wrench

Swedish design, with broad 90° offset jaw.
Fully forged with captive adjustment nut.
Material: Special tool steel; quenched and tempered, jaws induction hardened.

81 0100_1.1/2
Handle with reinforcing ribs (up to size 2).

81 0400

HOLEX Pipe wrench for one-handed operation

The spring-mounted floating jaw is adjustable by a knurled screw, quick pre-setting to the appropriate pipe ∅ by means of scale on the side faces.

81 0850 – Handle of pearlitic **malleable cast iron,** red paint finish.
81 0860 – Handle of **aluminium,** grey paint finish.
Around 40 % saving in weight compared to cast handles.

Application: Applicable like a ratchet due to spring-mounted floating jaw.
The jaws tighten themselves firmly on to the pipe when closing and free themselves automatically when the handle is released (one-handed operation).

There's more in it for you!

The entire tooling catalogues for the following brands are available from the Hoffmann Group – just ask for them!

Corner pipe wrench with S-form jaws

Swedish design, slim, specially formed jaws, self-tightening, offset 45°.
Fully forged with captive adjustment nut.

81 0500 – **HOLEX** with **S-form jaws** for 3-point pipe support.
Handles with **non-slip** plastic coating.

81 0700 – **VBW** for 3 and 4 point pipe grip.
Hexagon nuts and flat components can be gripped securely without deformation.
Handles with **non-slip** plastic coating.

81 0740 – **VBW** with **S–form jaws** for 3–point pipe support.

81 0745 – **KNIPEX** with S–form jaws for 3–point pipe support.

81 0600/0601 – **HOLEX** with **S-form jaws** for 3-point pipe support (economy version).

Material: Chrome vanadium steel; quenched and tempered, jaws induction hardened. Handles painted, jaws bright.

Pipe grip pliers (connector and siphon wrench)

81 3051 – With serrated gripping jaws.
81 3051–3053 – 25-step adjustable box joint. Quick step adjustment by means of a spring-loaded push button. Plastic coated handles.
81 3052/3053 – With interchangeable 2-component plastic jaws.

Material:
81 3053 – Chrome vanadium electro-steel, drop forged. Surface chrome-plated.
81 3051/3052 – Chrome vanadium electro-steel, drop forged. Surface black atramentised.

Application:
81 3051 – For pipes, round nuts, oil filters etc.
81 3052/3053 – For threaded connectors and couplings and chrome-plated or polished components (fittings).

Automatically tensioning belt wrenches (oil filter wrenches)

Handy shank with stainless steel belt. Moveable metal pressure piece with serrations for ratchet action.

Advantage: Working in very tight spaces. Quick and controlled tightening of the belt using the stop lever.
Application: For tightening / releasing round components (e.g. oil filters).

Quick release / slackening

Strap wrenches with fabric strap

81 1390 – Non-slip rubber fabric strap.
81 1400/1500 – Profiled shank; strong, wear-resistant, non-slip fabric strap, exchangeable.

Application: For gripping round parts, especially those with larger ∅.
81 1390 – For oil and water filters and sensitive screws for ∅ up to 200 mm.
81 1400 – Particularly for components with chrome-plated, polished surfaces (fittings).

Spare part:
81 1390 – Spare fabric strap for strap wrench see No. 811395.
81 1400 – Spare strap for strap wrench see No. 811410.
81 1500 – Spare fabric strap for strap wrench see No. 811510.

Pliers wrench

Ratchet adjustment at the push of a button and clamping lever for high contact pressure at the jaws. The travel between the gripping faces is large enough to permit **release and grip on a ratchet basis.**
Parallel guided, **smooth** jaws; chrome-plated version.

Size 180–300 – **Laser engraved scale** (front face **metric** and rear face **imperial**), allows the width across flats to be pre-set.
81 3501 – User-friendly working due to ergonomically shaped handles with non-slip plastic coating, reducing the risk of slipping. Pliers wrench, chrome-plated.
81 3700 Size 100 – Pliers wrench, chrome-plated, handles embossed rough surface. **Single-handed fine adjustment by sliding, no push button required.**
81 3702 – Pliers wrench, chemically blacked, plastic coated handles.
81 3720 – Pliers wrench, chrome plated, multi-component handles.
81 3722 – Pliers wrench, chemically blacked, multi-component handles.
81 3700 Size 125–400 – Pliers wrench, chrome plated, plastic coated handles.

Application: Grips screws, nuts, chrome-plated fittings etc. **without damaging them.**

Note:
81 3700–3722 – Soft jaws available under no. 813725.

Pliers wrench, VDE insulated

- Handle **fully insulated up to 1000 V to DIN EN IEC 60900 / VDE 0682-201.**
- With scale for correct setting away from the workpiece.
- Parallel guided, smooth jaws; chrome-plated version.
- Ratchet adjustment at the push of a button and clamping lever for high contact pressure at the jaws.
- The travel between the gripping faces is large enough to permit release and grip on a ratchet basis.
- Pliers wrench, chrome-plated.
- Handles with multi-component covering.

Application: For use at voltages up to 1000 V.

81 3851

Face gripped without play.

Laser-marked scale for pre-setting.

Works on the ratchet principle.

Overall length		mm	250
83D 81 3851	Pliers wrench **VDE insulated**		eShop
Jaw length		mm	30

Pliers wrench, self-adjusting

- Covers all **metric** and **imperial** dimensions in the respective application area.
- **Automatic and stepless** gripping of hexagon screws and nuts.
- Quick and secure screw fastening without removing the wrench, due to the mechanical **ratchet function.**
- Lever mechanism when gripping avoids slippage and damage.
- Particularly small **backswing angle** of only 30° due to the Vee profiles in the head across the corners.

81 3750/3755 – Individually tested tool in accordance with **DIN EN IEC 60900 / VDE 0682-201.** Safety is increased by the anti-slip protection at the front end of the handle. Additional protection through the sliding function for contactless and safe opening of the non-insulated jaws.

Material: Chrome molybdenum steel, matt chrome-plated.

Automatic and stepless self-adjustment.

Ratchet mechanism for quick working.

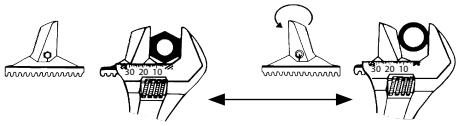
Adjustable spanners with scale

Adjustable spanners, centre adjustment

With ergonomic handle of thermoplastic elastomer. Jaw angle 15°.
Drop-forged, hardened and chromium plated.
By **reversing the rack jaw** the adjustable spanner **becomes a pipe wrench.**
The serrated jaw is induction hardened and guarantees a secure grip.

Standard: **ISO 6787; ASME B107.8M-2003**



Setting as an adjustable spanner. *Setting as a pipe wrench.*

Raptor® nut wrench

Jaws chemically greyed, polished head, plastic coated handles. Box joint, **ratchet adjustment** at the press of a button, protection against trapping fingers. Self-clamping in the range 17 – 32 mm, the specific jaw opening is large enough to permit **release and grip on a ratchet basis.**

Standard: **DIN ISO 5743**

Application: Quick tightening and releasing of metric and imperial hexagon nuts, even when painted over and with rounded corners. Ideal for lock nuts.

Ideal as "2nd wrench" when tightening lock nuts.

Rapid adjustment by pressing a button.

Cable pulling rod

Plastic cable pulling rod

4 mm thick plastic cable pulling rod, particularly pliable, very abrasion-proof, and electrically non-conductive. The material is non-buckling, holds its form and slides well.

81 4862 – Pulling rod of nylon. One end with a crimped-on helical shaft and steel head; the other end with an eye.

81 4865 – Pulling rod of perlon. One end with a **flexible starting head (RUNPOGLIDER)** and pulling eye; the other end screwed with a pulling eye.

Fibreglass cable pulling rod with box

3 mm thick fibreglass rod **accepts pushing force** yet is **highly flexible**; ideal for pulling cables into complicated runs where conduit is already laid or where there are many bends in the conduit.

81 4869 – With integrated digital meter counter.

81 4870 – Adhesive-bonded ferrule at each end with an M5 thread for optional attachment of spring guide tips, pulling grips or pulling eyes. Possible up to a radius of 30 mm.

81 4867/4869 – Ergonomic holding and carrying handle. Patented guiding head with anti-twist and kink protection (2 pcs. external thread Ø RTG 6 mm). Automatic glide back protection. Anti-slip coating. Suitable for construction sites, splash-proof and dust-proof, shock-proof and break-proof. Possible up to a radius of 38 mm.
Also compatible with RUNPOCAM RC2 (No. 814878) and the basalt rods (No. 814877).

Supplied with:

81 4870 – Accessories securely stored in a plastic box: 2 spring guide tips Ø 7 and Ø 10 mm, 5 pulling eyes, 1 pulling grip for cable Ø 6 - 9 mm, 5 starting/end joints, 3 coupling joints, 1 special adhesive 3 g, 1 power disc.

81 4867/4869 – Accessories securely stored in a plastic box: 1 flexible guiding head (RUNPOGLIDE) with anti-twist protection, 1 anti-kink end sleeve RTG Ø 6 mm, 1 pull-in aid, 1 special adhesive 3 g, 1 cable pull loop (Ø 14 mm external), 6 adhesive sleeves Ø 3 mm, 3 pull eyes Ø 7 mm, 1 starting bulb Ø 11 mm, 1 connecting sleeve, 2 mounting wrenches, 1 CR2032 button battery.

RUNPOTEC Basalt rod set in a textile bag

Flexible basalt rods each 1 m length with stainless steel thread at each end. The lengths can be determined individually by screwing the rods together.

Application: Ideal for working outside a pipe, such as in suspended ceilings or on studded walls.

Supplied with: 10 basalt rods 1 m long (5×Ø 7.5 mm (red / hard), 3×Ø 5.5 mm (black / medium hard), 2×Ø 4.5 mm (yellow / soft), 1 flexible guide tip, 1 extra powerful magnet, 1 ball chain, 1 ring head with ring, 1 arrestor hook, 1 threaded adapter, 1 stainless steel special slide hook, 1 LED lamp, 1 textile bag.

RUNPOTEC Multi-function camera RC2

Multi-function camera for visual inspection of places that are difficult to access. Compatible with all RUNPOTEC products with RTG Ø 6 mm, such as PowerRex (No. 814868), Runposticks (No. 814877), Runpo1 (No. 814865) and fibreglass rod (No. 814882).

- 3.5 inch TFT LCD colour display; focussing distance 30 mm – 80 mm.
- Camera head with 345000 pixels (640×480); image angle 64°.
- 6 pcs. LED incorporated in the camera head.
- Protection class IP 67 (camera head and cable).
- 230V or battery operation.

Application: Ideal for empty conduits (from internal Ø 14 mm), suspended ceilings, ducts and underfloor channels, maintenance and plant inspections.

Supplied with: 1 Runpocam RC2 with **cable (30 m)** incl. reel in carrying case, 1 each of 2-port USB charging plug 230 V and 12 V (car), 1 USB cable 3 m, 1 cordless LED high-performance lamp 320 lumens incl. charger cable, 1 micro-memory card 8 GB, 1 Runpoglider with front thread, 1 system slide, 1 magnetic fishing set, 1 connection thread set RTG Ø 6 mm, 1 fishing hook, 1 flexible attachment 12 cm, 1 thread attachment RC2.

RUNPOTEC Universal cable drum reel and dispenser

The compact X-BOARD – XB is a professional general-purpose cable drum for rolling up cables and unrolling them. It permits trouble-free and efficient working, without any risk of cable entanglement. The X-BOARD – XB is compact and light and is suitable for virtually any type of cable drum.

Size 300 – Load capacity up to 300 kg.
Size 500 – load capacity up to 800 kg. Height adjustable cover.

Advantage: 6 (size 300) or 12 (size 500) rubberised feet provide a secure, non-slip footing. Optimum for protection of surfaces on finished floor coverings.

Application: For all types of cables and conduits (cored cables, cable rings, cable drums, empty conduits, cords and cord drums). Especially suitable for damaged cable drums.

Note: Basalt rods No. 814877 can optionally be used as centring aids.

81 4879_500

The height-adjustable cover is perfectly designed to secure loose cables, cable rings or conduits in the X-BOARD XB500, thus preventing cables unwinding in an uncontrolled fashion.

	Diameter	mm	300	500
86A 81 4879	Universal cable drum reel and dispenser **X-BOARD**		eShop	eShop
	Height	mm	120	146
	Weight	kg	1.58	7.47

The multifunction mandrel can be combined with the cable unwinding system X-BOARD, XB300 and XB500. By placing it onto the central stainless steel mandrel and then unfolding the 4 side bars, loose cable bundles or single wires can also be unrolled. Telescopic central mandrel can be extended up to a maximum of 294 mm.

Garant Pipe cutter Universal

Extremely sturdy design for very heavy duties. Clean and reliable cut thanks to 4 guide rollers in a row.

81 8100 – Die-cast magnesium body. With spare cutter wheel No. 818110.

81 8130/8150 – Die-cast aluminium body. Quick adjustment spindle with ratchet and spring retraction. With spare cutter wheel No. 818110.

Advantage: Long working lives due to **TiN coated** cutter wheel. Saves effort and time due to:

- Ergonomic handle
- Lightweight design
- **Needle** bearings on the guide rollers and cutter wheel
- Detachable manual deburrer with **TiN-coated** S20 blade.

Application: Multi-functional use for cutting stainless steel, aluminium, brass, and copper pipes.

Spare part: Spare cutter wheel No. 818110.

Plastic pipe shears

81 9670 – Shears body of ergonomic **magnesium die-casting with rubberised handles**. Positive cutter advance because rack and cutter are combined in one unit. The blade has a PTFE anti-stick coating, which gives it outstanding anti-friction properties. Quick-change system for changing blades - no tools required.

Size 63 – Additionally **with a switchable pipe stop** for pipes ≤ 50 mm ∅.

81 9681 – Handle with ergonomic recesses at 1/2 inch intervals for quick measurement of pipes. Ratchet mechanism and Teflon-coated (for size 63) X-CEL® blade for faster cutting with optimum pressure distribution on all plastic materials.

81 9670/9700 – Shears for easy cutting of plastic pipes. Broad pipe support for square cuts. Exchangeable, specially hardened blades.

81 9700 Size 42; 63 – Blade supported on both sides, with ratchet advance.

Application:

81 9670/9681/9700 –For cutting off PE, PP, VPE, PB, and PVDF pipes. (Limited capability where pipe walls are very thin). Particularly suitable as preparation for socket welding. Plastic pipe cutter for easy cutting.

Note:
81 9670/9681/9700 – For hose shears see No. 769940, 769960 and 769980.

Plastic pipe cutter BiX®

Pipe cutter of sturdy reinforced plastic, blade block of die-cast zinc. Particularly easy to use, for cutting off pipes without burrs or swarf. Safe, correct cutting of drip sleeves during final installation – virtually flush with the wall (approx. 2 – 3 mm from the wall). Rotating blade block for cutting plastic pipes (central blade) and cutting drip sleeves and sealing sleeves (outer blade). Locking mechanism for safe transportation.

Application: Cuts objects including high-temperature waste water pipes, empty electrical conduits and non-reinforced plastic pipes with a wall thickness of up to 2.4 mm in next to no time.

Pipe cutter DP50 for HT pipes, 2 in 1

Tool body of glass-fibre-reinforced plastic. Exchangeable blade of high-quality ball bearing steel, can be changed with no tools required. Optimum pipe guidance and easy cutting thanks to self-adjusting rollers with plain bearings. The spring-mounted cutting blade means there is no need for tedious adjustment whilst cutting.

Advantage: One tool, two functions, three diameters. **Easily and neatly cut and chamfer common plastic wastewater pipes in a single step.** Smooth cut: No adjustment, no deburring and a reduced risk of clogging or damage to the seal.

Application: Cuts HT pipes and many other plastic pipes with ∅ 32, 40 or 50 mm and a wall thickness of up to 2.4 mm. Easy to position thanks to clear view of the cut-off point. Final cuts or fine cuts are possible from a section length of approx. 10 mm.

Spare part: For replacement blade see No. 818191 size 1 and replacement quick-change pivot pin No. 818192 size 1.

Pressing on the blue lever allows the tube to be inserted and the cutter blade to be positioned precisely.

Use the slider to set the appropriate tube size.

Pipe cutter for composite and plastic pipes

For cutting composite and plastic pipes up to ∅ 26 mm. With ergonomic multi-component grips and locking mechanism for safe transport.

Material: Special quality chrome-vanadium electro-steel, oil-quenched.

Advantage:
- Up to 60% less force required: freely rotating cutting wheel allows for low-friction rotation of the pipe when cutting.
- Optimum cutting result: the rotational movement allows effortless penetration of the cutting wheel with minimal deformation of the tube.
- Wide plastic moulded pads allow perfectly rectangular sections.
- Allows very short correction cuts.
- Separates aluminum composite and plastic pipes more easily than conventional shears with fixed cutter tool.

Application: Also for composite pipes with increased aluminum layer thickness (such as Geberit Mepla).

Spare part: See No. 819461 size 1 for spare cutting wheel.

Hydraulic pipe bender

Sturdy hydraulic pipe bender with closed-loop hydraulic system and return spring for better piston control. Cast iron slide blocks and bending formers, high-performance piston with 450 bar working pressure. High-quality piston seals prevent leakage and extend the working life. Slide blocks feature bending angle indicator. Safe bending of pipes with closed-loop system. Special lever design prevents overloading. Supplied in a lockable wooden case.

Application: For bending galvanised and black steel pipes and also gas pipes (3/8 inch – 2 inch). Bending angles up to 90°, pipes up to maximum 5.5 mm wall thickness (2 inch pipe). User-friendly operation thanks to a long piston stroke for each pump stroke. General-purpose use in machine tool and plant installation, working on pipework systems, fitting work etc.

REMS for Professionals Pipe bender "Sinus"

Universal, robust hand-held pipe bender for cold draw bending of pipes. Forming segments and slide blocks are of **fibreglass-reinforced polyamide,** i.e. very resistant but at the same time lightweight. The bending formers can be exchanged to deal with various pipe ∅. The pipe bender can be fixed in a vice or held in the hand.

Application: For bending both soft and hard copper pipes, thermally insulated copper pipes, steel pipes as well as aluminium and stainless steel pipes in sizes 10 – 22 mm outside diameter (12 -18 mm for stainless steel pipes). Bending angles up to 180°. (Max. wall thickness of pipes 1.5 mm, soft copper up to 3 mm, stainless steel up to 1.5 mm.)

Supplied with: Bending drive of hardened steel, plug-in bolts, 4 bending formers, 4 slide blocks, and special bending spray, all in a sheet metal carrying case.

1 each slide block for pipe external ∅		12; 15; 18; 22 mm

REMS for Professionals Ratchet pipe-threading tool EVA Set R

Quick cutting head change due to easy insertion into the ratchet head with quick-release lock. Cutting heads with long pipe guide and exactly set threading dies. The dies are particularly wear-resistant and easy to exchange. Ratchet reversible for right- and left-hand threads. The threading dies can be reversed for thread cutting right up to a wall (for short pipe ends that are already in place). Not suitable for stainless steel pipes.

Suitable for: Whitworth pipe thread to DIN EN 10226 **taper 1:16.**

Application: A handy and light die stock for use on building sites. **The small head ∅ permits working in confined places.**

Note: The following items are also available as individual parts on request:
- Ratchet arm.
- Complete cutting heads with jaws, as well as spare jaws.

When ordering please state the desired size.

Individual view of ratchet arm

GRESSEL Spanntechnik Precision angle bender

Easy to operate, powerful bending machine for precise bending of various profiles up to 180°. Positive and secure clamping of the profiles. Good repetition accuracy of the bend thanks to the precise bending and clamping jig. Integral **angle and length stops for quick working** with exact bending results. Smooth operation even with solid profiles due to a **needle-bearing turntable** (size 60 and 100).

Application: Precise and user-friendly hot and cold bending (bending angle 0 – 180°), both with angular bending edges and also with various bending radii.

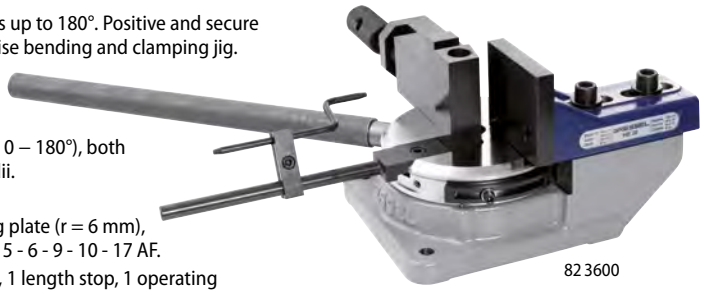
Supplied with:

Size 35 – 1 bending plate, sharp-edged, 90° No. 823601 size 0, 1 bending plate (r = 6 mm), 180°, 1 angle stop, 1 length stop, 1 operating handle, 1 wrench 5 - 6 - 9 - 10 - 17 AF.

Size 60 – 1 bending plate (r = 2 mm), 90° No. 823602 size 2, 1 angle stop, 1 length stop, 1 operating handle, 1 cover pin, 1 wrench 5 - 6 - 8 - 10 AF.

Size 100 – 1 bending plate (r = 2 mm), 90° No. 823603 size 2, 1 angle stop, 1 length stop, 1 operating handle.

Note: Further bending plates can be found under No. 823601 – 823604.



82 3600

83 2110

HOLEX Sheet metal punch

Consisting of matrix, punch, and draw bolt.

83 4000 – **Without** ball thrust bearing.

83 4100 – **With** ball thrust bearing = for easier operation using a wrench. Friction between punch and screw is reduced, so less force is required.

83 4160 – **With** ball thrust bearing and **split punch,** which cuts the waste material into 3 pieces. The cut pieces easily fall out of the matrix.

Material: Special tool steel, burnished.

Application: For punching holes into diverse materials such as sheet steel, sheet stainless steel, sheet aluminium, sheet copper etc. Particularly useful where access is difficult (e.g. large sheet metal plates, control cabinets, fuse boxes, junction boxes, dashboards, sink basins, bodywork etc.). Not suitable for pipework. It is imperative to grease the pressure screw and matrix before use.

Operation:
a) using a **wrench**
b) using **manual hydraulics** No. 834655 size 1.
c) using a **manual hydraulic drive** No. 834700. **From 50 mm Ø upwards the use of the manual hydraulic drive is recommended.**

Note:
- When using hydraulic tools, use draw bolt No. 834070 (optional accessory) instead of the pressure screw.
- Size 32 and 35 for holes in stainless steel sinks, to attach 1/2 inch sink fitments.

Garant Universal scraper with retractable blade

Universal toolholder with 4-jaw chuck of plastic with exchangeable three-square blade. If required, a D-blade with shank ∅ 3.2 mm (No. 839676; 839677; 836420; 836425) or a T-blade with shank ∅ 4.2 mm (No. 836410) can be used in the holder. The holder also comes with a practical clip for mounting.

Advantage: Turning the rear part of the holder allows the blade to be retracted and extended. This reduces the risk of injury and protects the blade at the same time.

Supplied with: Holder incl. mini scraper blade, straight 3.2 × 50 mm (No. 839677).

Universal deburrers with ceramic blades

83 8150 – Handy 2-component handle with unique mounting for the ceramic blades. In conventional deburrers the blade rotates; here the blade mounting rotates. The result is smoother working, which is easier on the blade.

Application: Deburring holes and a wide variety of contours. Highly suitable not only **for** soft materials such as aluminium and plastics but also for **very abrasive plastics** such as fibreglass. Extremely wear-resistant: approx. **20 times the working life** of a HSS blade (when deburring plastics).

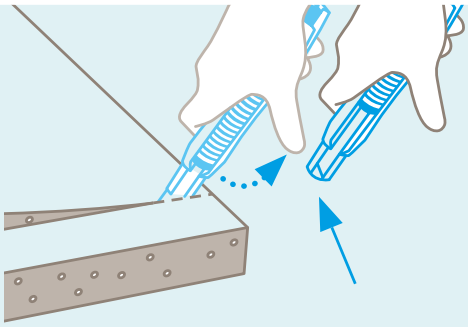
martor SECUBASE: Blade retraction and locking – optional safety

The automatic blade retraction function protects you from lacerations.
Prerequisite: As soon as you have started to cut, take your thumb off the slide.
Alternatively, you can also lock the slide and blade.
When you release the lock, the blade retracts as usual.



martor SECUBASE safety knife

Safety knife with **7 – 73 mm cutting depth** (7-step adjustment) and optional automatic blade retraction. Ergonomic handle made of glass fibre-reinforced plastic, with a sturdy metal rail on the inside for blade guidance. Safe and easy blade change. **Left-handed users just switch over the high-quality blade** in the handle.

Application: Cuts like a cutter knife but with even better safety - e.g. thicker materials such as expanded polystyrene or foam, insulating foam or insulating wool, cardboard up to 4 layers, sacking and all types of film.

Spare part: For spare blade see No. 842072 size 10 or blade with wave profile No. 842073 size 10.

martor Cutting mat

Available in five different sizes, for insertion underneath all types of materials to be cut.

- Consisting of a fixed core and two wear-resistant outer faces.
- Self-healing: After the cut, the two outer faces immediately close up to one another again.

Size DINA5 – Printed grid with the MARTOR safety techniques:
German and English (front), French and Spanish (rear).
The type designation refers to the dimensions of the mat.

Size DINA1–DINA4 – Printed grid cm (front) and inch (rear).
The type designation refers to the size of the printed grid.

TAJIMA Safety cutter knife with aluminium die-cast handle

Robust, impact-resistant handle made of die-cast aluminium, powder-coated,
with **3 special-quality blades** (stored in the handle).
With automatic blade; the blade is spring mounted and
automatically retracts back into the handle on completion of the cutting operation.
Very good protection against injuries.

Advantage: Button allows blades to be changed **without using tools**.
No irritating dropping the blade when changing it, since it is held by a magnet.

Automatic blade retraction to prevent injuries.

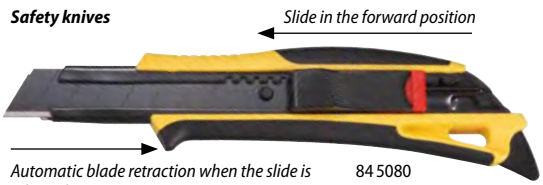
TAJIMA Safety cutter knife with 2-component handle / snap-off blade Razar Black 18 mm

Blade extends and retracts in a precise metal guide. High quality blades, extremely sharp, with long service life.
Unique **safety cutter,** without kite mark, with ergonomic **2-component handle** and precision blade guide.
Multi-functional tip to the blade guide for opening tins, use as a screwdriver, opening cardboard boxes etc.
With an additional metal fin at the end of the handle for opening cardboard boxes.
With 1 snap-off blade (similar to No. 845021 size 10) with 8 segments. **18 mm wide.**

Advantage: Combines 2 types of knife in one: Safety knife **and** cutting knife.
- With the slide locked into position: high-quality cutting knife.
- With the slide pushed forward, becomes a fully-specified safety knife, i.e. when the slide is released the blade retracts back into the body.
  An extremely versatile knife!

Spare part: Spare blades see No. 845010 size 10 – 845019 size 50;
845021 size 10 and 845023 size 50.



Automatic blade retraction when the slide is released prevents injuries.

Safe cutting

CUTTING:
- Before performing cutting, the user must familiarise themselves with the product and the operation of the safety technology.
- The user must always cut away from the body and wear safety gloves.

KEEPING SAFE:
- No knives in your trouser pockets - keep even safety knives in a belt bag.
- If there is a catch to secure a slide or lever, this should also be used.

CLEANING:
- A safety knife - just like any other tool - must be cleaned and looked after so that it always performs correctly.
- For thorough and safe cleaning the blade must first be taken out and put aside.

CHANGING THE BLADE:
- Blunt or damaged blades must always be changed in good time. If you carry on using a knife when the blade is blunt, you have to apply significantly more force.
  Damaged blades can disable the safety arrangement and thus increase the risk of injuries.
- Dispose of used blades in a secure and lockable container (for example: No. 84 5130).
  Under no circumstances should they end up loose in paper or residual waste.

Cutter knife with snap-off blade 18 mm

Blade extends and retracts in a precise metal guide. High quality blades, extremely sharp, with long service life.

- 84 5000 – Impact-resistant plastic handle, with 3 snap-off blades (similar to No. 845010 size 10) with 8 segments, **18 mm wide.**
- 84 5020 – Comfortably rounded but slender **2-component handle** for powerful but also precise cutting. Easy-grip **Haptoprene** coating with a core of specially tough, impact-resistant polypropylene. Safe working, since the risk of slipping is minimised, even with wet or oily hands. Automatic blade stop. With **3** snap-off blades (similar to No. 845010 size 10) with 8 segments, **18 mm wide.**
- 84 5030 – Ergonomic **2-component handle** with rubber coating for safe working. Absolutely secure blade fixing, with a **knurled clamping screw.** With 1 snap-off blade (similar to No. 845010 size 10) with 8 segments, **18 mm wide.**
- 84 5055 – Impact-resistant plastic handle with integral locking mechanism in the slide. With 3 snap-off blades (similar to No. 845010 size 10) with 8 segments, **18 mm wide.**
- 84 5070 – Handy **2-component handle** with comfortable elastomer coating. Automatic blade stop. **Multi-functional tip** to the blade guide for opening tins, use as a screwdriver, opening cardboard boxes etc. With 3 snap-off blades (similar to No. 845010 size 10) with 8 segments, **18 mm wide.**
- 84 5075 – High-quality plastic handle, with 3 snap-off blades (similar to No. 845010 size 10) with 8 segments, **18 mm wide.**

Spare part: For spare blades see No. 845010 size 10 – 845019 size 50; 845021 size 10 and 845023 size 50.

Cutter knife CutiX® with magnesium handle / snap-off blade 18 mm

Reliable companion with unique blade stabilisation.
Innovative stabilisation rail with variable extension functionality.
Sturdy, long-life magnesium body.
As light as plastic, as strong as die-cast aluminium.
Attachment eye for securing the tool.
With 3 snap-off blades with 8 segments, 18 mm wide.

Advantage:
- Separate flat and ergonomic slider for blade and stabilisation rail. No accidental actuation of the slider.
- Unique blade stabilisation. Apply targeted pressure without risk of injury. No accidental bending or breaking of the blade.

Spare part: For spare blades see No. 845010 size 10 – 845019 size 50; 845021 size 10 and 845023 size 50.

84 5051

Malleable cast iron screw clamps

High quality malleable cast iron clamping arms; strong prismatic steel slide beam, knurled, electro-galvanised. Smooth running steel spindle, burnished with trapezoidal thread and movable jaw. Instant (high speed) adjustment, reliable clamping.

Standard: **DIN 5117**

Size 100–400 – With plastic protective cover on the clamping jaw.
Size 500–2500 – **Without protective cap**.
86 0050 – Moving jaw with integral **spindle locking prevents the release** of the spindle even in case of vibrations. Maximum force transfer due to **power grip** with easy-grip Haptoprene surface and impact-resistant PP core. Surface structure is anti-slip even with wet, oily hands.
86 0000 Size 100–400 – Clamping force of up to 6000 N.
86 0000 Size 500–2500 – Clamping force of up to 7000 N.
86 0050/0000 – Movable clamping arm **with anti-slip protection,** preventing inadvertent release of the clamp. Movable pressure pad from size 160 can be exchanged without tools.

Spare part:
86 0000 – Protective cap No. 860115.
86 0050 – Protective cap No. 860051.

Spindle locking in the unloaded state.

Spindle locking loaded.

Anti-slip protection 860000 / 860050

Malleable cast iron deep throat steel clamps are still available online under No. 86 0300.

Quality feature:
strong prismatic section steel sliding rails.

BESSEY One-hand clamp "EHZ" with 2-component handle

Clamp body of quenched and tempered steel. Housing and lever of glass fibre reinforced polyamide. Flexible plastic protective covers for gentle clamping. **Fast clamping** of components **using only one hand** due to lever advance. Can be operated using the **2-component handle** or from the rail side. **Positive clamping** (and releasing) by means of trapezoidal thread spindle as with normal all-steel clamps. Ergonomic release button for easy slide bar movement. Clamping force up to 3500 N.

Application: **Universally useful,** in particular, where the **user has only one hand free for clamping,** e.g. when holding strips, profiles, cables, pipes etc. Also advantageous for **overhead work** and **springy** or **yielding components.**

One-hand clamp “EZ360”, for clamping and spreading with rotating handle

Upper and lower part of glass-fibre reinforced polyamide. Hollow profile rail made of burnished steel. The plastic housing protects the grip mechanism from dust and chips. The handle can be positioned in such a way that an optimal pumping position and thus better force application is achieved. The handle can also be swivelled out of the working area after the clamping process. This allows the use of several clamps in a very small space.

- 2-component plastic handle with pump lever.
- Innovative 360° rotating mechanism allows the grip unit to be placed around the rail.
- 12-step detent mechanism to securely hold the grip position.
- Large clamping faces with removable protective caps.
- Clamping force of up to 1400 N.
- Tool-free changeover from clamping to spreading.
- One-handed operation without effort.

EZ360 ONE-HAND CLAMP WITH FULLY ROTATABLE HANDLE UNIT

Thanks to the innovative 360° rotating mechanism, the handle position can be perfectly adapted to the working situation. No matter whether the clamp needs to be positioned high up, down, in a confined space or from the opposite side,
the new EZ360 is a very convenient solution in all situations.

One-hand clamp for clamping and spreading

Ergonomically shaped 2-component plastic handle, burnished rail of drawn steel.
No tools required for conversion to spreading, thanks to intelligent release mechanism in the upper part, **reversible**. With release handle for quick adjustment.

Application: General purpose use, easy to use one-handed for clamping pressures (up to 2000 N).

"GearKlamp GK" geared clamp

Ergonomically shaped 2-component plastic handle, burnished rail of drawn steel.
Fibreglass-reinforced plastic body, smooth-running spindle with trapezoidal thread and tiltable pressure pad.
With release handle for quick adjustment.

Application: Enormously flexible and suitable for use even in the tightest spaces, for clamping forces up to 2000N.

Capable of clamping components even in very restricted spaces.

Driving mechanism protected from dust

Fixed jaw with cross prism

The clever GearKlamp GK

The **GearKlamp GK** from BESSEY is much smaller compared with classic screw, lever or one-hand clamps. Its patent-pending mechanism enables the handle to be separated from the spindle and positioned around the rail. This makes it simple to master clamping tasks perfectly – even in the tightest spaces – with up to 200 kg of clamping force.

The **GearKlamp GK** is:
- Uniquely compact in its design.
- Ergonomic in its use.
- Robust in its technology.

Further information can be found on the Bessey website.

"Revo KRE" body clamp for clamping and spreading

Beam of bright drawn steel, electro-galvanised. Moving jaw with double anti-slip protection. Smooth running steel spindle with trapezoidal thread, burnished. Metal, reinforced plastic housing. Clamping forces up to **8000 N.**

Application: The jaws surround the beam, thus can be used to clamp at the sides and the rear. This allows access to clamping positions inaccessible to conventional clamps. Can be converted to spreading, **no tools required.**

Note:	**Successor product to No. 860290.**

"STE" ceiling and assembly support

Extremely stable structure thanks to high-tensile steel pipe and non-slip PVC contact surfaces.
Single-handed operation thanks to 2-component plastic handle with pump mechanism.
Pushbutton for quick extension and retraction of the telescopic rod.
Holding force adjustable by twisting the support on the grip.
Up to **maximum 160 kg (size 250) or 110 kg (size 300) load capacity when the telescopic rod is fully retracted**.
The contact surfaces can also be **pivoted steplessly** for use at angles **-45° to 45°**.

Application: For fixing plasterboard, wooden boards, panels, roof laths, metal strips, foils and luminaires at a height of up to 3.00 m.
Can also be used without problems at angles due to the pivoted and non-slip PVC contact surfaces.

2-component plastic handle with quick adjustment button and pump mechanism.

9×7 cm size contact surfaces with a pivoting angle of -45° to 45°.

When used at an angle, load capacity is limited to max. 40 kg.

All-steel clamp

Beam / fixed jaw made of bright drawn steel, moving jaw of forged steel, each hardened and electro galvanised. Smooth running steel spindle with trapezoidal thread, burnished.

86 0492 – All-steel clamp with fold-out handle. Quick approach and clamping of the workpiece with the handle engaged in the vertical position. **Powerful and convenient working with the handle folded out.**

86 0500 – Movable pressure pad from size 160 can be exchanged without tools. Clamping force of up to 6000 N.

86 0482/0492 – Moving jaw with integral **spindle locking prevents the release** of the spindle even in case of vibrations. Maximum force transfer due to **power grip** with easy-grip Haptoprene surface and impact-resistant PP core. Surface structure is anti-slip even with wet, oily hands.

Spindle locking in the unloaded state.

Spindle locking loaded.

With folding handle.

Edge clamp “KT5” for all clamps with steel profile slide beam

Yoke with wing screw for mounting on the steel clamp slide beam. Burnished spindle with movable jaw.

Suitable for: Steel clamps with maximum slide beam cross section 45×12 mm.

Application: In conjunction with steel clamps for clamping on to face strips and edge strips as well as for clamping from three sides. Also supports the slide beam when clamping with very long steel clamps to stabilise the clamping pressure.

All-steel high-performance clamp

Beam and fixed jaw made of bright steel section (special profile), tempered and electro-galvanised.
Slide jaw made of steel, drop-forged, tempered, and electro-galvanised.
Wear-resistant smooth-running steel spindle with trapezoidal thread.
Long working life due to heat-resistant special pressure pad with sintered steel inlay, can tilt through 35°.
Spindle tempered and burnished with adjustable clamp handle.

Application: For heaviest duty clamping of workpieces in steel construction, blacksmith's shops, HGV bodywork, machine tool manufacture etc.
The movable special pressure pad permits clamping diagonal workpieces up to 35°.
Maximum clamping pressure up to approx. 12000 N.

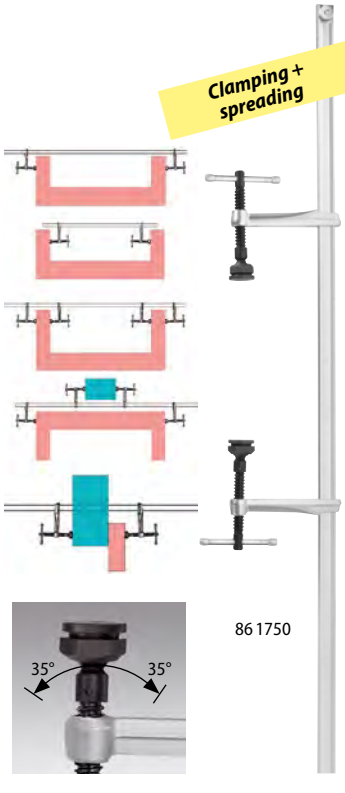
Variable high-performance clamp "SLV"

Variable screw clamp – new flexibility with large spans up to 2 m! Beam of drawn profile steel, galvanised. End stops at each end can be removed without using tools. Slide jaw made of heat treatable steel, drop-forged. Wear-resistant smooth running steel spindle with trapezoidal thread and movable (up to 35°) special pressure pad. Spindle tempered and burnished with adjustable clamp handle.

Application: Modular principle gives many different application possibilities in woodworking and metalworking. The moving jaws can be replaced with other ones or also further ones added.
The switch from clamping to spreading requires no tools.
Clamp can also be inserted through an opening in the workpiece.
Central positioning on the workpiece prevents tipping.
The movable special pressure pad permits clamping diagonal workpieces up to 35°.
Maximum clamping pressure up to approx. 6500 N.



86 1750

Note:	See spare parts list for No. 861756 (clamping handle), 861757 (wooden handle) or 861758 (lever handle) for spare sliding jaws.

Sturdy "Aquila WB" chain clamp for pipes

Sturdy chain clamp for pipes for attaching to a workbench. For easy secure clamping of pipes using special serrated Vee-shaped clamping jaws and a sturdy clamping chain with a quick-release fastener.

- Sturdy distortion-free cast design of the baseplate, with integral chain clamp vice, pipe support and bending machine.
- Specially serrated and hardened double vice jaws, easily exchanged, Vee-shaped for secure clamping of pipes.
- Clamping chain with sturdy chain links, easily clamped with quick-release fastener and trapezoidal thread spindle.
- For attachment to a workbench – **please ensure compliance with the workbench load capacity.**

Application: Secure clamping of pipes and solid materials, 1/8 inch – 6 inches (10 – 165 mm).

Note: Adjustable material stand can be found under No. 919904 and workbenches from No. 921001.

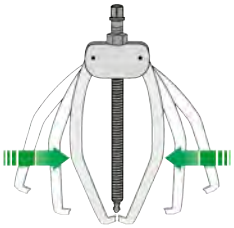
Universal extractor

The clamping force increases proportionally to the extraction force due to the self-clamping extractor legs.

Application: The spring effect and the slim design permit extractions even where access is difficult.



Self–clamping (spring–mounted)

Optimum matching of the spindle to the shaft thanks to the 2-ended spindle tips.

Extractor set with a sliding hammer in a plastic case

Sturdy extractor (galvanised) with ergonomically shaped sliding hammer.

Application: For extracting and pulling off parts with internal threads (taper pins or dowel pins) and ball bearings. The appropriate adapter or internal extractor is attached to the part to be extracted, which is then pulled off by firm strikes with the sliding hammer.

Supplied with:

88 2000 – Pin extractor in a plastic case (275×230×80 mm) with 6 threaded inserts (M3 – M10), 3 adapters for internal extractors No. 882600. For M12 the slide bar is used without a threaded insert. Accepts threaded inserts to DIN 913.

88 2020 – Pin and ball bearing extractor in a plastic case (370×320×75 mm) with 10 threaded inserts (M3 - M18), 2 adapters for internal extractors and 5 internal extractors (∅ 6 - 19 mm).

Sealing ring extractor set in KUKKO L-BOXX®

Slide hammer base unit, extraction lever, and bradawl with 2-component handle. Quick and easy extraction of sealing rings using the momentum of the mass on the slide unit. The extraction lever has a sturdy blade for gently levering out sealing rings.

Application: Gentle, quick, and easy but at the same time powerful removal / extraction of Simmerring seals, seals, oil seals, sealing sleeves, sealing rings, bearing seals, and many more.

Content: 1 base unit (including a slide hammer), 2 extensions (100 mm and 250 mm), 1 universal extraction lever, 1 bradawl (for easier insertion of the special screws), 1 spare blade for the extraction lever, 50 self-tapping special screws in KUKKO L-BOXX® size 136.

simatherm Induction heating device

The patented **portable** induction heater operates in the high-frequency range and thus is very efficient. Integral timer and temperature control. The temperature control ensures even warming of the workpiece.

Advantage: Portable high-performance induction heater, very light-weight and handy (3.5 kg). **No** yoke necessary, simply lay the workpiece on the heater.

Application: Quick and selective heating of roller bearings, gear wheels, sleeves etc. For gentle and safe installation of shafts, pins etc.

Supplied with: Heater, temperature probe, thermal protection gloves, and carrying case.

88 3960

86H 88 3960	Induction heating device IH 025 VOLCANO	eShop

Power	kW	1.5
Workpiece internal ∅ from	mm	20
Workpiece external ∅ up to	mm	160
maximum component weight	kg	10
Temperature control range	°C	20 – 180

The compact simatherm® induction heating device for rolling bearings and other ring-shaped metal parts for bore diameters from 20 to 310 mm. Roller bearings and other ring-shaped metal parts can be brought up to the 110 °C specified by the manufacturer under automatic control of time and temperature. Particularly compact design – only 17 kg in weight including 3 yokes. Remote control possible via Bluetooth® mobile devices (only with free app "World of Maintenance")

Supplied with: Heating device, 3 yokes, temperature probe and thermal protection gloves.

L-BOXX

Garant Ball bearing insertion and fitting set in plastic modular case L-BOXX®

Installation set for installing bearings without damaging axles, bearing housings or sealing rings.
Light but very robust aluminium impact sleeves in combination with 33 striking rings made of impact-resistant polyoxymethylene for bearing external Ø from 26 - 110 mm and internal Ø from 10 - 50 mm.
Supplied with dead-blow-absorbing soft-faced hammer in sturdy plastic L-Boxx® system case.

Application: Quick, precise, and safe installation of (roller) bearings thanks to **even application of force** on the bearing. Also suitable for fitting of bushes, sealing rings, and pulleys.

Supplied with: 37-piece set in plastic system case L-Boxx® No. 693330 size 136
3 impact sleeves, 25; 40; 60 mm
1 set of impact rings inner Ø 10 mm (outer Ø 26; 30; 35 mm)
1 set of impact rings inner Ø 12 mm (outer Ø 28; 32; 37 mm)
1 set of impact rings inner Ø 15 mm (outer Ø 32; 35; 42 mm)
1 set of impact rings inner Ø 17 mm (outer Ø 35; 40; 47 mm)
1 set of impact rings inner Ø 20 mm (outer Ø 42; 47; 52 mm)
1 set of impact rings inner Ø 25 mm (outer Ø 47; 52; 62 mm)
1 set of impact rings inner Ø 30 mm (outer Ø 55; 62; 72 mm)
1 set of impact rings inner Ø 35 mm (outer Ø 62; 72; 80 mm)
1 set of impact rings inner Ø 40 mm (outer Ø 68; 80; 90 mm)
1 set of impact rings inner Ø 45 mm (outer Ø 75; 85; 100 mm)
1 set of impact rings inner Ø 50 mm (outer Ø 80; 90; 110 mm)
1 soft-faced hammer with dead-blow absorption similar to No. 752500 size 40G with 1 rubber and plastic inserts each.

simatool® smart tools Ball bearing insertion and fitting set in a plastic case

Light but very robust aluminium impact sleeves in combination with 33 extremely impact resistant striking rings for bearing external Ø from 26 - 110 mm and internal Ø from 10 - 50 mm.
Dead-blow hammer with nylon inserts.
Supplied in a plastic case.

Application: Quick, precise, and safe installation of (roller) bearings thanks to **even application of force** on the bearing. Also suitable for fitting of bushes, sealing rings, and pulleys.

Content: 3 impact sleeves, Ø 25; 40; 60 mm.
1 set striking rings internal Ø 10 mm (external Ø 26; 30; 35 mm)
1 set striking rings internal Ø 12 mm (external Ø 28; 32; 37 mm)
1 set striking rings internal Ø 15 mm (external Ø 32; 35; 42 mm)
1 set striking rings internal Ø 17 mm (external Ø 35; 40; 47 mm)

Bearing separator and extractor set in KUKKO L-BOXX®

L-BOXX

Bearing separator of high-quality tool steel.
Separator: The quick-release semicircular jaws are symmetrically tensioned by a screw. This causes the wedge-shaped jaws to insert themselves between bearings and shaft.
Extractor: Used in conjunction with the separator to extract bearings from their seating (for this the draw bolts are screwed into the threaded holes in the separation jaws).

Size K–B – In KUKKO L-BOXX® size 136.
Size C – In a sheet metal case.

Application: For the separation of tightly wedged ball bearings, gears, etc., if the gap is too small for normal extraction arms.

Optimum matching of the spindle to the shaft thanks to the 2-ended spindle tips.

There's more in it for you!

The entire tooling catalogues for the following brands are available from the Hoffmann Group – just ask for them!

FACOM Centring tool for seals and bearing cages

Handle with mounted steel impact cap. Adjustable jaws of aluminium, secured using the hexagonal 3 AF socket supplied (4 AF for size 90).
3 steps per jaw for adjustment to suit all types of seals and bearing cages.

Size 50 – 9.5 – 23.5 mm; 23.5 – 36.5 mm; 36.5 – 50 mm.

Size 90 – 18 – 53 mm; 41 – 76 mm; 54 – 90 mm.

Application: Easily adjustable diameter for positioning and centring seals, bearings etc. For use on most vehicles including motor bikes.

Nut splitter with hydraulic ram

With hydraulic ram for splitting jammed or seized nuts (grade 5 – 10) without damaging the bolts. Double curved, allowing operation even where access is difficult. With hardened chisel edge blade. Actuated by tightening the pressure screw. After the nut has been split, unscrew the nut pressure screw and push the chisel back to the stop. Size M18 – M30 for stainless steel nuts - up to M30 in strength class 8, up to M24 in strength class 10.

Note:

88 4900 – The pressure screw may be tightened to a **maximum of 60 Nm** for sizes M4 – M14 to a **maximum of 70 Nm** for sizes M14 – M24 and to a **maximum of 50 Nm** for sizes M18 – M30. Do not exceed the tightening torques; excessive torque can break the tool and cause accidents.

EFORM – THE ONLINE CONFIGURATION TOOL

Further information about our **eForm Online configurator** and our rigid foam inlays can be found in our brochure or online at **https://www.hog.tools/brochures**

The **eForm Online configurator** with its many technical refinements offers you the ideal basis for designing your tailor-made rigid foam inlays. As it has done for many years.

Individual on-line planning:

Our on-line configurator allows you to design your own individual rigid foam inlays. You determine where each tool is placed.

Easy handling:

No complicated software. Use drag-and-drop to select your items from more than 55,000 tools or tool contours in the familiar Hoffmann Group item classes, insert them and position them as you wish.

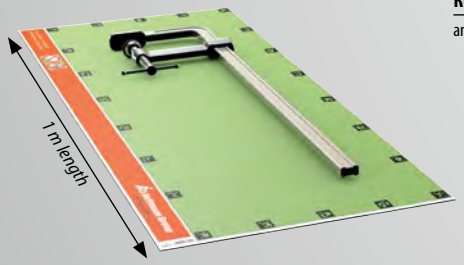
Cost transparency:

Online calculation, quotation, consistent scanning costs and a project archive. Ready configured rigid foam inlays can be re-ordered without problems, at a top price-performance ratio.

Individual stock tools

So you wish to plan your tools within rigid foam inlays? No problem!

Just place the tools on a Hoffmann Group scanning pad (DIN A3 scanning pad for one tool No. KD5009), photograph them, arrange them – done!



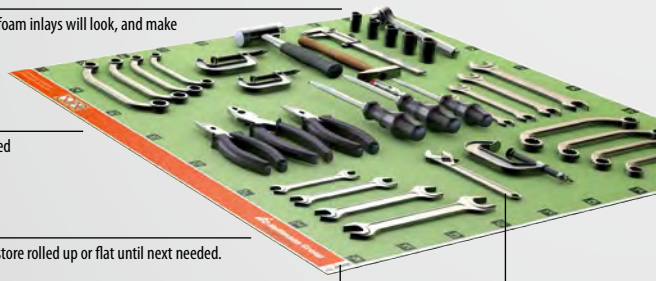
You can also do this for extra-large tools:
***XXL scanning pad** 1000×400 mm, No. KD5013.*

***Multiple scanning pad** 600×600 mm, No. KD5011.*

See immediately
how the subsequent rigid foam inlays will look, and make adjustments directly.

All products
on the template are scanned simultaneously.

Reusable
and space-saving. Simply store rolled up or flat until next needed.



Special coding
recognisable by eForm software.

Simple and convenient
Determine the position of the individual objects on the mat.

3D milling steps even for your individual tools!

Do you need the perfect depth in 3D rigid foam to suit your existing tools? Various milled depths in the foam define the ideal positioning of the tools.

A 3D foam inlay can be created for each of your existing tools via the online configuration tool, without long tool downtime.

Garant RIGID FOAM INLAYS FOR GARANT GRIDLINE

GRID LINE

This is how to find your desired foam inlay:

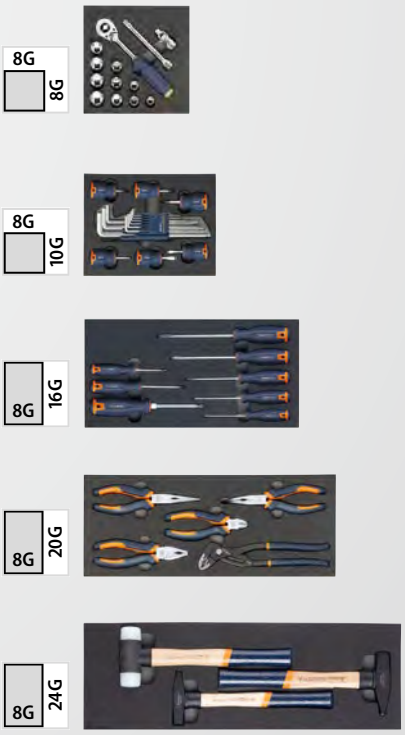
1. Seek out suitable tools for your requirements

- **Rigid foam inlays for workbenches, tool cabinets and other cabinets**
  - Rigid foam inlays **for measuring tools** p. 941
  - Rigid foam inlays for **files** p. 942
  - Rigid foam inlays for **spanners (ring spanners and open-ended spanners)** p. 944
  - Rigid foam inlays for **sockets** p. 948
  - Rigid foam inlays for **hexagon key L-wrenches** p. 950
  - Rigid foam inlays for **screwdrivers for Torx® screws** p. 951
  - Rigid foam inlays for **screwdrivers** (slot-head and Phillips) p. 955
  - Rigid foam inlays for **socket sets** p. 959
  - Rigid foam inlays for **torque wrenches / impact wrenches** p. 965
  - Rigid foam inlays for **pliers** p. 967
  - Rigid foam inlays for **cable processing tools** p. 970
  - Rigid foam inlays for **tools fully insulated to VDE standards** p. 971
  - Rigid foam inlays for **impact tools** p. 974
  - Rigid foam inlays for various **tool selections** p. 976
  - Rigid foam inlay basic set **for one complete drawer of the roller cabinet 20×16G** p. 982
  - Rigid foam inlay basic set **for several drawers of the roller cabinet 20×16G** p. 984
  - Rigid foam inlay basic set for **one complete drawer 20×20G** p. 985
- **Rigid foam inlays for shadowboards**
  - Shadowboard **depth 115 mm** p. 986
  - Shadowboard **depth 176 mm** p. 988

2. Seek out the desired size

Available sizes of foam inlays:
The new GridLine foam inlays are available in 3 widths:

Note: Drawer front height must be at least 75 mm. Check the respective article to determine if a different front height such as 100 mm is required.

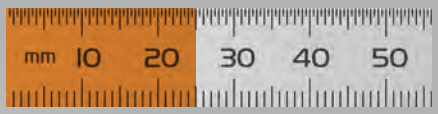
6 G	8 G	10 G
		


Depths: 8, 10, 16, 20 and 24 G	**Depths: 8, 10, 16, 20 and 24 G**	**Depths: 10, 16, 20 and 24 G**

The foam inlay depths **16G**, **20G** and **24G** match the depths of the available drawers.
This makes it easier to fill the drawers with rigid foam inlays.

New size concept – 1 G = 25 mm:

The colour markings of the size fields for drawer internal dimensions can also be seen on the drawers for tool cabinets and other cabinets, thus clearly indicating which dividing material fits which drawers.

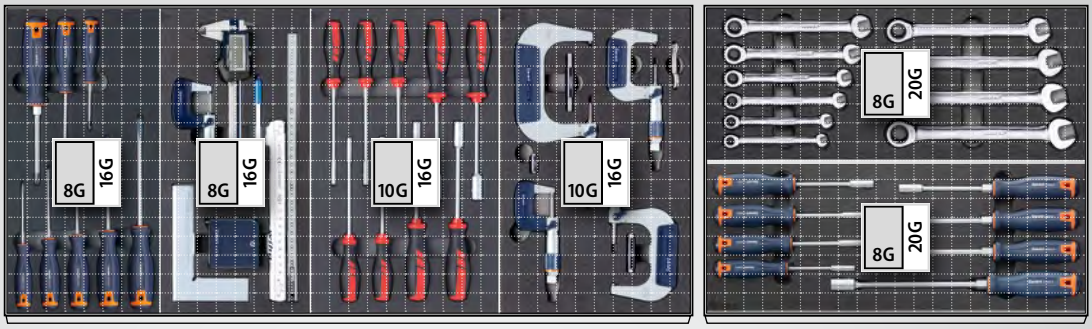


1 G = 25 mm

Here we give you examples of how to fill the various drawer sizes:

Usable drawer depth

16 G
(400 mm)



Drawer usable width × usable depth in G

Seek out the desired size

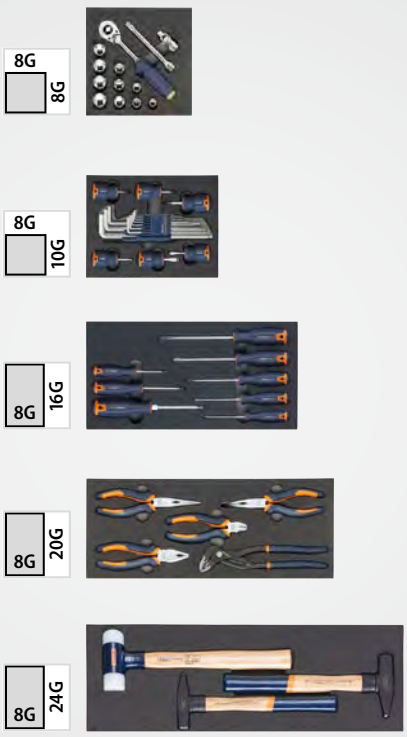
Available sizes of foam inlays

The new GridLine foam inlays are available in 3 widths:

6 G

Depths: 8, 10, 16, 20 and 24 G

8 G



Depths: 8, 10, 16, 20 and 24 G

10 G

Depths: 10, 16, 20 and 24 G

The foam inlays **16**, **20** and **24 G** match the corresponding drawer depths.
This facilitates the filling of drawers with rigid foam inlays.

eForm – the online configuration tool

95

ESD foam inlays can be found in Group 97, Volume 3, workstations and storage

Further information about our **eForm Online configurator** and our rigid foam inlays can be found in our brochure or online at **https://www.hog.tools/brochures**

The **eForm online configurator** with its many technical refinements offers you the ideal basis for designing your tailor-made rigid foam inlays. It will serve you well over many years.

Individual on-line planning:

Our on-line configurator allows you to design your own individual rigid foam inlays. You determine where each tool is placed.

Easy handling:

No complicated software. Use drag-and-drop to select your items from more than 54,400 tools or tool contours in the familiar Hoffmann Group item classes, insert them and position them as you wish.

Cost transparency:

Online calculation, quotation, consistent scanning costs and a project archive. Ready configured rigid foam inlays can be re-ordered without problems, at a top price-performance ratio.

eForm – the online configuration tool

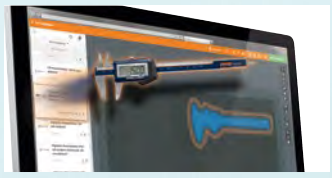
Virtual planning. Tailor-made solution. Perfect organisation. Individual rigid foam inlays.

1. Can be individually planned

You determine where each tool is placed.

2. More than 14,000 tools

and 50,000 tool contours in machining and clamping technology together with 3400 contours from Stahlwille. Simple choice from the familiar Hoffmann Group item list.

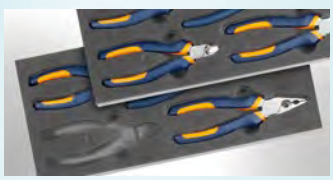


3. Easy to use

Insert tools and position them using drag-and-drop.

4. Adding new tools

Individual tools can be added by scanning - without tool downtime costs.



5. Safety

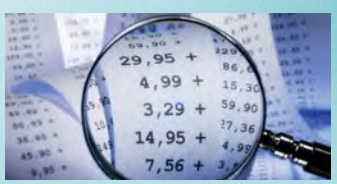
The 2-colour foam immediately indicates when a tool is missing.

6. Easy care

Particularly easy to clean.

7. Protection

Positive retention of the tool in the cabinet by means of the high clamping force.



4. Cost transparency

Online calculation, quotation, consistent scanning costs and a project archive.

Transport and delivery notes

For some products we are prevented by law from offering express delivery (by air freight) outside Germany.
Certain products cannot be delivered to some countries in Europe. These products are indicated by a special note in the catalogue.
The background to this are EU directives regarding carriage of hazardous goods. These directives require labelling of the product and a safety data sheet in the respective national language. In particular the labelling requirement applies to goods which are oxidising, explosive, and hazardous to health.

Note:
Not available in all countries.
Express delivery not available.

The following items in our range fall into these categories:
■ Li-ion batteries ■ Technical sprays ■ Adhesives and sealants ■ Cutting oils ■ Batteries ■ Magnets

Pneumatic tools

Lubrication: Pneumatic tools may only be used with a service unit (e.g. No. 08 0012) consisting of water separator, oiler and pressure reducer, and on long pneumatic hoses an additional supplementary oil atomiser such as No. 08 0022 (except for oil-free tools).

Performance data: All services are provided in accordance with the standards in force and also apply to new or well–maintained used pneumatic tools. They relate to a dynamic pressure of 6.3 bar and the recommended hose sizes.
1/4 inch BSP thread is equivalent to a tapered R 1/4 inch thread.

Warranty conditions (only with proof of purchase by invoice or delivery note)

Note: *** Warranty conditions do not apply for accessories such as rechargeable batteries and wearing parts. Some extended warranty conditions are applicable only after registration via the manufacturer's web page. These may differ from country to country.**

Manufacturer	Warranty conditions*	Terms and conditions / auxiliary service
BOSCH	3 years on electric tools.* 2 years on devices powered by Li-ion batteries, including the batteries and their chargers	**Online registration within the first 4 weeks after purchase.** See user manual or www.bosch-pt.com/warranty
metabo	3 years on electric tools.* 3 years on Li-ion batteries and corresponding chargers	**Online registration within the first 4 weeks after purchase.** See user manual or www.metabo.com Metabo offers a 3-year warranty on battery packs without limiting the charging cycles
fein	3 years on electric tools.* 1 year on high-frequency and ACCU TECH tools. 3 years on Li-ion batteries.	**Online registration within the first 6 weeks after purchase.** See user manual or www.fein.com Li-ion batteries: Application for the Fein Plus warranty.

SCANGRIP	3 years on lights* excl. LITE lights	**Online registration within the first 4 weeks after purchase.** See www.scangrip.com
DYMO	2 years on types LM, MOBILE, and RHINO. 3 years on type XTL.	**Online registration** See the instruction manual or www.dymo.com/register Warranty extension by 12 months available.

Tool selection, vibration values

Tool selection: When selecting cordless tools the critical factor is the intended application.
All cordless screwdrivers in the catalogue are divided into 4 categories to ensure a long working life:

L	Light	Light-duty screwdriving applications
M	Medium	Medium drilling and screwdriving applications
S	Strong	Heavy screwdriving and drilling applications
HD	Heavy Duty	Heavy-duty application, very high torques

Vibration directive: The European directive 2002/44/EC regulates the maximum permissible exposure of the body to vibration hazardous to health which occurs when using hand-held power tools.
The measured values listed are 3-axis measured values for hand-arm vibration in m/s^2.

The stated value applies to cutting discs. Higher values apply to rough grinding discs.

Vibration exposure m/s^2	< 2.5 (threshold value)	2.5 – 5	> 5 (exposure limit value)
Duties of the employer	No preventative measures necessary.	Avoidance of increased exposure of the employee to vibration.	Reduction of the exposure to vibration.

18V cordless combi drill

2-Speed cordless combi drill with brushless motor.

- Electronic speed control for smooth, safe starts to drilling and screwdriving; reversible.
- 2-speed all-metal gearbox with selectable hammer drive in metal, stone and masonry.
- Multi-stage torque adjustment and removable drill chuck.

07 0100 – ■ With QuickIN all-metal drill chuck (120 Nm) with carbide-coated jaws and high clamping forces.

07 0229 Size BSB18C2×42 – Compact and powerful 18V cordless impact wrench for the most demanding applications. Drill chuck is removable.

Size BSB18SBL22 – Sub-Compact drill/driver, for the ultimate in user productivity and ergonomics. Suitable for use in confined spaces.

Supplied with:

07 0100 Size 71040761 – **Without battery and without charger.**

07 0229 Size BSB18C2×42 – Supplied with 2 pcs. 18 V / 2.0 Ah PRO Li-ion rechargeable battery, charger and carrying case.

Size 7104076H3; 71040761 – Supplied with 1 pc. QuickIN drill chuck (120 Nm), 1 pc. belt clip, 1 pc. L-BOXX.

Note:

07 0100 – See from No. 073851 and No. 073863 – 073867 for suitable replacement batteries, starter sets and chargers.

07 0229 – See No. 073841 – No. 073848 for suitable batteries and chargers.

Cordless hammer drill / driver

- Powerful cordless 2-speed hammer drill /screwdriver with **multi-stage torque setting.**
- **REDLITHIUM-ION™** Red Li-ion batteries with single-cell monitoring and charge display.
- **Sturdy metal gearbox** for long working life.
- **FIXTEC metal quick-change chuck** with spindle lock.
- Handle with Softgrip coating for comfortable use.
- LED illumination of the working area.
- **Brushless POWERSTATE™**-motor (not size M18BPD4) for very high efficiency. Very low wear and **up to 10 times the working life** of standard DC motors.
- **REDLINK PLUS™** electronics overload protection and power management.

07 0102 Size M18OPD3-5 – FUEL™ ONE-KEY™ – latest generation of the FUEL™ devices with **integral Bluetooth® technology for individual configuration, online stock management and device reporting.**

07 0110 Size M18BPD4 – With low-maintenance 4-pole DC motor.

Size M12FPD2XK – FUEL™ compact cordless hammer drill/driver with **6-in-1 drilling system**. **Removable drill chuck system with 3 attachments for maximum flexibility.**

Size M18FPD3-2; M18FPD3-5 – Cordless hammer drill / driver with high torque of 158 Nm and a total length of only 175 mm.

Size M12FPD2-2–M12FPD2-6 – FUEL™ compact cordless hammer drill/driver with only 152 mm tool length. 13-stage electronic torque adjustment plus drill step plus hammer drill mode.

Supplied with:

07 0110 Size M12FPD2XK – Supplied with 2 pcs. Li-ion batteries, charger, transport case (HD box) and belt clip, 13 mm quick-change chuck, eccentric attachment, offset screwdriving attachment.

07 0111 – Zero version – without battery, without charger, with carrying case.

07 0102 Size M18OPD3-5/0110 Size M12FPD2-2; M12FPD2-4; M12FPD2-6; M18FPD3-5; M18BPD4 – Supplied with 2 pcs. Li-ion batteries, charger, transport case (HD box) and belt clip.

Note: See No. 073801 – No. 073840 for suitable batteries and chargers. The suitable Bluetooth® tracking module can be found under No. 070103 size BTT-1.

BOSCH Cordless hammer drill / driver

Bosch cordless hammer drill / driver for very heavy-duty screwdriving, drilling and hammer drilling applications.

- **Electronic Cell Protection (ECP)** protects the battery against overheating and deep discharge.
- **Electronic Motor Protection (EMP)** protects the motor against overloading.
- Mechanical multi-stage **torque cut-out.**
- Handy **belt clip** (not 070104).
- Integral **LED light, battery charge indicator.**
- Quick-clamping drill chuck.

07 0104 – Sturdy and handy cordless drill / driver, only **1 kg** in weight.

07 0105 – Robust cordless screwdriver with powerful motor.

Size GSB1890C; GSB18110C – With motor brake.

07 0106/0113 – With **brushless EC motor.**
Kick-back control with automatic shut-down if jammed, together with unique precision clutch. Compact design, very short head length (only 184 mm) for perfect handling (size GSB1890C), therefore ideal for working in restricted spaces. Can be retrofitted with a connectivity module.

Supplied with:

07 0104 – Supplied with 2× Li-ion batteries, charger and transport bag.

07 0105 – Supplied with 2 pcs. 18V / 3.0 Ah Li-ion battery, charger and L-BOXX.

07 0106 – Supplied with 2 pcs. ProCORE 18V / 4.0 Ah Li-ion battery, charger and L-BOXX.

07 0113 – **Without battery,** without charger and with L-BOXX.

Note:	Suitable replacement batteries and chargers can be found under No. 073851 – No 073866.

META CAS 18

CAS CORDLESS ALLIANCE SYSTEM

metabo 18V cordless hammer drill

Cordless hammer drill with brushless motor and two-speed gearbox.
Choose between a complete set of 2 battery packs, charger and sturdy plastic case or the machine without accessories in a box if you already have a few batteries.
Of course, you can also buy battery packs and chargers separately.
By the way, all Metabo battery packs come with a 3-year warranty, irrespective of the number of charging cycles.
Further details such as the bright LED work light and the handy belt hook ensure even more comfort when working.

Size 613157500 –
- Cordless impact drill/driver with extremely compact design for universal applications.
- Impact drilling function for drilling in masonry.

Size SB18LTBL –
- Cordless hammer drill with optimum performance for demanding applications.
- High-performance impact mechanism for best work results.

Size 602360650 –
- Cordless impact drill/driver with maximum power for the most demanding applications.
- Selectable pulse mode for unscrewing jammed screws and spot drilling on smooth surfaces.
- Precision Stop: more precise electronic torque coupling for exact, sensitive working.
- Electronic safety shut-off: no kick-back when the drill is blocked – for high user protection.

Supplied with:

07 0121 Size SB18LTBL – Includes quick-clamping drill chuck, 2× LiHD rechargeable batteries, charger and metaBox.

07 0122 – Supplied with quick-change chuck; without rechargeable battery, charger and transport case.

07 0121 Size 613157500; 602360650 – Supplied with quick-change chuck, 2 pcs. Li-ion rechargeable battery, charger and metaBox.

Note: See No. 073870 – 073890 for suitable batteries and chargers.

L-BOXX B 18

BOSCH Cordless drill / driver 18 V

- Compact, powerful cordless drill with forward/reverse operation.
- LED light to illuminate the working area and **battery charge display**.
- **Multi-stage torque setting** for precise screw driving.
- **Electronic speed control** for precise drilling and screw driving.
- **Softgrip**.

07 0245/0246/0107 –Can be retrofitted with a **connectivity** module.

07 0107 Size GSR1890FCS – Full flexibility: With many adjustable attachments, the **FlexiClick** system is the optimum solution for all working situations.

07 0243 – Outstanding available and comfortable handling due to **compact design**. **Motor brake** for precise working.

07 0245 – **Kick-back control** with automatic shut-down if jammed, together with unique precision clutch and motor brake. 13 mm auto-lock metal drill chuck. High torque.

Supplied with:

07 0243 Size GSR18V45 – Supplied with 2× Li-ion batteries, charger and L-BOXX.

07 0246 Size GSR18V150C – Including L-BOXX and additional handle, **without** battery and charger.

07 0107 Size GSR1890FCS/0246 Size GSR1890C – Including L-BOXX **without** battery and charger.

THE WIDEST SELECTION. MAXIMUM POWER

**Did you know that you can run your Fein power tools with a Bosch AmpShare rechargeable battery?
Or you can run a Steinel heat gun with a Metabo CAS rechargeable battery?
Try it out and reap the benefits of rechargeable battery systems today!**

How you benefit from cross-brand rechargeable battery systems:

Full compatibility	**Full flexibility**	**Saves space and hassle**
Saves time and money	**Conserves resources**	**You use leading rechargeable battery technologies**

07

We offer you **four rechargeable battery platforms** that enable you to run **multiple tools on the same battery**. This means for you: You save money and become **more flexible and efficient** at your industrial workplace.

Browse our range now and benefit from greater flexibility and cost effectiveness when using power tools.

"Did you know?"
In our **eShop** you can find the **entire range of power tools** from all our partners!
https://hog.tools/akku_powertools

B 12

BOSCH Cordless drill / driver 12 V

Bosch cordless drill / driver

- Compact, powerful **12 V cordless drill** with forward/reverse operation.
- With **Electronic Motor Protection (EMP)** and **Electronic Cell Protection (ECP).**
- LED light to illuminate the working area and **battery charge display**.
- **Multi-stage torque setting** for precise screw driving.
- **Electronic speed control** for precise drilling and screw driving.
- **Softgrip**.

07 0241 – **Top power-weight ratio** with up to 20 Nm torque for powerful screwdriving, yet low weight and very short head 163 mm.
Long service life thanks to **brushless EC motor.**

07 0242/0244 – Precise operation even where access is difficult due to compact size **with bit holder** or interchangeable **angle drilling attachment or eccentric drilling attachment.** Flexible working thanks to the quick-change system with four different **FlexiClick**-heads. Comfortable to use: Attachments remain for simply setting 16 different positions on the device.

Advantage:

Size GSR1215B – Compact design ideal for restricted places.

Size GSR1215FC – Versatile, 4 drill chuck options for selection.

Supplied with:

07 0240 – Supplied with charger and transport bag.

Size GSR1235 – Supplied with charger and L-BOXX.

Size GSR1235HX – Including 2× 12 V / 3.0 Ah Li-ion battery, charger, L-BOXX, belt clip, bit holder, 1/2 L-BOXX inlay for device and charger, 1/2 L-BOXX inlay, accessories.

07 0244 – **Without battery,** without charger (cordless concept), supplied with eccentric option, chuck, angle option, bit-holder.

Size GSR1215FC; GSR1235FCF – Supplied with charger, eccentric option, drill chuck, angle option, bit holder and L-BOXX.

Note: See No. 073851 – No. 073866 for suitable batteries and chargers.

CAS 18

CAS CORDLESS ALLIANCE SYSTEM

metabo Cordless drill / driver 18 V

Cordless drill/driver with and without Metabo Quick system.
The **Quick system saves a lot of time** if you frequently need to change between drilling and screwdriving. In just a few seconds, the drill chuck with drill can be replaced with a bit holder and a bit, without the need for any tools.

07 0271 Size BSLTX3BLQI –
- Extremely powerful 3-speed drill/driver with high speed for extended use and even faster drilling progress, especially in heavy metal applications.
- Powerful drill chuck with post-tensioning function to prevent slippage of the insert tool and maximum concentricity.

07 0281 – The **patented thread-cutting function** of the fully-fledged cordless drill/driver enables fast and uninterrupted drilling and cleaning of threads by automatically switching the direction of rotation.

Size GBLTXBLQI –
- Quick-change tapping chuck for mounting taps with square and cylindrical drill bits.
- Very durable and long tool life for the taps thanks to intelligent torque monitoring.

07 0271 Size BSLTX3BLQI; 613156850/0281 Size GBLTXBLQI –
- Selectable pulse operation for unscrewing fixed screws and spot drilling on smooth surfaces.

07 0271 Size BSLTX3BLQI; 613156850/0281 Size GBLTXBLQI –
- Precision stop: electronic torque coupling with increased precision for precise and sensitive working.

Supplied with:

07 0259 – Supplied with quick-change chuck, 2 pcs. LiHD rechargeable battery, chargers and metaBOX.

07 0260 – Supplied with quick-change chuck, 2 pcs. rechargeable battery, charger and metaBOX.

07 0261 – With quick-clamping drill chuck, without battery, without charger.

07 0271 – With quick-change drill chuck, without battery, without charger.

07 0281 – Including quick-change tapping chuck M4-M6, M8-M12, additional handle and without rechargeable battery and charger.

Note:	See No. 073870 – 073890 for suitable batteries and chargers.

Cordless drill / driver 18 V

07 0200 – **Cordless drill/driver**

- For **precise** drilling and screwdriving results.
- **Electronic speed control** for smooth, safe starts to drilling and screw driving; reversible.
- **Sturdy metal gearbox** for long working life.
- **Good weight balance and ergonomics** with softgrip inserts for non-tiring continuous work.
- Maximum work progress with **AMPShare 18V ProCore rechargeable batteries:** COOLPACK 2.0 technology provides 135% longer battery life. State-of-the-art cell technology and intelligent battery management provide 87% more power than conventional batteries.

07 0205 – **2- and 4-speed cordless drill/driver**

- For **precise** drilling and screwdriving results.
- **Electronic speed control** for smooth, safe starts to drilling and screwdriving; reversible.
- **Sturdy metal gearbox** for long working life.
- **Good weight balance and ergonomics** with softgrip inserts for non-tiring continuous work.
- Maximum work progress with **AMPShare 18V ProCore batteries:** COOLPACK 2.0 technology delivers 135% longer battery life. State-of-the-art cell technology and intelligent battery management deliver 87% more power than conventional batteries.

07 0200_71161461

Size 71161461H1; 71161461 – Small and light 4-speed cordless drill/driver with brushless motor and QuickIN interface. Perfectly suited to universal drilling and screwdriving work up to 8 mm.

- Solid metal 4-speed gearbox for optimum cutting speeds for drilling in metal and self-tapping screwdriving work up to 6 mm.
- Brushless FEIN PowerDrive motor with 30% higher efficiency and long working life.
- Mechanical torque setting.
- Extensive user protection features include restart protection, electronic overload protection and brake.

Size 7113246H1; 71132461 – **2-speed cordless drill/driver with brushless motor and QuickIN interface.** Perfectly suited to drilling and tapping up to 10 mm.

- Mechanical torque setting.
- Compact design.
- Brushless FEIN PowerDrive motor with 30% higher efficiency and long working life.

07 0200_71132461

Size 71161561H1; 71161561 – **4-speed cordless drill/driver with brushless motor and QuickIN MAX interface.** No compromise on performance when drilling and tapping up to 13 mm.

- 4-speed all-metal gearbox. With rotational speeds of up to 4000 rpm for optimum cutting speeds in metal when working on any bore from 1.5 to 80 mm.
- The powerful brushless **FEIN PowerDrive motor**, with up to 30% higher efficiency, enables a longer service life.
- Safe and controlled working thanks to **kickback control, restart protection, overload protection and extendable additional handle.**
- The innovative reset function enables screwdriving work in wood at a reduced speed for perfect results.
- **Intuitive control panel** with dimmable LED to perfectly illuminate the work area depending on the material.

07 0200_71161561

Supplied with:

07 0200 – Without battery and charger.

07 0205 – Supplied with battery and charger.

07 0200 Size 71132461; 71161461/0205 Size 7113246H1 – QuickIN drill chuck, belt clip, bit holder, L-BOXX

Cordless drill / driver 18 V

MILWAUKEE – Cordless drill / driver Powerful cordless 2-speed drill / driver, reversible.
REDLITHIUM™ rechargeable batteries with **single-cell monitoring** and **charge status display.**
Sturdy **metal gearbox** for long working life. **FIXTEC metal quick-clamping drill chuck** with spindle lock.
LED illumination of the working area. Handle with Softgrip coating for comfortable use.

07 0212 Size M18ODD3-5 – M18 FUEL™ **ONE-KEY™** Cordless drill / driver with high torque.

07 0210 Size M18FDD3-2; M18FDD3-5/0211 Size M18FDD3-2/0212 Size M18ODD3-5 –
Top model FUEL™ with **brushless POWERSTATE™ motor** for very high efficiency.
Very low wear and up to 10 times the working life of standard DC motors. The high efficiency and the enhanced battery capacity permit **up to 2× longer operating times** (compared to other Li-ion technologies). **REDLINK PLUS™ electronics** – for unique power management:

- With **system communication** between the drive machine and battery.
- With **overload protection** for longer working life of the battery, motor, and gearbox.

Supplied with:

07 0211 – Version **without rechargeable battery, charger.** Includes transport case.

07 0212 – Supplied with 2× M18 Red-Li-ion rechargeable batteries, M12-18 FC charger, belt clip, HD box (carrying case).

07 0210 Size M18FDD3-2; M18FDD3-5/0211 Size M18FDD3-2/0212 Size M18ODD3-5 –
Supplied with additional handle for easier support of the torque forces.

07 0210 Size M18FDD3-2–M18BLDDRC5 – Supplied with 2× M18 Red-Li-ion rechargeable batteries, M12-18 FC charger, belt clip, HD box (carrying case).

Note:
See No. 073801– No. 073840 for suitable batteries and chargers.

Cordless drill / driver 12V and 18V

AEG – Cordless drill / driver

- Sturdy and handy cordless 2-speed drill / screwdriver, reversible.
- **FIXTEC quick-change chuck** with spindle lock.
- Handle with Softgrip coating for comfortable use.
- LED illumination of the working area.

Size BS12C2 –
- Extremely compact - **only 176 mm overall length.**
- 17-step torque limit adjustment, plus drill steps.
- 10 mm quick-change chuck.
- Metal gearbox casing, electronic overload protection.

Size BS18SBL2-2 – Brushless **subcompact** motor with up to 65 Nm of torque. 24-step torque adjustment.

Size BS18C2X –
- 23-step torque limit adjustment, plus drill steps.
- 13 mm quick-change chuck.
- 4-pole motor for maximum power within a compact design.

Supplied with:

Size BS12C2 – Supplied with 2 pcs. 12 V / 2.0 Ah battery, charger, transport case.

Size BS18SBL2-2 – Supplied with 2 pcs. 18 V / 2.0 Ah battery, charger, transport case.

Size BS18C2X – Supplied with 2 × 2.0 Ah batteries, charger, transport case.

Note:	See No. 073841 - No. 073848 for suitable rechargeable batteries and chargers.

Cordless special drill / driver

07 0223 – **Bosch – cordless right angle drill**

- Bosch premium lithium-ion technology.
- **Battery charge display.**
- **Very compact:** short, **5-way adjustable head** with **10 mm auto-lock drill chuck.**
- **High speed** from 0-1300 rpm for fast work progress – optimal for holes, motor brake.

Size M4D2 – Li-ion cordless **compact drill / screwdriver with swivel joint** allowing use as a straight baton or as a pistol grip. REDLINK™ electronic overload protection for a long working life. 21-step torque adjustment with electronic switch-off function, drill step, battery charge display in the device, forwards/reverse running, **1/4 inch hex bit** arbor (E 6.3).

Size M12FHIR14 – Compact high-speed cordless ratchet screwdriver with sensitive speed controller.

Size M12FIR12-0 – Compact design for quick access for all applications, such as working on engines or gearboxes.
Brushless POWERSTATE™ motor with heavy-duty gearbox and casing for a long working life. REDLINK PLUS™ electronics for intelligent power management.

Size M12FHIR14L – High-speed, **long** cordless ratchet screwdriver allows users better access in confined spaces.

- REDLINK™ PLUS electronics and brushless POWERSTATE™ motor

07 0225/0228 – **MILWAUKEE – cordless right angle drill and ratchet**

- REDLINK™ electronics with stepless speed control, reversible running and overload protection.
- LED illumination of the working area.

Size C12RAD; C18RAD-0 – Lightweight and handy compact **right angle** drill / driver for places where access is difficult, very compact – **only 95 mm width across head.** 10-stage electronic torque adjustment plus drill step, **FIXTEC** quick-release chuck. A red LED indicates the torque that has been reached.

Supplied with:

Size GWB1210 – Including charger, L-BOXX 102, 1/2 L-BOXX inlay for accessories, 1/2 L-BOXX inlay for device.

Size M12FIR12-0 – Supplied with 1/2 inch to 3/8 inch adapter.

Size M4D2/0225 Size C12RAD – Includes a battery, charger and transport case.

Size C18RAD-0/0228 Size M12FIR12-0; M12FHIR14; M12FHIR38/0234 Size M12FHIR14L – **Without battery and without charger.**

Cleco Cordless torque shut-off nutrunner

The cordless Cleco® CellClutch™ assembly tools are smart yet simple to use, and bring programming functionality to the assembly line along with a classic counting function. Precision and repetition accuracy with a CMK value > 1.67 (at a tolerance of ±10% in conjunction with ISO 5393).

- **Easy to program:** Program speeds and multi-stage screw tightening procedures to avoid errors and improve productivity.
- **Tried-and-tested Cleco coupling:** For reliability and a long service life in the production line.
- **Operator status light:** Colour display for screw tightening and batch counting status.
- **Multi-colour LED:** Work light for additional "OK/NOK" user feedback whilst also illuminating your workpiece.
- **Programmable screwdriving strategies:** Eliminate damage to the thread and errors when screwdriving thanks to programmable speeds and strategies.
- **Uniform battery platform.**

Supplied with: Without socket, without rechargeable batteries and without charger.

Note: You can find suitable batteries and chargers under No. 073827 size MB18; 073816 size MB18 and under No. 073840. A pre-setting device is necessary for setting the torque; these can be found from No. 654381.

CellClutch™ AT A GLANCE

07 1142

Operator status light
Clear and simple display of the screw tightening status and the counting function on the colour display.

Standardised battery platform
For all new tools, ensuring a simple and cost-effective stock of batteries.
100% compatible with the Milwaukee M18 system.

Tried-and-tested Cleco clutch
Unsurpassed reliability and durability for assembly tasks.

Multi-colour LED display
Additional „OK/NOK" operator feedback with improved illumination of the workpiece.

Programmable screw tightening profiles
Avoid thread damage and screw tightening mistakes.

ACCU TEC torque shut-off screwdrivers to DIN ISO 5393, VDI / VDE 2647

FEIN ACCU TEC shut-off screwdrivers are designed for the most demanding applications requiring **precise screw tightening in series production.**

- **Brushless EC motors** with working life extended by a factor of several times and **up to 80 % lower maintenance costs.**
- **Restart delay** after the screw tightening, to avoid "follow-up".
- **Restart inhibit** if the remaining battery charge is insufficient to perform the screw tightening.
- **Tight screw tightening tolerances** for high screw tightening quality.
- **Precise and consistent tightening torques** in any screw tightening application.
- Testable screwdrivers, CmK-value > 1.67 ±10% (based on 6 sigma) to ISO 5393 VDI/VDE 2647.

The release torque is 25 % above the tightening torque.
Torque shut-off screwdriver with ParameterControl for easy and individual programming on a PC , using the programming adaptor (No. 071135 size 92604163).
Freely programmable parameters: Speed, direction of rotation, angle of rotation, torque threshold and time.
Up to 5 programmable steps. Precise configuration for each screw tightening application. **Final switch-off by mechanical clutch.**
Ideal for optimising the process and time. **Shut-off screwdriver, takes a Li-ion battery. Maintenance-free** up to 500,000 screw fastenings.

Supplied with: Just the screwdriver itself is supplied, **without battery, charger or setting tool and angle head.**
Please order the battery, charger, setting tool and angle head specifically for the device.

Note:
See No. 654300 ff. for torque analysers.
See No. 654381 for torque sensors / rotational angle sensors.
Calibration service on request.
See No. 073832 ff. for suitable rechargeable batteries and chargers.

BOSCH

Bosch industrial drill/drivers are designed for use in industrial applications with high demands on service life, consistency and accuracy.

- Extreme durability with extended service life for optimal operation without downtime.
- Outstanding performance consistency and torque accuracy.
- Ergonomic industrial design with a slim handle, light weight and short head length to minimise fitter fatigue and maximise application flexibility.

Note: Bosch industrial screwdrivers are not classified in category A, B or C.

BOSCH Cordless industrial drill/driver

07 4800 – Consistent, reliable and affordable 18V smart solution for industrial assembly lines.
- **Precision coupling:** No oversteer when a set torque is reached. (Reduces coupling wear).
- **Industrial ergonomics:** Extreme compactness for high flexibility. Optimized handle size and light weight for industrial mounting.

07 4801 – Industrial impact wrench with constant, pre-selectable output torque.
- 9 levels of specific tightening torque with +/-15% consistency to each bolt.
- Tightening indicator light.
- **Durable Hall sensor switch:** Switching cycle is maximised for 2-5 times longer life compared to traditional products.

Note:	See No. 073851 – No. 073866 for suitable batteries and chargers.

BOSCH Cordless impact wrench / drivers

L-BOXX B 12

Cordless impact wrench / impact driver.
- Reversible.
- Battery charge display.

Compact impact screwdrivers for **high precision.**
- Perfect handling thanks to the short overall length.
- Higher precision: **2-stage power control** to avoid overdriving smaller screws.
- Longer motor life thanks to **brushless EC motor technology.**
- **LED light** for illuminating the working area, even in dark areas.

BOSCH Cordless impact wrench / driver

Cordless impact wrench / impact driver.

- Reversible.
- Battery charge display.

07 4052 Size GDR18V200 – Compact 18V impact wrench / driver with 1/4 inch bit holder.

- High torque and high impact rate (4000 impacts/minute) for rapid progression of work when tightening screws in metal (up to M16) and wood.
- Very short body for perfect handling even in confined spaces and overhead.

Size GDX18V210C – Powerful impact wrench with 2 operating modes for metal and wood and **Bluetooth® connectivity.**

- Special tool arbor combining **1/2 inch square and 1/4 inch hexagon.**
- **3-stage PowerControl** – for different torques to suit different applications.
- Further parameters and operating modes can be set individually using the **Toolbox app**.

Size GDS18450HC – 1/2-inch impact wrench with Bluetooth® connectivity.

- 2 operating modes for metal and wood. Further parameters can be set individually using the Toolbox app.

Size GDS18750C – Powerful 1/2" cordless impact screwdriver combines performance with a compact design.

- Break-away torque of 1000 Nm combined with a head length of only 156 mm.
- Ideal for metal workshops/locksmiths, industrial metalworking, vehicle maintenance and construction.

Size GDS18V1000 – Powerful 18V impact wrench with **BITURBO** brushless technology, for the **most demanding** screw tightening in metal.

- 3 speed/torque settings for excellent control of speed and torque.

Size GDS1050HC – 3/4 inch impact wrench with **BITURBO** brushless technology and **Bluetooth® connectivity.**

- 3 speed/torque settings.
- 2 operating modes for metal and wood.
- Further parameters can be set individually using the Toolbox app.

Size GDS1600HC – Exceptional cable-free performance: 3/4" impact screwdriver with high traction power thanks to BITURBO brushless technology.

- Strong impact screwdriver with a tightening torque of 1,600 Nm and break-away torque of 2,200 Nm.
- Auto Bolt Release (ABR) mode ensures convenient handling by preventing metal bolts or union nuts from falling off and being lost.

Supplied with:

07 4051 – Version without battery and without charger, including L-BOXX.

07 4052 – Supplied with 2× Li-ion batteries, charger, L-BOXX

Note:	Suitable replacement batteries and chargers can be found under No. 073851 – 073867.

Cordless impact wrench / driver

L-BOXX B 18

AMP Share Powered by BOSCH

Powerful cordless impact wrench with **brushless motor and torque adjustment in 6 steps.**
Robust all-metal impact drive and ergonomic handling thanks to soft-grip coating.

Size 71151061 –
- Brushless motor has 10% higher torque for anti-clockwise rotation to release stubborn stuck screws.
- Touch protection on the gear head.
- Compact design.

Size 71151161 –
- Brushless motor with 30% higher efficiency and long working life.
- 1/4 inch hexagon socket toolholder for holding bits and sockets.
- 10% higher torque for anti-clockwise rotation to release stubborn stuck screws.

Size 71151261 –
- Brushless FEIN PowerDrive motor with 30% higher efficiency and long working life.
- Impact nut is securely connected to the drive output square with a positive connection and form fit.

Supplied with: **Version without battery and without charger,** including L-BOXX.1 pc. belt clip, 1 pc. bit holder.

Note: See No. 073851 – No. 073866 for suitable batteries and chargers.

Cordless impact wrench / driver

_M18ONEFF34

Robust and **powerful FUEL™ cordless impact wrench** with **brushless POWERSTATE™ EC motor**, for long motor service life and high energy efficiency. Sturdy **metal gearbox casing** and ergonomic **central handle with soft-grip coating.** Stage of charge display, LED illumination of the working area. Reversible, with electronic speed control. **REDLINK PLUS™ electronics** – for unique power management:

- With **system communication** between the drive machine and battery.
- With **overload protection** for longer working life of the battery, motor, and gearbox.

DRIVE CONTROL™ permits quick switching between the 4 available settings with different speeds and torques.

Size M18ONEFF34 – Cordless impact wrench / impact driver with snap ring provides up to 1627 Nm of tightening torque and replaces wired and pneumatic devices. DRIVE CONTROL enables quick switching between the 4 available settings with different speeds and torques.

Size M18ONEFHIW – The **1 inch 18 V cordless impact wrench FUEL™** delivers up to 2033 Nm torque from a compact tool and needs neither a cable nor compressed air to do it. Integral impact rate adjustment increases the reproducible results for the chosen torque setting. With new **Forge™** 8.0 Ah rechargeable battery.

Size M18ONEF1DS – With 18 FUEL™ ONEKEY™ 1 inch cordless impact wrench with snap ring, provides up to 2576 Nm of tightening torque and replaces wired, petrol and pneumatic devices. DRIVE CONTROL enables quick switching between the 4 available settings with different speeds and torques.

_M18ONEFF12

Size M18FIW2F12 – **18 V / 5.0 Ah compact cordless impact driver** with only 124 mm overall length.

Size M18FID3 – **M18 FUEL™ 1/4 inch hex cordless impact wrench.**

- Extremely compact, only 113 mm long.
- DRIVE CONTROL enables quick switching between the 4 available settings with different speeds and torques.
- Improved illumination of the work area by 3 LEDs.

Size M18ONEFF12; M18FMT2F12; M18ONEFF34; M18FIW2F12 –

- Compact design.
- Stage 4 for an optimum mix of power and precision when undoing screws.

Size M18ONEFF12; M18ONEFF34 –

- ONE KEY™ app for individualising the tool settings.
- ONE KEY™ tool tracker & security permits amongst other things a display of the latest position of the device.

_M18ONEFHIW

Supplied with:

Size M18ONEFHIW; M18ONEF1DS – Includes 1× M18 Forge™ 12 Ah, charger, HD box.

Size M18ONEFF34; M18ONEFF12; M18FMT2F12; M18FIW2F12; M18FID3
Supplied with 2× Li-ion batteries, charger, HD box, belt clip.

META CAS 18

metabo Cordless impact wrench 18V

High torques for heavy-duty screwdriving applications.
The LTX-class cordless impact wrenches are available with a maximum torque of 300 Nm, 800 Nm or 1750 Nm. Perfectly suited for power-intensive screwdriving in all performance ranges. They are also equipped with an Automatic Power Shift (APS) mode:
- Unscrewing in APS mode: prevents the screw/nut from falling through automatic reduction of speed after loosening.
- Bolting in APS mode: prevents overtightening of the screw/nut through automatic switching off after the first impact.

By the way, all Metabo battery packs come with a 3-year warranty, irrespective of the number of charging cycles.
Further details such as the bright LED work light ensure even more comfort when working.

Supplied with:
07 4060 – Supplied with 2× LiHD rechargeable batteries, charger and metaBOX.
07 4061 – Without battery, charger or transport case.

Note: See No. 073870 – 073890 for suitable batteries and chargers.

Tapper and accessories

- Electronic speed control for responsive starting.
- Sustained power for reliable performance.
- **Integral reversing gear** and quick backing out.
- FEIN **sensitive handle** for non-fatiguing and safe working.
- Integral switch for ease of use.

Size 720938 – Mains adaptor 220V.

Supplied with: **Without drill chuck.** With additional handle. A collet chuck (No. 075580 size 063012) or a jaw chuck (No. 075580 size 019009) is required for operation.

Drills

07 5120 – **FEIN angle drill –**
- Gearbox only 96 mm high including drill chuck, **width across the head 17 mm.**
- Integral switch with clockwise / anticlockwise switch for ease of use.
- Hollow shaft **taper arbor** for precise concentricity.

07 5150 –
- **Compact 2-speed power drill** for drilling, countersinking, tapping, and screwdriving.
- Stepless electronic speed control for gentle starts to drilling and screwdriving.
- Integral switch with clockwise / anticlockwise switch for ease of use.

07 5155 – Powerful power drill with speed control for flexible use in metal construction.
- Reversible for thread tapping up to M12.
- High-quality SUPRA SK Röhm metal quick-release chuck.
- With torque slip clutch.
- 1200 W high-power motor with stable torque.

07 5156 – Universal **four-speed hand drill** for drilling holes up to 32 mm. Reversible, speed pre-set, MT3 tool arbor for heavy-duty drilling operations.

Supplied with:

07 5120 – 1 special rim gear drill chuck 0.8 – 10 mm.

07 5150 – Quick-clamping drill chuck with locking force safety device, 1 additional handle.

07 5155 – Quick-clamping drill chuck 3 – 16 mm, additional handle.

Note: Suitable jobber drills can be found from No. 114000.
07 5156 – suitable magnetic drill stands available on request.

BOSCH Drills, impact drills

Drills

Size GBM10RE – Hand-held power drill with 600-W motor and high torque for holes up to 10 mm in steel.
- Quick-release chuck for high precision and long working life.
- **Compact design** and low weight.
- Control electronics for exact starts to holes.
- Reversible.
- Softgrip.

Size GBM132REK – Hand drill with powerful 750-W motor and high torque for bores up to 13 mm in steel.
- **2-speed gearbox**.
- Ball and roller bearings for precise work and a long service life.
- Small size of 29 mm across corners.
- Stepless speed pre-selection with control wheel.
- Control electronics for precise spot drilling.
- **Overload clutch** to protect both user and machine.
- Spindle neck ∅ 43 mm (European standard) – can be used in a drill stand.
- Reversible.
- Softgrip.

Supplied with:

Size GBM10RE – Including quick-clamping drill chuck, 10 mm.

Size GBM132REK – Supplied with 13-mm quick-change chuck, additional handle, depth stop 210 mm, box.

Impact drills

Impact drill with high-performance motor with high torque for very heavy duty applications (drilling, working with drills, masonry hole saws and hole saws) as well as screwdriving and smoothing.
- New safety handle with innovative fastening and softgrip for secure holding of the machine.
- Sturdy metal gearbox for long working life.
- Mechanical **overload clutch** Anti-rotation for high working security even for the toughest applications
- Single-sleeve **quick-change chuck with auto-lock** for quick tool-changing using only one hand.
- Rotatable brush plate for equal torque in clockwise and anti-clockwise directions.
- Spindle neck ∅ 43 mm (European standard) – can be used in drill stands.
- **2-speed gearbox.**

Size GSB242 – ■ Enhanced user protection by **KickBack Control.**

Size GSB212RCTK – ■ **Torque Control** for high precision: Speed pre-selection for even driving of screws.
- **Constant-speed electronics** for comfortable work: Maintains constant speed under load.

Supplied with:

Size GSB242 – Supplied with 13-mm quick-change chuck, additional handle, depth stop 210 mm, carrying case.

Size GSB212RCTK – With additional handle, depth stop 210 mm, quick-clamp drill chuck 13 mm, carrying case.

AEG (Cordless) hammer drill

07 5535 – ■ Brushless 18 V cordless rotary hammer with sturdy metal gear housing and SDS-plus tool holder.
■ Safety shut-off.
■ **Impact action can be switched off** for drilling wood and metals.
■ **Zero rotation** for easy chisel work.
■ Handle with **anti-vibration system.**

07 5610 – Powerful **impact drill**
■ Reversible.
■ Safety shut-off.
■ **FIXTEC** metal quick-change chuck.
■ 2-speed planetary gearbox for high torque and optimum adaptation to the material.

Size SB2E1100RV – Compact and powerful 1100 W impact drill with anti-vibration system (AVS).

07 5620 – ■ **1010 W** combi hammer with **FIXTEC adapter,** for lightning-fast changeover between SDS-plus chuck and quick-clamping drill chuck.
■ **Pneumatic hammer mechanism.**
■ **Electronic controls** with stepless pre-selection of speed and impact.
■ **Safety clutch.**
■ 2-speed planetary gearbox.
■ **Zero rotation** and 16 possible chisel positions for **easy chisel work.**
■ **Anti-vibration system** AVS and soft-grip for maximum user comfort.
■ Soft-Grip for very good user comfort.

Supplied with:

07 5535 – Includes 2 pcs. 18 V / 5.0 Ah Li-ion batteries, charger, and transport case.
07 5610 – Metal quick-change chuck 1.5 - 13 mm, additional handle, drilling depth stop, transport case.
07 5620 – FIXTEC adapter, quick-clamping chuck 1.5 - 13 mm, SDS-plus bit holder, additional handle, drilling depth stop, transport case.

metabo Drills, impact drills

Drills

The right drill for every hole diameter.
Each drill has an optimum speed range for specific drilling diameters, as well as a spindle with hexagon socket for screwdriver bits for use even without a drill chuck.

Size BE650; BE850-2 – The Futuro Plus quick-clamping drill chuck ensures exact drilling results by means of automatic retightening during drilling.

Size BE850-2; BEV1300-2 –
- Robust die-cast aluminum gear housing for optimum heat dissipation and durability.
- Rotating carbon brush bridge for maximum performance even in anti-clockwise rotation, e.g. for unscrewing stuck screws.
- Metabo S-automatic safety clutch: mechanical decoupling of the drive when the drill is blocked for safe working.

Size BEV1300-2 –
- Selectable pulse operation for unscrewing fixed screws and spot drilling on smooth surfaces.
- Vario-Tacho-Constamatic (VTC) full-wave electronics for working with material-appropriate speeds that remain constant under load.

Supplied with:

Size BE650 – Includes Futuro Plus quick-clamping drill chuck.
Size BE850-2 – Includes Futuro Plus quick-clamping drill chuck and additional handle.
Size BEV1300-2 – Includes key chuck, chuck key and additional handle.

07 5070_BEV1300-2

Impact drills

Impact drilling with high user protection.
The impact drills are equipped with the Metabo S-automatic safety clutch. When the drill is blocked, the drive is immediately mechanically decoupled to minimise the reverse torque to the user.
- Metabo Marathon motor with dust protection for long life.
- Spindle with hexagon socket for screwdriver bits enables use without a drill chuck.

Size SBE800-2 – Adjusting wheel for preselecting the speed.

Size SBEV1300-2 –
- Restart protection: Prevents unintentional start-up after power interruption.
- Selectable pulse mode for unscrewing jammed screws and spot drilling on smooth surfaces.
- Adjusting wheel for preselecting the speed.

Supplied with:

Size SBE800-2 – Includes quick-clamping chuck, additional handle, depth stop and plastic case.
Size SBEV1300-2 – Includes quick-clamping chuck, additional handle, depth stop and metaBOX.

BOSCH (Cordless) hammer drills

07 5510 Size GBH540DCE – Large all-purpose hammer drill with powerful impact mechanism (8.8 J impact energy) and **SDS-max tool holder.**

- **Vibration control** vibration damping ensures pleasant working, even on time-consuming tasks.

Size GBH540DCE –
- Automatic switch lock for maximum operator convenience during continuous chiselling work.
- Constant electronics, service display and standby display for maximum working convenience.
- Adjustment wheel for setting the rotation speed and impact rate, for optimum performance.

07 5515 Size GBH18V24C – Cordless hammer drill with integrated Bluetooth® connectivity module.

- Kickback Control and Vibration Control.
- User interface for selecting the tool mode (Auto/Favourite).

Size GBH18V-26F – Cordless hammer drill ideal for everyday use.
- Full control thanks to KickBack Control and Electronic Precision Control.

Size GBH18V-26F –
- Clean working made possible through combination with the optional GDE 18V-16 dust extraction system.

07 5515 – **18-V cordless hammer drill** with **SDS-plus tool mounting** and brushless motor.

- Overload clutch to protect both user and machine.
- Reversible.

Size GBH221–GBH228F – Sturdy hammer drill with **SDS-plus arbor** and high drill feed rate.

- Overload clutch to protect both user and machine.
- Stepless speed control for responsive starts to drilling.
- Versatile application possibilities using the chisel function (zero rotation).
- Reversible, for releasing jammed drills.

Size GBH226F; GBH228F –
- **Exchange chuck** for quick changeover between hammer drilling in concrete and hammer-free drilling in wood and steel.

_GBH221

_GBH226F

_GBH228F

Supplied with:

07 5510 Size GBH221 – Supplied with 210 mm depth stop and carrying case.

Size GBH226F – Supplied with 13mm quick-change chuck, SDS-plus chuck, 210 mm depth stop, carrying case.

Size GBH228F – Supplied with 13mm quick-change chuck, SDS chuck, 210 mm depth stop, L-BOXX 136.

Size GBH540DCE – Including tube of grease, additional handle, machine cloth and case.

07 5510 – With additional handle, machine cloth.

07 5515 Size GBH18V24C – Including 2× 18V / 5.0 Ah Li-ion batteries, charger, depth stop, 1/1 L-BOXX inlay for device and charger and L-BOXX.

Size GBH18V-26F – Supplied with 2 pcs. 18 V / 8.0 Ah **ProCore battery,** charger, 13 mm quick-change drill chuck, depth stop, additional handle, L-Boxx 136.

Note:

07 5510 – Suitable carbide hammer drills can be found from No. 787000.

07 5515 – Suitable spare batteries and chargers can be found under No. 073851– 073866.

metabo (Cordless) hammer drills

SDS PLUS

Power packs for hammer drilling.
The hammer drill has a high-performance hammer action with a precise pneumatic impact mechanism that generates impacts with maximum impact energy with minimal pressure.

Size BHLTX16 – ■ Electronic safety shutdown of the motor when the tool is blocked for safe working.

07 5559 Size BHLTX16 –Hammer drill with 2 functions: **hammer drilling and drilling**.

07 5576 Size UHEV2860-2 – Multi-hammer with 4 functions: **hammer drilling, drilling in two gears and chiselling**.

07 5559/5560/5561 – ■ Metabo VibraTech (MVT): health-friendly, low-fatigue working even in continuous use.

07 5559/5560/556/5576 –
■ Vario-Tacho-Constamatic (VTC) full-wave electronics for working with material-appropriate speeds that remain constant under load.

Size KHLTXBL24; KHLTXBL28Q – Combination hammer drill with 3 functions: **hammer drilling, drilling and chiselling**.

07 5560/5561/5576 – ■ Safety shut-off: mechanical decoupling of the drive when the drill is blocked for safe working.

Size KHLTXBL28Q; UHEV2860-2 – **Metabo Quick**: fast, tool-free chuck change.

Supplied with: With additional handle and depth stop.

07 5561 – **Without** battery and charger.

07 5559/5560 – Includes 2× batteries, charger and MetaBOX.

Size KHLTXBL28Q; UHEV2860-2 – Including hammer chuck and quick-clamping drill chuck.

Note:
07 5559–5561 – See No. 073870 – 073890 for suitable batteries and chargers.

Compact core drilling machine

L-BOXX

Extremely small and light-weight single-speed compact magnetic core drilling machine with minimal dimensions for use in confined spaces in the workshop and on the building site.

- Fixed upright drilling motor for working in confined spaces.
- Space-saving ratchet operation from both sides.
- Optimal view of the drilling site.
- Unique centre feed for cutting depths up to 35 mm.

Supplied with: Supplied with 1 pc. 1/2 inch ratchet, 1/2 inch socket extension, coolant pump, lashing strap, swarf hook, centring pin, guard, additional handle, internal hex socket 5 mm, internal hex socket with T handle 5 mm, L-Boxx.

Core drilling machines

Swivel Base variant with adjustment facility (No. 07 6536).

- Integral internal lubrication system, magnetic indicator for monitoring the magnetic clamping force.
- Integral cutting oil container, complete cable routing within the casing.
- Oil bath gearbox.

07 6535 Size MABASIC200 – Single-speed magnetic core drilling machine for drill ∅ up to 32 mm. With 19 mm (3/4 inch) Weldon arbor.

Size MAB455 – Sturdy magnetic core drilling machine for all material types. With MT2 tool arbor and **keyless quick-change drilling system. Supplied with core drills dia. 14 / 18 / 22 mm,** cutting depth 30 mm.

Size MAB825 – The heavy-duty power package. Core drills up to ∅ 100 mm. **Thread tapping up to maximum M30** using the adapter supplied. MT3 tool arbor with **keyless quick-change clamping system.** Thermal cut-out and clutch protect machine and tool. Motor with 4-speed gearbox, full wave electronic controls and torque limit cut-out permits best speed settings with no loss of power. **Supplied with core drills dia. 17.5 / 21 / 24 mm,** cutting depth 55 mm; **thread tapping adapters** M20 / M24 / M27.

Size MAB1300 – The most powerful magnetic core drilling / broaching machine on the market, with 2300-Watt motor, **core drilling up to ∅ 130 mm and thread tapping up to M42.** Motor with wide range of speeds (30 – 550 rpm), 3-coil magnet for extremely high clamping force. New counterholder for easy conversion between core drills and twist drills. **Servo-support** for drilling with almost no applied force. **Supplied with core drills dia. 17.5 / 21 / 24 mm,** cutting depth 55 mm. **Thread tapping adapters** M20 / M24 / M27.

07 6536 Size MAB845 – The heavy-duty power package. Core drills up to ∅ 100 mm. **Thread tapping up to maximum M30** using the adapter supplied. MT3 tool arbor with **keyless quick-change clamping system.** Thermal cut-out and clutch protect machine and tool. Motor with 4-speed gearbox, full wave electronic controls and torque limit cut-out permits best speed settings with no loss of power. **Supplied with core drills** ∅ 17.5 / 21 / 24 mm, cutting depth 55 mm; **thread tapping adapters** M20 / M24 / M27.

07 6536 – Core drilling machine with **Swivel Base,** an **adjustment option with the magnet switched on.** Swivel range up to 20° to either side and a stepless forwards and backwards adjustment (15 mm).

Size MAB485; MAB525 – Powerful all-round machine for all material types, for drilling, **tapping,** reaming, and countersinking. **Reversible,** full wave electronic controls, toolholder with **keyless quick-change clamping system** and thermal overload protection allow for a wide variety of applications. **Supplied with core drills dia. 14 / 18 / 22 mm,** cutting depth 30 mm; **with quick-release drill chuck** SSBF 1 – 16 mm. **Thread tapping adapters** M10 / M12 / M16.

Application:

Size MAB485– MAB1300 – The stepless speed control through the high ratio reduction gearbox permits the use of taps, jobber drills, reamers, countersinks and core drills for all material grades.

Supplied with:

07 6535 Size MABASIC200 – Carrying case, core drill holder, ejector pin for core drills, safety chain, lubrication system, and operating tools.

07 6536 – Includes case, core drill holder, ejector pin for core drill, safety chain, **magnetic swarf hook,** lubrication system and operating tool.

07 6535 Size MAB455–MAB1300 – Includes case, core drill holder, ejector pin for core drill, safety chain, **magnetic swarf hook,** lubrication system and operating tool.

Note:
- See No. 118782 to 118922 for core drills.
- Core drilling machines with **automatic feed, vacuum clamping plate and pipe clamping fixtures available on request.**
- Pneumatic core drilling machines with ATEX standard available on request.

The small MAB155 (076535_MAB155) can be found in the eShop.

Core drilling machines

- High magnetic clamping force and safety circuit ensure safe working in any position.
- Integral coolant supply for clean cut and long tool life.
- Convenient **magnetic clamping force display.**
- Reversible (even for thread tapping).
- Weight-optimised design.

Size 727053 – **Compact lightweight single-speed magnetic core drilling machine** with high functionality and tilt sensor.

Size 72705761 – **Compact lightweight 2-speed magnetic core drilling machine. Very narrow magnetic base only 70 mm wide.** Ideal for machining T-section profiles. High functionality and tilt sensor.

Size 727041 – Lightweight core drilling machine, very easy to use, for efficient drilling in the workshop and on site.

Size 727040 – Universal core drilling machine for flexible work in the workshop and on site. With an **MT3 shaft** as a universal tool arbor.

Size 727042 – Saves time and cost by **digitally controlled drilling feed** and tilt sensor.

Size 727043 – High-power core drilling machine for universal and efficient work in the workshop. **MT3 shaft** and **fine adjustment** for precise alignment with the magnetic base activated.

Size 727060 – High-performance **4-speed universal** magnetic core drilling machine with powerful lift. Extra-high lift range for all mobile drilling operations such as core drilling, twist drilling, thread tapping, countersinking and reaming.

Size 727040; 727042; 727043; 727041 – **2-speed magnetic core drilling machines**

- Feed rate wheel can be switched from one side to the other.
- Increased magnetic clamping force.
- 5-stage speed adjustment and **speed setting memory.**

Supplied with: Supplied with cooling lubricant tank, lashing strap, 1× centring pin, swarf hook, carrying case.

Optional extras: On request.

Note: See from No. 119000 for carbide core drills and arbors. Suitable QuickIN-Max arbor and carbide core drills max. DM 100 mm available on request.

QuickIN quick change system for quick tool changing without using tools.

Simple and easy-to read control panel in the direct field of view (not size 72 7060).

Vacuum plate / vacuum pump for embossed surfaces available on request.

Cordless core drilling machines

Cordless universal magnetic core drilling machine up to 35 mm

B 18

Small single-speed magnetic core drilling machine with powerful lift and brushless EC motor. Very high functionality for mobile work around the building site.

- For maximum performance, an 18-V **AMPShare ProCore battery** is recommended.
- Reversible.
- Extra-narrow permanent magnet with magnetic bias.
- Flexibility for all mobile drilling operations such as core drilling, twist drilling, thread tapping, countersinking and reaming.
- Simple and clear operating concept in the user's field of view.

Supplied with: AKBU 35 PMQ Select **without battery, incl.** coolant pump, lashing strap, swarf hook, centring pin, guard, drive-out drift, carrying case.

Note: See from No. 073851 and No. 073863 – 073867 for suitable replacement batteries, starter sets and chargers.

Cordless magnetic core drilling system up to 38 mm

MB 18

Size M18FMDP – **M18 FUEL™ rechargeable battery** magnetic core drilling machine with LED illumination.

- Core drilling up to 38 mm.
- 2-speed gearbox: optimised speed for drilling with core drills (400 rpm) and jobber drills (690 rpm).
- Strong permanent magnet with holding force of 8890 N.
- Version with REDLINK PLUS™ electronics AUTOSTOP™.
- Integral magnetic coolant container.

Supplied with:

Size M18FMDP – 2 x M18 B5 battery packs, M12-18 FC charger, carrying case.

Note:

Size M18FMDP – Suitable carbide core drills can be found from No. 118782. See No. 073801– No. 073840 for suitable batteries and chargers.

ALZMETALL we drive productivity Bench drill

High-speed, durable and precise bench drill. Multi-touch display with scratch-resistant glass surface for optimum readability. Simple and coherent user guidance via pictograms on display. Digital drill depth display with reference zero orientation.

Fitted as standard:

- 5-inch TFT LCD display with touch function: Manual input spindle speed target value, actual value speed display, integral drill depth display with touch zero point transmission, virtual drilling depth scale on display, machine status display and warning instructions in the display, service information, choice of user languages: DE/ EN/ FR/ ES/ IT/ NL/ RU.
- **AC motor** 230 volts, 50 Hz.
- **Connection plug** ready assembled, cable length 3 m.
- **Speed adjustment** steplessly by potentiometer.
- **Three separate buttons for clockwise rotation - anticlockwise - stop** (spindle stop with braking function).
- Spindle guard with electrical interlock.
- Mushroom-head pushbutton (latching) for EMERGENCY STOP.
- Main switch, lockable.
- Paint finish: DD textured paint, signal white RAL 9003, PANTONE 7545c, black.

Size 6–12 – With height-adjustable and swivelling drill head.

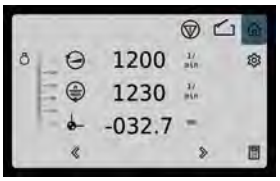
Size 14; 16 – With rigid and height-adjustable and swivelling machine table.

Function: IP54: Protected against splashed water from all directions and protected against penetration of dust into the inside (protected against dust), also completely protected against touching.

Note: Further bench drills and optional equipment such as LED machine lamps, technology computers etc. are available on request.

Size 14; 16 – Available with optional thread cutting device.

Alztronic i14 and i16 are now also available with an optional thread cutter.



5 inch TFT LCD display with touch function & optional technology computer.

PFERD Drive system RCK

The RCK drive system with continuous speed control is an innovative solution that combines maximum productivity with significant ergonomic advantages.
The system generates less noise and vibration than conventional drives.
The combination of the mobile control unit and various handpieces makes the system particularly light, comfortable and flexible during use.
In addition, the handpieces allow the use of a wide variety of tools in almost all industries.
The system is designed for continuous use at constant speed and can be used with a powerful rechargeable battery in addition to power supply operation.

Advantages:

- Increases productivity by up to 50% thanks to constant speed.
- Comfortable, ergonomic working with fast, optimal results.
- Can be used with power supply or rechargeable battery (mobile operation) for a wide range of industrial applications.
- Control unit that enables precise control of various handpieces.

Control unit that enables precise control of various hand-pieces.
Achieves a maximum speed of 80,000 RPM and keeps it stable when in use.

The RCK hand-pieces feature a brushless motor with very stable speed and improved ergonomics.
Size RCK-800SP – Straight hand-piece with a speed range of 40,000 - 80,000 rpm and 3 mm collet.
Size RCK-WS45 – 45° angle hand-piece with a speed range of 15,000 - 30,000 rpm and 3 mm collet.
Size RCK-WS90 – 90° angle hand-piece with a speed range of 15,000 - 30,000 rpm and 3 mm collet.
Size RCK-GS100 – Robust hand-piece with a speed range of 5,000 - 10,000 rpm and 6 mm collet.
Size RCK-GS400 – Robust hand-piece with a speed range of 20,000 - 40,000 rpm and 6 mm collet.

Deburring and chamfering machine

Chamfering machine with smooth start-up and thermal overload protection for machining straight edges, internal and external radii and holes from 22 mm ∅. Fine adjustment permits light chamfering for deburring and also wide chamfering. With improved cutter head for reduced cutting forces.

Size EKF300 – Chamfer 30° – width stepless 0 - 5 mm.
Size EKF450 – Chamfer 45° – width stepless 0 - 6 mm.
Size EKF452 – Radius R 2.5 mm.

Supplied with: Milling head, **3 carbide** inserts, swarf hook No. 084520 and transport case.

Note: A component edge height of at least 2 mm is necessary to provide guidance.

Deburring and chamfering machine

For producing chamfers and radii on flat materials, sheet metal and containers, internal and external edges, contour profiles and for rounding off holes.

07 8123 – Powerful cordless beveller for optimum preparation of coatings for flexible working in the workshop and on the construction site.
Size AKFH18-5AS – Cordless beveller up to 5 mm.
07 8126 – Metal beveller for chamfer heights up to 15 mm for weld seam preparation.

- **Tool-free setting of the cutting depth in 0.1 mm steps.** (From 0 mm – 15 mm)
- Precise adjustment of the chamfer angle.
- Controlled working by means of large-area guide plates.
- Electronic overload protection, soft start and restart protection.

Supplied with:

07 8123 Size AKFH18-5AS – **Without battery and charger**, 1 machine incl. 45° milling head (without guide roller, without indexable inserts), 3 clamping screws, 1 copper paste, 1 hexagon L-wrench 4 mm, 1 Torx screwdriver TX 15, 1 plastic tool case.
07 8126 – 3 universal carbide inserts, stop roller, 2 screwdrivers, open-ended spanner size 10, bow-type handle, metaBox.

Note:
07 8123 – The required accessories can be found under No. 078136 – 078138.
See No. 073851 – 073866 for suitable rechargeable batteries and chargers.
07 8126 – The required accessories can be found under No. 078132 and 078134.

Angle grinder Ø 115 mm

07 7103 – **1000 W** motor, spindle locking, restart inhibit.

07 7104 – Light-weight and powerful **115 mm one-hand angle grinder** in **handy compact design**, drive head can be rotated in 90° steps, quick adjustment of protective cover, M14 grinding spindle thread.

07 7105 – **Cordless angle grinder 115mm** with POWERSTATE™ motor (brushless) for very heavy-duty use. The REDLINK PLUS™ electronics offers advanced digital overload protection for machine and battery and delivers constant power even under load. With dead man's switch.

07 7107 – Dust-resistant and powerful 18V AMPShare cordless angle grinder for effective cutting, grinding and deburring work in assembly applications. Double the productivity – up to 45% more cuts than the previous system thanks to the perfect combination of a powerful machine and a **highly efficient** ProCORE battery system. Durable and robust thanks to completely closed motor housing. This protects the motor from aggressive ceramic and mineral dusts. Innovative cooling ribs ensure optimum cooling, including temperature monitoring.

- Electronic speed pre-selection.

07 7109 – **720 watt** 115 mm angle grinder with small handle circumference, offers optimised ergonomics for low-fatigue working.

- Speed preselection enables a wide range of applications.

Supplied with:

07 7105 Size M18FSAGV – **Without battery, without charger.** With cardboard box.

07 7107 Size 71221561 – **Without battery, without charger.** Supplied with protective hood, tool-less quick-clamping nut, anti-vibration handle, wrench, L-BOXX.

07 7109 – Supplied with torsion-resistant protective hood, clamping set, additional handle.

07 7103 Size AG10-115EK/7104 Size WS8-115S – Supplied with protective hood, clamping set and additional handle.

Note:

07 7105 Size M18FSAGV – Suitable starter set can be found from No. 073826.

07 7107 Size 71221561 – See No. 073863 – 073867 for a suitable starter set.

BOSCH X-Lock angle grinder ∅ 125 mm

L-BOXX B 18

XLOCK

Size GWX1810SC – The angle grinder has a Bluetooth® connectivity module and user interface, as well as Drop Control, X-Brake and restart protection. It is possible to change accessories quickly and conveniently thanks to the keyless X-LOCK click system.

Size 18V15C; 18V15SC – **Cordless angle grinder** with **BITURBO brushless technology** with X-Lock.

- Has the same amount of power as a corded device with 1000 to 1800 watts.
- Ensures quicker cutting and more metal removal than with previous cordless grinders.
- Increased safety thanks to intelligent braking system, kick-back and drop control.

Size 18V15SC – ■ Selection of individual speed settings equipped with user interface and Bluetooth® connectivity.

Supplied with:

Size GWX1810SC; 18V15C – Supplied with additional vibration control handle, safety guard, L-BOXX 136.

Size 18V15SC – **Without batteries and without charger.** Supplied with additional vibration control handle, safety guard, L-BOXX 136.

Cordless angle grinder ∅ 125 mm

07 7139 Size 4933478438 – Powerful M18 FUEL™ **flat head** angle grinder for working in restricted spaces.

- Flat head design permits working at angles up to 42°.
- Integral **FIXTEC** quick-release clamping nut for changing discs without using tools.
- **RAPIDSTOP™** for quick braking of the disc in less than 2 seconds.

07 7140 – 18 V / 5.0 Ah FUEL™ Milwaukee cordless angle grinder:

- long-life **brushless motor,** spindle locking, quick adjustment of the safety guard.
- Integral **FIXTEC** quick-release system for changing discs without using tools.

Size 4933493416 – M18™ HIGH OUTPUT™ cordless angle grinder with a diameter of 125 mm and a power equivalent to that of a 1750 W grinder.

07 7143 – Compact M18 FUEL™ cordless angle grinder with **controllable speed**.

- **5 speed settings** for the best results when machining stainless steel and aluminium as well as rust and paint removal.
- **RAPIDSTOP™** for quick braking of the disc in less than 2 seconds for high user protection.

Size 4933478437 – Version with **dead man's switch** for high user safety.

07 7149 Size 71221661 – Powerful and robust angle grinder with low-maintenance Fein Power Drive motor.

- Electronic speed pre-selection.

Size 71222061 – **Fein Protago safety angle grinder** with a unique operating concept.

- Safe guidance and **two-hand operation** by means of an **additional handle with contact switch that can be adjusted in 6 positions and cannot be dismantled.**
- Completely enclosed motor housing protects the motor from aggressive dust.

Supplied with:

07 7149 – **Without batteries and without charger.** Supplied with protective hood, tool-less quick-clamping nut, anti-vibration handle, wrench, L-BOXX.

07 7139/7143 – **Without rechargeable batteries or charger.** Comes with anti-vibration handle, safety guard, dust-protection grille, clamping set and HD box.

Size M18FSAGB; M18FSAGDB – Supplied with charger, safety guard, 2 dust-protection grilles, clamping set, anti-vibration handle, HD box.

Note:

07 7149 – Suitable spare batteries and chargers can be found under No. 073851 – 073859.

07 7139/7143 – See 073801 – 073840 for suitable rechargeable batteries and chargers.

Cordless angle grinder ∅ 125 mm

07 7120 Size 18V-8 – **Extremely powerful 18 V cordless angle grinder** in compact design.

Size 18V-11S – Powerful **18 V cordless angle grinder.**

- Same performance as a wired 1100 watt grinder thanks to brushless motor and ProCORE 18 V rechargeable battery.
- Drop Control, KickBack Control, Intelligent Brake System and restart protection for maximum user protection and comfort.
- Balanced design for a wide range of applications that allows for fast cutting and efficient grinding under overload.

Size 18V15C –

- Thanks to the new **BITURBO technology,** 50% faster cutting and metal removal. Equivalent to the performance of an angle grinder with cable.
- **Increased safety** thanks to intelligent braking system, soft start, kick-back and drop control.
- Possibility to retrofit the connectivity module.

07 7126 Size BEWS18BLPX – Brushless and high-performance 18 V angle grinder in a compact design.

- Quick adjustment of the safety guard.
- Paddle switch for greater control and safety.
- LED warning lamp for protection against overloading.

07 7127 Size WL9-125 – Robust 18 V angle grinder with powerful motor and slim design.

Size WLT11-125 – Brushless 18 V angle grinder with the highest efficiency, as powerful as a 1100 Watt cabled device.

- Battery pack can be rotated in 90° increments.
- Electronic overload protection, soft start and restart protection.

Size WVBLT11125 – Speed-adjustable, brushless 18 V angle grinder with maximum efficiency.

- Battery pack can be rotated in 90° increments.
- Fast braking system and safety shut-off.
- M-Quick system for tool-free disc change.

Size WBLTX15125 – Brushless 18 V angle grinder, extremely powerful yet very easy to use.

- Battery pack can be rotated in 90° increments.
- Fast braking system and safety shut-off.
- M-Quick system for tool-free disc change.

Supplied with:

07 7120 Size 18V15C – Without rechargeable battery and charger, including safety guard, mounting flange, clamping nut, additional handle.

07 7126 – Without battery and charger.

07 7127 – Includes rechargeable battery, charger and metaBOX.

Note:

07 7120 – See No. 073851 – 073866 for suitable rechargeable batteries and chargers.

BOSCH Angle grinder ∅ 125 mm

Size 7-125 – **Handy compact angle grinder** with narrow handle circumference.
- 720 Watt motor and only 1.9 kg weight, optimised air inlets (direct cooling) for longer working life, restart inhibit.
- **Very small handle circumference** (176 mm) compared to other angle grinders in its wattage class, flat gearbox head permits use in inaccessible places.

Size 9-125S – **Handy compact angle grinder** with a narrow handle circumference.
- Strong 900 W motor for fast work, high overload capacity, durability.
- With speed-control electronics, ideal for instance for grinding stainless steel.

Size 14-125 – Kickback control, soft start, restart inhibit, overload protection and vibration damping.

Size GWS17125SB – **Powerful angle grinder with a compact design** with improved power-to-grip ratio, speed pre-selection and intelligent braking system
- with speed pre-selection
- Intelligent braking system for bring disc to a standstill quickly when tool is deactivated and Drop Control.
- KickBack Control, restart inhibit and side handle with Vibration Control for high user protection.

Size 17-125PSB – **Powerful angle grinder in a compact design** with safety switch
- The GWS 17-125 PSB Professional features a new protection switch for maximum comfort at work and an ergonomic, slim handle
- Speed preselection, constant speed, soft start and overload protection
- Intelligent braking system

Size 17125SINOX – 1700 W motor with speed-control electronics, ideal for instance for **grinding stainless steel.**

Size 19-125CI; 19-125CIE – **Very powerful 1900 W angle grinder for maximum productivity and very good user protection**
- Long working life due to motors with direct **motor cooling, constant-speed electronics, overload protection and long-life carbon brushes.**
- Easy to use due to slim body with Softgrip surface for a secure grip.
- Additional handle for 40 % reduction in vibration, ensuring non-fatiguing working (EN 60745).
- Top user protection due to **kick-back stop**, **restart inhibit**, torsion-resistant protective hood and reduced vibration.

Supplied with: Supplied with torsion-resistant protective hood, clamping set, additional handle.

metabo Angle grinder Ø 125 mm

You set the limit – not your machine.
With devices from 850 to 2,000 watts, you can find the right angle grinder for every requirement and application.

07 7132 Size W850-125 – **Handy compact angle grinder** for light work.
- Powerful motor with good overload capability.
- Restart protection after power interruption.

Size WEV11-125 – Compact angle grinder with **speed control** and **the smallest grip circumference in its performance class** for perfect ergonomics.

Size WEV15-125 – Robust, **powerful angle grinder** with speed control for good work progress.

Size WEA17-125 – 1,700 watt angle grinder with the power of a large grinder and the manageability of a small grinder for the fastest material removal.
- **Integrated auto-balancer for up to 50% less hand-arm vibrations,** longer machine life and up to twice the tool life of the grinding wheels.

Size WEPBA19125 – Equipped for industrial use with powerful 1,900 watts and M-Brush technology (**service-free carbon brushes** with a 3-fold service life **for an entire machine life**).
- **Integrated auto-balancer** for up to 50% less hand-arm vibrations, longer machine life and up to twice the tool life of the grinding wheels.
- Ergonomic **paddle switch with dead man function.**
- Fastest braking system for maximum user protection: The patented **mechanical disc brake** stops the disc within 2 seconds after switching off, even in the event of a power failure.
- Steel eyelet for securing when working at high altitudes.

Size WEBA20125Q –
- Handy 2000-watt angle grinder for industrial use: with brushless motor for maximum productivity and unmatched service life.
- Highly efficient, service-free Marathon brushless motor: patented cooling and innovative dust protection for 3 times the service life of brush motors.

07 7133 Size WEV17-125 – Extremely robust angle grinder with high gear reduction and **highly reduced,** adjustable **speed** for cool grinding. Perfect **for use on stainless steel.**

07 7136 Size WEF15-125 – Powerful **flat head** angle grinder for fast working at sharp angles up to 43° and hard-to-reach areas.
- Designed to remove welding slag, rust or paint in tight frame designs and for work in strained positions.

07 7132 Size WEV11-125–WEPBA19125/7133 Size WEV17-125/7136 Size WEF15-125 –
- Metabo S-automatic mechanical safety shut-off: Minimizes kick-back when the disc is blocked.
- Electronic overload protection, soft start and restart protection.
- Gear housing can be mounted in 90° increments for left-handed operation or for cutting.
- Constant speed under load.

Supplied with: Supplied with torsion-resistant protective hood, clamping set, additional handle and two-pin wrench.

Compact angle grinder ∅ 125 mm

07 7111 – **FEIN – Compact angle grinder ∅ 125 mm.**
- Robust, powerful motor for everyday use.
- High level of protection for the user thanks to recoil monitoring, restart inhibit and anti-vibration handle.
- High overload capability thanks to direct motor cooling; grinding head can be rotated in 90° steps (optimum switch position for the application).
- Grinding media can be changed quickly without the need for tools thanks to the quick-release clamping nut.

07 7121 – **AEG – Compact angle grinder ∅ 125 mm.** Powerful and ergonomic **angle grinder** in compact slim design.
- Safety spindle lock.
- Power cable 4 m.
- Dustproof bearings and switch.
- Grinding head can be rotated in steps of 90° for left-hand and right-handed use.
- Restart inhibit.

Size WS10-125S – Single-hand operation angle grinder 1000 W / ∅ 125 mm.

Size WS13125SXE – One-handed angle grinder 1300 W / ∅ 125 mm, constant-speed electronics with no-load speed limitation and overload protection. **FIXTEC** clamping nut.

07 7131 – **MILWAUKEE – Compact angle grinder ∅ 125 mm.** Compact, powerful angle grinder with large cutting depth due to flat metal gearbox head.
- Power cable 4 m.
- **Spindle lock** for quick disc change.
- **Quick adjustment of protective cover.**
- Restart inhibit.

Size AGV10125EK – 1000 W / 125 mm angle grinder, **short body.** Clamping set.

Size AGV13-125X – 1250 W / 125 mm angle grinder, **short body,** with soft start, overload protection, **anti-kickback function,** and large **dead man's switch.** Disc change without tools, thanks to integral **FIXTEC** quick-change system. Anti-vibration handle (AVS).

Supplied with:

07 7111 – Handle, safety guard, clamping nut, wrench.

07 7131/7121 – Handle, safety guard, clamping nut.

Note:

07 7131/7121 – All compact angle grinders with lockable switch have no dead man's switch.

Angle grinders ∅ 125 / ∅ 150 mm

Milwaukee angle grinder with smooth start-up, **restart inhibit** and overload protection.

Size AGS15-125 – 1500 W special angle grinder with throttled speed **for use with flap discs** with constant speed electronics. Including clamping set.

Size AGV15-125 – 1550 W / 125 mm angle grinder with **constant-speed electronics,** anti-vibration handle, anti-kickback function for very high user protection, **FIXTEC** disc change without using tools.

Size AGV17-125 – 1750 W / 125 mm angle grinder with **electronic speed control,** anti-kickback function and soft start. **Anti-vibration handle,** disc change without using tools. **FIXTEC** clamping nut.

Size AGV17-150 – 1750 W / 150 mm angle grinder with **constant-speed electronics,** anti-kickback function, **anti-vibration handle,** disc change without using tools. **FIXTEC** clamping nut.

Supplied with: Additional handle, guard cover, 4 m power cable.

Angle grinder ∅ 180 mm

07 7120 Size 18V-180P – **Small and light 180 mm 18 V cordless angle grinder:**

- Thanks to the 180 mm grinding disc and small gear head, it offers the same cutting depth as a large 230 mm angle grinder, but is up to 35% lighter.
- Biturbo Brushless technology for fast cutting into a wide range of materials.
- PROtection switch, KickBack Control, intelligent brake system.

07 7146 Size 27-180JR – **Powerful 180 mm angle grinder:**

- Powerful **2700 W** motor with soft start and starting current limiter.
- High protection of the user by vibration control on the main and auxiliary handles, kick-back stop and restart inhibit.
- Bow handle rotates 90° for optimum grinding and cutting.

07 7147 – **Powerful 180 mm angle grinder:**

- Dust-proof **1750 W** ProTector motor with constant-speed electronics, smooth start-up, and overload protection.
- Vibration-damped AVS additional handle, anti-kick-back function and restart inhibit for comprehensive user protection.
- Changing discs without using tools due to the spindle lock and **FIXTEC** clamping nut (supplied).

07 7148 – **Powerful 180 mm angle grinder with the cutting depth of a 230 mm angle grinder.**

- Reduced vibrations minimise fatigue when working thanks to Metabo VibraTech (MVT) additional handle and integrated autobalancer.
- Electronic soft start and restart protection.
- Gear housing can be mounted rotated in steps of 90°.

Supplied with:

07 7120 Size 18V-180P – Including safety guard, additional handle, cutting discs, L-BOXX. Without battery and charger.

07 7146 – Includes quick-adjustable safety guard, additional handle, two-pin wrench, mounting flange, clamping nut. In a box.

07 7147 – Supplied with protective hood, additional handle, 4 m power cable.

07 7148 – Supplied with protective hood, additional handle, M-Quick clamping nut.

Angle grinder Ø 230 mm

07 7135 – **Cordless** two-hand angle grinder Ø 230 mm. Version with a dead man's switch and restart inhibit.

07 7150 – Strong 230-mm angle grinder with Metabo Marathon motor with patented dust protection to ensure a long service life:
- Electronic safety shut-off function: reduces kick-back when the disc is blocked, providing excellent protection for the operator.
- Electronic overload protection and restart inhibit.

07 7153 – **Powerful 230 mm angle grinder:**
- Powerful motor with constant-speed electronics, smooth start-up and inrush current limitation.
- High protection of the user by vibration control on the main and auxiliary handles, kick-back stop and restart inhibit.
- Adjustable grasp handle for optimum grinding and cutting.

07 7155 – **2200 W / 230 mm angle grinder** with soft start and restart inhibit.

07 7161 –
- Vibration-damped adjustable handle.
- Spindle locking pin.

Size AGVM26-230 – **2600 W** motor. With B-Guard anti-kickback **safety shut-off**, **FIXTEC** clamping nut and auto-balancer.

07 7162 – Version with dead-man's switch, which switches the machine off immediately the trigger is released.

Size AGVM26-230 – **2600 W** motor. With B-Guard anti-kickback **safety clutch** and **FIXTEC** clamping nut.

Size AGVKB24 – Angle grinder with **RAPIDSTOP™** brake and safety shut-off.

07 7161/7162 – **Powerful 230 mm angle grinder:**
- Dust-proof PROtector motor with smooth start-up and inrush current limitation.
- Safeguard against accidental restart.

Supplied with:

07 7135 Size M18FLAG230 – Supplied with 1 pc. 18 V / 12 Ah **FORGE™** Li-ion rechargeable battery, charger M12-18 FC, safety guard piece, AVS side handle, Fixtec quick clamping nut, 2 pcs. exchangeable dust-protection grilles, carrying case.

07 7150 – Supplied with protective hood, additional handle, quick-clamping nut.

07 7153 – With SDS quick-clamping nut.

07 7153–7162 – Supplied with protective hood, additional handle.

VersaMAG

Compact and powerful permanent magnet with vice for clamping various components on magnetic surfaces without the need for any tools.
- Optimises every workstation: clean and reliable working with versatile application options.
- Secure clamping of components for further machining with various power tools, e.g. angle grinders, drill/drivers, saws, MULTIMASTER.
- Up to 7800 N of holding force for reliable clamping on all magnetic surfaces thanks to an innovative 2-rotor system – even when working with thin sheet metal (from a thickness of 4 mm).

Supplied with: 1 pc. permanent magnet, 1 pc. mounting plate, 1 pc. vice, 1 pc. 3 mm hexagon L-wrench, 1 pc. lashing strap.

“Rutscher” orbital sander

07 7322 – **Ergonomic cordless orbital sander with brushless motor:**
- Optimum control on large surfaces thanks to excellent tool balance.
- Quicker rate of progress thanks to the brushless motor and Bosch Professional 18V system.
- Intuitive operation, with three interchangeable sanding pads.

07 7328 – **Handy low-vibration 300 W** orbital sander with **speed pre-selection:**
- Ergonomically shaped holding surfaces with softgrip permit perfect handling.
- Very low vibration thanks to decoupling of the motor casing.
- Precise seating of abrasive paper sheets, be they clamp fitting or hook and loop fastener fitting.
- Integral dust extraction through 8-hole abrasive paper.
- Direct connection to micro-filter box or external dust extraction system.

07 7332 – **Lightweight, handy 210 W orbital sander with perfect ergonomics:**
- Handle area with non-slip softgrip surface.
- Excellent surface finish without grinding rings and grooves for professional surface treatment.
- Suction option by connecting an all-purpose vacuum cleaner.

Supplied with:

07 7328 – Supplied with micro-filter box, abrasive plate, additional handle.

07 7332 – Supplied with dust bag, carrying case.

Note:

07 7328/7332 – For a suitable hook and loop fastener sanding paper see No. 557576.

MIRKA Rotary sander

Mirka® DEROS RS 600 is designed for heavy-duty, coarse grinding work.
Despite its robust properties, this machine remains remarkably quiet during operation and offers a quiet and easy-to-manoeuvre solution for machining coarse materials.
- Powerful & lightweight.
- Very low noise level and minimal vibration.
- RPM LED display.
- When grinding with a protective pad, a cover (supplied) guides the dust in the correct direction.
- Safety in the spotlight: Switch with push button function.

Supplied with: Includes transport case.

Note: Suitable abrasive discs..... wheels can be found under No. 567803 and No. 567902.

maximum vibration to EN	m/s^2	<2,5

(Cordless) random orbital sander

07 7321 –
- Powerful **random orbital sander** with 440 W motor.
- Electronic speed pre-selection. **Hook and loop fastening** ensures quick and simple abrasive paper replacement.
- **2 pre-selection values for orbital stroke** 3.2 mm / 6.4 mm.
- Integral dust extraction through 6 hole universal backing pad. Connection for external extraction system.

07 7333 – Lightweight, handy grinder with perfect ergonomics for low vibrations when working.
- Vario (V) electronics ensure you work at speeds that are suitable for the material.
- Multi-hole sanding pad for effective extraction.

07 7335 – Random orbital sander with **brushless electric motor.**
- Low power consumption. Especially compact, quiet, lightweight and powerful.
- 20% more powerful motor than DEROS I, maintains constant speed under heavy load.
- WLAN connectivity and enhanced Bluetooth connectivity.
- RPM LED indicator on the speed controller + on/off button and lockable speed.
- Can be connected to an external extraction system.

Supplied with:

07 7321 – 150 mm ∅ backing pad for orbital sanders, additional handle, sanding disc, dust bag, extraction adapter.

07 7333 – "multi-hole" sanding pad with hook-and-loop fastener, hexagon key, textile dust bag.

Note:

Cordless random orbital sander

07 7317 – Flat cordless random orbital sander with ergonomic design and low weight for low-fatigue working.
- Pleasant, near-surface guidance of the grinder due to the low height.
- Stepless speed control ensure you work at speeds that are suitable for the material.

07 7319 – M18 FUEL™ cordless random orbital sander with 2.5 mm orbit and 12,000 rpm, which enables a fast and efficient material removal rate. The sander comes with a suction function as well as improved ergonomics and grip.

07 7325 – **Brushless cordless spot repair sander** with 5.0mm stroke for flexible cordless machining. For wet and dry grinding. Optimum ergonomic design.
- Quick disc change due to Quick-Lock system.
- Up to 16 hours operating time for industrial applications.
- Quick battery charge time 45 min.
- Low noise level and low vibration level.

Supplied with:

07 7317 – Includes sanding disc, 1 pc. sandpaper, dustbag, hexagon key, without battery and charger.

07 7319 – Supplied with 2×5.0 Ah Li-ion battery, dust bag, extraction adapter, extension adapter, 2× abrasive paper.

07 7325 – 2 × 10.8 V / 2.5 Ah battery, charger and 32 mm backing pad.

Note:

07 7325 – Suitable grinding discs can be found under No. 567803 and No. 567902 in Group 56.

07 7317/7319 – Suitable 8-hole abrasive disc item No. 567745 and ABRANET item No. 567802.

metabo Straight die grinder

The straight die grinders from Metabo® are among the slimmest and most compact machines on the market. The powerful motors of the mains-operated and cordless straight die grinders offer maximum productivity with high precision in all applications.

07 7264 – ■ Precise collar for stationary use.
■ Pre-selectable speed levels.
■ Electronic safety shutdown of the motor when the tool is blocked to ensure safe working.

Size GE710C – Particularly short, **compact design** for working on inner curves or other narrow points.

Size GE950GP – With **reduced speed range** for powerful grinding with flap grinding wheels.

07 7272 – Cordless straight die grinder with high (and variable) speed for heavy-duty grinding applications even in tight places.
■ Restart protection: Prevents unintentional startup after battery change.
■ Spindle lock for easy tool change.

Size GE710P; GE950GP – The straight grinders with a **long grinding spindle** are **ideal for deburring** or grinding weld seams in hard-to-reach places.

Supplied with:

07 7264 Size GE710C – Collet 6 mm, 2 open-ended spanners.

Size GE710P – Collet 6 mm, rubber protection cap, 1 open-ended spanner.

Size GE950GP – Collet 6 mm, rubber protection cap, additional handle, 1 open-ended spanner.

07 7272 – **Without battery and charger**, including collet 6 mm, rubber cap, dust filter, open-ended spanner.

Note: See No. 073870 – No. 073890 for suitable batteries and chargers.

Straight die grinder

07 7263 Size GGS18V23 – **Cordless straight die grinder** with sturdy and heavy-duty brushless motor.
- with long neck and performance equal to that of a main cable model (equivalent to 1000 Watt).

07 7265 – Handy compact straight die grinder for versatile grinding operations.
- **Constant-speed electronics** maintain constant speed even at high loads.
- New clamping system for zero-play fixing of the grinding points for precise working.
- **Soft start** and **Kick-Back stop:** If the machine senses a jam, it switches off immediately.
- Switch-off carbon brushes for high protection of the motor.
- Long working life thanks to **direct cooling** and double **sealed ball bearings.**
- 6-speed pre-selection to cater for different materials.

Size GGS28CE – ■ **With short spindle neck,** permits stationary use (43 mm clamp).

Size GGS30LS – Ideal for demanding metalwork and for grinding stone, even in confined spaces.

Size GGS8CE – ■ **With long slim grinding spindle** – particularly suitable for use in inaccessible places.

Size GGS8CE – ■ **High-torque** 750 Watt motor for a high rate of progression of the work.
■ **Reduced speed,** suitable also for grinding stainless steel.

07 7267 Size GGS18V-20 – Compact **cordless straight grinder** with brushless motor, overload protection and restart protection.

07 7271 Size GSL600E – **Universal** straight die grinder with electronic speed control.
- Extra long grinding spindle and slender thermally insulated gearbox neck for working where access is difficult.
- Robust metal gearbox with double bearing. 4 m power cable.

07 7280 Size M18FDGRB – Powerful 18 V / 5.0 Ah cordless straight grinder with brushless POWERSTATE™ motor.
- REDLINK PLUS™ electronics with digital overload protection, for more power.
- REDLITHIUM-ION™ rechargeable battery with single cell monitoring.
- Universal holder for all standard 6 and 8 mm accessories.
- Very slim design for increased user comfort.
- Interchangeable dust grilles protect the motor and increase its service life.
- Spindle neck with rubber pad for extra user comfort.
- Safeguard against accidental restart.

Supplied with:

07 7263 Size GGS18V23 – **Without battery, without charger.** Supplied with 6 mm collet, 2× AF 13 and AF 19 tightening wrenches, L-BOXX.

07 7265 Size GGS8CE – Including collet 6 mm, 2 single open ended spanner AF 13 and AF 19.

07 7267 Size GGS18V-20 – **Without battery, without charger.** Including 2 open-ended spanners AF 19.

07 7271 Size GSL600E – Includes 6 mm ∅ collet, tightening spanner AF 15/17.

07 7280 Size M18FDGRB – Supplied with charger, 6 mm collet, 8 mm collet, open ended spanners AF 15 / AF 17, 2× dust-protection grilles, HD box.

Size GGS28CE; GGS30LS – Supplied with 6 mm collet, 2× AF 19 tightening wrenches.

Straight die grinder

- Exceptionally handy straight die grinder.
- Quiet running due to multiple spindle bearings.
- Powerful motor with high cutting power.
- Due to speed regulation, outstandingly suitable for cutting stainless steel, and also for grinding and polishing work.
- Suitable for grinding points and carbide milling cutters.

Size 722324; 722325; 722322 – Universal straight die grinder for working where access is difficult. Handy, slim neck enables internal grinding.

Size 722317; 722322 – Powerful, handy straight die grinder with **short spindle neck.** Also suitable for semi-stationary use.

Size 722322 – With FEIN **ErgoGrip** for non-fatiguing work thanks to ergonomically designed handle.

Supplied with:

Size 722324–722320 – Collet ∅ 6 mm, 2 chuck wrenches 13 AF and 17 AF.

Size 722322 – Including collet ∅ 8 mm, 2 chuck wrenches 13 AF and 17 AF.

Note:	Straight die grinders are approved for use with burrs up to a ∅ of 12 mm.

AMP Share Powered by BOSCH

- Dust-resistant and powerful cordless straight die grinder.
- Maintenance-free brushless EC motor with innovative cooling ribs for optimum cooling, including temperature monitoring.
- Ideal for every application. Optimum speeds, tailored to a large number of abrasives and materials thanks to stepless, electronic speed pre-selection.

Size 71230461 – Compact with short spindle neck.

Size 71230561; 71230661 – Long spindle neck. The long, slim neck makes deep plunging into workpieces possible (for example, internal grinding of pipes).

Supplied with: Supplied with 6 mm ∅ collet, 1 pc. 13 AF and 1 pc. 17 AF spanner, carrying case. **Without battery and charger.**

Note:	Straight die grinders are approved for use with burrs up to a ∅ of 12 mm. Suitable batteries can be found under No. 073856 – 073858 or starter set under No. 073863 – 073867.

Oscillator – multi-tools

Market-leading oscillating tools in three different performance classes (SuperCut, MultiMaster, MultiTalent) in a new version with **Starlock tool arbor** (improved torque transmission of up to 35 % greater rate of progression of the work).

- Virtually unlimited application possibilities (sawing, grinding, scraping, cutting, rasping) due to the oscillating mode of movement (low generation of dust).
- **Stepless electronic speed control** for optimum working.
- Very high quality and stability thanks to the **metal gearbox** and use of ball bearings and needle bearings throughout.
- Optimum handling due to ergonomic design with soft-grip inlays and low weight.

Thanks to the Starlock Plus tool arbor, you have access to around 100 FEIN accessories from the Starlock and Starlock Plus performance classes.
MultiTool for interior work and renovation with the basic equipment for sawing wood, metals, plasterboard and plastics.

Supplied with: 1× plastic tool case, 1× E-Cut long-life saw blade (35 mm), 1× E-Cut long-life saw blade (65 mm), 1× E-Cut universal saw blade (44 mm).

Sanding, polishing with SC and SLP holder

07 7851 – For rough cutting of putty, tile cement, cement, stone and wood. Triangular shape, edge length 80 mm, perforated, can also be used with vacuum dust extraction.

07 7852 – For rough cutting of putty, tile cement, cement, stone and wood.
For use in very narrow and deep locations, in corrugations, slots, openings and folds.
Also suitable for mould making, on curvatures and in hollows.

Suitable for: **All FEIN multi-tools and all other popular multi-tools on the market.**

metabo Burnishing machine / fillet weld grinder

07 7754 Size SE17-200 – High-performance burnishing machine with powerful 1700-watt motor for grinding, satin finishing, brushing and high-gloss polishing.

- Slim grip area for optimal guidance.
- Metabo Marathon motor with patented dust protection to ensure a long service life.
- Spindle lock and tool-free clamping nut for quick accessory changes.
- Quick and tool-free adjustment of the guard and additional handle.
- Smooth-running, form-fitting mounting arbor for an even surface finish.
- Overload protection, soft start and restart protection.
- Switch-off carbon brushes to protect the motor.
- Vario-Tacho-Constamatic (VTC) full-wave electronics with adjustment wheel: for working with material-appropriate speeds that remain constant under load.

07 7765 Size KNSE9-150 – Very flat 950-watt fillet weld grinder for machining stainless steel fillet welds in tight spaces.

- Double-reduction gear for efficient working.
- Removable protective hood, can be adjusted without using tools.
- Overload protection, soft start, restart protection.
- Switch-off carbon brushes to protect the motor.
- Vario-Constamatic (VC) full-wave electronics with adjustment wheel: for working with material-appropriate speeds that remain virtually constant under load.

metabo Belt file

Size BFE9-20 – Powerful, compact belt file for grinding, burnishing and deburring in hard-to-reach places.

- Vario-Constamatic (VC) full-wave electronics with adjustment wheel: for working with material-appropriate speeds that remain virtually constant under load.
- Linishing attachment can be pivoted through 270° without using tools, enabling it to adjust to any working position.
- Profiled drive roller: reduces slipping of the linishing belt.
- Linishing belt can be changed without using tools; adjustable belt guide.
- Electronic soft start.

Supplied with:

Size BFE9-20 – Additional handle, sheet metal carrying case, linishing belt arm (6, 13, 19 mm), 10 linishing belts (6×457 mm; P60), 10 linishing belts (6×457 mm; P120), 10 linishing belts (19×457 mm; P60), 10 linishing belts (19×457 mm; P120), 4 non-woven belts.

maximum belt speed	m/s	9 – 20
Tape width	mm	6 – 19
Band length	mm	457
Weight	kg	1.8
Cable length	m	4

(Cordless) belt files

High performance belt file with **comprehensive starter set.** Covers all important applications, with access to corners, edges, pipes, and profiles.

- Very high metal removal rates **in very small spaces.**
- Optimal speeds for grinding belts, fleece belts and polishing belts, using **adjustable speed range.**
- Maximum reach 165 mm.
- Belt widths from 3 to 20 mm.
- **Reliable belt guidance,** even for the narrowest belts.

Supplied with: 1 belt file BF 10-280 E in a plastic case, 3 grinding arms, 10 each grinding belts 3, 6, and 20 mm (120 grit) and 5 fleece belts 6 mm (medium grit).

Note:	Metal contact roller available on request.

maximum vibration to EN		m/s^2	< 2.5

MB 12

Extremely light cordless belt file (only 1.0 kg or 1.1 kg with a 2 Ah battery) for fatigue-free working.

- Two speed modes + variable speed controller.
- Reverse mode – allows the user to select the belt orientation to control the direction of sparks/chips.
- 360° head adjustment without the need for tools.
- One-handed operation – enables the user to work in confined areas and is ideal for overhead working.

Supplied with: Without battery and without charger.

Note:	See 073814 ff. for suitable batteries and chargers.

Pipework linishers

Pipework linisher with **extremely high stock removal rate.**
Ideal for **working on pipes and pipe elbows**, cleaning up, removal of colouration, grinding weld seams, preparation for polishing, and polishing to mirror finish.
Speed range variable for grinding, linishing, and polishing belts. **Improved belt guidance.**
Tube grinder for narrow radii, continuously adjustable speed for grinding, satin finishing and high-gloss polishing.
Minimum wall distance 50 mm.

Size 72227561 – The starter set covers all standard applications for pipes and elbows: cleaning, removal of mill scale and scratches, creating desired grinding pattern, best satin finish.

Supplied with:

Size 72227560 – Pipework grinder FEIN RS 17-70 E.

Size 72227560 – Supplied without accessories in a box.

Size 72227561 –
- Pipework grinder FEIN RS 17-70 E.
- 2×10 abrasive belts, 20×815 mm, P120 / P180.
- 2×10 abrasive belts, 40×815 mm, P120 / P180.
- 5 fleece belts, 20×820 mm, very fine.
- 1 metal tool case.

Note: Linishing belts can be found from No. 558011.

MB 18 MHB 18

Cordless linishing machine

Powerful M18 cordless belt linisher with brushless POWERSTATE™ motor for quick material removal and reduced heat generation.
- Equivalent alternating current power 900 watt.
- Running time up to 20 minutes with a 5.0 Ah battery.
- The tool-less adjustment knob permits optimum handling of the grinder for all applications.
- "Flush To Wall" allows the linishing machine to be used close to a vertical surface or in narrow corners.
- Can be used with dust bag or external extraction.

Supplied with: Without battery and without charger, including dust bag, in a box.

Note: Suitable replacement batteries and chargers can be found under No. 073808 – No 073840. Suitable linishing belts can be found under No. 558014.

GKS belt linishing machines

Powerful compact linishing machine for deburring metal.
- Very high operator safety, thanks to control of flying sparks.
- Very cost-effective as a procurement proposition, with optimum price-performance ratio.
- For immediate use. No setting up or installation necessary.

Supplied with: Supplied with 1x linishing belt 75×2000mm (K 36 R).

2/3 less space required than on conventional machines, thanks to minimalist design concept

Powerful motor for high material removal rate

GIS linishing machines (without modular design); GI, GI 2H (modular design)

GRIT GI linisher range for demanding industrial applications: **Sturdy design**, with **extremely power motors**.

- High efficiency due to best removal rate.
- Powerful 4 kW motor (400 V, 3 ~, 50 Hz).
- Patented belt-tensioning system,
- **High operational safety:** Stop, linishing gap, and eye protection are individually adjustable.

07 7612 – The ideal solution for all those who need a linishing machine only (i.e. without any expansion options). Sturdy compact design and easy operation ensure first-class results. Easily adjustable working height, chip collector.

07 7613 – The **basic module** for industrial belt linishing.

- Easy to use, low-vibration running.
- With **constant** speed for high metal removal rates.
- Can be connected to a central vacuum system.

Application:

07 7613 – As a **linishing machine**, **when mounted on machine mount** No. 077614, **with extension modules for radial, longitudinal, surface, and centreless grinding and deburring.**

Supplied with:

07 7612 – Machine base, CEE plug (16 A), 1 linishing belt 2000 mm; 36 grit.

07 7613 – CEE plug (16 A), 1 linishing belt.

Note: For linishing belts see No. 558310 ff and No. 558453-56.

metabo Bench grinder

07 7541 Size DSD200P –
- Bench grinder with three-phase motor offers particularly high torque and is suitable for high loads.
- Extraction connection on both sides, suitable for common coupling bushes.
- Large, tilting tool support with handy V-groove for sharpening welding needles.

07 7530/7541/ 7550 – Bench grinder for grinding, sharpening, deburring and, if using a steel wire brush, also removing rust on steel and metals. The integrated LED light optimally illuminates the working area. Durable discs and very smooth running thanks to the high-quality mounting flanges.
- Workpiece rests can be adjusted without tools.

07 7550 Size BS200P – The universal combo bench grinder with sanding belt and grinding wheel is ideal for processing wood and metal.
- Large belt sanding arm can be continuously tilted by 90° for two common grinding belt lengths.
- Tool-free pitch adjustment of the belt sanding arm.
- Extraction connection on the belt sanding arm, suitable for standard coupling bushes.

_DS150P
_DS200P

Supplied with:

07 7550 – Includes standard aluminium oxide grinding wheel 60 N, fabric sanding belt K 60, spark protection glass, workpiece rest and hexagon key.

07 7530/7541 – Includes standard aluminium oxide grinding wheels 36 P and 60 N, spark protection glass, workpiece rest and hexagon key.

Note:	Suitable grinding wheels can be found under No. 596100 and No. 568733.

metabo (Cordless) hand-held and metal circular saws

META CAS 18

07 8186 Size KS18LTX66 – Powerful, lightweight cordless portable circular saw for universal use on construction sites. Compatible with guide rails.
- Integrated LED work light to optimally illuminate the interface.

07 8188 Size MKS18LTXBL – Powerful cordless metal hand-held circular saw with chip capture box for cold sawing on metals. Compatible with guide rails.
- Run-out brake for maximum safety as saw blade is stopped fast (< 1 sec.).
- Fast and precise cutting of pipes, profiles, ducts, metal lattices and sheets. No sparks or burrs.

Supplied with:

07 8186 – Includes 2 pcs. LiHD rechargeable batteries, quick charger, metaBOX, carbide circular saw blade (18 teeth), parallel stop and hexagon key.

07 8188 – Without rechargeable battery and charger, metaBOX, including carbide circular saw blade for metal (40 teeth), parallel stop, hexagon key and guide rail adapter.

Note:	See No. 073870 – 073890 for suitable batteries and chargers.

Cordless small angle grinder / cordless multi-cutter

07 7100 Size 12-76 – Extremely handy 12 V / 3.0 Ah **cordless small angle grinder** for cutting using **small cutting discs Ø 76 mm** (hole diameter 10 mm) in restricted places. With powerful EC motor, spindle locking.

07 8204 Size M12FCOT-0 – FUEL **cordless multi-material cutter** with 76 mm blade for 16.3 mm depth of cut.

Supplied with:

07 7100 Size 12-76 – Supplied with L-BOXX, L-BOXX inlay 1/2 for battery and charger, GAL 12V-40 Professional quick charger, 2 × synthetic resin-bonded cutting discs, 1 × carbide cutting disc, Expert for Inox, 76×10×1 mm, safety guard.

07 8204 Size M12FCOT-0 – **Without battery and without charger.** 1 × diamond disc for tiles, 1 × carbide abrasive disc, 1 × metal cutting wheel, 1 × adjustable dust extraction.

Note:

07 7100 Size 12-76 – See from No. 563050 for suitable small cutting discs and clamping mandrels. See 073851 – 073866 for suitable rechargeable batteries and chargers.

07 8204 – See 073801 – 073840 for suitable rechargeable batteries and chargers. For a suitable cutting disc see No. 563050 size 75.

(Cordless) hand-held and metal-cutting circular saw

07 8181 Size GKS55GCE – **Powerful portable circular saw** in a light-weight, compact design.

07 8183 Size GKM18V50 – **Cordless metal-cutting circular saw** for fast and precise cuts, virtually no sparks.

- Integrated, robust chip collection box for excellent occupational safety and clean surfaces.
- Precise cuts thanks to cutting line indicator, viewing window and integrated LED light.
- Mountable parallel stop to perfectly guide longitudinal cuts.

Size GKS1226 – Handy 12 V / 3.0 Ah **cordless portable circular saw.**

- The most compact design in its class, for perfect handling.
- Outstanding view of the line of cut, thanks to the bright LED.

Size GKS18V68C – Powerful 18 V **cordless circular saw with BITURBO technology.**

- **Integrated VAC adaptor** for easy manoeuvring. Adaptor can be rotated 360°.

Supplied with:

07 8181 Size GKS55GCE – Including hex socket, carbide saw blade (Speedline Ø 165 × 1.7/1.2 × 20 × 12T), mitre ruler, vacuum adapter, parallel stop, L-BOXX 238.

07 8183 Size GKM18V50 – Includes 2 pcs. 18 V 5 Ah rechargeable battery, charger, parallel stop and L-BOXX.

Size GKS1226 – Supplied with charger, saw blade for wood, parallel stop / guide rail adapter, extraction adapter, hexagon L-wrench and L-BOXX 238.

Size GKS18V68C – Including saw blade, parallel guide.

Size M12FCS442 – **M12 FUEL™ cordless circular saw with brushless POWERSTATE™ motor.**
- Magnesium shoe reduces the weight and maximises the service life.
- Built-in dust blower keeps the cutting line clear.
- LED light illuminates the cutting line for better visibility.

Size M18FMCS – **Handy and powerful 18 V / 5.0 Ah cordless metal-cutting circular saw** for cutting pipes, profiles, threaded rods and cable ducts.
- **Brushless POWERSTATE™ motor** for higher cutting speeds.
- **REDLINK PLUS™ electronics with digital overload protection,** for more power.

Size M18FCS66GR – **Handy and powerful 18 V / 5.0 Ah cordless metal-cutting circular saw** for cutting pipes, profiles, threaded rods and cable ducts.
- **Brushless POWERSTATE™ motor** for higher cutting speeds.
- **REDLINK PLUS™ electronics with digital overload protection,** for more power.

Size M18-FMCS66 – Cordless circular saw for metal 66 mm.
- Large metal swarf collector catches the residue created during cutting and provides the necessary clear view.
- Dry cutting technology permits quick, clean and burr-free metal cutting.

07 8209 – **Compact cordless hand-held metal-cutting circular saw** for fast, precise cold cutting of sheet metal, pipes and profiles with a cutting depth of up to 57 mm.
- Manual speed setting.
- Large swarf collecting vessel.
- Dead man's switch, restart protection and temperature-based shutdown.

07 8221 – **Compact cordless hand-held metal-cutting circular saw** for fast, precise cold cutting of sheet metal, pipes and profiles with a cutting depth of up to 57 mm.
- Manual speed setting.
- Large swarf collecting vessel.
- Dead man's switch, restart protection and temperature-based shutdown.

Supplied with:

07 8207 – Includes rechargeable battery, charger, transport case.

07 8209 – Without battery and charger. Includes L-BOXX, circular saw blade, chip catcher, guide rail adapter.

07 8221 – Without battery and charger.

Note:

07 8207 – See from No. 073814 and No. 073839 for suitable spare batteries and starter kits.

Metal chop saw

Semi-stationary chop saw for efficient and quick cutting of components both in the workshop and on the construction site.

Application:
- Sawing of steel and metal profiles.
- Production of separating and mitre cuts.
- Machining of pipes, metal bolts, angle irons, bar material.

Supplied with: 1 pc. chop saw, 1 pc. saw blade for structural steel, 1 pc. combination wrench: Hex socket, 6 mm and Phillips head PH 2, 1 pc. hex socket 8 mm.

metabo Oscillating saw and mitre saw

Oscillating saw and mitre saw with **pull function** and **speed control.**

Note: See 584004 – 593930 for suitable circular saw blades.

Size KGSV216M –
- Speed control for extended range of applications, e.g. for sawing aluminium profiles and plastics.
- Integral cutting line laser and LED workplace illumination for precise cutting.
- Extendable table extensions, can also be removed to support extremely long workpieces.
- Effective chip extraction via integrated chip collection funnel.

Supplied with: Carbide saw blade (60 teeth), 2 integrated table extensions, cut-to-length stop, material clamp, tool for changing saw blades, cable reel and chip capture bag.

07 8192

Type			KGSV216M

Weight		kg	13.5
Cable length		m	2

Size KGS315P –
- Large cutting capacity up to 320×120 mm at 90°.
- Maximum flexibility when sawing thanks to table that rotates on both sides and saw head that tilts on both sides.
- Speed control for extended range of applications, e.g. for sawing aluminium profiles and plastics.
- Metabo Quick to change saw blades without the need for any tools.
- Soft start ensures safe working and a long service life for the motor and gear.

Supplied with: Carbide saw blade (84 teeth), 2 integrated table extensions, material clamp, transition fitting 35/58 mm.

Oscillating saw and mitre saw

Oscillating saw and mitre saw **with pull function.**

- Large cutting capacity up to 305×90 mm at 90°.
- Integral cutting line laser and LED workplace illumination for precise cutting.
- Fine adjustment of the mitre angle up to 50° with a stop.
- Power cable 3 m.
- Integral dust extraction captures 80 % of all dust particles.

Supplied with: Workpiece clamp, extraction hose and cover, 48 tooth carbide saw blade (saw blade/ bore ∅: 254 / 30 mm), tool for changing the blade.

Note:	Suitable saw blades can be found under No. 078227ff.

(Cordless) jigsaws

07 8185 Size ST18L90 – The everyday helper for your sawing tasks: handy cordless jigsaw for cuts in wood of up to 90 mm.
- Chip blowing function for a clear view of the interface.
- Extraction capability, restart protection.

07 8200 Size GST150BCE – Jigsaw with **D-shape handle.**
- High power reserves, even in hard and thick beams, thanks to powerful 780-watt motor with overload capability.
- Extremely robust and distortion-resistant base plate for the heaviest duties.

Size GST160CE – Jigsaw with **straight handle.**
- Highly precise saw blade guidance thanks to patented double roller which minimises saw blade bending – for outstanding precision of cutting.
- Powerful 800 Watt motor with constant speed electronics, with power in reserve even when cutting hard materials.

07 8201 Size GST1270 – Lightweight and compact **cordless jigsaw** with a straight handle.
- **Electronic Motor Protection (EMP)** protects the motor against overloading and ensures a long working life.
- Bosch **Electronic Cell Protection (ECP)**: Protects the battery against overheating and deep discharge.
- Switchable LED for bright illumination of the cutting area.

07 8210 Size 71360561 – Cordless jigsaw, for metal and wood. Optimal control due to slim straight handle for precise cuts. The speed and orbital stroke are adjustable.

07 8211 – **Cordless jigsaw,** brushless POWERSTATE™ motor for high cutting power. Switch for 6 speed settings, with soft start. LED illumination of the working area.

07 8213 – 700 W jigsaw with variable speed preselection and tool-free saw blade change.
- Connection for dust removal system.

Supplied with:

07 8185 – Without battery and charger, including suction nozzle, protective glass and hexagon key.

07 8200 Size GST150BCE – Including 1× saw blade, protective cover, slide shoe, extraction adapter, suction nozzle, transport case.

Size GST160CE – Including 3 × saw blade, extraction adapter, L-BOXX 136, 1/1 L-BOXX inlay.

07 8201 Size GST1270 – Including 2 pcs. 12 V / 3.0 Ah Li-ion rechargeable battery, charger, 2 pcs. saw blade, chip break guard, extraction set, slide shoe, extraction adapter, L-BOXX 102 and L-BOXX inlay.

07 8185/8211/8213 – Supplied with chip break guard.

07 8211 – Supplied with charger, 2 pcs. 18 V / 5 Ah Li-ion rechargeable battery, 1 pc. saw blade, adapter for dust extraction, dust cover, plastic sole plate and HD box.

07 8213 – Supplied with 2 × saw blades, extraction adapter, sole plate, mains cable 4 m, carrying case.

Note:

07 8185 – See No. 073870 – No. 073890 for suitable batteries and chargers.

07 8211 – See No. 073808 – No. 073840 for suitable batteries and chargers.

07 8201/8210 – See No. 073851 – No. 073866 for suitable batteries and chargers.

(Cordless) sabre saws

07 8214 Size GSA1832-0 – Two-speed setting for different materials.

07 8217 Size GSA18VLIC – **Variable cutting speed control**, low vibration thanks to integral **vibration balancing system.**

Size GSA18VLIC – With LED workplace illumination.

07 8219 – **Milwaukee compact cordless sabre saw** for working in difficult to access places.

- Electronic controls with **steplessly variable stroke length** and **overload protection.**
- Tool-less **FIXTEC** saw blade quick-release clamping system.

07 8220 Size M18ONEFSZ – Version M18FSZ but with **ONE-KEY™** technology.

- Up to 3 individual profiles can be saved on the internal memory of the device.

07 8215/8217 – **Bosch cordless sabre saw** with **SDS system** for quick and convenient changing of saw blades.

- Bosch Professional Lithium-ion technology for long working life and outstanding battery performance.
- **Electronic Cell Protection (ECP)** protects the battery against overloading, overheating and deep discharge.
- Ergonomic soft-grip handle.
- With LED workplace illumination.

07 8215 Size GSA1214/8217 Size GSA18VLIC – **Compact lightweight sabre saw** and small handle circumference, suitable also for overhead work and one-handed use.

07 8219 Size M12CHZ2/8220 Size M18FHZ; M18FSX – With **powerful brushless POWERSTATE™ motor.**

Size M18FSZ; M18ONEFSZ – Cordless sabre saw.

- New generation of the brushless POWERSTATE™ motor for greater efficiency.
- Patented clutch protection prevents the tool jerking when the saw blade jams.
- Controllable soft start for maximum speed and control.
- Tool-less FIXTEC saw blade quick-release clamping system.
- Tiltable and adjustable saw base plate, permits optimisation of the cutting position.

Supplied with:

07 8214 – Cordless sabre saw, without batteries, without charger.

07 8219 – Supplied with a carrying case / carrying wallet, 2 batteries, quick charger and saw blade.

07 8220 Size M18FHZ – Supplied with HD box carrying case, 2 pcs. 18 V batteries, quick charger, and saw blade.

Size M18FSX – Supplied with HD box carrying case, 2 pcs. 18 V batteries, quick charger, and saw blade.

07 8215/8217 – Supplied with carrying case, 2 pcs. saw blades, 2 pcs. batteries, quick charger.

Size M18FSZ; M18ONEFSZ – Variant in HD box **without battery, without charger.**

Note: Sabre saw blades can be found from No. 588600.

07 8214–8217 – See 073851 – 073866 for suitable rechargeable batteries and chargers.

07 8219/8220 – See 073801 – 073840 for suitable rechargeable batteries and chargers.

(Cordless) sabre saws

Note: Sabre saw blades can be found from No. 588600.

Cordless sabre saws

07 8216 – Very compact 18V cordless sabre saw. The sub-compact design permits pleasant working - even with just one hand.
- Saw blade quick-change system without using tools.
- Compact brushless 18V motor.
- LED lighting.

07 8223 – Powerful cordless sabre saw with low weight and angled softgrip handle for high working comfort.
- Brushless motor for quick work progress and maximum efficiency.
- Depth stop adjustment without using tools.
- Vario (V) electronics for working at material-appropriate stroke rate.
- Saw blade can be rotated 180° for comfortable overhead work.
- Metabo Quick to change saw blades without the need for any tools.
- Selectable orbital stroke.

Supplied with: Without battery and charger, in a cardboard box.

Note:
07 8216 – See No. 073841 – No. 073850 for suitable batteries and chargers.
07 8223 – See No. 073870 – No. 073890 for suitable batteries and chargers.

Cordless sheet metal shears / cordless nibbler

07 8104 – Compact cordless sheet metal slitters / shears for clean, distortion-free cuts in steel up to max. 2.0 mm.

- 360° rotatable cutting head with 12 locking positions – ideal for accessing tight spaces.
- Electronic speed control.
- In-line design for the best possible control.

07 8105 – Extremely light cordless nibbler with Auto-Control start function (the cutting speed is slowly increased after start) for a working depth of up to 168 mm.

- Tool-free cutting direction change in 90° steps.

Supplied with: Without battery and without charger, in a cardboard box.

07 8105 – Includes 2 die holders in long and short versions.

Note: Suitable replacement batteries and chargers can be found under No. 073801 – No 073840.

Sheet metal slitters / shears / nibblers

AMPShare Powered by BOSCH

07 8103 Size 71300561 – **Cordless sheet metal slitter** for mobile use.
Size 71300661 – **Cordless sheet metal shears** for mobile use.
07 8108 Size 71321161 – **Cordless sheet metal nibbler** for portable use.
07 8111 Size 7232466 – Powerful nibbler with unlimited curve manoeuvrability for recesses and cut-outs.
Size 7232476 – Powerful nibbler for heavy-duty dismantling and cutting work.
07 8102 Size 723031/8103 Size 71300561 – **Sheet metal slitter**.

- **Distortion-free cut.**
- **Open cutting head** for best view on to the cut.
- **QuickIN quick-change system** for quick blade changing without tools or adjustment.

07 8102 Size 723034/8103 Size 71300661 – **Aviation snips.**

- Cuts well round curves with only minor sheet metal deformation.
- Comfortable and quick for seaming and cutting to length.
- For sheet metal up to 800 N/mm² and stainless steels.
- **Four-way changeover blade:** cleaner, burr-free cutting with low operating costs.

07 8108/8111 –

- Very **economical operating costs** due to long working life of die and matrix.
- **QuickIN quick-change system** for quick die and matrix changing without tools
- Working direction can be changed without tools.

07 8108 Size 71321161/8111 Size 723241 –

- Slim design ensures optimum handling even under difficult working conditions.
- Highly suitable for **trapezoidal sheet** up to 1.3 mm thick and **up to 85 mm step depth.**

07 8108 Size 71321161/8111 Size 723241 – **Flexible nibblers with high manoeuvrability** for thin sheet metal, trapezoidal sheet, corrugated sheet and sections.

Supplied with:

07 8103/8108 – Including L-BOXX, **without** battery and **without** charger.

Note:

07 8103/8108 – See No. 073851 – No. 073866 for suitable batteries and chargers.

Battery / mains radios

Sturdy site radio, splash-proof (IP54) for mains and battery operation.

07 3960 Size M12RCDAB – Battery/mains radio with charging function. DAB+, AM and FM tuner.

Size 4933493530 – M18™ Bluetooth® cordless speaker
- Provides audio for small and medium-sized areas.
- Unlimited hanging and attachment options with the integrated hooks, nail hooks and through-holes.

Size 4933492344 – Bluetooth® cordless radio with powerful audio system.
- Shock-absorbing end caps to protect against falls
- USB-C port for charging mobile devices
- Up to 13 hours of operation with a Milwaukee 18 V/5 Ah rechargeable battery.
- Operation with Milwaukee 18 V batteries or with 230 V mains voltage.

07 3961 Size GPB18VH-6 – Powerful radio with charging function for 12V and 18V rechargeable batteries.
- Premium sound with DAB+, FM, Bluetooth®, AUX and multi-speaker sound.
- Compatible with L-BOXX to easily transport the radio to any construction site.

Supplied with: Includes mains cable, 2 back-up batteries, AUX connection cable, without batteries.

Chargers

Size GAL1218V80 – Simple and practical charger compatible with all Bosch Professional 12 V and 18 V batteries. Fast charging with 8 A charging current (fully charges a 18 V 5.5 Ah battery in 46 minutes).

Size GAL18V6-80 – Charger with 6 battery interfaces for 14.4 – 18 V.

Size GAL18V160 – Li-ion quick charger with 16 ampere charging current for 14.4V and 18V batteries. This charger has an interface for two different charging modes ("Long Life" mode for longer battery life and "PowerBoost" mode for maximum charging speed).

Size GAL12V40 – Li-ion quick charger for 12V batteries. Only 36 minutes charging time (3.0 Ah rechargeable battery).

Cordless vacuum cleaner systems

07 0230 Size M18VC2-0 – Portable and powerful 18 V cordless wet / dry vacuum cleaner.
- 80 mbar vacuum.

07 0231 – Cordless vacuum cleaner for mobile vacuuming. Easy transport and comfortable handling thanks to support loops on which the vacuum cleaner can be suspended.

Size GAS1812MC – Rechargeable vacuum cleaner, dust protection class M.
- Makes work easier thanks to Bosch's cable-free Auto-Start system.
- Superior suction power through brushless motor.

07 0233 – Powerful 18-V hand vacuum cleaner for wood, metal and coarse dirt.
- HEPA filter traps 99.97 % of all dust particles.
- Viewing window for easy checking of amount of dirt in the collection container.
- Lockable switch for continuous operation.

Supplied with: **Without battery and without charger.**

07 0230 – Supplied with filter, suction hose, coarse dirt nozzle and crevice nozzle.
07 0233 – Including flexible suction hose, 2 extension tubes, crevice nozzle, coarse dirt nozzle.

Note:
07 0230 – See No. 073816, No. 073827 and No. 073840 for suitable replacement batteries and chargers.
07 0231 – Suitable spare batteries and chargers can be found under No. 073851 – 073866. Refer to No. 070237 and onwards for the appropriate auto-start system.
07 0233 – Suitable replacement batteries and chargers can be found under No. 073808 – No 073840.

KÄRCHER Wet and dry vacuum cleaners

Powerful all-purpose **wet and dry cleaners** with high suction power and compact design, hose storage, and accessory storage on the cleaner. **Automatic shut-down** when the maximum filling level is reached in the container.

- Folded filter enables **wet and dry suction without removing the filter.**
- The **Tact automatic filter cleaning system** permits uninterrupted work in combination with low maintenance costs and long working life of the filter.
- The **central rotary** switch permits easy switching between the suction programs.

Size NT22APTE – Wet / dry vacuum cleaner with device socket and automatic start-up for electric tools.
- PES cartridge filter unaffected by moisture.
- **Robust 22-litre container with bumpers and castors.**

Size NT55T2ME –
- Outstanding suitability for removing even **large quantities of fine dust** right through to coarse dust and liquids.
- For **emptying**, the **stainless steel tank** can be completely **removed** from the mobility trolley and taken to a disposal point.
- **Anti-static system (grounding up to the suction hose connection) and protection class I.**
- **Robust 55-litre container with bumpers and metal castors.**

Size NT30TL; NT30TEL –
- The large top-mounted Eco flat fold filter permits **immediate change from wet to dry suction without removing the filter.**
- The **central rotary** switch permits easy switching between the suction programmes.

Supplied with:

Size NT75APMETC – With hose for draining liquids.

Size NT27ME; NT30TL; NT30TEL; NT65APME; NT55T2ME; NT75APMETC – Suction hose with elbow, metal suction tube 2×0.5 m, floor nozzle, and crevice nozzle, flat fold filter or paper filter bag.

Note:	Industrial vacuum cleaner No. 078522 for materials that are oily or contain oil.

Nilfisk Wet / dry / swarf vacuum cleaner

Wet / dry / swarf vacuum cleaner

Robust and powerful **wet / dry vacuum cleaners** with flexible hose connection system (MultiFit) and for performing a very wide variety of professional cleaning tasks. **Degree of separation > 99.9%.**

07 8540 Size 21-01 – Compact all-purpose vacuum cleaner with Push & Clean **filter cleaning system.**

Size 21-21INOX –
- With **socket and automatic switch-on** for connection of an electric power tool (maximum 2000 W).
- **Stainless steel tank** with handle and hose clip.

07 8541 Size 44-2LICM –
- Extremely quiet industrial vacuum cleaner with 42 l tank, washable PTFE fan-fold filter for vacuuming up even fine dust.

Size 751-11 –
- **Extremely quiet industrial vacuum cleaners** with long-lasting washable PET fleece filter.
- Soft start, generous tool storage, and additional power tool socket.

Size 961-01 –
- **Dual-motor industrial vacuum cleaner** with long-lasting washable PET fleece filter.
- Push & Clean **filter cleaning system**.
- High-performance vacuum cleaner with large tilting mobility trolley and detachable **stainless steel tank** (tank capacity 70 litres).
- MultiFit accessories system with float switch and audible signal on reaching the maximum tank capacity.

07 8542 Size 33-2HIC – Compact **safety vacuum cleaners** for working with hazardous dusts of **class L, M, H and asbestos**.

Supplied with:

07 8541 Size 44-2LICM – Including M class washable PTFE flat fold filter, **anti-static suction hose** ∅ 32 mm, D 36 stainless steel extension tubes (3 × 350 mm), curved stainless steel hand tube, adapter plate for a tool box, 400 mm industrial floor nozzle, universal nozzle, suction brush, crevice nozzle, anti-static tool adaptor, trolley handle for easy transport and secure storage.

Size 751-11 – Supplied with curved stainless steel hand tube, rubber oblique-end nozzle, **without drain hose**.

Size 961-01 – Including stainless steel extension tubes (2×0.5 m), stainless steel hand tube, 400 mm floor nozzle and 300 mm crevice nozzle.

07 8542 Size 33-2HIC – Including washable PTFE fan-fold filter, **anti-static suction hose** ∅ 32 mm, D 36 stainless steel extension tubes (2 × 505 mm), curved stainless steel hand tube, 300 mm industrial floor nozzle, crevice nozzle, anti-static tool adapter.

07 8541/8542 – Supplied with suction hose, curved hand tube, wet filter and washable filter element (PET), hose storage, and cable storage.

Note: Other safety vacuum cleaners for all hazard classes (health hazard or explosive dusts) are available on request (class L, M, H).

KÄRCHER Industrial vacuum cleaners

Industrial vacuum cleaner suitable for vacuuming up and separating **coolants, lubricating emulsions, water or oil with solids (e.g. metal chips).**

- Compact design and robust materials for the best movement characteristics.
- Maximum flexibility in use and long working life for the oil-resistant power cable.
- Suction is applied via a 360° rotatable hose connection on the suction head.

Size IVRL65/12 – 1-motor 1.2 kW industrial vacuum cleaner with **tilting mobility trolley** and **65 litre tank.**

Size IVRL65/24 – 2-motor 2.4 kW industrial vacuum cleaner with **tilting mobility trolley** and **65 litre tank.**

Size IVR-L100TC – 2-motor 2.4 kW industrial vacuum cleaner with **tilting mobility trolley** and **100 litre tank**.

Size IVRL-100DP – 2-motor 2.4 kW industrial vacuum cleaner with **tilting mobility trolley, 100 litre tank and integral barrel pump** for easy and complete emptying.

Supplied with:

Size IVR-L100TC; IVRL-100DP – With tilting chassis, and drain hose with level indicator. **Without accessories. Suitable accessories can be found under No. 078524, 078529 and 078533.**

Note:	A version with 100-litre stainless steel container can be found under No. 078522 size IVR-L100DP in our eShop.

Nilfisk Industrial vacuum cleaners

High quality, very durable Nilfisk CFM "grey line" industrial vacuum cleaner.

07 8559 Size VHO200 – Powerful **liquid vacuum cleaner** with high-power oil-resistant cleaning set. Equipped with **air reverse blowing valve** for simple and reliable emptying of the dirt container. A chip basket and emptying kit are already incorporated. Suitable for a very wide range of cleaning work in the metal industry.

Size ECO-OIL13 – **Swarf and liquid suction set.** With powerful smooth-running 1.3-kW turbine. Inlet ∅ 50mm. Oil-proof castors with parking brakes and oil-resistant seals. Metal chips are **separated from liquids** by the swarf basket included in the scope of delivery. This allows the re-use of coolants and assists the recycling of the metal chips.

Supplied with:

07 8559 Size VHO200 – Supplied with chip basket, integral emptying kit including oil-resistant cleaning set.

Size ECO-OIL13 – Supplied with chip basket (30L), mobility trolley, drain hose. **Without accessories.**

Note:	See under 078551-078552 for suitable accessories.

Nilfisk Sweeper

Manually-guided sweepers with tool-less adjustment of side brush and main brush for optimum cleaning even under varying floor conditions.
Manually operated, **large collection hopper** and fold-away handle.
Suitable for indoor and outdoor use.

Application: For hard floors and also for carpeted floors. Ideal for sweeping up leaves, small quantities of dry dirt, crown caps, cigarettes etc.

Supplied with: Manually-guided sweeper, main sweeper roller, side brush, integral filter.

Size SW200 – Main cylindrical sweeping brush and side brushes.

Size SW250 – Main cylindrical sweeping brush and two side brushes.

steinel Heat gun

07 8321 Size 89504 – **High-quality straight handle heat gun HM 2620 E** for professional applications. Electronically controlled with stepless regulation of the air quantity.

Size 351601 – **High-quality heat gun HG 2520 EKF in pistol format** for professional applications, with carrying case. Electronically controlled with stepless regulation of the air quantity.

Size 89672 – **Heat gun set HM 2320 EKF** in a plastic case, consisting of:

- Heat gun with stepless air flow control, four memory programmes, temperature and residual heat display, LOC function, single-hand operation.
- Reducer nozzle 9 mm, wide angle nozzle 50 mm, reflector nozzle, 100-piece shrink sleeve set.

Size 066611; 063993 – Compact cordless heat gun mobile heat MH 5 offers four application-specific programs. Air volume can be regulated digitally in six steps (up to 300 l/min).

Size 066604; 063986 – Cordless heat gun 18V with 2 temperature settings (300° / 500°).

07 8321 Size 89603; 89610 – **Electronically controlled heat gun HM 2120 E,** air volume adjustment 150 – 500 l/min in 3 stages. Can be ordered as a set and 0 version.

Supplied with:

07 8322 – Cordless heat gun including 1 pc. 18 V / 8.0 Ah battery, charger and case.

07 8323 – Version without battery and without charger, case.

Note:

07 8322/8323 – See No. 078327 – No. 078328 for suitable batteries and chargers.

Pneumatic tools

All technical data relate to a dynamic pressure of **6.3 bar** and the specified hose internal ∅.

Pneumatic drills

A range of powerful and very smooth running drills with pistol grip and a drilling power of up to 13 mm in steel. Exhaust air is discharged through the handle, to prevent drill chips from swirling up. With quick-release chuck.

Size D2116RQ; D2148RQ – With changeover valve for **clockwise / anticlockwise rotation** (for use as a screwdriver or tap driver).

Size D2163Q – Angle drill, width across head 115 mm / 25 mm.

Supplied with: **Quick-clamping chuck.**

Size D2121Q; D2148RQ – Additionally with support handle.

Spare part: **Selected service kits:** Sets of replacement parts for most Atlas Copco pneumatic tools can be supplied on request for preventive maintenance and servicing.

Pneumatic impact wrench

07 9191 – Ultra-compact impact wrench with jumbo hammer impact mechanism, one-hand changeover and **three-stage clockwise rotation**. 1200 Nm maximum release torque.

07 9192 – Impact wrench with high-performance double hammer impact mechanism. 1890 Nm maximum release torque.

07 9193 – Impact wrench with high-performance double hammer impact mechanism.

Size 9012TT – **Twin Turbo technology.** 2200 Nm maximum release torque.

Size 9013TT – Long tool life and very efficient working in industrial and automotive applications. **Removable handle, adjustable 360°. Twin Turbo technology.** 4100 Nm maximum release torque.

07 9194 – **Twin Turbo impact wrench** with pivot mechanism for the best accessibility. Double hammer impact mechanism. 550 Nm maximum release torque.

Pneumatic impact wrench

07 9200 – Compact powerful angle impact wrench with aluminium casing. Very flat design. One-hand changeover and a **single-hammer impact mechanism with long working life.**

07 9204 – **Impact wrench for the most demanding applications** and highest torques. **Exceptionally robust 2-claw impact mechanism** (twin lobe) for a very long working life under rough conditions. The screw tightening phase starts slowly and increases with every impact. **Suitable for all bolt-tightening requirements.** Simple 3-piece design for **very low maintenance requirements.**

07 9220 – Powerful very sturdy impact wrench with **long-life double hammer impact drive mounted in an oil bath.** Simple one-hand controls. Balanced handle for ergonomic handling. Fitted with a suspension hook for attachment to spring suspension. With **ATEX certification.**

Balancer

Balancers make power tools, especially heavy ones, both easier and safer to use.

- **"Weightless" equipment.**
- **Tidiness** at the workplace.
- **Equipment and tools** within easy reach.
- **Safety** at the workplace due to suspension of equipment and leads.
- Equipment in clear view and in reach of the user.
- Weight compensation and thus balance can be maintained over the entire cord travel.

07 9295 – Shock-resistant plastic casing.
07 9298 – Sturdy aluminium casing, cable of stainless steel.

07 9295 Size 3; 5 – **With arrester** – for limiting the travel of the rope lifting gear.
Size 10; 14 – **With cable stop** – keeps the weight at the chosen height.

Pneumatic random orbital sander

Powerful random orbital sanders with polyurethane hook and loop fastening backing pads. **Easy to use** due to light-weight composite housing and ergonomic hand application area. **Robust, smooth-running,** and **low-vibration pneumatic drive** with steel cylinder, low noise level.

07 9655 Size G2438-65C – For **roughing and intermediate sanding** with a 5 mm orbital stroke. Connection for **external suction.**
Size G2438-65N – For **roughing and intermediate sanding** with a 5 mm orbital stroke **without dust extraction.**
07 9657 Size R036CS1HL – Powerful random orbital sander with **integral extraction** for clean surfaces. With a 5 mm orbital stroke.
Size R036CC2HL – Powerful random orbital sander for **external extraction system**. With a 2.5 mm orbital stroke.
Size R036CC1HL – Powerful random orbital sander for **external extraction system**. With a 5 mm orbital stroke.
Size 4152HLSR – Lightweight and reliable 75 mm random orbital sander for **external extraction system**. With a 2.5 mm orbital stroke.

Note: See No. 567775 or 567901 for hook and loop grinding discs.

ata tools Pneumatic straight die grinder

07 9440 – ATA – Pneumatic straight die grinder **with 3 mm collets** for fine milling, grinding and engraving. **Integral pre-filter.**

Size SPM60R – 85 W straight die grinder with high operating comfort with a maximum speed of 60000 rpm.
- Slim design for restricted working.
- Removable collet guard.

Size SPT80R – 63 W straight die grinder with unique motor design without wearing parts in the motor with a long service life and a maximum speed of 800000 rpm.

Size SPT100R – 63 W straight die grinder with unique motor design without wearing parts in the motor with a long service life and a maximum speed of 100000 rpm.

Size ST100 – 40W straight die grinder with high operating comfort and a maximum speed of 100,000 rpm.

07 9442 – ATA – Pneumatic straight die grinder **with 6 mm collet**.

Size S25 – Ergonomic straight die grinder for light to medium applications with one-handed operation.
- Push-pull lever for continuous use.
- Excellent weight/performance ratio.

Size SDM26LR – Straight die grinder for light to medium applications with high user comfort and one-handed operation.
- Speed control.
- Excellent weight/performance ratio.

Size SM25LR – Powerful straight die grinder for the most demanding applications with high user comfort.
- Speed control.
- Smooth start-up.

Size SMX16LR – Extended and ergonomic straight die grinder with two-handed operation.
- Speed control.
- Smooth start-up.

Size SMD25LR – Ergonomic straight die grinder with unique vibration damping system.
- Smooth start-up.

Application:

Size SPT80R–ST100 – **Use only oil-free compressed air. Do not add oil!**

Pneumatic angle grinder

07 9311 – **Small pistol-grip angle grinder** with two Roloc® mini-grinding discs ∅ 50/75 mm. Speed can be precisely adjusted using the starter pushbutton. Rubber-coated handle is comfortable to use.

07 9312 – **Powerful angle grinder,** whose operating speed under load scarcely dips when load is applied. The safety starter prevents accidental starting.

Size G2511-125 – Angle grinder for one-hand operation in ergonomic lightweight construction with composite casing. The length of the mounting piece is adjustable for easier access to restricted places. With spindle locking and quick adjustment of the guard. **M14 mounting thread.**

07 9313 – Pneumatic turbine grinding machine for very heavy-duty applications, which keeps speed even at high loads. The turbine motor ensures a high power-to-weight ratio and does not require lubrication.

07 9316 Size RAM20LR – Compact angle grinder with ergonomic design and narrow head for easy access in confined spaces. For Roloc® mini-grinding discs ∅ 50/75 mm.

Size RAM16L – Durable and powerful angle grinder. 10° offset. With 6 mm collet chuck.

Size G2588-180; G2588-230 – Angle grinder with 1700 Watt output power, designed for heavy-duty use and constant high material removal rate. Ergonomic in use. **M14 mounting thread.**

07 9314/9315 – **Compact** and **powerful** angle grinder for very high service life on heavy-duty applications, up to 1000 hours maintenance intervals. Ergonomic and vibration-damped handle. Protective hood adjustable without using tools. **M14 spindle thread.**

Note:

07 9311 – The 3M Roloc® small grinding system ∅ 55 / 75 mm can be found under No. 554005 ff.

Pneumatic tools

Pneumatic engraving / chiselling, and filing pen

07 9709 Size 140EP – Convenient pneumatic engraving pen engraves even the hardest surfaces with ease. Thanks to the ergonomic design with a soft rubber handle and slim housing, it is suitable for continuous use.

07 9710 Size P2505 – **Pencil-sized engraving pen** with greatly improved engraving head, for marking tools, engraving, and delicate cleaning jobs. Carbide tips are easy to replace.

Size P2506 – Engraving pen with **adjustable power** and outstanding durability. Can be converted to a chisel hammer.

Supplied with:

07 9709 Size 140EP – Includes 1.5 m PVC hose.

07 9710 Size P2505 – 1.8 m PVC hose, internal ∅ 3.2 mm.

Size P2506 – Supplied with 2.5 m connection hose with filter, pin insert, chisel, blank, case.

Note:

07 9710 Size P2505 – Spare D-bit kit, see No. 079719.

Pneumatic needle descalers and chisel hammers

07 9720 – Lightweight **needle descaler** for removing welding slag, rust, and paint. **No tools required to change needles. Highly vibration-damping** characteristics for optimum safety in all applications.

07 9730 – Handy **chisel hammer** for chiselling and separating.

Size P2551 – With good vibration-damping characteristics.

Construction site & workshop compressor

07 9842 Size 180/5W – Compact and portable reciprocating compressor. Ideal for stapling and nailing.
Size 250/24W – Powerful and robust compressor for simple applications.
Size 400/50D – Powerful and robust compressor for demanding applications with instrument panel and belt drive.
Size 700/90D – Powerful and robust compressor for demanding applications. Extremely high performance and long service life.
07 9844 – M18 FUEL™ cordless compressor. Conventional nailers and tackers can be operated with an air pressure of 2.8 bar and an effective delivery quantity of 48 l/m. Sound pressure level of only 68 dB(A) for pleasant working conditions.

Supplied with:
07 9844 Size M18FAC – Version without batteries and without charger.

Note:
07 9844 – See No. 073833 size M18HNRG12 for suitable battery starter set.

RIEGLER Service units

Service unit in modular series ("multifix" system), consisting of filter, pressure regulator and mist atomiser. Control range 0.5- 10 bar, operating pressure maximum 16 bar, operating temperature maximum 60 °C.
08 0015 – 2-part service unit, assembled, with pressure regulator, oil atomiser and filter.
Advantage: The service unit can be configured individually, e. g. with several pressure regulators, without oil atomiser (for oil-free tools) etc.

08 0012 / 08 0013 / 08 0014
Individual modules can be assembled into a three-part unit.

RIEGLER Pneumatic oil

Special pneumatic oil 32 in a can. Type HVLP to DIN 51524, T 3 mineral-oil based for high functional and operating reliability. Pays for itself by providing good corrosion protection, exceptional resistance to ageing and outstanding wear protection. Free of zinc compounds.

Application: For oil mist atomisers, pneumatic systems and all pneumatic tools (except for: dry tools).

Hoses

Hose with polyester fibre reinforcement. Temperature range -15 °C to 60 °C.

08 0036 – Super Nobelair Soft, **due to Full-Soft technology highly flexible** even at low temperatures. For use indoors and outdoors. Operating pressure 15 bar.

08 0037 – Airsoft Performance braided hose, flexible oil-resistant compressed air hose for pneumatic tools. Operating pressure 15 bar.

08 0042 – TCN-AL, flexible pressure-resistant hose with long working life. High chemical resistance. Operating pressure 15 bar. Foodstuffs approved (VO/2011 - category A/B/C).

08 0220/0221 – Very light, flexible, and abrasion-resistant PU hose. Outstanding resistance to oil, solvents, and non-aqueous solvents. Operating pressure 16 bar.

Enclosed safety hose reel

- Safety hose reel with high-impact enclosed plastic casing for use in dirty and dusty environments.
- Hose guide and controlled retraction system.
- Integral stop ball.
- **PU hose** with high resistance to abrasion and steel compressed air connections suitable for high flow rates.
- Pivoted bracket for wall mounting and the wall or ceiling.

08 0078 – Hose reel for compressed air. Sturdy hose in bright orange **signal colour**. Ensures safe handling.

08 0079 – Water hose reel for liquids. Hose colour steel blue.

Supplied with:

08 0078 – Supplied with GARANT steel safety coupling and coupling adaptor.

08 0079 – Includes coupling adaptor.

Note:

08 0079 – For water coupling see No. 080149 1/2.

Open hose reel

Hose reels with **automatic pull-out and roll-up mechanism guided** by long life steel springs with **multiple stop points per revolution.**

Size 15SCS; 20SCS – With patented SCS controlled automatic roll-up mechanism for avoidance of damage and injuries.

08 0074 – Open hose roll-up reel with **aluminium cast body,** galvanised **pivoting run-out guide,** and robust **nylon-reinforced PVC hose.**

08 0076 – Open hose reel in **painted, partially galvanised sheet steel design**with **variable run-out guide** and robust **rubber hose.**

Application: For increased ergonomics by relieving cable tension, and for ensuring tidiness and for avoiding the risk of accidents and injuries due to hoses lying on the ground.

08 0074 – Suitable for air.

08 0076 – Suitable for air, water, oil, diesel.

RAPID SCS Safety Control System

EJN Drip-free couplings for liquids

For the field of fluid supply, we offer high-quality, drip and leakage-free couplings and hose sets tailored to each application area on request.

Designed for all types of liquid transfer e.g. cold or hot water, dielectric liquids, glycols and mineral oil and synthetic-based heat transfer oils.

Colour and mechanical coding prevents them from being mixed up accidentally.

Compressed air couplings

Compressed air couplings (Euro standard DN 7.6)

The GARANT safety shut-off is a high-performance coupling of galvanised steel, with extremely high flow rate capacity.
New improved single-handed operation. Rate of flow: 2250 ltr/min, maximum operating pressure 16 bar. Satisfies the ISO standard 4414 and EN 983.

Note: See No. 080290 – 080293 for suitable coupling adapters.
The GARANT series satisfies Euro standard 7.6 (nominal ∅ 7.6 mm, Euro profile) and is compatible with all popular systems.

eSafe compressed air couplings series 320 (Euro standard)

The **eSafe safety coupling** satisfies the ISO standard 4414 and EN 983 It is first depressurised and then decoupled in a second step (no whiplash).
New improved single-handed operation. Rate of flow: 2250 ltr/min, maximum operating pressure 16 bar.

08 0297 – Stream-Line hose adapter simply and effectively clamps the hose on to the coupling by means of a threaded nut - no hose clip required.

Application: For improving the performance, economics, and safety of industrial compressed air installations.

Note: **The CEJN series 320 satisfies Euro standard 7.6 (nominal ∅ 7.6 mm, Euro profile) and is compatible with all popular systems.**

CEJN Compressed air accessories series 320 (Euro standard)

Multi-Link multiple distribution system and accessories

The Multi-Link system combines **optimum compressed air distribution** and flexibility within a very small space. The system is suitable for compressed air distribution in both new and also existing workplaces.
Assembly and installation times are reduced to a minimum. The connections can be **rotated through 180°.**

Industrial couplings and coupling adaptors

Industrial coupling designed for an optimised high flow rate of 2000 l/min (air)**, nominal value 7.8.** High-quality and sturdy quick-release coupling that shuts off on one side. Flow-optimised valve, extremely high flow rates, low pressure drop, long service life, excellent operational reliability and absolute leak-tightness.
Operating pressure: PN 35 bar / temperature: -20 °C to +100 °C.

Material: Nickel-plated brass, sleeve steel hardened and nickel-plated.

Steel safety coupling

Pushbutton for safety coupling of nominal value 7.4. Pushing the button releases the pent-up pressure – the coupling can then be disconnected without triggering a whiplash effect.

Standard: Safety version satisfies the ISO standard DIN EN ISO 4414.

Suitable for: Coupling adaptors No. 080233; 080234 and 080235.

Compressed air blow guns

Compressed air blow gun

High-quality blow gun for compressed air, with very good ergonomic grip, scratch-resistant surface and solvent-resistant for general-purpose use. Easy to use **interchangeable nozzles.**
Rotating quick-release head is unlocked, stops in a range of detent positions.

Supplied with:

08 0122 – Compressed air blow gun with connection adapters size 1/4 inch steel, with 7-piece nozzle set No. 080124 size AIR.
08 0123 – Compressed air blow gun with connection adapters size 1/4 inch steel, with interchangeable nozzle tube 100 mm.

Note: Suitable compressed air gun holders can be found under No. 080260 size H1 and No. 955750.
Single nozzles can be found under No. 080126.

Compressed air and fluid blow guns series 320 (Euro standard)

Compressed air and fluid blow gun 208 and 209 and accessories

Compressed air guns with steplessly adjustable air flow, low weight, flexible suspension options, and easy handling.

08 0251 – Safety air blow gun (series 208) with low-noise nozzle (79 dB(A)).

08 0269 – Safety compressed air blow gun (series 209) with low-noise nozzle and improved ergonomics thanks to the soft grip on the handle and on the trigger.

Supplied with: Supplied with steel coupling adapter No. 080290 size 1/4.

Note: **The CEJN series 320 satisfies Euro standard 7.6 (nominal Ø 7.6 mm, Euro profile) and is compatible with all popular systems.**

HEDI Cable drums

HEDI® cable drums stand for "Made in Germany" quality and a long service life.
The drum body is specially designed to optimally guide the cable. The integrated rotation stop switch prevents accidental rotation of the drum.
All cable drums are equipped with thermal cut-out switches.

Cable drums 400 V

IP 44 K2

Sturdy cable drum of high-impact plastic with **thermal overload protection**.
Certified for continuous exterior use and for use in humid environments.

- 400 V CEE input plug 16 A.
- 1 pc. 400 V CEE output plug 16 A with self-closing cover and thermal cut-out switch.
- 2 pcs. 250 V standard Schuko sockets with self-closing covers.
- Inclined 7 degrees for greater ground clearance and to make it comfortable to carry.
- Removable cable holder and guide for optimum cable control.
- Water drainage grooves.
- Easy to mount on a wall.

08 1131/1132 – Compact, high-quality HEDI® all-plastic cable reel with a reel diameter of 250 mm and ergonomic and safety features.

08 1133/1134 – Large and high-quality HEDI® all-plastic cable drum with a drum diameter of 290 mm and numerous ergonomic and safety features.
Folding rotary handle for individual clockwise and anticlockwise operation when winding and unwinding.

Cable drums

The cable drums meet the specifications set out in DGUV I 203-006 (formerly BGI 608).

08 1106 – Sturdy cable drum with drum body made of sheet metal, double insulated front and back.

08 1113 – Plastic cable drum with all-round rollover protection and practical folding handle.

Note:

08 1113 – A suitable holder for attachment to the GARANT roller cabinets and mobile workbenches can be found under 914935 1.

Cable reel

Cable reel with **guided automatic draw-in and roll-up, with multiple stop points per revolution.** High-impact enclosed **plastic housing.** Thermal **overload cut-out,** sturdy H07RN-F neoprene cable with connection point.

08 1198/1192/1193 –Easy to mount on the wall or ceiling, with **180° pivoting range.**

08 1194–1197 – Easy to mount on the wall or ceiling with **150° pivoting range.**

Application: Improved ergonomics by relieving cable tension, and for ensuring tidiness and avoiding the risk of accidents and injuries due to cables lying on the ground.

Note: For spring return hose reels see No. 080066 to 080079.

Multiple socket strips

08 1129 – With illuminated safety switch and sockets offset at 45°.

08 1152 – 6-way Ecolor socket strip, black, 1.5 m H05VV-F 3G1.5.

- Elegant, slim, timeless and high-quality design
- Polished surface
- Shuttered contact sockets at a 45° angle, also suitable for angled plugs
- Illuminated, two-pole on/off safety switch
- Sockets with enhanced touch protection

08 1156 – 4-way socket strip IP44, black 2 m H07RN-F 3G1.5.

- 230-V sockets, with spring-loaded covers, IP 44.
- 2-m neoprene connection cable.
- Screw sockets for fastening.

08 1159 – Alu-Line premium socket strip with sturdy aluminium casing and innovative fastening concept.

08 1163 – Impact resistant casing with cable inlet at the opposite end to the safety switch placed for easy operation, and with additional suspension loop.
The **surge protection** (13,000 A) prevents damage to connected equipment due to voltage spikes.

08 1165 – **Splashproof sockets** with self-closing covers and sealing rings. Shock-resistant, unbreakable plastic housing with sturdy suspension loop.

- With illuminated safety switch

08 1176 – **6-way black socket strip with 3m H05VV-F 3G1.5 rubber cable.**
Sockets arranged at an angle of 90°, thus ideally suited to accept angled plugs.
Particularly wide spacing for insertion of power supply units.
Illuminated two-pole on/off safety switch.
Holes for permanent 4-point attachment of the socket strip, e.g. to a wall.

08 1179 – The Primera-Tec 7-series multiple socket strip **with 2 permanent, 1 main and 4 follow sockets,** overvoltage protection and 2 m cable impresses with its quality and safety in all areas. It has increased touch protection.

08 1199 – 4-way socket strip with sockets arranged at 90°, with protection against touching and **space-saving flat plug.**

Workshop lamps

Planonlight LED-light **black series** is the most intense, **most dense** and **most compact** of the Planonlight work lights. Add-on variant with flexible fastening options for the most demanding industrial applications.

- **Very high illumination intensity** with 157 Lumen/Watt LEDs.
- **Absolutely maintenance-free** (with a long working life of 50,000 h).
- Very compact design makes it ideal for retrofitting and for use in very intricate machines.
- Very wide range of variants, with 8 different models (built-in versions on request).
- Flexible attachment: **Flush fitted** in-built or with suitable, adjustable attachment 081381 for 45° surface mounting.
- **Improved** and **proven sealing principle** with IP68 and IP69K (leak-free against emulsion).

Note:	**Operating voltage 24 V DC – connection directly to the mains (230 V/50 Hz) will damage the lamp beyond repair!**Use transformer No. 081375 to connect to the mains.

Weight	g	500	600	900

Revolutionary working area lamp with the latest LED technology. Almost **doubled light intensity** in comparison to existing lighting systems, **giving very high sharpness for contours and contrast**.
Due to the **minimum installation height of 28 mm** the PLANONLIGHT LED saves space in virtually every workstation.

- **Very high light density** over the entire area.
- **Extremely high illumination of daylight quality**, whilst remaining dazzle-free and flicker-free, with no stroboscopic effects.
- Steplessly dimmable (transformer not included).
- **Immersion-proof (IP68) even against aggressive emulsions (IP69K).**
- **Very easy to clean** – smooth surface and low surface temperature (maximum 10 °C above ambient).
- **Absolutely maintenance-free.**
- Certified to UL standards – for world-wide use.
- **Easy retrofitting** by self-installation.
- Direct connection via an M12 machine plug connector or using the connecting cable supplied

Function: IP69K: Protected against continuous submersion in pressurised water (pressurised watertight) and protected against penetration by dust (dust-tight), also completely protected against touching.

Note:	**Operating voltage 24 V DC – connection directly to the mains (230 V/50 Hz) will damage the lamp beyond repair!** Use transformer No. 081375 to connect to the mains.

SCANGRIP® Rope light

The "ROPE LIGHT" is a 25 m long, flicker-free and approved rope light with an output of 20,000 lumens. The light can be used both for orientation and as a work light. The drum enables the light to be conveniently rolled up. ROPE LIGHT is operated at low voltage (48 V DC), so there is no risk of an electric shock if the rope is accidentally trapped or cut.

Note:	To prevent overheating, always fully uncoil the rope light from the drum before you connect it to the power supply.

LED floodlights

IP 54

Non-shadowing and non-dazzle version with wide spread of light.

08 1266 – With 2 lighting levels and up to 3 hours illumination. Base of steel, powder-coated.

08 1267 – High-power 360° work lamp with Schuko socket. The lamp can be hung anywhere on a sturdy hook, and stood directly on the workbench.

08 1274 – With integrated handle and base for direct mounting of the floodlight. Two Schuko sockets allow the connection of electric tools quickly and easily, without having to additionally use a cable.

08 1264/1268 – Robust work lamp with rubberised side parts and five different inclination angles depending on the positioning (90°, 35°, 25°, 15°, 0°). Integral carrying handle, on/off switch at the back. Approved for continuous use and on building sites/installation sites to BGI 608.

Suitable for:

Size 18; 48; 65 – Three-leg stand No. 081252 size 1.35-3.

LED cordless lights CONNECT

Scangrip CONNECT work lights are based on the CAS system and are also compatible with 18-V batteries from all leading power tool manufacturers.

Supplied with: Lights are supplied without battery and charger.

Note: Suitable batteries, chargers and power supply units for wired power supply can be found under 073870 – 073890 and 081249.

LED cordless floodlight

High-performance cordless LED floodlight with dimmer function. The housing is made of injection-moulded aluminium and is extremely robust andresistant to strong blows, impacts and vibrations.
For use with CAS 12 V and 18 Vbatteries, 18-V batteries from leading power tool manufacturers or direct connection to the SCANGRIP® power supply.

08 1233/1234 –
- BLUETOOTH light control enables up to four lights to be switched on/off and the light output to be adjusted in five levels to suit the respective task.
- With removable diffuser.
- Integral carrying handle and new base for flexible alignment and for direct mounting on the SCANGRIP® stand or with magnetic holders.

Garant LED work lights

Turn the spotlight on your work.

Discover the powerful and efficient GARANT work lights.

The flexible and highly efficient GARANT LED work lights help you to light up areas that general lighting doesn't reach. Illuminate dark or inaccessible areas in a targeted manner, thereby making your work easier. The shock and break-resistant housing is optimally designed for harder working conditions. The work light is therefore extremely energy-efficient.

IP 65

Garant Work lights

Versatile LED cordless work light in slim sturdy design with a wide range of applications.
Practical monitoring of the state of charge of the battery by LED display directly on the light.

- Main light steplessly dimmable from 10 - 100 %.
- Integral spotlight function.
- Flexible use thanks to 180° pivoting magnetic base, together with fold-up and rotating suspension hook.

08 1442 – Charging station compatible with the GARANT easyFix system.
Uncomplicated charging, ready to hand at all times.

Supplied with: Supplied with USB-C charging cable and plug-in power supply unit.

Note: For mounting on GARANT easyFix perforated panels, also order the base plate No. 955820 size 2.

Keep the lighting you love throughout your life – FOR LIFE

SCANGRIP is dedicated to developing the most resource-efficient and durable LED work lights for professionals.
The new concept, FOR LIFE, focusses on sustainability and underlines its commitment to developing products that last significantly longer than current standards.

The extensive product development work aimed to improve the effectiveness and service life of Scangrip's work lights, which are already superior in the market.
A significant extension of a product's service life was particularly useful for Scangrip and provides the greatest environmental impact.

- New, improved battery system with double the service life
- New highly efficient multi-LEDs with up to 15% improved efficiency
- New OPTILight function for optimised light output and superior illumination duration
- Optimised electronic LED driver design with up to 50% improved efficiency
- Recycled materials and plastic-free packaging
- 5-year warranty upon registration

08

SCANGRIP® LED work light

Folding 3-in-1 **"For Life" work light** in a new design with highly efficient multi-LEDs.
Extremely slim and compact design.
Permits inspection and lighting in difficult to access and narrow places.
New **OPTILight function** for optimised light output and illumination duration.
Pocket-size when fully folded away, the light works like a conventional torch.
Additional spotlight and two lighting levels (50 and 100 %).
Strong built-in magnet and hook.

Mini LED floodlight

Compact and powerful cordless LED floodlights for mobile use.
The compact dimensions mean they are perfectly suitable for use as hand lamps.
The adjustable magnetic bases allow them to be used as stationary light sources.

08 1451 – New **OPTILight function** for optimised light output and duration.
The SMART Grip 4-in-1 system integrates several functions in one unit:
a ring for secure grip, a clip for easy attachment, a strong magnet and a base.

Supplied with:

08 1451 – Including USB charging cable.
08 1573 – Supplied with USB-C charging cable.

IP 65

LED rechargeable work light

08 1259 – **Rechargeable rod light** with rotating plastic hook;
On/Off switch, floodlight and torch can be controlled separately.

08 1341 – The Line Light work light is formed of an extruded acrylic profile with an **integral lens** (beam dispersion angle 75°). It is thus exceptionally **sturdy and shock-resistant.**
With additional torch on the end (150 lumen).

Supplied with:

08 1341 – Work light with rechargeable battery, power supply unit, mounting clip with magnet and lockable hook.

SCANGRIP LED torches

08 1511 – Sturdy and elegant LED torch of aluminium, with handy retainer clip for professional use.

Size PEN – With focussable light beam from 10–60° spread.

Size PENCIL – Ultra-thin pen torch with head ∅ only 15 mm.

08 1569 – Rechargeable mini-LED torch in an elegant and extremely compact design.

- With integrated charging cable which also serves as a key ring.
- Steplessly dimmable from 10 – 100 %.
- Switch-on delay to prevent accidental switching on in the pocket.

Note:

Garant LED torches

Long-life and very sturdy LED torch of anodised aluminium.
LED technology with **outstanding lighting power**.

- **Tight beam** with little scatter loss.
- High energy efficiency for long illumination time.
- **Illuminated ring,** easy to find in the dark.
- Splash-proof, protection class IP54.

Size 125 – Homogeneous illumination via the diffusion lens, single-hand push-button switch at the front.

Size 140 – Switch at rear.

Note: For suitable batteries see No. 081551 ff.

HOLEX LED RECHARGEABLE BATTERY TORCHES

Simply clever:
Your work in the best light.

HOLEX LED rechargeable battery torches illuminate everyday working life with handy functions.

- **Cleverly variable:** Step switch with separate boost function.
- **Cleverly bright:** Energy-efficient LED technology for a long illumination time.
- **Cleverly sustainable:** Rechargeable battery technology instead of disposable batteries.

IP 54

HOLEX LED rechargeable torch

Sturdy, rechargeable LED torch made of anodised aluminium. **The 2 settings** with additional **boost function** provide **outstanding light output** for all applications. The single-hand focussing enables quick and easy adjustment of the beam.

- Charging and discharge monitoring by means of coloured LED in the switch.
- Long running time with constant light output.
- USB-C charging socket.
- Anti-roll protection.
- With focussable lamp head.

Supplied with: Supplied with USB-C charging cable and battery.

LED true colour work lights

08 1461 Size CRI-PEN – LED pen torch with focussable lamp head, pocket clip and push-button.
True colour LED with **high CRI value** (> 95) for recognition of colour matching.

08 1513 Size PEN – **MATCHPEN.** Small portable pen torch with focus function for bundled and concentrated illumination between 10° and 70°.
Ideal for detecting scratches and scuffs during quality control.

Size MINI – **MINIMATCH.** With a 2 COLOUR LIGHT function. This allows the choice between two colour temperatures depending on the work in hand.
Warm light (4500 K) for light surfaces and cold light (6500 K) for dark surfaces.

Size SUN4 – **SUNMATCH 4.** Handy cordless LED work light with 180° flexible lamp head for preparation and colour matching.
With stepless CCT SCAN function.

08 1514 Size MULTI-R – **MULTIMATCH R.** Powerful, portable battery work light with continuous CCT SCAN function. Display at the back, showing battery capacity and remaining runtime. Integral adjustment base for direct mounting on Scangrip stand 081252 1.35-3.

08 1513/1514 – **COLOUR MATCH**. Special LED with high CRI value for **perfect colour reproduction** and extremely long LED working life.
Perfect for all painting, polishing, cleaning and preparation work.
Designed for use in paint shops.
Exchangeable glass lens and resistant to all types of solvent, even when cleaned every day.

08 1513 Size SUN4/1514 Size MULTI-R – With stepless CCT SCAN function. When activated, the light automatically scans the surface of the object with the entire colour spectrum range.
Locking is possible at any time. Ideal for detecting paint defects.

Supplied with:

08 1513 Size SUN4 – Supplied with charger and charging station.

08 1461 Size CRI-PEN/1513 Size PEN – Supplied with 2 × AAA batteries.

08 1513 Size MINI/1514 Size MULTI-R – Charging cable.

LED torches with Ex protection (ATEX)

Explosion-proof torch, tested to the applicable ATEX guidelines.

08 1484 – The lamps of the new LED Lenser EX series are certified both for maximum dustproof and waterproof qualities.

Size EX4 – Handy lightweight pen torch, with pressure switch.

Size EX7 – Torch with patented Advanced Focus System for focussing the light beam. Comfortable "Magnetic Switch" for easy operation even when wearing gloves and protective equipment.

08 1521 – With **LED reflector technology.**

Size 3AA – **LED hand lamp and helmet lamp made of flame-retardant materials.** Wide spot beam, ideal for fire fighting and extreme cold.

Size 4AAZOOM – **LED hand lamp and helmet lamp with zoom function.** Beam of light can be focused (beam 16° – 33°). Patented optical system.

Size 4AARFL – **LED hand lamp and helmet lamp with special protection technology.** Smooth, wide centre beam. Thanks to the patented optical system, ideal for illuminating wide working areas. Corrosion-resistant. Switch at rear. Easy to attach to work and safety helmet using a helmet holder.

Size 4AA2B – **LED hand lamp with primary and secondary light,** front beam for primary light (shines forwards), rotary head switch for secondary light (shines on the feet). No reduction in operating time when using both beams of light at the same time.

08 1522 – **High-performance inspection lamp, shock-resistant, dust-proof and waterproof.**

Powerful LED pen lamp with pocket clip. Centre-reinforced beam, 6500K. Lightweight, fits into any tool bag and holds onto any jacket pocket. Switch at rear. With fibre optic attachment ideal for illuminating confined spaces that are difficult to access.

LEDLENSER Technical highlights of the Ledlenser headlamps

	Function	products
ADVANCED FOCUS SYSTEM	Combination of lens and reflector permits stepless transition from homogeneous local beam to sharply focussed long-range beam.	H5-CORE, H5R-CORE, H7R-CORE, H15R-CORE
FLEX SEALING TECHNOLOGY	The electronic parts of the lamp head are completely sealed against penetration by water and dust – whilst retaining the Advanced Focus System.	H5-CORE, H5R-CORE, H7R-CORE, H15R-CORE
DIGITAL ADVANCED FOCUS SYSTEM	The Digital Advanced Focus System enables an almost stepless transition from homogeneous local beam to focussed long-range beam and allows for a particularly slim design.	HF8R-WORK
ADAPTIVE LIGHT BEAM	Adaptive Light Beam Technology enables automatic dimming and focussing for hands-free use of your lamp.	HF8R-WORK

LEDLENSER LED headlamp

Powerful high-performance LED headlamps for professional use.

- **Pivoting head** and stepless focussing function.
- Intuitive operation and stepless dimming.
- Exchangeable and washable head band.
- Ledlenser connecting system as a standardised interface permits easy connection with a comprehensive range of accessories.

SCANGRIP LED headlamp

08 1443 – Small and handy multi-functional lamp for high working comfort. The lamp has a main light with a wide beam of light and a focused spot LED on the side. Variable application options.

- As a classic headband lamp, with the lamp head rotatable through 360°
- As an orientation light when attached to the side of the headband and using the spotlight
- As a work lamp with magnet and handy clip

08 1446 – Compact and powerful LED headlamp with wide spread of light for optimum illumination of the entire work area. New highly efficient multi-LEDs and new **OPTILight function** for optimised light output and duration. Non-contact switching on and off thanks to the sensor system. Stepless dimming function from 10 – 100%.

Supplied with:

08 1443 – Supplied with USB charging cable, headband and bracket for attachment to hats and caps

08 1446 – Supplied with USB charging cable.

Batteries

08 1559 – High-quality branded **Lithium-metal** batteries with very high capacity and very low self-discharge rate. 10 year working life (smoke detectors, control units, etc.). Operating temperature range -40 °C to 60 °C.
08 1561 – High-quality and high performance **VARTA LONGLIFE Power alkali manganese** battery for use in power tools with high power consumption. Quality **"Made in Germany"** (except for 6LR61). **Guaranteed shelf life 10 years.**
08 1551–1554 – High-quality **alkaline batteries** have a **working life 2 to 3 times longer than,** and a **shelf life more than twice** that of zinc-carbon batteries.
08 1551/1552 – HOLEX batteries offer reliable and sustained energy output.
08 1553/1554 – High-performance branded X-Power alkaline batteries of outstanding quality with sustained energy output for demanding applications in power tools with high power consumption. Long shelf life of up to 7 years.

Chargers and charging accessories

Microprocessor-controlled charging and servicing stations for battery cells with **individual channel monitoring** and battery fault detection. Status display for each charging slot, automatic charging switch-off, overload protection and **trickle charging.** Input voltage 100–240 V.

Size 4ULTRA; LITHIUM4 – With LC display for detailed monitoring of the charging process and additional acoustic feedback.

Size C-MULTI – With intelligent "PERFECT 7" charging technology (rapid capacity test, gentle pre-charging, battery analysis, rapid charge, IQ shutdown, top-off charging, trickle charging) and 3-colour LED display for reading the cell status.

Application:

Size 4ULTRA – **NiMH/NiCd battery charging points:** 1-4 × Micro AAA / Mignon AA or 1-3 × Baby C or 1-2 × Mono D.
Li-Ion battery charging points: 1-4 × 18650, 18500, 17670, 16340, 14500 etc. or 1-3 × 26650, 26500, 25500, 22650 or 1-2 × 3265.

Size 4SMART – **NiMH battery charging points:** 1 – 4 × Micro AAA / Mignon AA.

Size C-MULTI – **NiMH battery charging points:** 1 – 4 × Micro AAA / Mignon AA / Baby C / Mono D and 1 × 9V block.

Size LITHIUM4 – **NiMH battery charging points:** 1 – 4 × Micro AAA / Mignon AA or 1 – 2 × Baby C.
Li-ion / LiFePO4 battery charging points: 1 – 4 × 18650; 17670; 14500 etc.

kurtz ersa Soldering irons

Tough industrial soldering irons with **Ersadur long–life soldering tips**
(30 times the working life of conventional copper soldering tips).
Warm–up time 3 min. (for size 300, approx. 5 min.).
Power cable 1.5 m rubber cable (PVC for size 30).
With support stand (not size 30).

Size 30 – Proven Ersa soldering iron with attachable support stand.
Size 150 – Powerful soldering iron for copper cables up to 6 mm² cross section.

suitable for copper cross sections up to	mm²	2.5	4	6
Weight without power lead	g	80	220	245

Powerful general-purpose soldering iron with a precisely regulated temperature sensor located directly below the internally heated soldering tip. The combination of this direct temperature measurement with the precise control electronics integrated in the handle enables the **most delicate soldering jobs** to be professionally done on sensitive electronic components **and also applications with very high thermal requirements.**

Application: For mobile use in the field of service, maintenance and repairs.
The ERSA Multi-TC has the functionality of a large soldering station,
but no galvanic separation.

Warm-up time 34 sec

Weight without power lead	g	60

Unusually light soldering gun without transformer; with PTC heating element.
Warm-up time approx. 20 sec. Periodic pressing of the trigger allows heat output to be matched to the heat requirements of the joint. High efficiency internally heated soldering tip. Power cable 1.5 m.

Application: Particularly useful for assembly and repair work, because of its
working range of 15 – 100 W (used as standard soldering iron).

Warm-up time 20 sec.

kurtz ersa Gas soldering devices

Ergonomic gas soldering iron with **easy to use piezo ignition.**
Requires commercially available butane gas (as for gas lighters).

Application: For maintenance and repair work, in particular where no power supply is available or the power has been switched off.

Supplied with: Chisel-shaped soldering tips 1.0, 2.4, 3.2, and 4.8 mm.
Flame nozzle (up to maximum 1400 °C), hot gas nozzle (up to max. 700 °C),
soldering tip, reflector plate for applying shrink sleeving,
cleaning sponge and sponge holder, in a handy plastic case.

Soldering fumes extraction

High extraction power – efficient filter performance – quiet operation. Filter the process air in 3 steps:

- Pre-filter for dust and larger particles.
- Combination filter for micro-particles.
- Activated carbon filter absorbs harmful gases.

Visual and audible display for filter change. Identical filter for EASY ARM 1 and EASY ARM 2. Interface for connecting i-CON soldering stations.
The system is fitted using a suitable bench holder. Accessories such as extraction arms and nozzles can be found in the online shop under No. 082306 – 082313.

08 2304 – Extraction power is set on the system at the touch of a button, individually for each extraction arm.

HAZET Universal thread repair tool

Universal thread repair tool for external threads.

- **Quick attachment** using the adjustment screw.
- Blade automatically adjusts to any thread lead.
- For cutting right-hand and left-hand threads to length **(take into account the direction of rotation!).**
- **Suitable for all types of thread** (60° flank angle).

Koken Screw / nut extractor for right-hand threads

Made of tough chrome molybdenum steel. The sharp edges of the flutes bite into the jammed or broken screw / nut and bolt and allow it to be unscrewed. For use in combination with a ratchet, T-handle etc.
Also suitable for round profiles or hexagon socket head screws.

Screw extractor

Made of chrome vanadium steel.
The sharp edges of the flutes dig into the drilled screw and allow it to be unscrewed.
With square drive for use with tap wrench etc.

Application:

08 2861 – **Suitable for both left-hand and right-hand threads.** Suitable for hardened steel.
08 2862 – Suitable for aluminium, brass, stainless steel.
08 2865 – For extraction of broken-off screws with right-hand thread.
08 2862/2864 – For extraction of broken off screws with right-hand thread (pre-drill the hole ∅ as listed in the table; turn the screw extractor anti-clockwise).

Note: UNC and UNF threads available on request.

Garant Cleaning agents without hazard labels

08 8001 – The **flexible degreaser** for quick cleaning of oils, emulsions and greases. Can be mixed with water up to a ratio of 1:10.

08 8002 – The **acidic all-rounder** without hazard labels. Removes rust, lime scale and mineral contamination safely and gently. Can be mixed with water up to a ratio of 1:10.

08 8004 – The **degreaser and finisher** for fast, daily removal of cutting and corrosion protection oils, light waxes, emulsions, sticky residues and other contamination. Meets the highest cleanliness requirements, especially before lacquering, coating and bonding. Drastic VOC-reduction compared to conventional solvents.

08 8005 – **Cleans, protects and preserves stainless steel**, aluminium, non-ferrous metals and plastics. Removes dust, fingerprints and oils reliably and easily. Leaves behind a brilliant shine.

08 8006 – **Extreme degreasing power** through hybrid technology. Burnt-in contamination, special greases, oils, soot, rubber residue, bitumen, waxes and pastes are loosened using plant extracts and quickly removed from the surface using surfactant technology.

08 8001–8006 – NSF certification. Suitable for use in the food industry.

08 8001_200

Garant Weld spatter separation spray without hazard labels

Premium **2-in-1 welding anti-spatter fluid Clean & Weld** with cleaning function.
Effectively prevents spatter from sticking when carrying out MIG/MAG welding and laser cutting.
Thanks to its excellent wetting properties, can also be used as a cleaner before welding.

Garant Ultrasonic cleaners without hazard labels – powerful and safe

GARANT GreenPlus **ultrasonic cleaners** – top performance with maximum flexibility.
Do you work with complex workpiece geometries and delicate surfaces? Then the Sonic Cleaner series is made for you.
The cleaning series from GARANT GreenPlus, specially designed for ultrasonic systems, includes alkaline, acid and neutral cleaners for a wide variety of materials and fields of application. Depending on the requirements and degree of dirt, the highly concentrated cleaners can be diluted and are powerful even at room temperature. This makes optimum use of the medium.
Their long service life also saves time and money.
All Sonic Cleaners are **hazard-label-free, biologically degradable, VOC-free and silicate-free.**
For companies, this means the products are easy to handle and ensures both your employees and the environment are protected.

08 8015 – Sonic Cleaner AL-D, **alkaline demulsifying** cleaning concentrate
for general-purpose ultrasonic applications and an extremely long service life with high material compatibility.
Demulsifying cleaner, floating oils can easily be removed from the bath.
The component receives a film of oil when removed.

08 8016 – Sonic Cleaner AL-E, **alkaline emulsifying** cleaning concentrate
for general-purpose ultrasonic applications with high material compatibility.
Emulsifying cleaner, the removed oil disperses in the cleaning bath and mixes with the liquid contained, which ensures that the component is clean when it is removed.

08 8017 – Sonic Cleaner N, **neutral** cleaning concentrate for particularly gentle cleaning of sensitive materials such as aluminium, non-ferrous metals, painted and galvanized surfaces.

08 8018 – Sonic Cleaner AC – **acid, odourless** cleaning concentrate, is used to remove rust from ferrous materials.
In addition, lime, oxides and mineral deposits can be removed.

08 8019 – Sonic Protect CP – **corrosion protection** additive for metallic materials susceptible to corrosion, such as steel, cast iron and carbides. Materials are coated with a molecular protective film, which permits temporary intermediate storage. Sonic Protect CP is low-foam, easy to wash off - subsequent coating or hardening processes are possible. Can be combined with Sonic Cleaner AL-E, AL-D and N.
Can also be used in passivation baths or dip baths and as a water treatment agent.

Application: For ultrasonic cleaning baths.

Garant GREENPLUS Overview of the use of ultrasonic cleaners

Article number	Product designation		Contamination	Material compatibility	pH value	Dosage	Recommended temperature range
088015	**Sonic Cleaner AL-D**	Alkaline de-emulsifying universal cleaner	Emulsions, oils, greases, drawing greases, anti-corrosion agents, grinding dust, soot, inks, toners, lapping and polishing agents.	Common materials such as steel and non-ferrous metals, glass, plastic, ceramic, rubber. High material compatibility – check in advance for sensitive surfaces.	10	3 – 10 %	20 – 80 °C
088016	**Sonic Cleaner AL-E**	Alkaline emulsifying universal cleaner	Emulsions, oils, greases, drawing greases, anti-corrosion agents, grinding dust, soot, inks, toners, lapping and polishing agents.	Common materials such as steel and non-ferrous metals, glass, plastic, ceramic, rubber. High material compatibility – check in advance for sensitive surfaces.	11	3 – 10 %	20 – 80 °C
088017	**Sonic Cleaner N**	Neutral special cleaner – alkali-free and acid-free	Light dirt such as grease and machining oils, abrasives, polishing and lapping agents, fingerprints, grinding dust.	Sensitive materials such as aluminium, non-ferrous metals, varnished and galvanised surfaces, as well as steel, stainless steel, plastic, glass, ceramic and rubber.	9.6	2 – 5 %	20 – 60 °C
088018	**Sonic Cleaner AC**	Acid cleaner	Rust, lime, oxides, mineral deposits as well as oils and greases.	Iron materials, aluminum, stainless steel, non-ferrous metals, glass, plastic. **Then neutralise parts with 08 8004 GARANT GreenPlus Finisher and protect them if necessary!**	2.2	5 – 100 %	20 – 80 °C
088019	**Sonic Protect CP**	Corrosion protection	Additive for metallic materials susceptible to corrosion, such as steel, cast iron and carbides.	Materials are coated with a molecular protective film that temporarily protects against corrosion. Subsequent coating or hardening processes are not impaired.	8.6	0.5 – 2.5 %	20 – 80 °C

Ultrasonic cleaning units

For removal of oil, grease, grinding fluids, polishing fluids, paint residues, flux, oxide layers, carbon deposits, scale from nearly all surfaces and even from inaccessible places, whilst treating the component being cleaned with the utmost care.
Use special power cleaner depending on the dirt and effectiveness required.
The component to be cleaned must be completely surrounded by cleaning fluid.
The ultrasonic cleaning devices from the Elmasonic Select series are powerful and individual.

- 5 ultrasonic modes.
- 4 individual cleaning programs can be saved.
- Clear display showing all relevant cleaning parameters.
- Acoustic and visual feedback about the operating status.
- Tray made of drawn stainless steel
  Size 3 – This version does not have a stopcock on the rear of the device.

Adjustable limit temperature

Powerful ultrasonic cleaning by the Elmasonic xtra series for heavy-duty applications.

- Greater ultrasonic effect due to automatic dynamic function.
- Selectable Eco mode for gentle cleaning and energy savings.
- Integrated sweep function for even sound distribution in the cleaning bath.
- Individual timer and temperature control.
- Clearly arranged, splash-proof control panel.
- Automatic safety shutdown.

Sturdy tray made from welded stainless steel, suitable for continuous operation.

Elmasonic xtra ST is the ideal ultrasonic device for the heaviest contamination and is particularly suitable for the most demanding applications in industrial cleaning.

- 2 selectable ultrasonic frequencies (25 kHz for the most stubborn contamination and 45 kHz for gentle cleaning).
- Integrated sweep function for even sound distribution in the cleaning bath.
- Selectable pulse function increases the ultrasonic peak power.
- Dynamic function (ultrasonic power can be increased temporarily by up to 20%).
- Sturdy tray made from welded stainless steel.
- Castors with parking brake for mobile use of the device when unfilled.

Can be combined with optional accessories such as filter units or the "Elma Move" – active basket movement in an ultrasonic bath for optimum cleaning results.

Ultrasonic cleaning accessories

Rinsing unit

The new Elma Sink is an important addition to the overall cleaning process. Once the cleaning process in the ultrasonic unit is complete, the component basket can be inserted directly into the Elma Sink. This will ensure that any residues and cleaning chemicals are rinsed off – thoroughly. In conjunction with a suitable rinsing medium, this guarantees optimal cleaning results.

Drying unit

Elma Dry drying units are designed for use in production facilities, workshops and service areas.
After cleaning in the ultrasonic bath, the items in the Elma component basket are first rinsed in the Elma Sink (No. 082004) and then dried easily and conveniently in the Elma Dry.
Its **cold/hot-air blower (70°C)** ensures that even delicate parts can be dried gently. In cold-air mode, the parts can also be cooled down quickly. The cover includes ventilation slits that maximise the air turbulence and discharge the humid air to the outside. At the same time, the cover reduces energy consumption.
The **dust filter** on the underside of the base is replaceable and prevents recontamination of the cleaned parts due to dust in the room air (filter fineness 33ppi). Due to the safety shutdown when the limit temperature is reached, Elma Dry units are both **extremely safe and gentle on their contents.**

Noise protection cover No. 08 2105_50

Component basket No. 08 2101_3

Cleaning medium

Component cleaner and degreaser

08 3015 – Quick cleaner for brake, clutch and gearbox parts, also carburettor and fuel pumps.

08 3019 – Powerful, biodegradable degreaser, quickly removes greases, oils, lubricants and other stubborn impurities.

08 3022 – **Powerful, deep-penetrating cleaner** with enhanced **application safety.** High breakdown strength of 43 kV, high flashpoint of 63°C. Ideal for **stubborn dirt** on mechanical components and on electric motors, control cabinets, transformers etc.

08 3027 – Powerful **industrial cleaner based on natural orange terpenes**. For universal use when cleaning oil, grease and oil from machine and equipment parts. Releases obstinate residues such as resin, tar, adhesives, and varnish residues. Pleasant smell.

08 3043 – Brake cleaner removes oil, grease, resin incrustations, brake fluid and other stubborn dirt.

08 3061 – VOC-free brake cleaner quickly and reliably removes brake fluid, grease, oil, hardened deposits and other contaminants.

08 3095 – Highly effective mould cleaner for injection moulding. Solvent-based liquid cleaner fro removal of dirt and polymer residues.

08 3011/3014 – **High performance general purpose cleaner** and **degreaser** with wide range of effectiveness. Suitable for degreasing and removal of adhesive residues and resinous residues from metal surfaces. For cleaning tools, bolts, fittings, and also for pre-treatment of surfaces to be glued, quickly drying without residues.

Special cleaning agents

08 3018 – **Contact cleaner spray** for electrical engineering and fine mechanical work. Quickly removes rust, oil, and grease - leaves no residues. Ideal for cleaning measuring devices, tools, switches, and sensors. Approval NSF® K2 for foodstuffs.

08 3112 – Thanks to its high spray pressure, the **Dust Clean PB compressed-gas cleaner** with convenient spray head effectively blows away dust and dirt from items such as office equipment and computers.

08 3113 – **Multi-Surface Citro COVKleen** spray with citrus fragrance is suitable for commercial cleaning and disinfection of commonly used surfaces. It quickly and reliably removes dirt, oil, viruses, bacteria and germs from metal, stone, textiles and many plastics.

08 3395 – **Label Off Super** label remover for removing self-adhesive paper labels. Removes self-adhesive paper labels from most surfaces in 2–3 minutes. Approval NSF K3 for foodstuffs.

Attention:

08 3113 – Use biocidal products carefully. Before use, always read the label and product information.

Surface and foam cleaner

08 3016 – Alkalis, **water-soluble cleaning concentrate** for general-purpose cleaning of large areas on machines, plant, floors, work surfaces, and conveyor belts. Active components are easily **biodegradable** surfactants. Approval NSF® A1 for foodstuffs.

08 3024 – **Cleaning and polishing foam** for stainless steel, chrome, aluminium and plastics. Removes all types of residues and leaves a water-repellent protective film (prevents fingerprints). Approval NSF® A7/C1 for foodstuffs.

08 3026 – Solvent-free, antistatic **special cleaner for TFT / LCD display screens** and for quick and gentle cleaning of casings, fittings, glass, and smooth metal surfaces. **The foam does not trickle down on vertical surfaces.** Approval NSF® K2 for foodstuffs.

Lubricant

Penetrating oil and lubricating oil

08 3052 – This **rust remover** penetrates into the smallest gaps in a flash; the powerful penetrating **capillary action** loosens bolts and mechanisms. Further **improved sliding properties, avoiding recurrence of seizing through the action of the MoS_2 additive.**

08 3053 – Special lubrication and care for plastics and sliding pairings made from different materials. Lubricates and protects parts made from rubber, polymers, plastic and metals. Eliminates squeaking and creaking noises. Ideal also for care and restoration.

08 3054 – SILICONE IND is the versatile synthetic oil spray. The silicone oil creates a thin, water-repellent film which is highly compatible with plastic, rubber and varnishes. SILICONE IND refreshes plastic surfaces, protects rubber against icing up and is a highly effective separating agent. The product does not age and become sticky, and can be used between **-40°C and 200°C**.

08 3062 – Waterproof lubricant with **excellent adhesion.** Creates a long-term lubricant film.

08 3097 – Synthetic long-term lubricant, resistant to high temperatures.

Greases and pastes

08 3058 – **General-purpose spray-on grease, white**, with PTFE with excellent adhesion. Provides long-term protection and lubrication for moving parts and sliding surfaces (e.g. chains, ball bearings, hinges), even under heavy loadings (up to 120°C). Resistant to water and high pressure.

08 3068 – High-quality anti-seize thread and assembly paste based on high-quality **copper powder** in non-drip grease base. **Temperature-resistant from -30 °C to 1100 °C.**

08 3066–3068 – **The paste prevents sticking, seizing, and corrosion.** Specially for parts and bolts, which are exposed to heat, high pressure or corrosive environments.

08 3066/3069 – **High temperature-resistant ceramic paste,** with an effective range from **–30 °C to 1400 °C.** Non-volatile, very good parting properties, **emulsion-resistant.**

Anti-corrosion agent

Rust protection

08 3025 – **Cleaning and protective oil for metal surfaces.** Removes residues of dirt, **displaces moisture** and creates a thin protective film. Creates a uniform lustre on the surface. Contains no silicones, resins or acids. Approval NSF® H2 for foodstuffs.

08 3055 – Seawater-resistant protective wax, also for protection during outdoor storage. Corrosion protection wax for up to 2 years of protection when stored outside. The brown, dry wax film offers reliable transport and storage protection even in direct exposure to weather conditions or in a saline or corrosive atmosphere.

08 3094 – Transparent waxy anti-corrosion agent for mould tools and metal surfaces of all kinds. Long-term protection for storage and transport.

08 3096 – **Corrosion protection wax** based on paraffinic mineral oils with corrosion protection additives. Offers special corrosion protection for transport (especially sea transport) and also long-term protection for tools, profiles, precision parts and machines. For use within the temperature range: - 30 °C to 160 °C.

Multi-function oil

08 3032 – High-quality multi-function oil, silicone-free, does not gum up. With PTFE additive and "clever straw" spray technology. The mechanic's oil lubricates, releases, protects and displaces moisture. The PTFE lubrication additive ensures continuous protection against wear, high pressure stability and reliable lubrication even under extreme conditions. The product can be used between -50°C to 150°C.

08 3120/3121 – Multi-function oil with high creep effect protects metal surfaces against corrosion and displaces water and moisture. Releases dirt, rust and grease residues. Compatible with all types of metal and most types of rubber, plastics and coatings.

Note:	Not available in all countries. Express delivery not available.

Universal oil spray and corrosion protection oil sprays

Application:

08 3042 – The 12.5 cm long VarioFlex spray tube is flexible and can be bent in all directions. Inaccessible corners can be reached quickly and easily. The spray jet is very fine and precisely controllable. But the capability to emit a spray mist is still available; simply fold the spray tube vertically downwards and click into place.

08 3047 – Maintains and protects all sorts of metals against corrosion, without sticking or gumming up.

08 3041/3044/3045 – Ideal for **servicing, maintenance and preservation** of all types of tools. Proven for tooling, chucks, measuring tools, grinding vices and for the protection of press tools in storage. Neutralises weak acids and perspiration and is very **gentle to the skin**. **Ecologically non-hazardous**, free of resins, offers unsurpassed versatility.

Note:	Not available in all countries. Express delivery not possible.

Garant Multi-function oil

The **GARANT multi-function oil** is ideal for **lubricating, cleaning and protecting**.
Thanks to its excellent capillary action, it penetrates deep into the smallest gaps, removes stubborn dirt and ensures thorough cleaning.
At the same time, it forms a reliable **lubricating film** that **prevents corrosion**, effectively removes rust films and does not gum up.
The versatile spray is **ideal for removing resinous greases and oils and for lubricating** a wide range of components.
In addition, it protects against rust and leakage currents, making it perfect for tools, machines, electronic circuits and motors.
The GARANT multi-function oil is **free of acids, silicones and Teflon.**

Note:	The GARANT multi-function oil is ideal for looking after granite measuring and control surface plates and can be used to full effect in combination with the GARANT GreenPlus Granite Cleaner (431842 500), the specialised cleaning agent for granite comparison scales. Together, they are the ideal solution for cleaning and protection in order to extend the life and precision of your measuring and control surface plates.

Multi-function product

WD-40® multi-purpose oil helps maintain the value of machines and tools during maintenance work.
The product displaces moisture, protects metal from rust and corrosion, penetrates into trapped parts and releases jammed mechanisms and moving parts. It removes grease, soot and other dirt from surfaces and prevents squeaking.
Contains no silicone, resin or PTFE, temperature application range -50 to +150°C, non-conductive,
360° valve for use from any position.

Application:

08 3003 – WD-40 Flexible® for working in hard-to-reach areas without disassembling the parts to be worked on. The product has an 18.5 cm long, flexible spray tube made of extremely malleable, wear-resistant and heat-resistant metal.

08 3004 – WD-40® multifunctional product Smart Straw® for spraying over large areas as well as in specific spots.

08 3005 – By wide-scale use **of the spray dispenser No. 083006 or No. 083509 – 083517** for economic application over large surfaces.

Note:	Approved by: **Rolls Royce, Daimler, Airbus, VW** amongst others. Not available in all countries. Express delivery not available.

Garant Anaerobic adhesives without hazard labels

Note: Clean the material to be machined in advance with cleaner without hazard labels No. 088004.

Threadlockers

The use of threadlockers prevents the screw fastenings from accidentally releasing and coming undone. The single-component anaerobic threadlockers are suitable for all thread types and forms. Screw fastenings are sealed. Seizing is reliably prevented.

08 8060 – Type **2GP22** low-strength. Medium viscosity. Ideal for easy-to-remove screw fastenings. For securing screws with fine threads.

08 8061 – Type **2GP43** medium-strength. Seals and locks many types of screw fastenings. High resistance to vibrations. Quick curing on a high number of ferrous metals. Increased oil tolerance.

08 8062 – Type **2GP70** high-strength. For fixing studs, ball bearings and roller bearings which normally can no longer be released. For highly stressed screw fastenings.

08 8063 – Type **2GP90** medium-strength. Reliable sealing of cast housings and weld seams. Also for subsequently securing and fixing small screws and cylindrical parts.

Application: **Low strength** – Can be undone with normal tools. **Medium strength** – Can still be undone with normal tools. **High strength** – Can be undone only with special tools or by heating (>150°C).

Thread sealant

Thread sealants prevent leakage of gaseous and liquid media. Thread sealants are typically used for sealing conical metal threads and connecting pieces, amongst other things.

08 8064 – Type **5GP42.** Sealant for workpieces with threads in hydraulic or pneumatic systems and connecting parts. Effective protection against oil, water, hydrocarbons and chemical products.

08 8065 – Type **5GP11.** Seals against water, compressed air, gas, petrol, LPG, and chemical products. PTFE additive allows easy disassembly. Specially for sealing conical/cylindrical pipe screw connections. When it has cured it creates an elastic coating.

08 8066 – Type **5GP77.** Seals conical/cylindrical pipe thread fastenings up to R3 inch, e.g. gas piping systems. Heat-resistant.

Garant GREENPLUS

Simply sustainable and environmentally friendly – cleaning and bonding.

Your path to products without hazard labels in technical chemistry.
GARANT GreenPlus, the real alternative to hazardous substances to protect people and nature.

The products are marked with this icon in the catalogue.

OUR "GREEN" RANGE: THE BENEFITS TO YOU AT A GLANCE.

Our products have a "white safety data sheet". This means: **They are safe to use**.
GARANT GreenPlus products therefore also do not have to be marked with hazard symbols or risk or safety phrases (R and S phrases).

By using chemicals that do not require a hazard label, you can significantly reduce the amount of pollutants within your production system.
You also **benefit in many other ways!**
This overview provides further details.

White safety data sheet
Not marked with hazard symbols etc.

Protect your employees
Fewer health problems, meaning less downtime.

Easy to use
No need to create operating instructions.

Fewer protective measures
As the pollutant levels are low, no complex protective measures are required.

Safe working
Fewer potential risks (e.g. risk of explosion and fire).

Garant GREENPLUS

So-called R and S phrases describe special hazards (risk phrases) that may arise from hazardous substances or preparations, or safety advice (safety phrases) for the hazardous substance.
They constitute practical **instructions for avoiding hazards when handling** hazardous substances, and measures to take if the substance is released. They also provide information on **how to cope with the effects of an accident** and how to administer first aid.

Comply with regulations
Avoid possible sanctions, e.g. for exceeding workplace limit values.

No hazardous chemicals
No need to justify yourself to auditors regarding the use of hazardous chemicals.

Simple storage & logistics
No need to store them in hazardous substance cabinets.

Save money
Thanks to lower disposal costs.

Protect the environment
Fewer pollutants = less environmental pollution.

Garant

Anaerobic adhesives without hazard labels

Note:	Clean the material to be machined in advance with cleaner without hazard labels No. 088004.

Surface sealants

Sealant that cures when applied as a hermetic seal between close-fitting metal surfaces.

08 8067 – Type **5GP74.** For sealing flanges and surfaces. Quick-curing, slightly flexible sealant film.

08 8068 – Type **5GP73.** Medium-strength thixotropic surface seal for sealing metallic threaded parts. Sealing of covers, flanges and surfaces. Quick-curing, slightly flexible sealant film.

Joint connection agents

When using joining as a production technique, two or more components are connected through positive contact. When using the adhesive, the full jointing face is used to establish a solid connection. It allows for high force transfer and dynamic loads (high shear strength).

08 8069 – Type **6GP38.** Quick-curing universal product with very high strength for static shear stresses and dynamic loads. For fixing gears, pulleys, rotor/shaft connections on electric motors.

08 8070 – Type **6GP48.** Quick-curing heat-resistant product for fixing cylindrical joint connections, such as cylinder liners in engine blocks. Also suitable for fixing bearings in heating furnaces.

08 8071 – Type **6GP60.** For repair of worn areas and restoring correct fits. Large gap size suitable. Cured product can be machined by drilling, milling or grinding.

Threadlocking

The use of thread-lockers prevents the screw fastenings from accidentally releasing and coming undone. The single-component anaerobic adhesives are suitable for all thread types and forms. Screw fastenings are sealed. Seizing is reliably prevented.

Application: **Low strength** – can be undone with normal tools.
Medium strength – can still be undone with normal tools.
High strength – Can be undone only with special tools or by heating (>150 °C).

Size 222 – Low-strength, permits easy disassembly, suitable for all metals and passive materials.
Size 243 – Medium-strength, performs screw locking and sealing at the same time.
Size 270 – High-strength, for permanent screw fastenings, liquid.
Size 2701 – Ideal for use on passive surfaces such as high-alloy CrNi steels.
Size 290 – For small screws up to M6 and for locking screws after insertion.
Size 32-18 – Low-strength, easy disassembly, for all metals, carries no hazard labels.
Size 55-03 – Medium-strength, for use as screw locking and thread sealing up to 200 °C, also the passive materials, carries no hazard labels.
Size 70-14 – High-strength, for small screws up to M5 or for locking screw fastenings after they are made.
Size 83-05 – High-strength, for passive materials such high-alloy CrNi steels, for use also in thread sealing and making joints.
Size 83-54 – High-strength, for permanent screw fastenings up to 200 °C temperature range.

Sealants for metals

These sealants replace hemp, sealing tapes, and pastes, they are resistant to gases, liquids, air, water, oils, hydrocarbons and many chemical products. **Complete surface contact** ensures a **100% seal.** Unscrewing, or correction of position during assembly can be performed using conventional tools at any time before the sealant hardens. No sealant residues to block filters and valves.

Thread sealants

08 3312 – Non-curing thread yarn, seals instantly, DVGW / KTW, WRC-approved.
08 3319 Size GOLD – Particularly strong, leak-proof, resilient Teflon strip of the highest quality, for all types of threads. Suitable for propane, butane, natural gas, benzene, and fuels. Temperature range –240 to + 260 °C.

Application:

Size 55 – **Thread sealant yarn** for plastics and metal in heating systems and plumbing applications.
Size 511 – Suitable for metal threads up to M80 / R3.
Size 577 – Immediate effect, leak-proof against low forces, suitable for all metals.
Size 542 – **Fine thread sealant for hydraulic and pneumatic systems.**
Size 18-10 – Low-strength resilient pipe and thread sealant with PTFE, up to 2 inch threads.
Size 53-14 – Medium-strength hydraulic and pneumatic sealant, immediately leak-tight at low pressures, **carries no hazard labels**.
Size 58-11 – Medium-strength pipe and thread sealant, NSF-P1 approved, **carries no hazard labels**.
Size 86-55 – High-strength anaerobic thread sealant and adhesive. Slow-curing.

Note: Before applying sealant, clean the threads with general-purpose cleaner No. 083391 and No. 083392.

Joining

Joining products for shaft-hub joints

When using joining as a production technique, two or more components are connected through positive contact. When using the adhesive, the full jointing face is used to establish a solid connection. It allows for high force transfer and dynamic loads (high shear strength).

Application:

Size 648 – Universal jointing product, high temperature resistance. Preferred for bearings, shafts etc.
Size 638 – High durability when subjected to dynamic, axial, and radial loads.
Size 82-33 – High-strength, for small gaps, even where some slight oily contamination is present. Ideal for securing bearings.
Size 83-21 – High-strength, quick-curing, mechanically tough, for bonding in and bonding on bearings, bushes and gear wheels. Viscosity 400 – 600 mPas.
Size 85-21 – High-strength, quick-curing, ideal for bonding in and bonding on bearings, bushes and gear wheels, permits larger production tolerances. Viscosity 2600 – 3400 mPas.

Note: Surfaces should first be treated with general-purpose cleaner No. 083391 and No. 083392.

LOCTITE Cleaner, degreaser and activator spray

Cleaner and degreaser for parts, machines, and surfaces prior to adhesive application.

08 3391 – **Solvent-based (acetone) universal cleaner** for removing paint, resin, and adhesives. Evaporates very quickly.

08 3392 – **Solvent-based universal parts cleaner,** ideal for pre-treatment before application of adhesives and sealants; leaves no residue.

08 3393 – **Activator spray.** For quick hardening of LOCTITE® products, even at low temperatures.

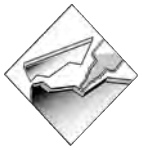
Instant adhesives

Note:	Not available in all countries. Express delivery not available.



08 3351_401 08 3352_401

Universally applicable for bonding dissimilar materials. Quick curing and clean, nearly invisible joints. Hardens by atmospheric humidity.

Application:

Size 401 – Universal instant adhesive for virtually all materials such as plastics, elastomers, metals, preferably for **paper, cardboard, wood, leather** and **fabrics.**

Size 454 – Universal instant adhesive **gel.** Suitable for **virtually all materials.** Non-drip, ideal for applications on vertical surfaces or overhead.

Size 480 – Black high-impact instant adhesive for bonding metal to metal and **metal to rubber.** Best resistance to shear and impact stresses, and to moisture.

Size 496 – Universal instant adhesive for nearly all materials. Very suitable for **metals.** In comparison to size 401 slightly higher strength but less temperature stability.

Which sealant for which area of application?	
08 3482/84	For virtually all materials such as metal, building materials, most plastics, wood, glass, enamels.
08 3487	All-round silicone, suitable for many applications, including natural stone.
08 3490	Especially for sanitary work and use outdoors. Equipped with fungicide.
08 3493/95	For boilers, central heating units, dryers, ideal as a deformable seal on motors, gearboxes.

Cartridge guns

08 3501 – Heavy-duty version with more powerful drive, stepless feed, and **patented non-drip function** (prevents dripping by pressure release). For 290 ml and 310 ml cartridges (e. g. No. 083482 – 083495).

08 3504/3508 – Innovative version with 2 sliding blocks enables twice as much force to be transferred from the squeeze grip to the push rod. For 290 ml and 310 ml cartridges (e.g. 083482 – 083495).

08 3501/04/08

tesa® Flat crepe and masking tapes

08 3645 – The **tesakrepp® 4329** is a finely creped thin paper masking tape. The product is thin and flexible, has good wet abrasion resistance and good paint and filler adhesion to the adhesive tape carrier. Furthermore, it is also suitable for general masking at a temperature load of up to 70°C.

08 3648 – The **tesa Präzisionsskrepp® 4334** consists of an extremely thin and tear-resistant paper backing, with an acrylate adhesive.
The product is suitable for many painting applications up to 6 months indoors and up to 8 weeks outdoors which require flat, precise painting which is sharp right to the edge. It can be used on a wide variety of sensitive surfaces such as glass, aluminium, HPVC and wood.

Garant Refillable compressed-air can

Refillable and sustainable aluminium compressed-air can suitable for **acetone-free liquids such as cleaners, rust protection agents and rust removers**. Can be refilled with air pressure via a universal valve shaft. Has a **safety valve** to prevent excessive pressure.
2 spray nozzles, can be set in two positions for a targeted jet or spray mist.
Attention: Do not use with strong chemical, corrosive or highly viscous liquids.

SAMOA Compressed air lubrication device

Mobile compressed air lubrication unit with trolley for economic and reliable delivery of long-term greases. High delivery quantity, due to transmission ratio 1: 55, together with large diameter suction port and security lubrication hose. Suitable for oils and greases up to consistency class 2, including bio-greases (general-purpose greases).

Supplied with: Grease follower cover, steel dust protection cover, high-pressure grease guns and 4m hose.

Note:	The lubrication system is self-lubricating and requires no additional pipe lubricators. The use of a pressure reducer with water separator is recommended.

Automatic clutch pencil

08 5012 – Deep hole marker with a thin, **extra long tip (45 mm) for inaccessible places**. Tip, body and retainer clip are made of metal and therefore very sturdy. **Integral lead sharpener** permits drawing continuous and precise lines. Easily replaceable leads.

08 5016 – edding 8880 – deep-hole construction pencil with robust aluminium barrel, long nib (42 mm), precise markings, reaches even hard-to-reach areas thanks to long nib (42 mm) and is refillable. Equipped with integrated sharpener in the holster.

08 5017 – Refill leads for edding 8880 deep-hole construction pencil (No. 085017 size 8702112).

The edding 8881 refill leads can be easily replaced by unscrewing the push button at the rear end of the edding 8880 deep-hole construction pencil.

Size 8702999 – Set of 6 leads, sorted by colour. For precise markings on rough and smooth surfaces such as wood, plastic, cardboard, metal and tiles. The replaceable lead has a diameter of 2.8 mm. Set contains 2 graphite leads, 2 red and 2 yellow leads (wax-based). Yellow and red leads (wax-based texture) are ideal for very smooth and dark surfaces. Waterproof (except on glass). Light-fast. Store leads at a maximum of 40°C.

Size 8702112 – Set of 6 graphite leads. For precise markings on rough and smooth surfaces such as wood, plastic, cardboard, metal and tiles. The replaceable lead has a diameter of 2.8 mm. Can be removed from smooth surfaces. Light-fast. Store leads at a maximum of 40°C.

08 5012

08 5016

Application:

08 5012 – For marking deep-lying surfaces and in attachment holes. Suitable for steel, iron, stone, tiles, ceramics, glass, and plastic.

Size 096263 – Yellow and red suitable for dusty, rough, smooth, greasy, damp, and dark surfaces.

08 5016 – For marking deep-lying surfaces and in attachment holes on almost all materials like wood, metal, plastic, tiles and cardboard.

08 5013_096263

Supplied with:

Size 096260 – Deep hole marker Trades-Marker-Dry with 1 piece graphite lead.

Size 096263; 8702999 – 2 graphite leads, 2 red leads, 2 yellow leads.

Size 096262 – 6 graphite leads.

Size 096265 – 6 red leads.

Size 096266 – 6 yellow leads.

Size 8700112 – 2 graphite leads, 2 red leads, 2 yellow leads.

Size 8702112 – ■ 6 graphite leads

Permanent paint markers

08 5159 – The quick-drying abrasion-resistant durable paint permits immediate further processing and thus **reduces unproductive waiting time**. Furthermore the paint is **free of xylol** and thus reduces the health risks.
08 5168 – Extra fine tips. Line thickness approx. 0.8 mm.
08 5171 – Quick-drying, water-based **Paint-Riter™** paint marker for long-lasting, wear-resistant and weather-resistant markings. Low VOC and low odour.
08 5160–5169 – **Odourless paint,** round tip. Resistant to UV and water.
08 5160–5169 – For marking widths 2 – 4 mm.

Application:

08 5159 – The marking is heat resistant up to 100 °C (212 °F).
08 5160 – For writing on and marking all clean surfaces.
08 5162 – Ideal for marking on oily, coated and cold surfaces. "IMDS registered".
08 5165 – Ideal for use on stainless steel or superalloys. Low chloride and halogen values in the lacquer.
08 5169 – Quick-drying paint for temperatures up to 1000 °C.
08 5167/5168 – High-coverage markings on dark and smooth surfaces with a solvent-resistant and heat-resistant ink. Heat resistant up to 400°C (white up to 1000°C).

Thread locking marker

Maximum visibility **security lacquer** for quick and easy visual checking during safety inspections or changes to original settings. Facilitates recognition of any adjustment movements. **Temperature-resistant up to 200 °C.**
Extension tip: The handy 4 steps allow the tip to be easily extended to the desired length to achieve the desired marking line width. Easy to use, simply screw the tip on to the head of the tube. The extension tip extends the tube tip by 3 cm for effortless marking in places where access is difficult.

Application: Outstanding adhesion to a wide variety of surfaces. Ideal for use on connectors, pins, nuts and assemblies after they have been set to the correct tension or position.

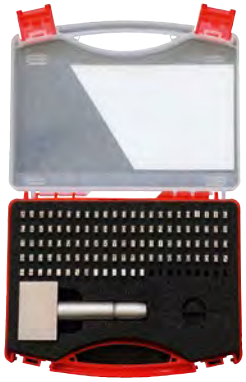
PRYOR Interchangeable number and letter punch set with type holder



High precision punch holder for quick and efficient marking with **several letters and numbers at the same time.**

Application: For punching into materials (e.g. identification plates, tools, machine parts etc.) with **strengths up to 1200 N/mm².**

Supplied with:
100 stamp types
12 spacers (font height 5 mm: 6 pieces)
1 pair of tweezers
1 hexagon L-wrench
1 holder
in a plastic box.

Spare part: Individual type punches can be ordered under No. 085481 stating the desired font size / type (e. g. No. 085481 size 3/E).

Electrical engraving pencil

Plastic housing moulded to the shape of the hand, electrical drive on the oscillating armature principle (230 Volt, 50/60 Hz); double insulated and maintenance-free. The stroke length (impact force) can be steplessly adjusted and exactly set up to a maximum of 3 mm.

Application: For neat freehand marking and identification, as well as engraving all types of metal, max. HR60, glass, plastic, stone, wood, leather etc.

Supplied with: Includes
1 diamond stylus No. 085705, 1 carbide stylus No. 085706, 2 modelling points, 1 adapter for points, 1 plastic wallet.

Note:	Accessories available on request.

08 5701

08U	**08 5701**	MARKAL Electrical engraving pencil	–

Mini engraving tool

For simple engraving on many different surfaces, such as metal, glass, ceramic.

Supplied with: Case, 2 AAA (LR3) batteries, L-wrench.

DYMO Desk label printer LabelWriter

Size LW550 – **Easy to use** desk unit for **quick** (62 labels per minute) and **uncomplicated creation** of address, dispatch, file, name, CD/DVD, and many other labels. Pin-sharp **direct thermal printing**. Resolution 300×300 dpi.

- For labels up to maximum of 61 mm in width.
- Compatible with **PC and Mac, USB port,** can print address labels directly from Office programs.
- Printing and generating all popular **barcodes and QR codes,** special characters and graphics files with **300 dpi resolution.**

Supplied with: With mains adapter, USB cable, software CD, starter roll of labels 28×89 mm.

DYMO Labelling machines / tape cartridges

Robust portable labelling machines for fast and simple production of self-adhesive plastic labels. Permanent thermal transfer printing. Adjustable tape advance and reverse. Power supply from rechargeable **Li-ion battery**, mains charger. Simple text generation with quick-access buttons.

Size LM280 – Standard LabelManager™ 280 for office and home use with additional editing facilities on PC / Mac via USB port.

Size LM420P – Slim-line printer with **ABC keyboard** and large 4-line display with background lighting and print preview. USB port.

Size LM640CB – **With full-colour touch screen**, also prints graphics, barcodes and logos with 300 dpi resolution. **USB-C interface and Bluetooth.**

Size 4200; 5200 – **Robust industrial label printer** for easy labelling of cables, control panels, shelves etc. **Direct access buttons** for frequently-used electro-technical symbols.

Supplied with:

Size LM640CB –
- LabelManager™ labelling device
- 1 pc. D1 standard lettering tape
- rechargeable battery
- USB-C cable (USB-C to USB-C)
- Quick guide

Size 4200 – **Without battery and mains adapter.**

FLYMARKER® CNC needle markers

Hand marking system

For permanent identification / marking / lettering of batch and series production parts of different materials (steel, stainless steel, aluminium, copper, brass, plastics, tool steel, hardened steels up to 62 HRC, etc.).

- Powerful electro-magnetic marking needle drive.
- Simple, intuitive software with password protection and redesigned parameter display for a quick look into each program line.
- Large 4.3-inch colour display.
- Latest processor technology for smooth menu navigation and a very short start-up time (boot time).
- 1:1 preview of the marking field in the display.
- Casing made of break-proof and glass fibre-reinforced plastic.
- Interfaces: USB-A, USB-B and Ethernet.
- Font: Dot matrix in a 5×7 or 9×13 grid, font height 1.0 – 10.0 mm and larger.
- High-quality double linear guides for precise marking results.
- Round parts can be marked radially and axially, and also in an arc of a circle.

Extremely handy 100% mobile **cordless manual marking system** with touch user interface and large 4.3 inch colour display.

Supplied with: Including tool kit, solid carbide marking needle 90°. Adjustment bracket with non-slip coating, setting gauge, and carrying case, **2 pcs. 18 V Li-ion batteries**, charger.

Note: Fonts for character heights greater than 10.0 mm on request.

HOLEX Strong magnet, AlCo Max

- Strong, bridge-shaped magnet.
- With hole for fixing the magnet. (sizes 35 and 41 with 2 holes).
- Magnetic material temperature-resistant up to maximum 550 °C.

Application: For holding, lifting or sorting small iron parts or for installation in electrical relays, measuring instruments etc.

Remove the keeper plate before use.

Bohle Suction lifter

08 6200 – Bridge handle for one-hand operation, for quick and efficient work.
08 6201 – Veribor® **2-head plastic suction lifter**. Improved grip area made of non-slip rubber prevents slipping of the hand when carrying. With proven toggle lever technology.
08 6202 – Veribor® **pump suction lifter** made of plastic. Integrated pump tappet for quick and easy operation. With vacuum safety display with yellow ring on the pump tappet.
08 6203 – With proven toggle lever technology.
08 6200/6203 – Veribor® suction lifter made from sturdy aluminium, with rubber vacuum cups for a long working life.

Application: For lifting materials with smooth, grease-free, and air-tight surface finishes.

Note:
08 6200/6203 – Suction lifter should be released for storage, so that the rubber cups do not deform permanently.

Girder clamp and sheet metal clamp

Girder clamp for attaching to T-girders or H-profile girders.
Approved for the **transport of personnel**.
Girder clamps act as the **attachment point** for hoists, diverter rollers or work platforms.

08 6026

Load capacity	t	1	2
A80 08 6026	Tractel CORSO™ girder clamp	eShop	eShop
Manufacturer's designation		LT-1B	LT-2B
Weight	kg	4.8	5.6

The clamp is opened and closed using the locking lever.
The safety lock prevents the clamp from slipping from the material being transported, even without pulling load.

Application: For the vertical transport of individual sheet metals and switching panels, profiles, and steel constructions.

Note: **The surface hardness of the material being transported must be less than HRC 30! The weight of the load to be lifted must not be less than 10 % of the given lifting capacity.** Further sizes and types on request.

Lashing straps, load straps, and securing straps, EN 1492, 12195

Lashing straps, load straps, and securing straps

08 6105/6205 – Specially designed friction lock to prevent slipping; wide opening and high clamping force.

08 6120/6220 – Extra-strong low-stretch polyester straps with durable PU coating (EN 12195-2). Strong, corrosion–resistant ratchet and end hooks, easy to use.

Application: For **lashing down, securing**, and **holding together** components in the workshop and during transport.

Note: Lashing straps are not colour-coded. Colours may vary.

Round slings, lifting straps and accessories

Lifting slings

Extremely hard wearing lifting slings (Euro-slings EN 1492-1 to form B2).
With reinforced spliced (crane) loops at the two free ends.
Application: For lifting large parts, easy to attach and to release the load.

08 6170

Round slings / lifting slings

Extremely wear-resistant round lifting slings (EN 1492-2) with seamless, single-layer sleeving.
Application: For lifting and transporting components.

Note: Available up to the following lift ratings: 150 t (polyester), 180 t (Dyneema).

Screw-on attachment eye to EN 1677-1, quality class 8

Compact, high-strength steel Quick Lift DSR attachment eye for screwing in. Rotates 360°, pivots 180°. Time saving of up to 80% compared with screwing in a traditional attachment eye (DSR vs. Quick Lift DSR). **Can be rotated under load.** Easy to use as the system is purely mechanical. Maintenance-free, safe and reliable. The Quick Lift DSR can be fastened in the internal thread in seconds by pressing in the screw head. This is a purely mechanical process based on actuating a spring.

Note: **SF 5:1 = Safety Factor 5.**

ECLIPSE MAGNETICS Manually operated Neodymium permanent magnets for lifting

Compact, robust design with neodymium permanent magnets.
Optimum performance even with large air gaps, no stray fields.
Certified break-away force (see **test certificate**).
Easy-action operating handle with safety catch for the switch mechanism.
The lifting magnets have a safety factor of 3:1.

Application: For safe handling and transporting of flat and round materials (No. 085980).
For steel or cast iron parts, plates, rods or pipes.
For use in warehouses, foundries / steelworks, storage of steel, tool-making, and production areas.

EFFBE Machine supports, machine mounts

Anti-vibration systems for machines. The decoupling of machines and equipment, which are sensitive to vibration, improves process reliability and accuracy.
The inserted elastomers damp body noise, vibration and impacts, and ensure optimum production results with reduced noise levels.
All mounts are easy to fit and have levelling adjustment.
Levelling pad, holds a set level, with **non-slip coating**.
Adjustment is performed with a wedge actuated by a fine pitch adjusting screw.

Application: For machines without fastening possibility and for machines which require specially stiff mounting.

Note: Machine mounts can be found under No. 086002 – No. 086006.
For higher loads and special applications further mounts are available on request.
Screw-through levelling pads available on request.

Yale Hydraulic range 700 bar

All components and attachments satisfy **metric standard ranges**, which considerably simplifies assembly, service, and the procurement of spare parts. **100 % compatibility** with all commercially-available 700 bar hydraulic systems.

Note:	**Closed systems are pre-mounted ex works, filled and air bled.**

Suitable accessories under No. 08 6070, 08 6080 onwards in the online shop.

Hydraulic hand pumps 700 bar

2-stage hand pump **with rapid movement setting** (except size 1/0.7). The switch from first to second stage is performed automatically. **With pressure limiting valves adjustable in the range 0 – 700 bar. All-metal construction** with fine-adjustment release valve, bleeding and filling screw and a carrying eye on the operating handle.

Supplied with: Filled with oil, without manometer.

Universal cylinder, single acting, with spring return

Universal cylinders are characterised by extremely **good side load capability,** they are fitted with spring return and have only one hose connection.

Application: For all compression operations where high force has to be developed in a confined space. Ideal for use in jigs and workshop presses thanks to the fitting of metric threaded securing points as standard. **Can be used at any angle.**

Supplied with: Supplied with 3/8 NPT pressure connection. Equipment is supplied ready to use, including connection sleeve, hardened steel load piece (head) and securing thread **without** connection hoses and adaptors.

Note:	For hydraulic hand pump see No. 086050, hydraulic hose No. 086081, pressure gauge No. 086087.

Hollow piston cylinder, single acting, with spring return

Due to their **central through hole**, these cylinders are suitable for applications where a high tensile force has to be exerted via a **threaded spindle**, quick-release connection.

Application: **Pre-loading** of anchor fastenings, **pressing bearings, axles, and shafts in and out**, **pulling off** gear wheels and pulleys, and pulling or moving heavy fabrications.

Supplied with: Supplied with 3/8 NPT pressure connection. Equipment is supplied ready to use, including connection sleeve, hardened steel load piece (head) and securing thread **without** connection hoses and adaptors.

Note:	Hydraulic hand pump see No. 086050,hydraulic hose No. 086081.

GECHTER Hand lever toggle presses

Sturdy, hollow cast body with large base. Base with 4 holes for attachment to workbench etc.
The press tool carriage runs without play on dovetail guides and is adjustable for height.
Additionally the press stroke (ram stroke) can also be set by an adjusting screw to give the desired vertical lift.
The table has a 10 mm T-slot for attaching clamps.

Size 12; 16 – The lever bolt can be moved to give varying forces and different stroke lengths (see table).

Colour: Light grey RAL 7035.

Application: For embossing, riveting, upsetting, and punching as well as for bending, compressing, and pressing in bushes etc.

Note: Hand lever presses with air support available in the online shop under No. 086761.

GECHTER Travel stop for hand lever toggle presses

Travel stop for quick and easy fitting to hand lever toggle presses (No. 086760).

Application: Where exact embossing, bending, riveting, and cutting work is required, the travel stop ensures that the press ram reaches precisely the bottom of its stroke (i.e. the operator knows they have to push the ram through to the stop).

- **Process and quality monitoring.**
- **Minimises operator error.**

A travel stop is fitted to the press

Garant Professional cleaning and polishing cloths

The professional cleaning cloths are the ideal solution for demanding cleaning tasks in industry and trades.
Thanks to their fine, highly absorbent fibres, they remove dirt, oil and grease effortlessly without damaging sensitive surfaces.
They enable thorough cleaning with minimal use of chemicals, reduce water consumption and are long-lasting.
Ideal for stubborn dirt.

- Polyester and polyamide material.
- Washable at up to 60°C.
- Dimensions 400×400 mm.

Size BLUE – The **GARANT GreenPlus professional cleaning cloth** is ideal for professional use in industry and trades.
The cleaning cloth for industrial cleaning is a more sustainable option as it is made from **82% recycled polyester.**
It provides a powerful solution for the efficient removal of coarse dirt and stubborn impurities such as **oils, greases and resinous lubricants** and is **suitable for all surfaces.**

Size GREY – The **GARANT professional polishing cloth** is **universally applicable** and is the ideal choice for demanding cleaning tasks in industrial and trade areas. Thanks to its dense fabric, it easily absorbs **moisture, dirt, oils and greases** and ensures **thorough, streak-free cleaning on all surfaces.**
Its **high absorbency and durability** make it a reliable aid in production facilities and workshops.

3M High performance cleaning and polishing cloths

With **patented polyester and nylon fibre combination**.
The grease and dirt absorption is up to 100 times higher than with conventional cleaning cloths.
Washable at up to 95 °C; size 360×360 mm; can be used with and without cleaning chemicals.
Suitable for dry, moist or wet cleaning.

Application:

Size BLUE – Extremely economical cleaning of all surfaces.
Ideal for optical equipment and for intermediate cleaning of ground surfaces.

Size YELLOW – For **cleaning and polishing work** on all surfaces such as chromium, stainless steel, plastic, glass etc. Very high liquid absorbency.
Ideal for varnished surfaces. Leaves polished surfaces free of lint and streaks, without creating micro-scratches on the surface.

Wipes and cleaning cloths

Wide range of special wipes for wiping and cleaning. Each wipe has been designed for a specific task.
With the appropriate hygienic dispenser, you obtain an efficient system.

Wiping

Using the correct wiping cloth will enable you to mop up leaked or spilled liquids much more efficiently and effectively and wipe away dirt and dust. Your hands are protected against contamination and heat.
Wiping cloths available as a roll or as individual cloths.
Discover the wide range of Tork products, designed to make your work environment cleaner, safer and more efficient. All Tork wiping cloths are FSC- and EU Ecolabel-certified.

Scouring and cleaning cloth

The Tork 2-in-1 scouring and cleaning cloth is an abrasive and absorbent wiping cloth that was developed for efficient cleaning. It removes dirt that is difficult to clean and does not scratch surfaces.
The wiping cloth can be rinsed and reused and is compatible with common cleaning agents.

Kimberly-Clark® wipes and cleaning cloths

08 9241

08 9241/9240/9241 – Safe, simple and reliable: the **Wettask™** bucket enables more efficient removal of wipes and can be filled with the cleaner and solvent of your choice. The Wettask™ wiping system gives you wipes that are soaked with the desired amount of liquid. As a closed system, the Wettask™ bucket ensures fewer VOC emissions are emitted and enables a reduction in solvent consumption by at least 20%. It can also be stacked to save space.

08 9240 – Wettask™ dispenser system with first-class protection **for processes in ESD-sensitive areas and potentially explosive areas.**

08 9241 – **Wettask™ dispenser system** for cleaning cloths, perfect for industrial and medical environments.

08 9242 – **Kimtech™ Pure™ cleaning cloths** are powerful wipes, which are suitable for use in cleanrooms of ISO class 4 and higher. They are **perfect for dry wiping critical devices and surfaces** in a wide variety of industries. Low-lint and high absorbency for sensitive applications and surfaces.

08 9244 – Kimtech™ lab wipe for cleaning delicate glass equipment, instruments and surfaces.

08 9245 – Kimtech™ precision wipe for cleaning electronic components, contacts and optical lenses.

08 9292 – WypAll® Wettask™ wiping cloth for solvents for low-lint, powerful cleaning.

08 9299 – WypAll® wiping cloth is perfect for high traffic areas. Compatible with the Wettask™ dispensing system and any cleaning agent, solvent or chemical of your choice.

Brush ... 416 - 430, 1191
Brush (lubricating) ... 1159
Bucket ... 1194, 1199
Burnishing machine ... 1047
Burnishing tool ... 349 - 350
Burr (carbide) ... 320 - 330
Burr (HSS) ... 322 - 328, 331
Burr accessories ... 327, 331
Burr set ... 327, 329 - 330
Button magnet ... 1176

C

Cabinet (support) ... 93, 95, 257
Cable (power) ... 1099
Cable channel shears ... 839
Cable cutter ... 797, 801 - 806
Cable drum ... 1096 - 1099

Cable knife fixed 894
Cable knife folding 894
Cable laying (insertion strip) ..... 869 - 870
Cable reel 870, 1098
Cable stripping knife ..... 781 - 782, 797
Cable stripping tool ..... 779 - 782, 797
Cable suspension 1099
Cable suspension system 1099
Cable tie 1152
Calibration / calibration service for measuring tools ..... 22 - 28
Calibration film 287
Calibration inspection ..... 22 - 28
Calibration sphere 260
Calibration standard 260
Caliper (accessories) 35
Caliper set 48
Calliper ..... 30 - 49
Camera for endoscope 266
Can discharge valve ..... 1128 - 1129
Canister decanting aid ..... 1128 - 1129
Carbide burr ..... 320 - 330
Carbide drill for drilling plastic 859
Carbide multi-purpose drill 850
Carbon caliper 47
Carbon fibre tweezers 777
Carpenter's bevel edge chisel ..... 857 - 858
Carpenter's hammer 819
Carpenter's mallet 857
Carpenter's roofing hammer 819
Carpenter's square 161
Carpet (absorption agent) 1161
Carpet adhesive tape ..... 1150 - 1151
Cartridge gun 1146
Cartridge gun (accessories) 1146
Cartridge gun (compressed air) 1146
Cartridges gun 1146
CAS system 1106
Cast iron grinding point 334
CBN grinding disc 457
CBN grinding point ..... 338 - 339
C-clamp 922
Ceiling brace 918
Centre drill 449
Centre handle for screwdriver (cordless) 1008
Centre punch ..... 811 - 812, 814 - 815
Centre punch adjustable 815
Centre punch automatic 815
Centre punches ..... 811 - 812, 814 - 815
Centre reaction piece 933
Centring square 159
Ceramic grinding wheel ..... 450 - 452, 454 - 455
Ceramic grit grinding disc 353
Ceramic paste 1133
Ceramic scraper 886
Chain clamp 750
Chain clamp for pipes 926
Chain hook 1184
Chain pipe wrench 864
Chain pull 1181
Chalk 1163
Chalk holder 1163
Chalk line 185
Chamfer caliper 49
Chamfer gauge 126
Chamfering machine 1028
Charger ..... 845, 1063 - 1066
Charger (battery) ..... 1063 - 1065, 1067, 1106, 1122
Checking plate 91, 95
Checking ring ..... 122, 234 - 235
Checking vice 260
Chip basket (wet / dry vacuum cleaner) ..... 1070 - 1071
Chisel ..... 809 - 811, 856
Chisel and taper pin punch set ..... 811, 974 - 975, 989
Chisel bit for nut splitters 937
Chisel for chisel hammer (pneumatic) 1084
Chisel for impact drill 856
Chisel hammer (pneumatic) 1084
C-hook/pin spanner ..... 512 - 514
Circlip pliers set ..... 968 - 969
Circular saw (cordless) ..... 1052 - 1054
Circular saw (electric) 1053
Circular saw (metal) electric 1055
Circular saw blade ..... 437 - 439
Circular wire brush ..... 416 - 417, 421 - 423, 425
Circumference tape measure 171, 173
Clamp ..... 915 - 925
Clamp (all-steel) ..... 919 - 921
Clamp (magnesium) 920
Clamp (spring) 918
Clamp attachment (steel clamps) 925
Clamping device 1180
Clamping flange 394
Clamping nut for measuring probe 80
Clamping pliers ..... 747 - 750

Clamping system for measuring machines 261
Claw beam clamp 922
Claw retriever 1123
Cleaners (chemical) ..... 1128, 1132 - 1133, 1136, 1143
Cleaning (accessories) 1136, 1153
Cleaning (paper) ..... 1194 - 1197, 1199
Cleaning brush 428, 1159
Cleaning cloth (moist) 1195, 1197, 1199
Cleaning device ..... 1067 - 1069, 1071 - 1073, 1130 - 1131
Cleaning fleece 348
Cleaning grinding wheel ..... 355 - 357, 402 - 403
Cleaning kit for probe 264
Cleaning medium 1129
Cleaning tool pick set 779
Cleaning wipe ..... 1194 - 1197, 1199
Clearance angle grinding gauge 218
Clinometer (analogue) 184
Clinometer (digital) ..... 184 - 185
Clip retainer strip for sockets 525, 553, 576
Club hammer 818
Clutch for pneumatic tool ..... 1090 - 1091, 1095
Coarse cleaning brush 400
Co-axial cable stripper ..... 779 - 782, 797
Coiled hose ..... 1086 - 1087
Cold light source 249
Collection box for blades 905
Collet for straight grinder 1042
Coloured crayon ..... 1162 - 1166
Coloured powder for the snap line 185
Combination hammer 825
Combination machine tap bit 685
Combination padlock ..... 1172 - 1173
Combination profile blade (screwdriver) ..... 658 - 659, 662, 668
Combination spanner ..... 469 - 475, 828
Combination spanner set ..... 470 - 475, 945 - 947, 986
Combi screwdriver 659
Compact scales 214
Component adhesive 1143
Composition hammer 827
Compressed air gun ..... 1092 - 1094
Compressed air gun (accessories) ..... 1092 - 1094, 1096
Compressor 1085
Concrete drill 848
Connection (rivet) 847
Connection piece / quick-release coupling ..... 582, 584, 589, 591 - 592
Connector 1106
Connector pliers 741, 864
Construction tools 1190
Contact cleaner 1132
Contact file 308
Contact point (inductive) ..... 118 - 119
Contact point set 151
Contact spray 1135
Continuity and semiconductor tester ..... 191, 195 - 196
Continuity tester ..... 191, 195 - 196
Contour measuring gauge 125, 281
Control panel 255
Control panel key ..... 487 - 488
Control plate support frame 95
Converter hex to square 581
Conveyor 1159
Cooling spray 1135
Coordinate measuring device (accessories) 264
Copper hammer 818, 824
Copper paste 1133
Cord (plumb-line) 185
Cordless drill/driver ..... 997, 1000 - 1006, 1009, 1013
Cordless pop riveter ..... 843 - 845
Cordless screwdriver ..... 997, 1000 - 1006, 1009, 1013
Core drilling machine ..... 1021 - 1024
Corner drilling machine 1015
Corner pipe wrench ..... 862 - 863
Corrosion protection oil ..... 374, 1133 - 1136
Counting scales 215
Coupler 286
Coupling adapter for pneumatic tool ..... 1090 - 1091
Coupling for pneumatic tool ..... 1090 - 1091, 1095
Covering film 1192
Crane scales 213
Crank (socket) 567
Crank pin level 182
Crepe tape 1147, 1149
Crevice nozzle (wet / dry vacuum cleaner) 1070
Crimping tool ..... 787 - 792, 794, 798
Crimping tool / containers set 970
Crimping tool for coaxial plugs 798
Crimp set ..... 793 - 794
Cross-cut chisel 809
Cross-cut saw ..... 435 - 436
Cross-head screwdriver ..... 654 - 663
Crossing file 311
Cross joint 540, 548, 568, 578
Crowfoot hammer 819
Crowfoot spanner 467

Crowfoot wrench 467
CRP/GRP cutting disc 387
Cubitron (fibre disc) 397
Cubitron grinding disc 353
Cup brush .....420 - 421, 425
Cup grinding wheel 345, 381
Cup grinding wheel (CBN) 459
Cup grinding wheel (ceramic) 457
Cup grinding wheel (diamond) 459
Cupped flap wheel 345
Current clamp .....195 - 197
Curved blade tin snips 831
Cutter .....801 - 805
Cutter (bolt) .....767, 806 - 808
Cutter (end) 762
Cutter (grid mesh) 808
Cutter (oblique/ end) .....773 - 774
Cutter (pipe) .....871 - 876
Cutter (side) .....746, 763 - 773, 788
Cutter (wire cable) 806
Cutter knife .....901 - 902, 904 - 911
Cutter tools .....893, 895 - 900
Cutting disc .....388 - 389
Cutting guide 902
Cutting-off wheel .....381 - 388, 453, 456
Cylindrical magnet 1175

D

Data cable .....290, 294 - 295
Data transmission unit .....289 - 290
Deburrer .....887 - 892, 976 - 977, 979, 989
Deburrer (accessories) .....887 - 891
Deburrer assortment .....888 - 889, 891 - 893
Deburrer blade .....887 - 891
Deburrer cutting blade 891
Deburrer cutting disc 891
Deburrer head 890
Deburrer shank .....887 - 888, 890 - 891
Deburring and chamfering machine (cordless) 1028
Deburring countersink (manual) 686
Deburring countersink bit (manual) 686
Deburring disc 415
Deburring file 306, 376
Deburring machine 1028
Deburring round brush 418
Deburring stone 376
Deburring tool 388
Deep hole marker 1162, 1164
Degreaser 1132
Demagnetiser 646
Depth gauge 50, 110
Depth gauge (digital) .....51 - 55
Depth gauge additional base .....51 - 52
Depth gauge base 36, 55
Depth gauge measuring insert .....51, 54 - 55
Depth micrometer 75
Designation .....261, 1162 - 1166, 1171
Desk computer 290
Desktop label printer 1169
Diagonal side cutter .....746, 763 - 773, 788
Dial caliper 31
Dial gauge snap gauge .....74 - 75
Dial indicator .....95 - 99, 107, 109 - 112
Dial indicator (absolute) 101, 106
Dial indicator (digital) .....100 - 108
Dial indicator (large) 97
Dial indicator (precision) 99
Dial indicator (small) 98
Dial indicator (wireless) 105
Dial indicator anticlockwise 110
Dial indicator holder .....110 - 111
Dial indicator impact resistant .....96 - 98
Dial indicator rear wall (magnetic) 111
Dial indicator special point .....111 - 112
Diameter gauge .....122, 232 - 235
Diamond cutting disc .....388 - 389, 456
Diamond dresser 459, 461
Diamond file .....315 - 316
Diamond file (flexible) 317
Diamond grinding point .....338 - 339
Diamond grinding wheel 458
Diamond roughing disc 388
Diamond whetstone 377
Diemaker's square 156
Digital current clamp .....195 - 197
Digital protractor 183
Disc micrometer 67, 70
Dispenser (cleaning agent) - accessories 1195, 1199
Display unit (digital) 273
Distance meter .....173 - 174
Distance meter (laser) .....173 - 174
Distribution socket 1100
Distributor for pneumatic tool 1090
Distributor socket (compressed air) .....1095 - 1096

Divider ... 162
Dividers ... 152, 161 - 162
Dividing material for tool cases ... 712, 727 - 728
Double-ended bench grinding wheel ... 455
Double-ended box spanner ... 482 - 483
Double ended crescent ring spanner ... 479
Double-ended ring spanner ... 476 - 478, 481
Double-ended ring spanner set ... 946 - 947
Double grinding machine ... 1051 - 1052
Double hook depth gauge ... 50
Double open-ended spanner ... 465 - 468, 828
Double open-ended spanner set ... 466 - 467, 944 - 945, 947 - 948, 986
Double ratchet ring spanner ... 476
Double-sided adhesive tape ... 1151
Double Vee block ... 153 - 154
Dovetail saw ... 435
Draw bar pulling force gauge ... 209 - 210
Draw bolt ... 882
Dressing device for grinding wheels ... 461
Dressing stick ... 374, 377, 389, 460
Dressing tool for grinding wheels ... 374, 389, 415, 459 - 461
Drill / driver (accessories) ... 993, 1005
Drill (extension) ... 859
Drill - auger bit ... 858
Drill drift ... 813 - 814
Drill gauge ... 217
Drill - hammer drill ... 851 - 855
Drill - hole cutter ... 851
Drilling (without chips) ... 1128
Drilling machine ... 1014 - 1018, 1021 - 1025
Drilling machine (cordless) ... 1001
Drill - masonry drill ... 848
Drill - multi-purpose drill ... 849 - 850
Drill - plastic / Forstner bit ... 859
Drill stand ... 1017
Drill - subland drill bit ... 685
Drill - wood twist drill ... 859
Dry-cutting circular saw (electric) ... 1055
Duspol (voltage tester) ... 192 - 194
Dust-free grinding ... 408, 410
Dustpan ... 1194
Dynafile belt ... 369 - 370, 372 - 373

E

Edge clamp ... 920
Edge protection (lifting sling) ... 1184
eForm ... 699, 941 - 989
Electrical chain hoist ... 1181
Electrical engraving pencil ... 1169
Electrician's chisel ... 810
Electrician's cleaner ... 1132
Electrician's pliers ... 746, 786 - 787
Electrician's scissors ... 835
Electrician's screwdriver ... 641 - 642, 650 - 651
Electric welder's chipping hammer ... 819
Electronics blade screwdriver ... 644, 649, 661
Electronics pliers ... 740, 768, 775 - 776
Electronics pliers set ... 736, 980
Electronics side cutter ... 768 - 774
Electronics technician's toolkit ... 701
Emergency kit (absorption agent) ... 1161
End cup brush ... 423 - 425
End cutter ... 762
End mill (manually guided) ... 320 - 331
Endoscope ... 249, 265 - 269, 870
Endoscope (accessories) ... 267 - 268, 270
Endoscope camera ... 266
Endoscope fibre optic cable ... 265
Endoscope probe ... 267, 270
Engine block spanner ... 479
Engineer's blue ... 1167
Engineer's file ... 304 - 305
Engineer's hammer ... 816 - 818, 828
Engländer (adjustable spanner) ... 828, 867
Engraving tool ... 1169
ESD hand tool ... 653, 664
Extension (Forstner drill) ... 859
Extension (plug-in head) ... 540, 548, 553, 568, 575, 578, 580
Extension cable ... 1096 - 1100
Extension for measuring instrument ... 80
External blade micrometer ... 67
External cylindrical grinding wheel ... 454
External deburrer ... 889
External micrometer (accessories) ... 66, 69 - 70, 227
External micrometer with dial comparator ... 73
External square key with T-handle ... 487
External tube micrometer ... 57 - 73
Extraction device ... 933
Extractor ... 927 - 934, 936 - 937, 1126 - 1127
Extractor centre protector ... 931
Extractor leg ... 928
Extractor press, hydraulic ... 931
Extractor set ... 927, 929, 932
Extractor spindle, hydraulic ... 927

Extractor spindle screw 927
Eye protection 187

F

Fabric adhesive tape 1147, 1149
Fabric scissors 836
Factory hygiene 1195, 1199
Fall protection 603
Fast dial caliper 127
Feeler gauge .... 219 - 223
Feeler gauge shim strip .... 220 - 223
Felt polishing disc 358, 402, 405, 407, 414
Felt polishing point 337, 347
Fibre disc ....395, 397 - 399
Fibre grinding disc .... 399 - 400
Filament adhesive tape 1148
File .... 303 - 317, 427
File brush 430
File handle 309, 317, 427
File holder 309, 317, 427
File set ....303 - 304, 308, 312 - 313, 942 - 943, 989
Fillet weld grinding disc 395
Filling funnel 1155
Film cutter .... 895 - 900
Film strip .... 220 - 223
Filter for pneumatic tool 1085
Fine abrasive disc 407
Fine abrasive tool ....348 - 350, 358
Finishing disc 403
Finishing grinding disc ....358, 396, 401 - 402, 405, 407, 414 - 415
Finishing tool ....348 - 350, 358
Fittings brush 426
Fittings pliers .... 865 - 866
Fittings wrench .... 865 - 866
Five point caliper 49
Flange square 160
Flap wheel .... 344 - 347, 396, 411 - 414
Flap wheel (fleece) .... 346 - 347
Flap wheel brush 345
Flap wheels ....344 - 347, 396
Flap wheel sleeve 342
Flat brush 1191
Flat cold chisel .... 809 - 810
Flat grinding wheel ....450 - 452, 454
Flat magnet ....1174 - 1175
Flatness measurement technology 1167
Flat-nose pliers 751
Flat scraper 884
Flat straight edge 164
Fleece (abrasive and polishing) .... 348, 354 - 355, 360 - 361, 373, 396, 401, 415
Fleece cloth ring .... 349 - 350
Fleece compact disc 354, 396, 401, 415
Fleece disc (abrasive and polishing) .... 349, 355 - 357, 400, 402 - 403
Fleece grinding point 348
Fleece pad .... 360 - 361
Fleece polishing cloth ring 350
Fleece roller ....411 - 414
Flexhone brush 428
Flexible disc .... 383 - 387
Flexi-head ratchet 536, 547, 565
Flex Power (accessories) 1106
Floodlight .... 1102, 1104 - 1106, 1109, 1111, 1116
Floor cleaning 1072
Floor nozzle (wet / dry vacuum cleaner) 1070
Flow drilling 1128
Flow rate sensor for measuring device 206
Fluorescent lamp 1109, 1111
Foamed material knife 911
Foldable box 725
Fold-away knife 894
Folding rule ....175 - 176
Foot switch 290, 292
Foot switch for grinders 1027
Force gauge 212
Forceps .... 747 - 750
Forceps (assembly) 779
Forstner bit 859
Four-pin crimp tool .... 796 - 797
Four-way box spanner 484
Four-wing bit 673
Fret saw blade 434
Front nozzle for wet / dry vacuum cleaner 1070
Funnel 1155

G

Gap gauge 236
Gasket scraper 886
Gas soldering equipment 1124
Gauge ....74 - 75, 122, 124 - 125, 217 - 218, 232 - 240, 796
Gauge block .... 223 - 228
Gauge block (accessories) 227
Gauge holder 125
Gauge strip .... 221 - 223
Gel marker 1163

General purpose scissors ... 836 - 838
General purpose shears ... 835, 839
Girder clamp for load attachment device ... 1179
Glasses (safety) ... 187
Glass scale ... 272
Glass standard ... 260
Glue ... 1137, 1140 - 1141, 1143 - 1145
Glue gun ... 1074
Granite cleaning agent ... 94
Granite plate ... 91
Graphite pencil ... 1162
Grease gun ... 1156 - 1158
Grease gun (accessories) ... 1156, 1158, 1160
Grease gun (cordless) ... 1146, 1156
Grease gun (pneumatic) ... 1146, 1157, 1160
Grinder (electric), accessories ... 1027, 1042
Grinders (electric) ... 1028 - 1043, 1047 - 1049, 1053
Grinding and cutting technology (accessories) ... 331
Grinding brush (tool) ... 417 - 421
Grinding compound ... 351 - 352, 359, 372
Grinding disc ... 354, 378 - 381, 386, 388, 390 - 395, 401
Grinding disc (diamond) ... 388
Grinding disc (hook and loop) ... 358, 402, 404 - 408, 410, 414
Grinding gauge ... 217
Grinding machine ... 298 - 299, 1050 - 1052
Grinding media ... 302, 336 - 337, 347, 351 - 352, 359, 362, 372
Grinding point ... 333 - 335, 338 - 339
Grinding point for superalloys ... 335
Grinding star ... 348
Grinding tool ... 340 - 343
Grinding vice ... 260
Grip clamp ... 923
Gripper ... 1123, 1179
Groove vernier caliper ... 49, 54
Groove width gauge ... 235
Grooving chisel ... 810
Ground file ... 373 - 376

H

Habilis file ... 314
Hacksaw blade ... 432 - 436
Half round file ... 305, 307, 311
Hammer ... 822, 827
Hammer drill ... 851 - 855, 1017, 1019 - 1021
Hammer drill (carbide) ... 851, 853 - 855
Hammer drill (cordless) ... 1017, 1019 - 1021
Hammer drill chisel ... 856
Hammer insert ... 820 - 821, 823 - 826
Hammer set ... 974 - 975, 989
Hammer tacker ... 1075
Hand block for abrasive fleece ... 362
Hand broom ... 1193
Hand deburrer ... 686, 892
Hand file ... 304, 306, 309 - 310
Hand file flat blunt-ended ... 307
Hand-held illuminated magnifying glass (LED) ... 243 - 244
Hand-held lamp ... 265, 1107
Hand-held microscope ... 256
Hand-held wire brush ... 427 - 430
Hand lapper ... 376
Handle (slide head) ... 578
Hand lever toggle press ... 1190
Hand lever toggle press (parts) ... 1190
Hand lever toggle press (travel stop) ... 1190
Hand pad ... 360 - 361
Hand pop riveter ... 841 - 843
Hand protector for cold chisel ... 810
Hand pump ... 1159
Hand saw ... 431 - 436
Handsaw ... 434
Hand saw blade (metal) ... 432
Hand saw with handle ... 434 - 436
Hand sheet metal shears ... 831
Hand sprayer ... 1136, 1153
Hand sprayer (pressure sprayer) ... 1153
Hand tacker ... 1075
Hand vice ... 925 - 926
Handwork light ... 1106, 1108 - 1110, 1116 - 1117
Handy file ... 315
Hanging scales ... 213
Hardness comparison plate ... 285
Hardness tester ... 282 - 284
Hardness tester (accessories) ... 282 - 283
Hardness tester (analogue) ... 282
Hardness tester (digital) ... 282
Hardness tester (probe) ... 283
Hardness testing machine ... 284
Headband lamp ... 1117, 1119 - 1120
Headband magnifier ... 244
Heavy-duty combination pliers ... 739
Heavy-duty diagonal side cutter ... 763 - 764
Heavy-duty end cutter ... 762
Heavy-duty hand vice ... 926
Heavy-duty ratchet ... 565

Heavy load chassis ... 1189
Height gauge ... 143 - 146, 152
Height gauge (accessories) ... 151
Height gauge (digital) ... 147 - 150
Hexagonal flat square ... 160
Hexagon bit ... 668, 670, 673, 675
Hexagon screwdriver set ... 950 - 951
Hexagon socket (joint) ... 585
Hexagon socket with joint ... 532, 550, 571
Hex key L-wrench ... 498 - 507
High frequency cleaner ... 1130 - 1131
High-performance file ... 306, 309
High-pressure cleaner ... 1073
Hoist ... 1179 - 1186, 1189
Hoist for hydraulics ... 1085, 1188 - 1189
Holder for abrasive cap ... 341
Holder for abrasive cloth ... 366, 369
Holder for abrasive sheets ... 356 - 357, 359, 403, 405, 410
Holder for cutting disc ... 387
Holder for flue brush ... 427
Holder for sanding belt ... 342 - 343
Holder for small indicator ... 116
Holder for tools ... 603
Hole cleaning brush ... 427
Hole deburrer ... 890
Hole deburrer bit ... 686
Hole gauge ... 217
Hole punch ... 879
Hole punch (sheet metal) ... 881 - 882
Hole saw ... 447 - 449, 850
Hole saw centring drill ... 449
Hole snips ... 831
Hollow scraper ... 883
Holster (knife) ... 910
Hone ... 373 - 376
Honeycomb beam (measuring beam) ... 94
Honeycomb plate (measuring plate) ... 91
Honeycomb square (measuring square) ... 94
Honing brush ... 428
Hook and loop backing pad ... 403, 405
Hook and loop disc ... 365, 408
Hook depth gauge ... 50
Hooked blade ... 903
Hook for flat magnet ... 1174
Hook spanner adjustable ... 513
Hool and loop grinding disc ... 358, 404 - 407
Hose adapter for pneumatic tool ... 1090
Hose clip for pneumatic tool ... 1087
Hose clip pliers ... 761
Hose connection for pneumatic tool ... 1090 - 1091
Hose for pneumatic tool ... 1086 - 1087
Hose reel ... 1088 - 1089
Hose reel (accessories) ... 1089
Hose reel for pneumatic tool ... 1088 - 1089
Hose relief ... 1095
Hose support ... 1087
Hot air gun ... 1073 - 1074
Hot air gun (accessories) ... 1074
Hot melt adhesive ... 1074, 1144 - 1145
Hot melt adhesive gun ... 1074
HSS burr ... 322 - 328, 331
Humidity measuring device ... 203, 205
Humidity sensor ... 206
Hydraulic device ... 882
Hydraulic hoist (parts) ... 1085, 1188 - 1189
Hygrometer ... 205 - 206

I

Ice spray ... 1135
Illumination intensity meter ... 208
Impact drill (cordless) ... 993 - 996
Impact drilling machine ... 1016 - 1018
Impact drilling machine (cordless) ... 993 - 996
Impact driver ... 664
Impact power drill / driver (cordless) ... 993 - 996
Impact screwdriver ... 1009 - 1013
Impact screwdriver (cordless) ... 1009 - 1013
Impact screwdriver (pneumatic) ... 1077 - 1078
Impact wrench bit ... 582 - 592
Impact wrench bit (parts) ... 582, 584, 589, 591 - 592
Impact wrench set ... 664
Indexable insert (chamfering) ... 1028
Induction heating unit (ball bearing) ... 934
Induction unit ... 934
Industrial cleaner ... 1132 - 1133
Industrial floor broom ... 1193
Industrial yard broom ... 1193
Infra-red temperature measuring device ... 202 - 203, 205
Ink ribbon cartridge ... 288
Insert - chamfering ... 1028
Insertion strip (cable) ... 869 - 870
Insertion tool for studs ... 589
Inspection and measuring plate ... 91
Inspection lamp ... 1102, 1109, 1111 - 1112, 1123

Inspection mirror ... 1122 - 1123
Inspection set ... 1123
Inspection sticker ... 28
Inspection tool kit ... 978
Installation set ... 977 - 978
Installed caliper horizontal ... 272
Instant adhesive ... 1137, 1140 - 1141, 1143 - 1145
Insulating adhesive tape ... 1148
Insulation knife ... 911
Insulation meter ... 201
Insulation tester ... 201
Interchangeable blade for screwdriver ... 662, 664
Interchangeable blade for torque screwdriver ... 634
Interface adapter ... 290 - 291
Interior covering (tool case) ... 727
Intermediate disc elastic ... 410
Internal bearing extractor ... 933
Internal caliper ... 162
Internal clamping screw ... 110
Internal cylindrical grinding wheel ... 454
Internal micrometer ... 75 - 79, 81 - 90
Internal micrometer (three point) ... 81 - 90
Internal micrometer (two-point) ... 85
Internal micrometer extension ... 78
Internal micrometer with jaws ... 77 - 78
Internal square key with T-handle ... 487
Internal thread cleaner ... 889

J

Jack ... 1189
Japanese scraper ... 1190
Jaw anvil ... 922
Jerrycan hand pump ... 1159
Jeweller's screwdriver ... 663
Jeweller's snips ... 837
Jigsaw ... 434 - 435
Jigsaw (cordless) ... 1057
Jigsaw (electric) ... 1057
Jigsaw blade ... 435, 440 - 447
Jobber drill bit ... 685 - 686
Jobber drill point grinding gauge ... 217
Joiner's hammer ... 817, 857
Jointed arm ... 136
Jointing product ... 1140, 1142

K

Kevlar® shears ... 836
Keyboard interface ... 288 - 289
Key file ... 308
Keyway deburrer ... 891
Knife (cable) ... 894
Knife belt pocket ... 901
Knife file ... 311
Knife sharpening file ... 306
Knot hole drill ... 859

L

Label ... 1169
Labelling ... 28, 1162 - 1167, 1169, 1171
Labelling machine ... 1169 - 1171
Labelling machine (battery) ... 1169
Labelling machine (cordless) ... 1171
Labelling service ... 28
Labelling tool ... 1167 - 1170
Labelling tool (accessories) ... 1169 - 1170
Label printer ... 1169 - 1170
Label printer (accessories) ... 1169 - 1170
Lacquer marker ... 1165
Lamella backing pad ... 354, 386, 390 - 395, 401
Lamp ... 265, 1101 - 1106
Lamp (accessories) ... 1101, 1118
Lamp (battery) ... 265, 1102, 1104 - 1112, 1116 - 1117, 1123
Lamp (hand) ... 1109 - 1110, 1112 - 1118
Lamp (head) ... 1117, 1119 - 1120
Lamp stand ... 1105
Lapping plate ... 95
Laser ... 186 - 188
Laser distance meter ... 173 - 174
Laser spirit level ... 186
Laser target plate ... 187
Lashing strap ... 1179 - 1182
Lashing strap catch ... 1184
Lathe centre ... 815
Lathe file ... 306
Leakage barrier ... 1161
Leak finder (spray) ... 1135
Leak finder spray ... 1135
LED light source ... 249
LED magnifying glass lamp ... 245 - 246
Left-hand driver (screw extractor) ... 1126 - 1127
Length measurement probe ... 119
Length measuring tool ... 117
Length measuring tool glass scale ... 272
Lens cleaning cloth ... 1136

Lens cleaning solution 1136
Letter stamps ..... 1167 - 1168
Level 179
Levelling element 1187
Lever clamp 920
Lever dial indicator ..... 112 - 118
Lever hoist 1180
Lewis bit 858
Lifting cable 111
Lifting lever 111
Lifting magnet 1178, 1187
Lifting sling ..... 1183 - 1184
Lighting for measurement technology 253
Light metal hammer 822
Light test bulb (auto) 645
Lining-out (brush) 1191
Linisher (electric) ..... 1048 - 1049
Linisher (pneumatic) 1083
Linishing belt ..... 342 - 343, 367 - 373
Linishing belt (holder) 369
Linishing belt holder ..... 342 - 343
Linishing belt mounting 343
Linishing machine ..... 1049 - 1050, 1052
Liquid gasketing 1140, 1142
Liquid pump 1159
Lithium ion battery ..... 845, 1062 - 1066
Load attachment device 1179, 1187
Load attachment eye ..... 1185 - 1186
Load cell (analogue) 211
Load cell (digital) 211
Load stand 1186
Load strap 1182
Location device 175
Lock (combination) ..... 1172 - 1173
Lock (cylinder) ..... 1172 - 1173
Lock (padlock) ..... 1172 - 1173
Locking C clamp 749
Locking tape measure ..... 167 - 172
Long nose grip wrench 748
Long nose universal grip wrench ..... 752 - 753
Lubricant container 1173
Lubricating grease 1156, 1158
Lubrication aid ..... 1146, 1156 - 1158
Lubrication aid (accessories) 1156, 1158
L-wrench hexagon ..... 498 - 507
L-wrench Torx® ..... 488 - 491

M

Machine brush ..... 418 - 426
Machine lamp ..... 265, 1101 - 1103
Machine lifter 1189
Machine mount 1050, 1187
Machine stand ..... 1050 - 1051
Machine tap (accessories) 1014
Machine vice (precision) 260
Macroscope 255
Magnet ..... 1174 - 1178, 1187
Magnet (button) 1176
Magnet (cylindrical) 1176
Magnet (cylindrical clamping) 1175
Magnet (flat) ..... 1174 - 1175
Magnet (organisation) 1174
Magnet (pot) 1176
Magnet (square) ..... 1176 - 1178
Magnet (strong) 1175
Magnetic clamping block 1037
Magnetic container 1173
Magnetic field tester 191
Magnetic retriever 1123, 1178
Magnetic stand ..... 133, 135, 137 - 138, 1174 - 1178, 1187
Magnetic tray 1173
Magnetic Vee block ..... 154 - 155
Magnetiser and demagnetiser 646
Magnification glasses 244
Magnifying glass ..... 241 - 245
Magnifying glass lamp ..... 245 - 246
Magnifying glass with handle 242
Mains charger 1073
Mains plug 1027
Mallet (joiner's) 857
Mandrel ..... 348 - 350, 358, 362, 387, 427
Manual countersink 686
Manual countersink bit 686
Manual deburrer bit 686
Manual dressing stick for grinding wheels ..... 415, 459 - 460
Manual tally 188
Marbling point 336
Marker chalk (accessories) 1163
Marker pen ..... 1162 - 1166
Marking device ..... 152 - 153, 1167 - 1171
Marking gauge ..... 152 - 153, 171
Marking ink 1167
Marking needle 1171

Marking-out device (components) ... 143 - 146, 152
Marking out plate/table ... 95
Marking-out system (digital) ... 144 - 146
Marking pen ... 1167
Marking plate ... 95
Marking tape ... 1153
Marking tool ... 1167 - 1168
Masking aid ... 1192
Masking tape ... 1147, 1149
Mason's hammer ... 819
Mason's trowel ... 1190
Masonry cutting disc ... 389
Masonry cutting disc (diamond) ... 389
Masonry drill ... 848 - 850
Material moisture tester ... 208
Matting roller ... 396, 411 - 414
Measurement bench (shapes) ... 281
Measurement change-over switch ... 289
Measurement data software ... 260, 292
Measurement head ... 107, 110
Measurement tool set ... 941 - 942, 986
Measuring angle (granite) ... 94
Measuring beam ... 94
Measuring blade ... 227
Measuring device ... 117 - 118, 205 - 206
Measuring device (chamfer) ... 126
Measuring device (internal) / (external) ... 79
Measuring device cable ... 289, 294 - 295
Measuring device caliper jaws ... 79 - 80
Measuring device film pack ... 286
Measuring device insert ... 79 - 80
Measuring device measuring arm ... 79 - 80
Measuring device printer ... 151, 288
Measuring device printer paper roll ... 288
Measuring device receiver ... 291, 293
Measuring device test head ... 286
Measuring device transmitter ... 291, 293
Measuring force test gauge ... 227
Measuring jaw ... 227
Measuring jug ... 1155
Measuring laser ... 186 - 188
Measuring laser stand ... 188
Measuring microscope ... 255 - 260
Measuring pin ... 228 - 231
Measuring probe for depth micrometer ... 54
Measuring stand ... 133 - 138, 256, 277, 280, 283
Measuring stand (magnetic) ... 137 - 138
Measuring stand (parts) ... 133 - 135
Measuring table ... 122, 138 - 140
Measuring tool adapter ... 129, 288 - 290
Measuring tool set ... 56 - 57, 156
Mechanic's pliers ... 755 - 757
Mechanic's side cutter ... 766
Metal fret saw frame ... 434
Metal lettering device ... 1171
Metallographic cutting disc ... 456
Metal punch tool ... 1167 - 1168
Metal saw frame ... 431
Metering device (sealants) ... 1142
Meter stick ... 175 - 176
Metrology ... 1167
Micrometer ... 57 - 73, 75 - 78, 81 - 90
Micrometer (digital) ... 85 - 90
Micrometer extension ... 78
Micrometer head ... 76
Micrometer standard ... 60
Microscope ... 247 - 252, 254 - 260
Microscope (accessories) ... 249, 252, 254, 260, 292
Microscope (parts) ... 252, 255
Microscope camera ... 252, 254
Milled file ... 307
Milled tooth file profile ... 307
Millimess (dial comparator) ... 109
Millimetre gauge ... 217
Milling cutter - profile router ... 858
Milling machine ... 1028
Miniature brush ... 425
Mini burr ... 320 - 321
Mini linishing belt ... 411 - 412
Mini processor / printer ... 151, 288
Mirror (inspection) ... 1122 - 1123
Mist atomiser for pneumatic tool ... 1085
Mitre saw ... 434
Mitre saw (electric) ... 1055 - 1056
Mitre shears ... 839
Mitre square with stop ... 160 - 161
Mobile workbench ... 92
Moment screw clamp ... 915
Mortise chisel ... 811
Mortise chisels (bevel edge) ... 857 - 858
Mounting for abrasive fleece ... 362
Mounting for feed unit ... 276, 278
Mounting for machine lamp ... 1101
Multi-function oil ... 374, 1133 - 1136

Multi-function wrench 487
Multimaster 1043
Multimaster (accessories) .....1044 - 1046
Multimeter .....194, 198 - 200
Multimeter (accessories) 201
Multiple socket 1100
Multi-purpose case divider 712, 727
Multi-purpose drill ..... 849 - 850
Multi-purpose file ..... 303 - 304
Multi-purpose shears 835
MultiTalent 1043
MultiTalent (accessories) .....1044 - 1046
Multi-tooth L-wrench 509

N

Nails for tacker 1075
Narrow pillar file 310
Nebulizer 1136, 1153
Needle descaler (pneumatic) 1084
Needle file .....308, 312 - 313, 315 - 316
Needle marker 1171
Needle marker (parts) 1169, 1171
Needle nose pliers 756
Needle set for pneumatic tool 1084
Nibbler (sheet metal) cordless .....1060 - 1061
Nibbler (sheet metal) electric 1061
Nipple pack threaded each end 1095
Nipple pack with external thread .....1090 - 1091
Noise level meter 208
Non-ferrous metal file 307
Non-permanent marker 1165
Non-sparking tools 828
Non-woven abrasive .....348 - 350, 355, 360 - 361
Non-woven abrasive (hook and loop) 403
Non-woven abrasive holder 362
Non-woven abrasive roller .....411 - 414
Non-woven flap wheel ..... 346 - 347
Non-woven linishing belt 373
Nozzle (compressed air) .....1092 - 1094
Nozzle checking gauge 217
Number stamps 1168
Nut (socket) ..... 531 - 533, 549 - 551, 553, 569 - 571, 575, 577, 579
Nut (spark plug) 551, 571
Nut box .....518, 524, 542, 544, 563 - 564
Nut driver (slot) 646
Nut extractor 1126
Nut lock ..... 1137, 1140 - 1142
Nut spinner bi-hexagon .....532 - 533, 550 - 551, 569, 571, 577, 579
Nut spinner hexagon 531, 533, 549, 553, 570, 575, 577, 579
Nut spinner set ..... 481, 515 - 531, 541 - 545, 554 - 564, 576, 579
Nut spinner Torx® 532, 550, 570
Nut splitters 937
Nut wrench 868
Nylon hammer ..... 820 - 822, 824, 826
Nylon roller 412

O

Oblique-end nozzle (wet / dry vacuum cleaner) 1070
Occupational safety 187
Offset blade screwdrivers 509, 645, 661
Offset screwdriving attachment 1005
Oil and liquid barrier 1161
Oil can 1154, 1159
Oil container 1155, 1159
Oil filter claw 553
Oil for pneumatic tools 1086
Oil spray can 1154
Oil stone ..... 373 - 377
One-hand angle grinder (cordless) 1031
One-hand clamps .....915 - 917
One-hand pipe bending pliers ..... 876 - 877
One-hand pipe wrench 862
Open-ended ring spanner .....469 - 475, 828
Open ended slogging spanner 468
Open-ended spanner .....465 - 468, 828
Open-ended spanner extension 467
Open-ended spanner set ..... 466 - 467
Open jaw plug-in head 622, 625
Optical flat 228
Orbital grinder 1043
Orbital sander (cordless) ..... 1038 - 1039
Orbital sander (electric) ..... 1038 - 1039
Orbital sander (pneumatic) 1079
Organiser magnet 1174
Oscillating saw and mitre saw (cordless) 1056
Oscillating tool (accessories) 1046
Osimess bracket 122
Osimess contact point 122
Osimess gauge clamp 122
Osimess gauging pin 122
Outside caliper 162
Outside thread micrometer 69
Over-specs (safety glasses) 187

P

Padlock ..... 1172 - 1173
Padlock with cylinder insert 1173
Painting tools ..... 1191 - 1192
Paint roller 1192
Paint roller (parts) 1192
Paint roller handle set 1192
Paint spray 1134, 1166
Paint stripping brush 1191
Paint tray 1192
Paper adhesive tape 1147, 1149
Paper and fabric scissors 838
Paper roll 288
Paper roll dispenser 1195, 1199
Paper scissors 838
Paper workshop wipe 1196, 1199
Parallel gauge block ..... 223 - 226
Parallel gauge block (ceramic) 224, 226
Parallel gauge block (glass) 228
Parallel pin punch ..... 813 - 814
Parallel Vee block ..... 153 - 154
Parcel tape 1148
Paste (polishing) ..... 350 - 352, 359, 372
Penetrating oil ..... 1135 - 1136
Permanent magnet clamping block 1037
Permanent marker 1164
Phase sequence indicator 195
Phase sequence tester 191
Phase tester ..... 191 - 194, 645
Phillips bit 667, 672, 675
Phillips screwdriver ..... 654 - 661, 663
Pick set 779
Piercing awl 879
Pillar drill 1025
Pincers 745
Pin extractor 932
Pin for pin wrench 514
Pin spanner 514
Pin spanner adjustable 513
Pin type face wrench 513
Pipe bender 878
Pipe bender (hydraulic) 877
Pipe bending pliers ..... 876 - 877
Pipe cleaner 868
Pipe cutter ..... 871 - 876
Pipe cutter (cordless) 1060
Pipe cutter (parts) 871
Pipe cutter wheel 871
Pipe deburrer 871
Pipe shears (parts) 838, 874
Pipe shears (plastic) 838, 874
Pipe threading tool 878
Pipe vice 926
Pipe welding clamp 750
Pipework belt linisher belt (Flex) ..... 370, 372 - 373
Pipework grinder (electric) 1049
Pipe wrench 862
Pipe wrench (strap) ..... 864 - 865
Pivoting contact point 111
Pivoting saw (electric) ..... 1055 - 1056
Plasterer's trowel 1190
Plastic caliper 31, 42
Plastic case 44
Plastic file 306
Plastic hammer ..... 820 - 822, 826 - 827
Plastic shelf 718
Platform scales ..... 215 - 216
Pliers (cable tie) ..... 800 - 801
Pliers (circlip) ..... 758 - 760
Pliers (combination) ..... 738 - 741, 746
Pliers (conical seat) 745
Pliers (crimping) ..... 787 - 792, 794 - 799
Pliers (electrician's wiring) 786
Pliers (flat-nose) ..... 751, 756 - 757, 768, 775 - 776
Pliers (folding) 751
Pliers (gripping) ..... 740, 747 - 750, 923
Pliers (hose clip) 761
Pliers (installation) 746, 787
Pliers (notch) 798
Pliers (parts) ..... 750, 762, 799, 807 - 808, 864
Pliers (round) 751, 776
Pliers (sleeve) 799
Pliers (snipe-nosed) ..... 734, 746, 753 - 757, 768, 775 - 776
Pliers (spark plug) 756
Pliers (spring strip) 761
Pliers (tinsmith's) 750
Pliers (water pump) ..... 735, 742 - 744, 746, 828
Pliers (wire stripping) ..... 782 - 786
Pliers (wire twisting) 745
Pliers set ..... 699, 734 - 738, 967 - 972, 988 - 989
Pliers wrench set 968
Plug gauge ..... 232 - 233
Plug-in adapter enlarger 625

Plug-in adapter reducer .625
Plug-in head (torque wrench) 621 - 625
Plug-in ratchet reversible 621, 625
Plumb bob .185
Plumb line .185
Plus-minus screwdriver .662
Pneumatic drilling machine .1076
Pneumatic grinding machine 1079 - 1083
Pneumatic oil 1086
Pneumatic power tools (accessories) .1076 - 1077, 1079, 1084 - 1096
Pneumatic tool 1076 - 1083
Pocket calculator .1169
Pocket caliper 30 - 31, 42
Pocket caliper (digital) 32 - 42, 47
Pocket knife .912 - 914
Pocket magnifying glass .242
Pocket scales .213
Pocket spirit level .177
Pocket tool .912 - 914
Pointed chisel .810
Point for lever dial indicator .112
Policap 340 - 341
Polishing block 364
Polishing cloth .364, 1194 - 1195
Polishing disc .401
Polishing fleece 360 - 361, 400, 403
Polishing head .300 - 301, 333 - 337
Polishing machine (electric) 1047
Polishing paste 351 - 352, 359, 372
Polishing plate 1046
Polishing point .300 - 302, 336 - 337, 347, 376
Polishing roller .414
Polishing tool .348 - 350, 358, 402, 405, 407, 414
Polyurethane hammer .826
Pop riveter 841 - 843
Portable circular saw (electric) 1053
Portable circular saw blade 437 - 439
Pot magnet .1176
Pot magnet with press release spindle .1178
Power cable 1099
Power multiplier .636
Power saw blade .437 - 449, 850
Power screwdriver bit hexagon .582 - 583, 585 - 588, 590 - 592
Power screwdriver set .583, 586 - 588, 590
Power tool (accessories) 993, 1005, 1008, 1017, 1019 - 1021, 1028, 1042, 1050 - 1051, 1054, 1056
Pozidriv bit .667, 672, 675
Pozidriv screwdriver .654 - 661, 663
Precision bore gauge 120 - 124, 126, 132, 234 - 235
Precision bore gauge setting master .123
Precision clamp .260
Precision dial comparator .109
Precision engineer's diagonal side cutter .766
Precision engineer's pliers 755 - 756
Precision engineer's scraper .883
Precision engineer's set .979
Precision file .310 - 317
Precision grinding wheel 450 - 459
Precision outside micrometer .65
Precision probe .112 - 119
Precision ratchet 536 - 537, 546 - 547, 566
Precision scales .214
Precision scraper .883
Precision screwdriver .662
Precision scribing divider .161
Precision shears .836
Precision wedge mount .1187
Precision wire stripper .782
Pre–setting device .128
Press .1190
Pressure gauge 1085
Pressure regulator for pneumatic tool 1085
Primer paint (anti-rust) .1134
Printer (label) .1169 - 1170
Printer for measuring device 151, 288
Printer ribbon cartridge .1170
Probe 118 - 119, 262 - 264, 596
Probe guard .277
Probe holder .262, 264
Probe insert extension .264
Probe leads .201
Probe module .262
Probe rod (extension) 111
Profile router bit .858
Profile shears 840
Protective hood for temperature measuring device 204
Protective mat .718
Protractor .146, 157 - 159, 180, 183 - 185
Protractor (analogue) .157 - 158
Protractor (angle gauge) .157 - 159
Protractor (digital) .158 - 159
Protractor (parts) 146, 159
Pry bar .830
Pry bars .829

PU adhesive 1143
Puk saw blade 433
Pulley 1179, 1181
Punch (parts) 815
Punch holder 1168
Punching tool 880
Punch wheel 1167
Puppitast (lever dial indicator) ..... 113 - 116
Push-through insert 481
PVC adhesive tape 1147, 1150

Q

Quast (wide paint brush) 1191
Quick-change adapter ..... 582, 584, 589, 591 - 592
Quick-change adapter SDS 853
Quick-change coupling 1091, 1095
Quick-change system (abrasive) ..... 353 - 354, 356 - 357
Quick clamping nut 1029
Quick gauge (external) 130, 132
Quick gauge (internal) ..... 131 - 132
Quick measuring device ..... 127, 130 - 132
Quick measuring device (two-point) 78

R

Rack thread 1189
Radiator bleed valve key 868
Radiator paint brush 1191
Radio 1062
Radio receiver 293
Radius caliper 49
Radius gauge 218
Rasp 1044, 1046
Ratchet ..... 536 - 537, 546 - 547, 553, 565 - 568, 575, 578, 580 - 581
Ratchet (attachment) 568, 578
Ratchet (bit) 690
Ratchet (parts) 578
Ratchet attachment ..... 536 - 537, 546 - 547, 553, 565 - 568, 575, 578, 580
Ratchet box 481
Ratchet clamp 779
Ratchet extension 540, 548, 553, 568, 575, 578, 580
Ratchet for square drive ..... 514 - 515
Ratchet head 578, 580
Ratchet pipe-threading tool 878
Ratchet plug-in head 625
Ratchet pull-out 565
Ratchet reversible ..... 514 - 515
Ratchet ring spanner ..... 472 - 476, 480
Ratchet ring spanner set ..... 473 - 475, 944 - 946, 986, 988
Ratchet screwdriver (cordless) 1006
Ratchet screwdriver (pneumatic) 1076
Ratchet square 578
Ratchet wrenches 690
Reading glass 243
Rear wall for dial indicator 111
Rechargeable battery ..... 845, 1062 - 1066
Rechargeable battery cell 1121
Rechargeable battery charger 845
Reciprocating saw (cordless) 1058
Reciprocating saw (electric) 1059
Recoil hardness tester ..... 282 - 283
Reducer ring set for grinding wheel 455
Reducing adapter set 1095
Reducing flange 415
Reference square 94
Reflective strips 190
Repair adhesive tape 1147, 1149
Resilient grinding point ..... 336 - 337
Retaining ring pliers ..... 699, 736 - 738
Retraction spring 1079
Reversible ratchet 567
Revolving punch pliers 879
Ribbed chisel 809
Ribe bit 572
Riffler file ..... 313 - 314, 316 - 317
Rigid endoscope 265
Rigid foam inlay for drawer ..... 699, 941 - 954, 959 - 989
Rigid foam inlay for roller cabinet drawer 946, 949 - 953, 956 - 962, 965, 967 - 972, 974, 978 - 980
Rigid foam inlay for shadowboard ..... 971, 986 - 989
Rigid foam inlay for tool cabinet drawer 968
Rigid foam inlay for workbench drawer ..... 943 - 948, 950 - 958, 963, 971 - 972, 975, 977, 981, 987 - 989
Ring brush 1191
Ring insert (square) 515
Ring spanner ..... 475 - 481
Ring spanner (parts) 479
Ring spanner set ..... 477 - 478
Ring wrench ..... 475, 479 - 480
Riveter ..... 843 - 846
Rivet snap closer 811
Rivet snap setter 811
Rod magnet 1176
Roller cabinet ..... 706 - 708, 727
Roller dispenser for adhesive tape 1148

Roller scraper ... 1192
Roll-up drum (cable) ... 1098
Roll-up drum for pneumatic tool hose ... 1088 - 1089
Roll-up drum for pneumatic tool hose (accessories) ... 1089
Roloc abrasive system ... 353 - 354, 356
Rondeller grinding disc ... 380
Roofer's hammer ... 819
Rope lifting gear ... 1179
Rotary burrs ... 320 - 331
Rotational angle test device ... 600
Rotational speed sensor ... 190
Roughening stone ... 374, 389, 460
Rough grinding disc ... 378 - 381, 394
Roughness standard with test certificate ... 278
Round brush ... 416 - 418, 421 - 423, 425
Round file ... 305, 311
Round-nose pliers ... 751
Round sheet metal punch ... 882
Round sling ... 1183
Round sling (accessories) ... 1184
Rubber composition mallet ... 827
Rubber mallet ... 821 - 822
Rubber mat ... 718
Rubber wiper ... 1193
Rubbish bag ... 1195
Rubbish bag holder ... 1195
Rubbish sack holder ... 1195
Ruby contact point ... 263
Rucksack (tool) ... 713 - 714, 717
Ruler (stainless steel) ... 165
Ruler (tool) ... 164 - 167
Ruler with measuring magnifiers ... 242
Rust protection ... 1132, 1134 - 1135
Rust removal tool ... 1084
Rust remover ... 1133, 1136

S

Sabre saw (cordless) ... 1058 - 1059
Sabre saw (electric) ... 1059
Safety glasses ... 187
Safety knife ... 902
Safety shut-off ... 1090 - 1091
Sander roller holder ... 343
Sanding block ... 362, 366, 369, 375 - 377, 409
Sanding disc ... 357, 365 - 367, 408
Sanding disc holder ... 356 - 357, 359, 403, 405, 410
Sanding disc Multimaster ... 1046
Sanding pad Multimaster ... 1046
Sandpaper (hook and loop) ... 365, 408
Sandpaper (orbital sander) ... 365, 408
Saw (electric) ... 1052 - 1061
Saw (electric) accessories ... 1054, 1056
Saw blade ... 432, 436, 440 - 449, 850
Saw blade (hand) ... 432 - 436
Saw blade for electric saw ... 1044 - 1045
Saw box ... 434
Saw cut wire ... 432
Saw set ... 980 - 981
Scale ... 175 - 176
Scale (steel) ... 165 - 167
Scaled eye loupe ... 241 - 242, 245
Scaled eye loupe comparison scale ... 241
Scales ... 212 - 216
Scalpel ... 911
Scissors ... 831 - 840, 874
Scissors (fabric) ... 836
Scraper ... 883 - 886, 890, 981, 1046, 1190
Scraper blade ... 883 - 886, 890
Screen cleaner ... 1133
Screwdriver 487 - 497, 508 - 511, 533 - 535, 551 - 553, 572 - 575, 577, 579, 645 - 651, 654 - 664
Screwdriver (electric) ... 651
Screwdriver (pneumatic) ... 1077 - 1078
Screwdriver accessories ... 646, 650
Screwdriver bit ... 583 - 584, 588, 590, 668, 687 - 691
Screwdriver bit (parts) ... 687 - 691
Screwdriver bit (splined) ... 573
Screwdriver bit (Torx®) ... 534 - 535, 552, 573, 575
Screwdriver bit (tri-square) ... 552, 573, 575
Screwdriver bit hexagon ... 533 - 535, 551 - 553, 572, 574 - 575, 577, 579
Screwdriver blade ... 668
Screwdriver electric (parts) ... 581 - 592
Screwdriver hexagon ... 507 - 512
Screwdriver insert (cross-head) ... 534
Screwdriver insert (slot-head) ... 534, 573
Screwdriver rack ... 650
Screwdriver set ... 489 - 497, 500, 507, 509 - 512, 637 - 642, 646 - 653, 662 - 665, 950 - 958, 971 - 972, 987 - 989
Screw extractor ... 1126 - 1127
Screw holder ... 646
Screw holding screwdriver ... 646
Screw identification ... 1166
Screw-in fuse carrier key ... 645
Scriber ... 143 - 146, 162 - 163

Scriber (analogue) ..... 143 - 144
Scriber (pneumatic) 1084
Scriber for marking gauge 152
Scribing set ..... 980 - 981
Sealant ..... 1137, 1140 - 1142, 1146
Sealing ring extractor 934
Sealing tape 1152
Security lacquer 1166
Separator / extractor 931, 936
Set of brackets 978
Set of torque screwdrivers ..... 612, 620, 629 - 630, 633 - 634
Set of wheels for tool case 724, 727
Setting bevel 161
Setting gauge ..... 219 - 220, 222
Setting master 227
Setting ring ..... 122, 234 - 235
Setting tool 617, 1008
Shackle 1186
Shadowboard rigid foam inlay ..... 971, 986 - 989
Shadowgraph 271
Shaft level 182
Sharpening file 306
Shears set 980
Sheet metal clamp 750
Sheet metal deburrer 891
Sheet metal punch ..... 881 - 882
Sheet metal punch (parts) ..... 881 - 882
Sheet metal shears (cordless) ..... 1060 - 1061
Sheet metal shears (electric) 1061
Sheets (abrasive cloths) ..... 366 - 367
Shim foil ..... 220 - 223
Shut-off screwdriver (accessories) 1008
Shut-off screwdriver (cordless) ..... 1007 - 1008
Signal cable 290
Silicone sealant cartridge 1146
Silicone spray 1133
Simplex soft hammer 822
Single open ended spanner 468
Single precision pin ..... 229 - 231
Single-speed power drill ..... 1014 - 1015
Sinusoidal abrasive roller 414
Siphon wrench 741, 864
Sledgehammer 817, 826
Sleeve pliers 799
Slide 1054
Slide head (handle) 578
Sliding hammer 932
Sliding square 161
Sling 1183
Slip tape 1152
Slogging ring spanner 480
Slot-head bit ..... 669 - 670, 674 - 675
Slot-head screwdriver ..... 637 - 645, 663 - 664, 828
Slot rail 91
Slotted nut screwdriver 646
Small comparator stand 140
Small file 308
Small file set 308
Small grinding system ..... 353 - 357, 359, 403, 405, 410
Small linishing belt 411
Small lubricator 1154
Snap gauge ..... 74 - 75
Snap-off blade ..... 903 - 904
Snipe nose pliers ..... 738, 753 - 755
Snips (parts) 803, 838, 840, 874
Soapstone chalk 1163
Socket ..... 532, 550, 571, 581 - 583, 585 - 588, 590 - 592
Socket adapter 691
Socket bi-hexagon ..... 532 - 533, 550 - 551, 569, 571, 577, 579
Socket crank handle 567
Socket extension 540, 548, 553, 568, 575, 578, 580
Socket for impact driver ..... 581 - 592
Socket for spark plugs 551, 571
Socket hexagon 531, 533, 549, 553, 570, 575, 577, 579
Socket insert (enlarger) ..... 580 - 582
Socket insert (extension) ..... 582, 584, 589, 591 - 592
Socket insert (reducer) ..... 580 - 582
Socket set . 481 - 486, 515 - 531, 541 - 545, 554 - 564, 576, 579, 583, 586 - 588, 590, 699, 948 - 949, 959 - 966, 972, 988
Socket strip 525, 553, 576, 1100
Socket T-handle 537, 539, 547, 553, 567, 575, 578, 580
Socket Torx® 532, 550, 570
Socket wrench ..... 482 - 487, 515 - 533, 540 - 545, 548 - 551, 553 - 562, 567 - 571, 575 - 581
Soft hammer ..... 820 - 822, 824 - 827
Soft metal file 307
Soft pad (abrasive sponge) 363
Soft solder 1125
Software for image processing 292
Software for measurement data 260, 292
Soldering fumes extraction 1125
Soldering iron 1062, 1124
Soldering station 1125
Soldering tip 1125

Soldering tool ... 1062, 1124 - 1125
Soldering wire ... 1125
Spacer ring for brush ... 421, 427
Spanner ... 465 - 468, 828, 865 - 866, 868
Spanner adjustable ... 828, 867
Spare blade ... 762, 807 - 808
Spare contact point ... 111 - 112
Spare lead (deep hole marker) ... 1162
Spare push-through square (ratchet) ... 578
Spark plug brush ... 430
Spark plug file ... 308
Spark plug spanner ... 551, 571
Special measuring device ... 290, 293
Special measuring device (accessories) ... 277, 279, 293
Special tester ... 645
Spinner handle ... 538, 547, 567
Spirit level ... 176 - 183
Spirit level (aluminium) ... 178 - 181, 183
Spirit level (magnetic) ... 177 - 178, 180 - 181
Spline L-wrench ... 509
Spray (industrial) ... 1132 - 1135
Spray gun ... 1136, 1153
Spray gun (pressure) ... 1153
Spray protection film ... 1191 - 1192
Spring balance ... 212
Spring balance compression kit ... 212
Spring clamp ... 918
Spring dividers ... 162
Spur-gear block and tackle ... 1181
Spy (feeler gauge) ... 219
Square bit ... 668
Square drive plug-in head ... 621
Square drive ring insert ... 515
Square file ... 305, 311
Square frame level ... 183
Square socket spanner ... 487
Stainless steel cleaner ... 1133
Stainless steel grinding disc ... 379 - 381, 393 - 395
Stainless steel grinding wheel ... 383, 385, 387
Stainless steel spray ... 1134
Stand (lights) ... 1105
Stand (measuring) ... 134 - 138, 142
Stand (photo) ... 188
Stand base ... 136
Stand for bench circular saw ... 1056
Stand for bench grinder ... 1051
Stand for hand-held microscope ... 256
Stand for measurement laser ... 188
Stand hydraulic ... 133
Standing magnifying glass ... 245 - 247
Stand magnifying glass ... 241, 245
Staples (tacker) ... 1075
Steel grating cutter ... 808
Steel grinding wheel ... 380, 394
Steel scale ... 164 - 167
Steel squares ... 160 - 161
Steel tape measure ... 171 - 173
Steel wad punch ... 880
Stepped drill bit ... 685
Stereo viewing system ... 247 - 251, 254
Stereo viewing system (parts) ... 255
Stock handle screwdriver (cordless) ... 1008
Stock square ... 156 - 157, 160 - 161
Stone chisel ... 810
Stone roughing wheel ... 388
Stop point (screw adjustment) ... 1186
Stopwatch ... 189
Storage tray ... 1173
Straight die grinder (cordless) ... 1040 - 1042
Straight die grinder (electric) ... 1040 - 1042
Straight die grinder (pneumatic) ... 1080 - 1081
Straight edge ... 164
Straightedge (assembly) ... 164
Strap ... 1182 - 1184
Strap cutter ... 834
Strap wrench ... 865
Stroboscope (hand-held) ... 190
Stroke counter ... 188
Strong magnet ... 1175
Stud driver ... 589
Stud extractor ... 482
Suction hose (wet / dry vacuum cleaner) ... 1070
Suction-pad lifter ... 1179
Suhner belt ... 373
SuperCut ... 1043
SuperCut (accessories) ... 1044 - 1046
Supplementary weight for hardness tester ... 282
Support (cabinet) ... 93, 95, 257
Support frame (surface plate) ... 95
Support table ... 1051
Surface grinder ... 1047
Surface measurement technology ... 1167
Surface roughness measuring tool ... 273 - 277, 279 - 280
Surface roughness measuring tool (accessories) ... 276 - 280

Surface roughness measuring tool comparison standard 278
Surface roughness measuring tool probe ..... 277, 279 - 280
Suspension Device 201
Swarf catcher 1160
Swarf protection 331
Swedish saw 436
Sweeper 1072
Sweeping broom 1193

T

Tachometer (hand-held) 190
Tachometer (parts) 190
Tacker 1075
Tacker (accessories) 1075
Tacker (cordless) 1075
Tacker (electric) 1075
Tailstock pair 93
Tamperproof protection 1166
Tap bit ..... 685 - 686
Tap driver 1014
Tape measure ..... 44, 167 - 173
Tape measure self-adhesive 172
Tapered cup grinding wheel 381
Tapered hand vice 926
Taper pin punch ..... 811 - 812, 814, 829
Taper slot gauge 217
Tap extractor 1127
Tapping (accessories) 1128
Tarpaulin 1192
Technical spray 1135
Teflon sealing tape 1141
Teflon spray 1133
Telescopic magnetic retriever 1123
Telescopic wrench 567
Temperature data logger 207
Temperature measuring device ..... 202 - 208
Temperature measuring device protective sleeve 204
Temperature sensor 204
Template (gauge / tool) ..... 217 - 218
Terminal blade screwdrivers 641
Terminal sleeve crimping tool ..... 788 - 791
Terminal sleeves (strip) ..... 791 - 792
Test device ..... 595 - 600, 631
Test device (radial run-out) 141
Test mandrel ..... 231 - 233
Test pin ..... 228 - 231, 796
Test pin holder 230
Test pump 868
Test stand 209
Test standard 260
T-handle 537, 539, 547, 553, 567, 575, 578, 580
Thermal imaging camera 202
Thermal register paper 288
Thermometer ..... 202 - 208
Thickness measuring device ..... 127, 285 - 287
Thickness measuring device check body 287
Thickness measuring device probe 287
Thinners 352
Thread counter 241
Thread file 307

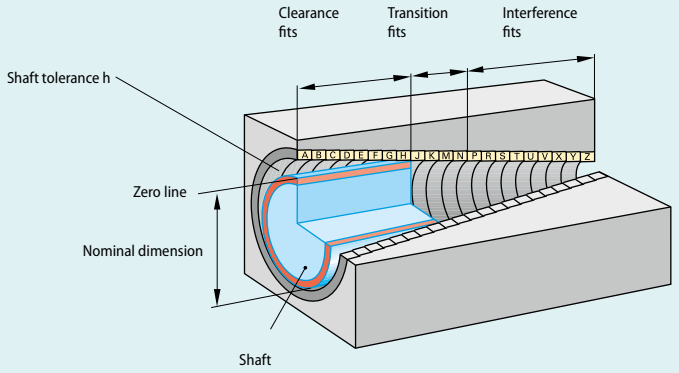
ISO system of standardised fits for shafts

(see DIN ISO 286-2)
Size limits in µm (= 0.001 mm).

In the standardised shaft system, all shafts are given h tolerances. The largest dimension of a shaft is taken as both the zero line and the nominal size. The smallest dimension is smaller than the nominal size by the amount of the tolerance.



Interference fit (press fit)
Transition fit
Clearance fit

Holes	Preferred fit*)	Nominal dimension over . . . to . . . mm

1) All hardness values are determined using different hardness tests for different materials and are hence only approximately comparable; to DIN 50150.
2) Calculation based on: HD = 0.95×HV.
3) Rockwell hardnesses shown as a decimal value are only to be used for interpolation and the end result rounded up or down to a whole number.

Comparison table spanner size (A) / thread of Torx® and Torx Plus® screws

The dimension A is the same for Torx® (designation T or TX) and Torx Plus® (designation IP).

Torx internal drive

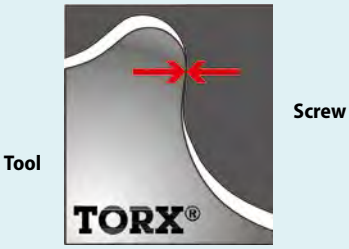
Torx®/ Torx Plus®

Torx Plus® is a further development of the Torx® profile.
The larger contact surfaces of Torx Plus® tools and the Torx Plus® screw as well as the improved angle of drive force enable higher torques and extend the working life of the tool and screw.
Torx Plus® tools cannot be used on Torx® screws.



Torx® and Torx Plus® are the registered trademarks of Acument Intellectual Properties, LLC, an Acument Global Technologies, Inc. company.

Clamping forces and clamping torques

Clamping forces Fsp and clamping torques Msp for screws with metric coarse pitch threads to **DIN 13** , and head contact dimensions **to DIN 6912, DIN 7984, DIN 7990, DIN EN ISO 4762, DIN EN ISO 4014, DIN EN ISO 24032.**

The table values Fsp and Msp are based on the SI unit N (Newton).

1 N = 0.102 kP, 1 Ncm = 0.102 kPcm,

1 Nm = 0.102 kPm, 1 kp = 9.81 N,

1 kPcm = 9.81 cNm, 1 kPm = 9.81 Nm.

The clamping forces Fsp shown in the left-hand table generate a screw extension 90% of the elastic limit $\sigma_{0.2}$ **(DIN 267 sheet. 3)** by means of the comparative tension σ_{red1} in conjunction with the relevant thread friction factor µ. The clamping force table shows which screw size and tensile grade is required to achieve the specified assembly force F_M ($Fsp \geq F_M$).

The clamping torques Msp are calculated from the clamping forces Fsp, assuming $\mu = \mu K = \mu_{tot1}$.

The clamping torque Msp required to achieve 90% of the elastic limit of a screw of given dimensions and grade is found in the right-hand table, depending on the under-head coefficient of friction (μ_K), which is taken to be the same as the thread coefficient of friction.

The nominal torque used in practice should be the clamping torque Msp value shown in the table less half the spread of the intended torque wrench.

Coefficient of friction of thread µ	Clamping force Fsp (N)				Threads	Under head coefficient of friction μ_K	Clamping torque Msp (cNm)

Industrial Tooling and Equipment by Hoffmann Group

Information on deliveries

Electrical equipment (ElectroG)

Old equipment must be disposed of separately to household waste. Any (rechargeable) batteries and lamps (bulbs) that are not fixed in place must be removed and disposed of separately in an environmentally friendly manner. As a retailer, we are legally obligated to take back old equipment free of charge. It can be returned to us when it is not being used any more. It will then be disposed of properly or recycled in line with the legal regulations.

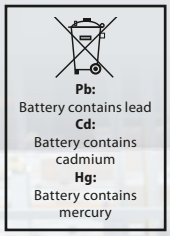
The icon with the bin crossed out indicates that the device must not be disposed of with household waste once it reaches the end of its service life, and instead must be disposed of at an approved collection or disposal point.

The end user themselves is responsible for deleting any personal data that may be on the old equipment intended for disposal.

We are registered with the German electronic waste recycling register "Stiftung **E**lektro-**A**ltgeräte **R**egister" (**EAR**) under registration number DE35368485.

Batteries and rechargeable batteries (BattG)

End users are legally obligated to return old (rechargeable) batteries. (Rechargeable) batteries can be returned to us free of charge after reaching the end of their service life. This ensures that you comply with your legal obligations and help to protect the environment. We will recycle the materials in an environmentally responsible manner. In order to prevent short circuits, mask off any exposed battery poles before returning the products.



The "Collect batteries separately" icon indicates that batteries must be disposed of at special recycling points rather than with general household waste. Batteries containing substances like mercury (Hg), cadmium (Cd) or lead (Pb) are also marked with a chemical identifier.

Like all other batteries, lithium batteries must never be disposed of with general rubbish.

German Packaging Act (VerpackG)

The German Packaging Act (VerpackG) obligates us to participate in a dual system for waste recycling and disposal, which is why we take part in the "Der Grüne Punkt" (The Green Dot) system. We are registered in the LUCID packaging register under number DE3394933750264.

According to the German Packaging Act (VerpackG), we are obligated to take back transport packaging free of charge pursuant to Art. 15 Paragraph 1 Sentence 1. This must be done at the location where it is actually handed over or in its immediate vicinity. If this cannot be done, you are able to send the packaging back to us.

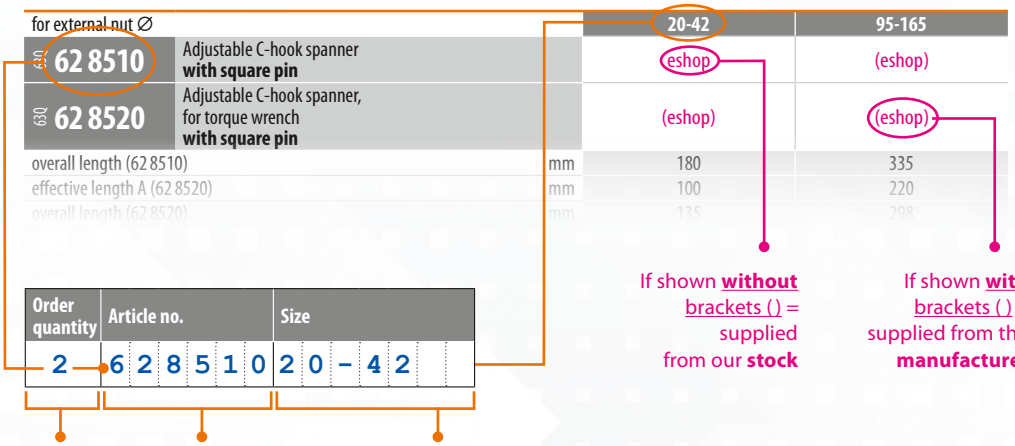
We restrict the volume of packaging to whatever is really necessary and we promote re-usable materials.

Information on express delivery

For some products, we are prevented by law from offering express delivery (by air freight) outside Germany. These products are therefore indicated by a special note in the catalogue. Certain products cannot currently be delivered to some countries.

IT'S SO SIMPLE:
CHOOSE YOUR ORDERING CHANNEL.
PLACE THE ORDER. DONE.

Place your order quickly and conveniently in the eShop, by e-mail, fax, or phone.
Find further information on page 2.



Pack unit quantity: Quantities less than a pack unit are subject to a repackaging charge.

*Simply state the **order quantity** (in pieces) ...*

*... the **article number** highlighted in grey in the catalogue and printed in bold ...*

*... and the desired **size required** (printed bold in the catalogue, and highlighted in grey) **even if there is only one size listed ...***

*... together with your **customer number**, or enter this information in the appropriate field – **done!***

Attention:
All electronic devices are fitted with a German plug. Call for US availability.

Please note:

- We provide the very best delivery capability for our entire catalogue range (except items with prices in brackets). Delivery in Germany and Austria possible within 24 h (up to 31.5 kg).
- For items with prices in brackets ( ), the manufacturer's delivery conditions are applicable and the items are supplied from the manufacturer.
- The catalogue and its layout and item numbering system are protected by copyright.
- The alloy metal surcharge (LZ) is already included in the price.

Reprinting and reproduction of any kind – even as extracts – is permitted only with written permission from Hoffmann SE, 81241 Munich.
Further details about the changes to our prices and products and the full version of our general terms and conditions can be found at www.hoffmann-group.com/company/agb
The catalogue is fully recyclable!
