# PRODUCT RANGE

## SCREEN PROTECTOR **ARMORJACK ULTRA, ARMORJACK MATTE**

Screen and back protection for mobile devices without losses of the customer features

Screen protector consists of 7-layer composition material

Self-healing glossy protective coating provides an invisible protection against scratches, damages, hits, thermal and chemical effects

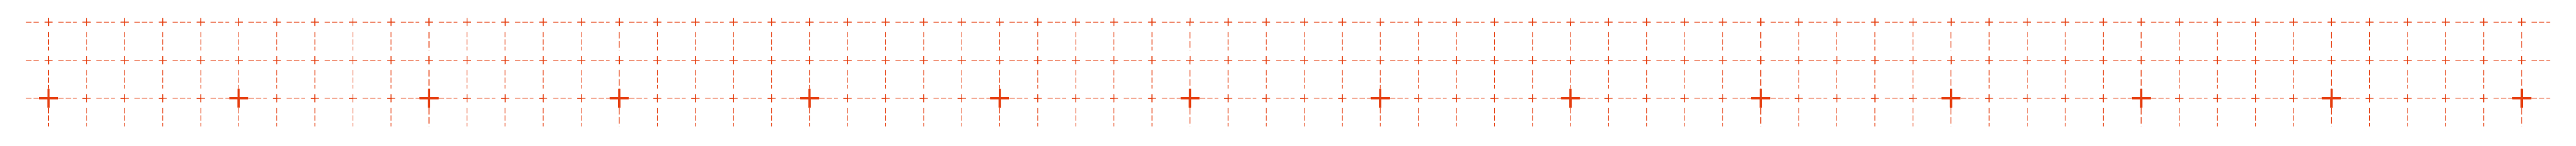

Keeps absolute transparency and does not change color during the entire lifecycle

## DECORATIVE PROTECTOR **SKIN2 BY ARMORJACK**

Back protection delivers maximum protection thus saving the device from mechanical issues, sunlight and moisture

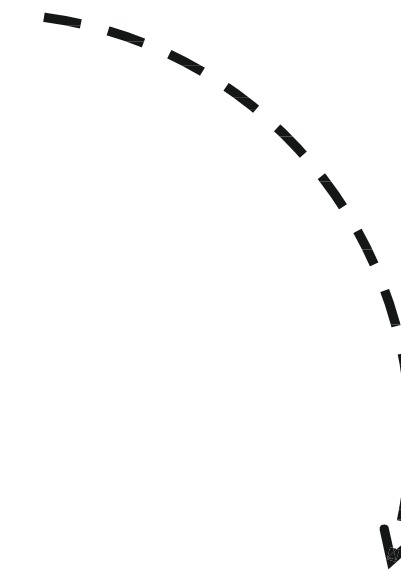

The product is presented in a wide range of colors and texture, more than 30 alternatives for clients

Allows not only to protect the back side, but also to keep the device looking like new and unique
