

AGENDA PLAN*
MAIN ARENA

DAY 1 • 11 APRIL, TUESDAY

ANALITICAL SESSION

Russian electronics market: new opportunities and areas of growth
Partner: Automotive Electronics and Telematics Consortium

Key topics:

11:00-13:00

- Structure of the Russian electronics market;
- Prospects of development up to 2025;
- Russian companies' development of market segments in the short and long term.

Participants: representatives of Associations and Consortiums in key industry sectors, government organizations, research institutes and etc.

13:00-13:15

Break

PLENARY SESSION

Current issues in the development of the electronics industry of Russia
Partner: Consortium Basis Association

Key topics:

13:15-15:15

- Analysis of the CAD market;
- Microelectronics development in Russia;
- Development of priority radio electronics.

Participants: companies in the field of microelectronics, CAD, federal research centers, etc.

15:15-15:30

Break

ROUND TABLE

Future of telecommunication technologies

Key topics:

15:30-17:30

- Overview of the telecommunications market;
- Equipment localization for telecommunications;
- Possibilities for electronics.

Participants: representatives of companies in the areas of telecommunications technology, equipment, development of ECB, platforms, services, etc.

DAY 2 • 12 APRIL, WEDNESDAY

ROUND TABLE

Current issues of industrial process control systems

Partner: Industrial Innovations Association

Key topics:

10:45-12:45

- Creation of standards for the reference architecture of APCS and its information model;
- Creation of Open IDE;
- Creating a vendor-independent software controller;
- The experience of electronics manufacturers in the APCS.

Participants: representatives of the largest industrial companies and leading developers of solutions for industrial automation.

12:45-13:00

Break

SPEECH BATTLE

Electronic component base: development or import?

13:00-14:30

14:30-14:45

Break

EXPERT SESSION

International cooperation in the electronics industry

Key topics:

14:45-16:45

- Features of cooperation with China;
- Ways and instruments of international cooperation for now;
- Vendor Safety Check.

Participants: representatives of Associations, legal consultants, companies with successful cases of cooperation, etc.

16:45-17:00

Break

17:00-18:00

AWARD CEREMONY EXPOELECTRONICA AND SCHOOL OF DIGITAL CIRCUIT SYNTHESIS

DAY 3 • 13 APRIL, THURSDAY

PITCH SESSION

Introduction of new technologies in the electronics industry

Partner: Advanced Manufacturing Technology, Nuclear and Space Technologies Cluster
Skolkovo

11:00-13:00

Key topics:

- Finding and cooperating with small development teams in electronics;
- Presenting the industry's best startups;
- Integration of projects and competencies in the business of the leaders of the Russian market.

Participants: industry experts, representatives of accelerators, agencies, industries, and promising startups.
