

## PRESS RELEASE

### MiningWorld Russia 2022: Mining industry leaders forum, trends, and opportunities

Moscow, 18 April 2022

*From 26 to 28 April, the 26<sup>th</sup> International exhibition of machines and equipment for mining, processing and transportation of minerals MiningWorld Russia 2022 will take place at Crocus Expo.*

MiningWorld Russia is a place where manufacturers and suppliers of machinery and equipment for extraction, processing and transportation of minerals, specialists from mining enterprises and trading companies meet to discuss key industry issues. Current market changes only emphasize the importance of live communication and exchange of experience.

In 2022, the area of MiningWorld Russia will cover more than 8,000 square meters. 200 companies from 19 countries like Russia, Australia, Austria, Belarus, Belgium, Canada, China, France, Germany, Israel, Italy, Kazakhstan, Kyrgyzstan, Norway, Peru, Spain, Turkey, the USA, and Uzbekistan will take part in the exhibition.

Companies like AKONIT, BMH RUS, Composit, Conn-Weld Industries, Drobmash, Element, Fambition, Gornopromyshlennaya Finansovaya Compania, Hermann Paus, IFE, Indeq, Kanex, Kanmash DSO, Kurgan Conveyor Plant, ME Elecmetal, Quarry-Service, Sever Minerals, Skuratovsky Experimental Plant, Son-Mak, Takraf, TECHCARRIER, Thrane Group, Tumi, TYAZHMASH, URAL MINERALS, UZTM – KARTEX, and others will exhibit at MiningWorld Russia 2022.

In 2022, Altaiburmash, BaltMIZ, Blast Maker, Fingo-Complex, Geomash, Metallurg, Nanchang Mineral Systems Co, PICAR, Plastmass Group, PROTECMINE, Softline, and others will become exhibitors for the first time. The exhibition reflects current processes in the industry, and therefore new businesses are interested in MiningWorld Russia 2022.

One of the most unique section of MiningWorld Russia is the exposition “Territory of heavy equipment”. This year, Russian and foreign manufacturers of drilling equipment are interested in the exhibition, and it confirms the list of companies in the section: ALMAZGEOBUR, ARMZ Mining machinery, Geomash, NLMK, QINGDAO FAMBITION HEAVY MACHINERY CO, SON-MAK MAKINE INSAAT SONDAJ SAN.TIC, ZBO Drill Industries, and others.

#### Business programme

A three-day business programme with 12 events will be held during MiningWorld Russia 2022. More than 80 speakers, including government officials and specialists from leading mining companies, will discuss new anti-crisis strategies, cyber resilience measures, new supply chains, and issues of digital transformation and robotization of production processes.

**Co-organizers of the business programme:** VIST (ZYFRA), the Russian Far East and Arctic Development Corporation, Saint-Petersburg Mining University, the National University of Science and Technology, Women in Mining, magazine “Gold and technologies”, and the Skolkovo Foundation. **Partner of the Mining industry leaders forum:** Mining Machines. **Conference partners:** Softline Digital and GlowByte.

**26.04–28.04.2022**

## Mining industry leaders forum (26-28 April)

From 26 to 28 April, at the Mining industry leaders forum government officials and heads of mining companies will discuss prospects for the industry in new reality.

**The forum will feature such speakers as:** **Anatoly Yanovsky**, Assistant to the Head of the Administration of the President of the Russian Federation; **Vladimir Dozhdev**, Director of the Department of Digital Technologies of the Ministry of Industry and Trade of the Russian Federation; **Vladimir Litvinenko**, President of Saint-Petersburg Mining University; **Jahangir Makhmudov**, Transformation Director of the Ural Mining Metallurgical Company; **Igor Semenov**, Chairman of the Board of Directors of ARMZ Mining machinery; **Irina Vlasova**, Automation and Digitalization Director of the Siberian Coal Energy Company; **Sergey Fedotov**, Digitalization Director of the Ural Mining Metallurgical Company; **Sergey Dunaev**, Information Technology Director of Severstal Management; **Artem Natrusov**, Vice President of Information Technology of Evraz Group, and others.

On 26 April, the plenary discussion “Anti-crisis strategies of mining industry leaders” will open the forum. The experts will discuss exit of foreign equipment suppliers and digital solution developers from the market, new supply chains, investment policy, and other issues. The moderator will be Pavel Rastopshin, Managing Director of ZYFRA.

The conference “Technologies and trends in underground and open mining” will be dedicated to innovations in the industry. The moderator will be Nikolay Godunov, Sales Director of VIST (ZYFRA).

On 27 April, at the “Digital transformation conference” the experts will discuss issues of stable systems, import substitution, and guarantees of resistance to cyber-attacks.

On the same day, the “Robotics” session will be dedicated to the development of Russian solutions for mining and transport equipment, broken supply chains, and prospects for Russian microelectronics.

On 28 April, for the first time the “Open microphone for Russian technology and IT companies” will take place. The moderators will be Vladislav Demidenko, Director for Strategic Partners of the Skolkovo Foundation and Ilya Izmailov, Director for Business Transformation of ZYFRA.

## Competition “Mining Industry 4.0”

On 27 April, the award ceremony of the international competition for effective digital projects of mining enterprises “Mining Industry 4.0” will be held. The professional jury will evaluate 40 applications and determine the winners in 7 categories. The ceremony will be followed by a case session where the finalists will share their experiences and ideas.

## Expert conferences and round tables (26-27 April)

The representatives of the Ministry of the Russian Federation for the Development of the Far East and the Arctic, the Ministry of Energy of the Russian Federation, the Federal Antimonopoly Service, the Corporation for the Development of the Far East and the Arctic, and others will present their reports at expert conferences and round tables.

On 26 April, at the conference “Gold and technologies – 2022” the experts will discuss prospect for the development of the gold mining industry in Russia, technologies for processing refractory gold-bearing ores, and other issues. The moderator will be Mikhail Leskov, Business Development Director of the IGT Group.

At the conference “Efficiency of exploration work” the experts will discuss methods for studying areas, prospects for the discovery of deposits of solid minerals, and other topics. The moderators will be Tamara Golovina, Director of Technology and Joint Projects of Polymetal and Oleg Kazanov, General Director of All-Russian Scientific-research Institute of Mineral Resources named after N.M.Fedorovsky.

For the first time, the round table “Problems of import substitution in the market of equipment and components for concentrating plants” will be held. The moderator will be Tatyana Yushina, Head of the Department at the National University of Science and Technology.

Debuting within the business programme will be the round table “Energy supply of new investment projects in isolated areas of the Far East and the Arctic”. The experts will discuss the state policy for the development of energy infrastructure and technological connection of consumers in the Far East and the Arctic, the situation and prospects for the use of local energy supply technologies in isolated regions, and other issues. The moderator will be Vasily Potemkin, Managing Director of the Corporation for the Development of the Far East and the Arctic.

The Mineral processing and beneficiation conference will close the day. The experts will discuss optimization of enrichment using artificial intelligence, MES-systems for managing the processing plant, and other issues. The moderator will be Artem Romashev, Associate Professor of the Mineral Processing Department of Saint-Petersburg Mining University.
