About Weldex

Weldex, now in its 24th edition, remains Russia's largest international exhibition for welding materials, equipment, and technologies. Held annually in Moscow, welcomed 150 exhibitors from Russia, China, Turkey, India, Vietnam, and Pakistan, with over two-thirds participating for the first time.

Spanning 6,500+ sq.m, the event featured 11 market sectors, including new sectors on Additive Technologies and 3D Printing.

Exhibitor Success Overview: Weldex 2024 Highlights

Client Acquisition

82%

of exhibitors found new clients, expanding their customer base.

Customer Engagement

69%

met or sold to existing customers, strengthening relationships.

Brand Positioning

54%

enhanced their company's image and reputation.

Brand Awareness

50%

increased awareness of their brands and products, boosting visibility.

Partnership Growth

31%

found distributors or expanded their dealer networks.

Product Launches

23%

introduced new products or services.

Market Testing

17%

tested new product marketing strategies and gained valuable feedback.

Market Entry

10%

explored and entered new markets.

Weldex CONNECT

Weldex Connect is a year-round business platform and mobile app tailored for professionals in the welding industry. It enables seamless networking before, during, and after the event through features like 1:1 messaging, online webinars, lead-scanning tools, and industry-specific updates. Weldex Connect empowers exhibitors, visitors, and companies to build stronger relationships, showcase innovations, and stay connected with key players in the welding sector, fostering ongoing growth and collaboration.

Exploring the Future: Highlights from the 2024 Conference Programme

The 2024 Conference Programme, held alongside Weldex, Fastenex, and ToolMash, showcased a diverse range of industry insights over three days. Key discussions included Russia's technological sovereignty in welding, the impact of AI and automation in industrial production, and an in-depth analysis of the fastener market. By bringing together expertise from three dynamic sectors, the conference reinforced the strength of Weldex, Fastenex, and ToolMash as a unified platform for innovation and collaboration.

530 attendees, a 5% increase from last year.

60+ expert speakers shared insights.

15 professional events over three days.

5 new topics, exploring untapped areas

Topics Covered

- Main Plenary Discussion: Achieving Russia's technological sovereignty in welding
- Trend Session: Artificial intelligence and automation in industry.
- New approaches to personnel challenges in welding
- Russia-China logistics and international payments.
- Fastener market analysis
- Robots in welding production – present & future plans
- Welding regulation at hazardous production facilities
- Practical Session: Laser & additive welding technologies
- Scientific Conference: Aluminum welding, cutting, and cladding in production

Best of the Best: Celebrating Excellence in Welding at Weldex 2024

The **National Championship "Welding Cup of Russia Weldex 2024"** and the **Women in Welding competition** celebrated exceptional talent in the industry.

Categories included "Best Professional Welder 2024" and "Best Apprentice Welder 2024," while the Women in Welding competition recognised achievements across roles like "Woman Leader" and "Woman Engineer."

The "Best Implemented Innovative Projects in Welding and Related Technologies 2023–2024" competition highlighted pioneering advancements such as full-cycle production at the Moskvich plant and robotic laser welding systems.

Weldex Award Winners:

- **Full-Cycle Production Launch:**
Moskvich plant, including welding and body painting
- **Advanced Aluminium Alloy Products:**
Manufacturing and certification of 1407 and 1581 aluminium alloys for tanks and containers
- **Robotic Laser Welding Complex:**
Shchmp 1-2, OP "PK "METALL-PLAST" IEK GROUP
- **Innovative Copper Processing:**
Selective laser fusion of pure copper powders
