

HRBOX

WILL PUT YOUR HR PROCESSES RIGHT

HRBOX is a cloud and an on-prem solution for automating HR processes.

The platform improves communications, engages the teams in corporate goals.

It makes it possible to quickly adapt and train people, collect feedback and ideas, and gamify internal processes. Deep analytics will help to track the outcomes of progress in numbers.

HRBOX platform makes people happier and business more efficient.

HRBOX main features

Corporate portal

New-hire onboarding

Learning management system

360 degree

Feedback

Goals management

Gamification and engagement

Requests and processes

HR analytics

Analytical reports for
each block

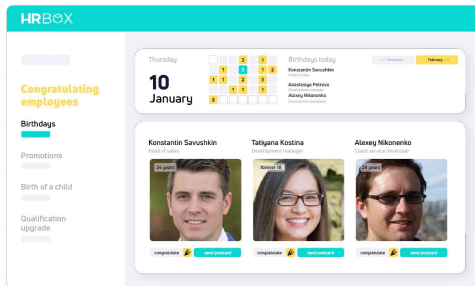

Corporate portal

Helps to reduce search time of any information by up to 80%

HRBOX

Unified information field

A broad range of functions of HRBOX corporate portal allows to create a unified information field for all employees, share news, keep up with the events, maintain a knowledge base. The portal creates a single window for the search of any information or business processes, timely structure, or info about colleagues and divisions.

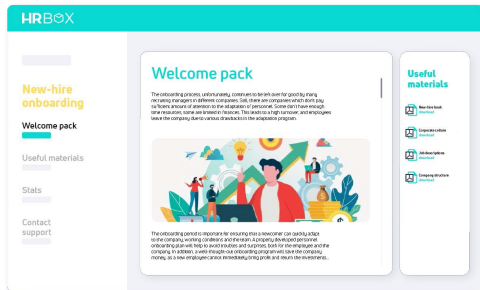

Onboarding

Helps to reduce onboarding time by 32% and get new hires on track faster

HRBOX

Help new-hires to become a part of the team

A great mix of corporate portal and learning management system makes it possible to quickly immerse newcomers in your information environment, create and launch automatic adaptation tracks for different target audiences. You only need to follow up the onboarding process in the detailed reports and celebrate the newcomers progress.

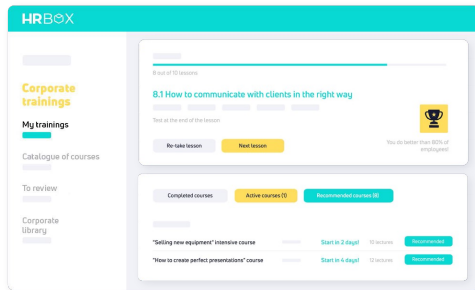

Learning Management System

Allows to increase proficiency, uniform standards and assess the level of knowledge gained by the team

HRBOX

Corporate training with maximum benefits

Our e-learning system allows to download, store and organize all the training materials in a catalogue. Using this tool you can easily set up target training tracks and make various reports. The toolkit of tests, longreads, courses and programs helps to create content without additional tools. Our calendar allows you to plan offline trainings. Our built-in services will help you conduct webinars, store and administer the corporate library.

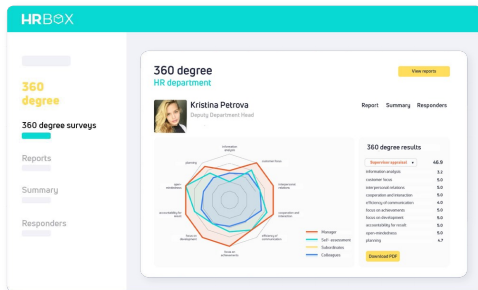

360 degree, eNPS and ICSI

Help to collect feedback on team competencies and plan their development

HRBOX

Easy access to all information about your team

Opportunity to pull out the matrix data from your corporate system, flexible settings of competences with indicators, various templates to create polls for different audiences together with notification settings and detailed reports will free your time from routine feedback collection and will give you a bigger picture of competencies map of your teams.

Feedback

Gives a chance to increase employees engagement up to 30% thanks to high-quality feedback from the team

HRBOX

Keep up with your team's mood

HRBOX accumulated the most relevant feedback tools. You can create any type of surveys with our platform toolkit. Well-thought-out features for collecting ideas will save every single idea or suggestion that come from your employees. Real-time feedback to any colleague or department will help you quickly see the difficulties in communication. And the platform toolkit for Internal Customer Satisfaction Index (ICSI) will allow you to put in numbers the effectiveness of your processes and bring them to the next level of service.

The screenshot shows the HRBOX 'New survey' creation interface. On the left is a sidebar with a 'Feedback' header and a list of options: 'Surveys' (highlighted), 'Tests', 'Options', and 'Create new survey'. The main content area is titled 'New survey - enter a name' with a date of '25.05.2021' and a 'ONGOING' status. It includes a 'Publish' button and a 'Cancel' button. Below this are sections for 'Groups of users' (with a 'Select new group' dropdown), 'Settings' (with 'Type of questions' set to 'Anonymous'), and 'Test of the greeting' and 'Test after survey' (both containing a placeholder text about increasing engagement by 30%). There are also 'Show results', 'Allow reply', and 'Send notifications' toggle switches. At the bottom, there is an 'Add question' section with a 'Select question type' dropdown and a 'Save' button.

Goals management

Helps to increase team efficiency up to 40% thanks to transparent goal setting and tracking system

HRBOX

Track team results

Simple and clear features help to track real time team performance. You will be able to set goals for different time slots, prioritize its completion by weighting each goal. Collect results and get any kind of reports designed for your needs: whole team report, unit or individual report. The same features will help you set development goals or probation period goals and store the entire history of the performance of your employees.

The screenshot displays the HRBOX Goals management interface. On the left is a sidebar with navigation links: **Goals management**, **My goals**, **I am in charge**, **Goals archive**, **Goals tree**, and **Reports**. The main content area is titled "Add a goal+" and "Goals archive". It shows two goal entries: "Sales targets for May" (COMPLETED) and "Sales targets for June" (ONGOING). The "Sales targets for June" goal is expanded, showing a description, settings, and a history table.

Description		Goal influenced by	History										
I need to increase search engine traffic by 5% in two months by developing an appealing landing page and advertising an effort to get 10 high-quality back links for that content.		Not influencing goals	<table border="1"><thead><tr><th>Date</th><th>Action</th></tr></thead><tbody><tr><td>25.05.2021</td><td>The goal is created</td></tr><tr><td>26.06.2021</td><td>Action owner was added Maria Nikiforova Coordinator added Alexey Mironov</td></tr><tr><td>25.05.2021</td><td>Sent for approval</td></tr><tr><td>25.05.2021</td><td>The goal is approved</td></tr></tbody></table>	Date	Action	25.05.2021	The goal is created	26.06.2021	Action owner was added Maria Nikiforova Coordinator added Alexey Mironov	25.05.2021	Sent for approval	25.05.2021	The goal is approved
Date	Action												
25.05.2021	The goal is created												
26.06.2021	Action owner was added Maria Nikiforova Coordinator added Alexey Mironov												
25.05.2021	Sent for approval												
25.05.2021	The goal is approved												

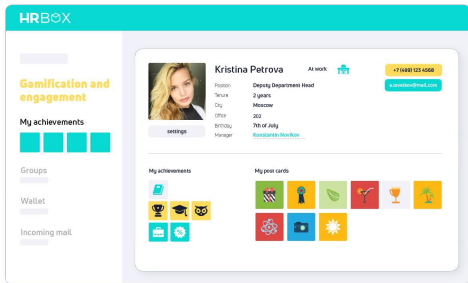

Gamification and engagement

Increases employees' satisfaction and involvement in solving important tasks up to 42%

HRBOX

Develop your team engagement

You don't need to search for any additional tools neither for employees engagement nor for gamification of your processes. We have come up with customized features for creating and assigning achievements, built-in corporate currency and a store. Two clicks and you launch a photo contest with voting. Use our service of customizable postcards, our small joys that brighten up work days and make people around happy. This service allows your employees to congratulate each other with success or birthday, share support or just thank colleagues for their help.

Requests and processes

Reduces the number of requests under routine processes by 70%

HRBOX

Free up your time for important things

With HRBOX you can transfer all basic processes and approvals into an automated format. We have developed a functional toolkit for creating different routes and stages for various processes. You will be able to create your own request form, select responsible parties, set deadlines for each stage, collect feedback from internal customers of the application. If needed, you can quickly readjust the process and make it even more efficient.

The screenshot shows the HRBOX application interface. On the left is a sidebar with a teal header containing the HRBOX logo. Below the logo, there are four menu items: 'Requests and processes' (highlighted in yellow), 'Catalog of services', 'All requests' (highlighted in teal), and 'Search employee'. At the bottom of the sidebar is 'Vacations calculator'. The main content area has a teal header with the HRBOX logo. Below it, the text 'All requests' is in teal, and 'Leave request' is in bold black. The form contains several fields: 'Name of employee' with the value 'Anastasiya Sinityna', 'Manager' with the value 'Natalya Vasnetsova', 'Vacation start date' with a calendar icon and the value '21.07.2021', and 'For how many days' with a dropdown arrow and the value '28 days'. At the bottom of the form are two buttons: 'create a request' (black with white text) and 'follow updates' (light gray with black text). On the right side of the form, there are decorative geometric shapes: a large yellow arrow pointing right, a teal circle, and a black circle.
