

Chrome Shapes

QUICK GUIDE

HOW TO USE

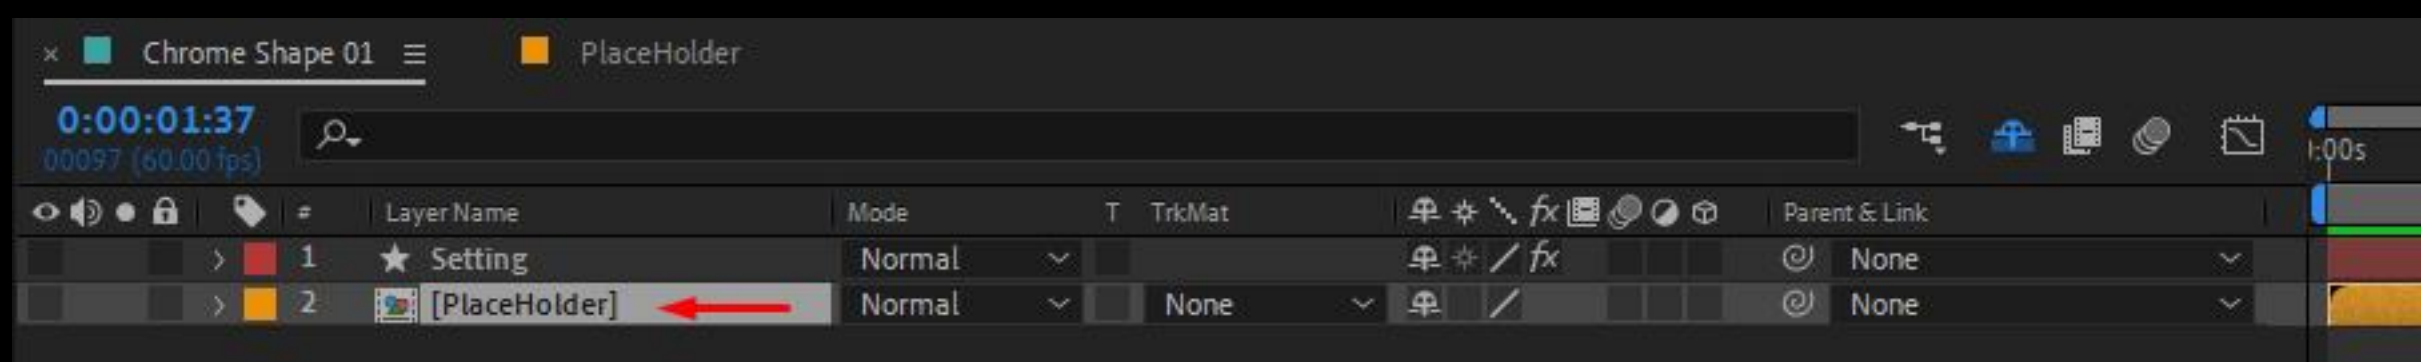

1- Unzip the downloaded zipped file.

2- Open After effects.

3- Import the selected Ae File to the **Project Panel**.

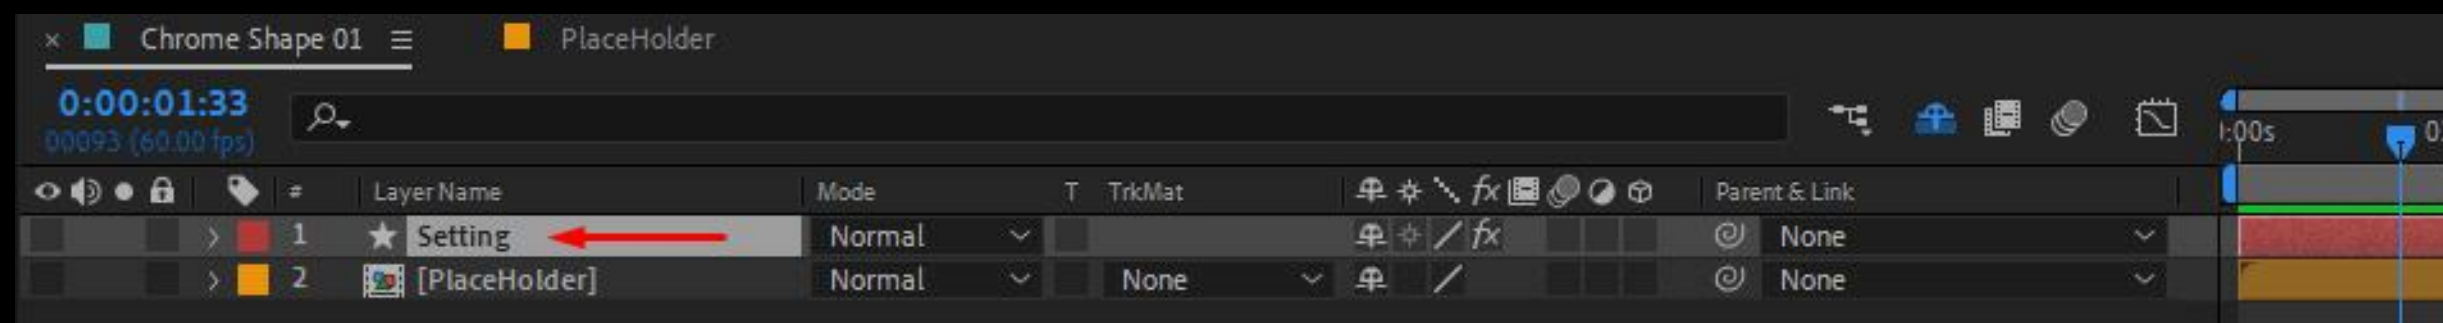

4- Replace your logo or icon in the (Placeholder) comp.

- Import your icon into the Project panel, then open the (PlaceHolder) comp and drag it to the timeline.
- **Go back to the main comp to see the result.**

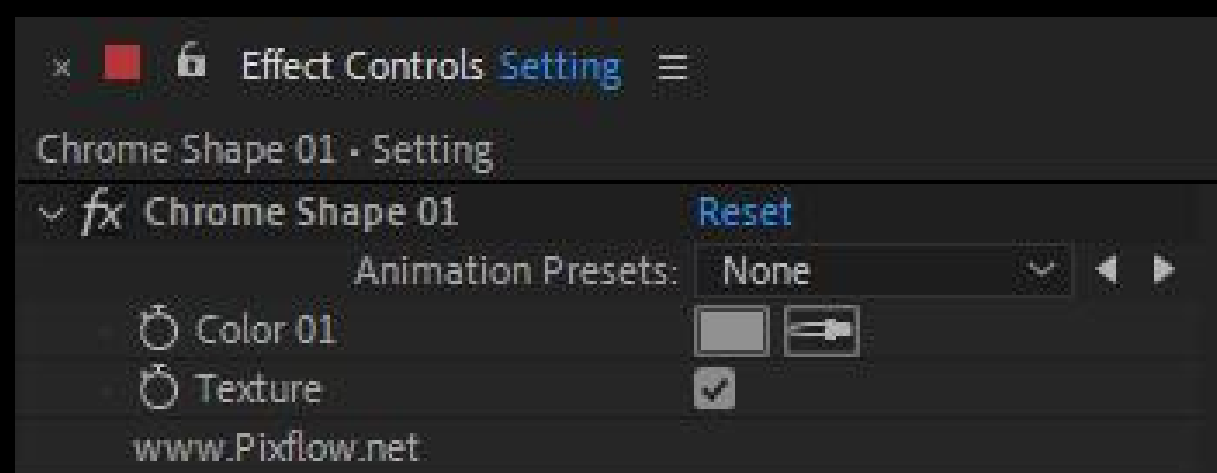

● Change Project Settings

- In the Timeline, look for the layer named: **Setting**

- Select the layer.
- Open **Effect Controls**: Press (**F3** on keyboard).

- Click the color box and pick your desired color.
- The new color will automatically update throughout the project.
- You can enable or disable the texture options from the Effect Controls panel.
