

PXCOVER24N

Professional 24U steel frame/plexiglass construction front cover

Description

Professional 24U steel frame/plexiglass construction front cover, modern and high-tech design. The front cover provides a useful protection against dust and undesirable access to equipment. The new hinge system makes this item suitable for "STUDIORK and "STUDIORKXL series stands, and allows the assembling and disassembling of the plexiglas cover by simply action on the inner metal frame spring loaded pins. It includes a security lock with key.
