

## Catalogue Overview 20

**DC/DC converters / LED drivers  
AC/DC converters / LED drivers**

The Aimtec brand is associated with quality, value and service. Headquartered in Canada with offices in Europe and Asia, Aimtec is actively involved in the research and development of modular switching power supplies. Aimtec's designs assist customers worldwide in reducing engineering design time and expense, while facilitating miniaturization and performance enhancement of their applications.

# Aimtec offers a wide range of package types

## SMD

## DIP

## SIP

# DC/DC Converters (isolated)

## One of the industry's largest and most complete product offering of 1 to 3 watt converters just got larger

**Over 7000 models overall** (4000<sup>+</sup> between 1 ~ 3 watt)

**Output power:** 1/4 W ~ 60W (SMD from 1/4W to 3W)

**Input range:** 3 up to 1500VDC ( $\pm 10\%$ , 2:1, 4:1, up to 10:1)

**Input / Output isolation:** 1000 ~ 6000VDC, up to 4000VAC

**Industrial operating temperature range:** -40 °C cold start up to 125 °C

**Industry standard pin configurations**

**Wide assorted package types:** SIP, DIP, SMD, 1x1", 2x1", 2x1.6", 2x2"

# Switching Regulators (non-isolated)

## SWITCHING REGULATORS ARE REPLACING LINEAR REGULATORS

**High Efficiency:** up to 96% versus 50% for linear regulators

**NO heat sink required:** Saves PCB real-estate

**NO forced air cooling required:** Eliminates need for heat sink

### Application Markets:

**Fastest growing:** green energy initiatives (Energy Star)

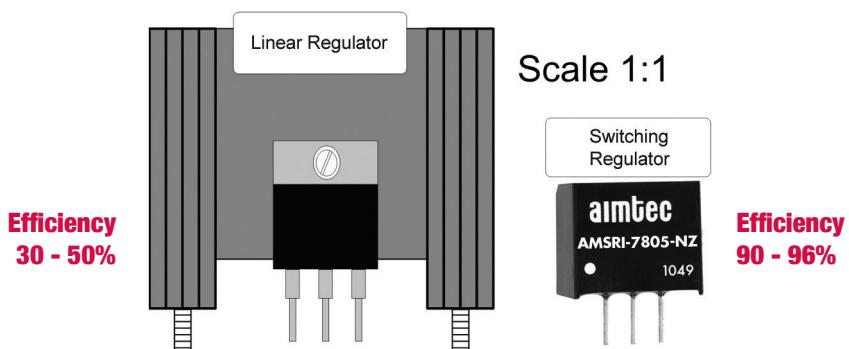

**All electronics** that have been in production for the last 20 years

**Market segments:** transportation, industrial, commercial, consumer products, etc.

### 0.75 to 13 Watt Non-Isolated Switching Regulator

NEW

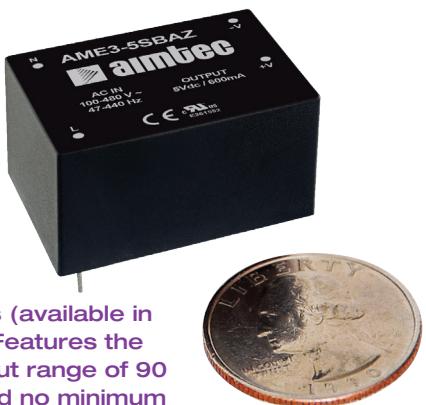

# AC/DC Converters (isolated)

## Three new series with wide input voltage capability

### AMEx-AZ Series (1, 2, & 3 Watt) boasts 528 VAC input ideal for building automation systems

**AME Series** (available in 1, 2 & 3w) - Features the broadest input range of 90 - 528VAC and no minimum load required.

**Wide operating temperatures:** -40 °C to 80 °C

---

**High power density:** 5 Watt, 10 Watt and 20 Watt with the same small footprint

---

**Low EMI:** suitable for very sensitive telecom applications

---

**High I/O Isolation:** up to 4000 VAC

---

# LED Drivers

## Another ground-breaking innovation from Aimtec: AC/DC LED drivers that operate at a bone-chilling -55 °C

Indoor or outdoor applications, all weather conditions

Drive a single LED or multiple strings of LEDs

Constant current and constant voltage

Step up and step down converters

Three dimming options

Power factor correction (PFC)

Available with IP67/IP68 submersible rating

### DC/DC LED Drivers Constant Current (non-isolated)

## What makes Aimtec different...

We design and manufacture unique products with distinctive features such as our AC/DC converters with an ultra-wide input range of **90-528VAC** to our DC/DC **Photovoltaic Series** featuring 100-1000, 200-1200 and 200-1500VDC input ranges.

Our product line ranges from 1/4Watt to 150Watt, over **26 package types**, and includes one of the industry's largest selections within the **1 to 3 Watt** range.

Our AC/DC, DC/DC **LED Drivers** operate in constant current or constant voltage mode at a bone chilling **-55 °C**.

Many of our products carry CE and UL certifications and feature an extended operating temperature range of up to 105 to 125 °C, with some reaching cold start temperature as low as -55 °C.

We provide outstanding technical and client **support** worldwide – in several languages – always within 24 hrs.

Aimtec's strong corporate culture is based on a unique mixture of technical vision, innovation and a strong commitment to **surpassing** our clients' expectations.

## Value

Delivering products that provide exceptional performance and reliability at very affordable prices is how Aimtec defines its value proposition. Aimtec's power supplies are designed and manufactured to perform, period. The company **guarantees** the performance and reliability of its AC/DC and DC/DC converters with a two year manufacturer's warranty and a number of its LED drivers with a five year manufacturer's warranty.

## Selection

With one of the widest selections of low-to-mid range power converters from 0.25 Watts to 150 Watts, Aimtec offers one of the **industry's largest** product offerings within the 1 watt to 3 watt range.

## Lead Time

With standard lead times for product orders of 6 to 8 weeks, complimented by a global network of **stocking distributors** who fulfill sample quantities for most models, Aimtec offers one of the shortest lead times in the industry.

## Design

The depth and expertise of Aimtec's electronic design capabilities allow it to deliver highly integrated power supplies that provide energy efficient, cost-effective solutions for a multitude of applications. Aimtec's power converters are renowned for being reliable, robust products that are best in their class for their technical parameters and their **quality/cost ratio** and for exceeding industry norms in terms of features, performance, safety standards and power density.

## Support

Aimtec works with a distribution network in over 102 regions **worldwide** to better support and services its clients' individual needs.
