

FROM THE FOUNDER OF THE #VIKISEWS BRAND

Back in 2016, when I was working on my first set of sewing instructions, I was trying to write them in such a way that even a complete beginner could easily understand and use them to create their very first garment. These instructions laid the foundation for the Vikisews brand, its vision and its mission. I wanted to create modern patterns with the utmost detailed and clear instructions.

Now, with each new collection we are constantly improving our instructions, amending them and adding more relevant details. By the time the final product reaches you, our drafters, correctors, and editors would have spent weeks perfecting every word and every photograph. If you compile a few of our instructions together, you will get a sewing manual that will assist you in sewing all kinds of garments at any difficulty level.

And I would be very happy if these instructions helped you to turn your hobby into a lifelong passion... Enjoy the process! Create your ultimate dream wardrobe! Wear your garments proudly for years to come!

If you have any questions, please contact us at info@vikisews.com — we are always there to help.

SUGGESTED FABRIC

To sew the skirt, choose suiting fabrics with the following properties:

- medium weight, malleable, soft, non-stretch or with very little stretch
- the fiber content can include natural fibers (wool, cotton), artificial fibers (viscose), blends (wool + silk, wool + polyester, cotton + viscose, etc.), and synthetics (polyester, polyester + elastane)
- the following fabrics are recommended: wool suiting, gabardine, corduroy, suede, faux leather

Attention! We do not recommend stretchy knits, thin fabrics (dress-weight wool) and heavyweight suiting (woven felt).

For the lining, we recommend artificial fibers (viscose), blends (viscose + elastane, viscose + polyester) or synthetics (polyester, polyester + elastane).

The garment in the photo is made of suiting. This fabric is medium weight, malleable, soft and with very little stretch. The fiber content is a blend of polyester, viscose and elastane.

The lining is 100% viscose.

Pin the right front dart on the wrong side.
